Approximate date of commencement of proposed sale to the public: As soon as practicable after the effective date of this registration statement.

If any of the securities being registered on this Form are to be offered on a delayed or continuous basis pursuant to Rule 415 under the Securities Act of 1933 check the following box.

If this Form is filed to register additional securities for an offering pursuant to Rule 462(b) under the Securities Act, please check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering.

If this Form is a post-effective amendment filed pursuant to Rule 462(c) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering.

If this Form is a post-effective amendment filed pursuant to Rule 462(d) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided to Section 7(a)(2)(B) of the Securities Act.

CALCULATION OF REGISTRATION FEE

Title of Each Class of Security Being Registered	Amount Being Registered	Proposed Maximum Offering Price per Security⁽¹⁾	Proposed Maximum Aggregate Offering Price⁽¹⁾	Amount of Registration Fee
Units, each consisting of one share of Class A common stock, \$0.0001 par value per share, and one-third of one redeemable warrant ⁽²⁾	34,500,000	\$ 10.00	\$ 345,000,000	\$ 37,639.50
Class A common stock included as part of the units ⁽³⁾	34,500,000	—	—	— ⁽⁴⁾
Redeemable warrants included as part of the units ⁽³⁾	11,500,000	—	—	— ⁽⁴⁾
Total			<u>\$ 345,000,000</u>	<u>\$ 37,639.50</u>

(1) Estimated solely for the purpose of calculating the registration fee.

(2) Includes 4,500,000 units, consisting of 4,500,000 shares of Class A common stock and 1,500,000 redeemable warrants, which may be issued upon exercise of a 45-day option granted to the underwriters to cover over-allotments, if any.

(3) Pursuant to Rule 416, there are also being registered an indeterminable number of additional securities as may be issued to prevent dilution resulting from stock splits, stock dividends or similar transactions.

(4) No fee pursuant to Rule 457(g).

The Registrant hereby amends this Registration Statement on such date or dates as may be necessary to delay its effective date until the Registrant shall file a further amendment which specifically states that this Registration Statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act of 1933, as amended, or until the Registration Statement shall become effective on such date as the Securities and Exchange Commission, acting pursuant to said Section 8(a), may determine.

The information in this prospectus is not complete and may be changed. We may not sell these securities until the registration statement filed with the Securities and Exchange Commission is effective. This prospectus is not an offer to sell these securities and it is not soliciting an offer to buy these securities in any jurisdiction where the offer or sale is not permitted.

SUBJECT TO COMPLETION, DATED _____, 2020

PROSPECTUS

\$300,000,000

Capitol Investment Corp. V

30,000,000 Units

Capitol Investment Corp. V is a Delaware blank check company formed for the purpose of effecting a merger, stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses or entities, which we refer to as our initial business combination. We have not selected any business combination target, and we have not, nor has anyone on our behalf, initiated any substantive discussions, directly or indirectly, with any business combination target.

This is an initial public offering of our securities. Each unit has an offering price of \$10.00 and consists of one share of Class A common stock and one-third of one redeemable warrant. Each whole warrant entitles the holder thereof to purchase one share of Class A common stock at a price of \$11.50 per share, subject to adjustment as described herein. Only whole warrants are exercisable. No fractional warrants will be issued upon separation of the units and only whole warrants will trade. Subject to the terms and conditions described in this prospectus, we may redeem the warrants once the warrants become exercisable. The underwriters have a 45-day option from the date of this prospectus to purchase up to 4,500,000 additional units to cover over-allotments, if any.

(Prospectus cover continued on the following page.)

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

	Per Unit	Total
Public offering price	\$ 10.00	\$ 300,000,000
Underwriting discounts and commissions ⁽¹⁾	\$ 0.55	\$ 16,500,000
Proceeds, before expenses, to us	\$ 9.45	\$ 283,500,000

(1) Includes \$0.35 per unit of deferred underwriting commissions to be placed in a trust account in the United States as described in this prospectus in more detail. See the section titled "Underwriting" for a description of compensation and other items of value payable to the underwriters.

Of the proceeds we receive from this offering and the sale of the private placement warrants described in this prospectus, \$300.0 million, or \$345.0 million if the underwriters' over-allotment option is exercised in full (\$10.00 per unit in either case), will be deposited into a trust account in the United States with Continental Stock Transfer & Trust Company acting as trustee.

The underwriters are offering the units for sale on a firm commitment basis. The underwriters expect to deliver the units to the purchasers on or about _____, 2020.

Citigroup Deutsche Bank Securities Morgan Stanley

_____, 2020

[Table of Contents](#)

(Prospectus cover continued from preceding page.)

We will provide our public stockholders with the opportunity to redeem all or a portion of their shares of Class A common stock upon the completion of our initial business combination, subject to the limitations described herein. If we have not completed our initial business combination within 24 months from the closing of this offering, we will redeem 100% of the shares of Class A common stock that were sold as part of the units in this offering, which we refer to collectively as our public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account described below, including interest earned on the trust account not previously released to us to pay taxes (net of taxes payable and less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then-outstanding public shares, subject to applicable law and certain conditions as further described herein.

Our sponsors, Capitol Acquisition Management V, LLC, which is controlled by Mark D. Ein, our chief executive officer and chairman of our board of directors, and Capitol Acquisition Founder V, LLC, which is controlled by L. Dyson Dryden, our president and chief financial officer and a member of our board of directors, and our independent directors have agreed to purchase an aggregate of 5,233,333 warrants (or 5,833,333 if the underwriters' over-allotment option is exercised in full), each exercisable to purchase one share of Class A common stock at \$11.50 per share, at a price of \$1.50 per warrant (\$7,850,000 in the aggregate or \$8,750,000 if the underwriters' over-allotment option is exercised in full), in a private placement that will close simultaneously with the closing of this offering.

Our initial stockholders own 8,625,000 shares of Class B common stock (up to 1,125,000 of which are subject to forfeiture by our sponsors depending on the extent to which the underwriters' over-allotment option is exercised). The shares of Class B common stock will automatically convert into shares of Class A common stock at the time of our initial business combination on a one-for-one basis, subject to adjustment as provided herein. Only holders of Class B common stock will have the right to vote on the election of directors and to remove directors prior to our initial business combination, and such rights may only be amended by a resolution passed by the holders of a majority of our Class B common stock. On all other matters submitted to a vote of our stockholders, holders of the Class B common stock and holders of the Class A common stock will vote together as a single class, with each share of common stock entitling the holder to one vote, except as required by law or the applicable rules of the New York Stock Exchange, or the NYSE, then in effect.

Currently, there is no public market for our units, Class A common stock or warrants. We have applied to have our units listed on the NYSE under the symbol "CAP.U" on or promptly after the date of this prospectus. The Class A common stock and warrants constituting the units will begin separate trading on the 52nd day following the date of this prospectus (or, if such date is not a business day, the following business day) unless Citigroup Global Markets Inc. informs us of its decision to allow earlier separate trading, subject to our satisfaction of certain conditions. Once the securities constituting the units begin separate trading, we expect the Class A common stock and warrants comprising the units will be listed on the NYSE under the symbols "CAP" and "CAP WS," respectively. We cannot guarantee that our securities will be approved for listing.

We are an "emerging growth company" and "smaller reporting company" under applicable federal securities laws and will be subject to reduced public company reporting requirements. Investing in our securities involves a high degree of risk. See "*Risk Factors*" beginning on page 28 for a discussion of information that should be considered in connection with an investment in our securities. Investors will not be entitled to protections normally afforded to investors in Rule 419 blank check offerings.

SUMMARY

This summary only highlights the more detailed information appearing elsewhere in this prospectus. As this is a summary, it does not contain all of the information that you should consider in making an investment decision. You should read this entire prospectus carefully, including the information under “Risk Factors” and our financial statements and the related notes included elsewhere in this prospectus, before investing.

Unless otherwise stated in this prospectus or the context otherwise requires, references to:

- *“common stock” are to our Class A common stock and our Class B common stock;*
- *“founders” are to Mark D. Ein and L. Dyson Dryden;*
- *“founder shares” are to shares of our Class B common stock initially issued to our sponsors in private placements prior to this offering and the shares of our Class A common stock that will be issued upon the automatic conversion of the Class B common stock at the time of our initial business combination (for the avoidance of doubt, such Class A common stock will not be “public shares”);*
- *“initial stockholders” are to holders of our founder shares prior to this offering;*
- *“management” or our “management team” are to our executive officers and directors;*
- *“private placement warrants” are to the warrants to be issued to our sponsors and independent directors in a private placement simultaneously with the closing of this offering and upon conversion of working capital loans, if any;*
- *“public shares” are to shares of our Class A common stock sold as part of the units in this offering (whether they are purchased in this offering or thereafter in the open market);*
- *“public stockholders” are to the holders of our public shares, including our initial stockholders and management team to the extent our initial stockholders and/or members of our management team purchase public shares, provided that each initial stockholder’s and member of our management team’s status as a “public stockholder” will only exist with respect to such public shares;*
- *“sponsors” are to Capitol Acquisition Management V, LLC, which is controlled by Mark D. Ein, our Chief Executive Officer and chairman of our board of directors, and Capitol Acquisition Founder V, LLC, which is controlled by L. Dyson Dryden, our President and Chief Financial Officer and a member of our board of directors;*
- *“warrants” are to our warrants sold as part of the units in this offering (whether they are purchased in this offering or thereafter in the open market) and the private placement warrants; and*
- *“we,” “us,” “company,” “our company” or “Capitol V” are to Capitol Investment Corp. V, a Delaware corporation.*

Unless we tell you otherwise, the information in this prospectus assumes that the underwriters will not exercise their over-allotment option.

General

Mark Ein and Dyson Dryden have established Capitol Investment Corp. V, their fifth blank check company, to invest in and help build an industry-leading public company that will aim to deliver long term value to stockholders. We are one of only two U.S. sponsor teams of SPACs over \$100 million in size to close four SPAC transactions. We believe that our extensive investing and company building experience, long track record with public acquisition companies, broad network of relationships, strategic expertise and deep engagement as proactive directors and advisors, combined with the capital raised in this offering, can be a meaningful catalyst for growth and value creation for the business that we partner with over the long term.

Mr. Ein is an investor, entrepreneur and philanthropist, who has created, acquired, invested in and built a series of growth companies across a diverse set of industries over the course of his 30-year career. During this time, in addition to leading four successful public acquisition companies, Mr. Ein has been involved in the founding or early stages of six

companies that have been worth over one billion dollars and has led over \$1.8 billion of private equity, venture capital and public company investments. Mr. Dryden has worked with Mr. Ein for over a decade, initially as his advisor, and since 2013 as his partner principally focused on their public acquisition platform and its related investments. He brings over 20 years of investing, capital markets, capital raising and strategic advisory experience to Capitol V.

Mr. Ein and Mr. Dryden have a long track record of successfully sourcing, evaluating, structuring, negotiating and executing four previous public acquisition company transactions. They are supported by a strong, dedicated investment team with a history of working together that we believe will provide us with valuable analytical, financial, transactional, communications and other expertise that we will leverage to identify and execute a business combination and drive future value for the combined business.

Our team's combined experience, expansive networks and long-standing relationships will provide valuable access to the highest-quality growth companies. Our management team is also well positioned to identify and execute a business combination as a preferred partner to a wide range of business owners. Our previous investments include companies owned by founders, families, private equity funds, hedge funds and venture funds.

Capitol Investment Corp. V is a Delaware blank check company formed for the purpose of effecting a merger, stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses or entities. We have not selected any potential business combination target, and we have not, nor has anyone on our behalf, initiated any substantive discussions, directly or indirectly, with any potential business combination target. We are not limited to any particular industry or geographic location in selecting a target business with which to engage in a business combination.

Track Record with Similarly Structured Acquisition Vehicles

Mr. Ein and Mr. Dryden have a long track record of successfully raising capital and executing transactions through public acquisition companies structured similarly to Capitol V, having completed four such transactions over a 13-year period, across different industries and at different stages of the economic cycle. We are one of only two U.S. sponsor teams of SPACs over \$100 million in size to close four SPAC transactions.

Capitol I/Two Harbors

Creation of a Real Estate Investment Trust to capitalize on the severe dislocation in the residential mortgage-backed securities market following the global financial crisis in 2009.

Capitol Acquisition Corp., or Capitol I, was a \$262 million special purpose acquisition company that completed its initial public offering in June 2007. Mr. Ein was the founder, Chairman and Chief Executive Officer of Capitol I. Capitol I completed its business combination with Two Harbors Investment Corp., or Two Harbors, in October 2009. Two Harbors was a newly formed Maryland real estate investment trust, or REIT, established to focus on residential mortgage backed securities in partnership with Pine River Capital Management L.P. Two Harbors' common stock is traded on the NYSE under the symbol "TWO." Mr. Ein served as Vice-Chairman of the board of directors of Two Harbors from October 2009 to May 2015. During Mr. Ein's tenure as Vice-Chairman, Two Harbors became one of the world's largest REITs and also founded, and then completed the spin-off of, Silver Bay Realty Trust, which was the first ever publicly traded single family housing REIT. Mr. Dryden served as Capitol I's investment banker throughout the search process and assisted with the execution of the Two Harbors transaction.

Capitol II/Lindblad Expeditions

Growth equity invested in founder-owned and led business to extend leadership position in global expedition cruising in partnership with National Geographic in 2015.

Capitol Acquisition Corp. II, or Capitol II, was a \$200 million special purpose acquisition company that completed its initial public offering in May 2013. Mr. Ein was the Chairman of the Board and Chief Executive Officer and Mr. Dryden was Chief Financial Officer and Director of Capitol II. Capitol II completed its \$439 million business combination with Lindblad Expeditions, Inc., or Lindblad, in July 2015. Lindblad is a global leader in expedition cruising and extraordinary travel experiences offering captivating trips featuring highly curated content to 40+ remarkable destinations on all seven continents in partnership with National Geographic. Lindblad's merger with Capitol II enabled it to pursue attractive future growth opportunities including new ship builds, expanded

charters and acquisitions. Lindblad's common stock is traded on the NASDAQ under the symbol "LIND." Since the closing of the business combination with Lindblad, Mr. Ein has continued to serve as the Chairman of the Board and Mr. Dryden has continued to serve as a Director of Lindblad.

Capitol III/Cision

Deleveraging and growth capital investment in leading global provider of private-equity owned public relations software, media distribution, media intelligence and related professional services enhanced the company's balance sheet to enable organic growth investments and facilitate acquisitions.

Capitol Acquisition Corp. III, or Capitol III, was a \$325 million special purpose acquisition company that completed its initial public offering in October 2015. Mr. Ein was the Chairman of the Board and Chief Executive Officer and Mr. Dryden was President, Chief Financial Officer and Director of Capitol III. Capitol III completed its \$2.4 billion business combination with Canyon Holdings S.a r.l., or Cision, a portfolio company of private equity firm GTCR, in June 2017. At that time, merger of Capitol III and Cision was the largest transaction by a U.S. public acquisition company completed since 2010. Cision is a leading global provider of public relations software, media distribution, media intelligence and related professional services. Public relations and communications professionals use Cision's products and services to help manage, execute and measure their strategic public relations and communications programs. Cision solutions also include market-leading media technologies such as PR Newswire. Cision serves over 75,000 customers in more than 170 countries and 40 languages worldwide, and maintains offices in North America, Europe, Australia, Asia and Latin America. In January 2020, Platinum Equity took Cision private in a transaction valued at \$2.7 billion. Mr. Ein served as Vice Chairman of the Board and Mr. Dryden served as a Director of the combined company from June 2017 until January 2020, when the sale to Platinum Equity closed.

Capitol IV/Nesco

Investment in one of the largest specialty equipment rental providers to the growing critical infrastructure industries of electric utility transmission and distribution, telecom and rail in North America deleveraged the business to enable growth investments and facilitate acquisitions.

Capitol Investment Corp. IV, or Capitol IV, was a \$402.5 million special purpose acquisition company that completed its initial public offering in August 2017. Mr. Ein was the Chairman of the Board and Chief Executive Officer of Capitol IV and Mr. Dryden was the President, Chief Financial Officer and a Director of Capitol IV. Capitol IV completed its \$1.1 billion business combination with Nesco Holdings, Inc., or Nesco, a portfolio company of private equity firm Energy Capital Partners, in July 2019. Nesco is one of the largest specialty equipment rental providers to the growing electric utility transmission and distribution, telecom and rail industries in North America. Nesco offers its specialized equipment to a diverse customer base for the maintenance, repair, upgrade and installation of critical infrastructure assets, including electric lines, telecommunications networks and rail systems. The combined company's common stock and warrants are traded on the NYSE under the symbols "NSCO" and "NSCO WS." Mr. Ein and Mr. Dryden have both continued to serve on the Board of Directors of the combined company, with Mr. Dryden currently serving as Co-Chairman and Mr. Ein as Vice Chairman.

Our Team

Mr. Ein has over 30 years of private equity, venture capital and public acquisition company investing experience. Starting in 2007, Mr. Ein has led the successful execution (including initial public offerings and business combinations) of four consecutive public acquisition vehicles: Capitol I, II, III and IV. Mr. Ein is the founder and Chief Executive Officer of Venturehouse Group, LLC, a holding company that creates, invests in, grows and builds technology, communications and related business services companies. Venturehouse was founded in 1999 to work closely with a small number of portfolio companies at any one time and to provide operational, strategic and financing support throughout their lifecycle. Since January 2007, Mr. Ein has been the Co-Chairman and majority owner of Kastle Systems, a firm specializing in building and office security systems, which he acquired through his personal investment holding company, Leland Investments Inc. Prior to forming Venturehouse, from 1992 to 1999, Mr. Ein was a Principal with The Carlyle Group, a leading global private equity firm. Mr. Ein led many of Carlyle's technology and telecommunications private equity investment activities. Earlier in his career, from 1989 to 1990, Mr. Ein worked for Brentwood Associates, a leading West Coast growth-focused private equity firm, and from 1986 to 1989 for Goldman, Sachs & Co.

Mr. Dryden has over 20 years of experience in M&A, capital formation and public acquisition company investing. Mr. Dryden has partnered with Mr. Ein on the successful execution of three consecutive public acquisition vehicles, Capitol II, III and IV, and served as an advisor on Capitol I. Mr. Dryden continues to serve on the Board of Directors of Nesco and Lindblad, which completed deals with Capitol IV and Capitol II, respectively, and currently serves as Co-Chairman of Nesco. Mr. Dryden served as a Director of Cision from the time of its business combination with Capitol III until the sale of the company in January 2020. Mr. Dryden has also been an investor in and the Vice Chairman of CDS Logistics Management, Inc., one of the largest providers of home improvement product delivery services in the United States, since 2009. Prior to Capitol, Mr. Dryden worked in Citigroup's Investment Banking division in New York, most recently as a Managing Director in the firm's Global Technology, Media and Telecommunications group. Mr. Dryden is currently a member of the Board of Directors of Washington E-Sports Ventures, LLC, founded to purchase an Overwatch League team and build other esports teams that will represent the National Capital Region. Mr. Dryden holds a B.S. in Business Administration with a dual concentration in finance and management from the University of Richmond.

The Capitol team also includes veterans of our prior public acquisition companies. Our Executive Vice President was a member of the Capitol II, Capitol III and Capitol IV teams and was an investment banker to Capitol I. Our Vice President was a member of the Capitol III and Capitol IV teams and was an investment banker to Capitol II. Additionally, two of our independent directors were members of the Capitol I, Capitol II, Capitol III and Capitol IV teams. The past performance of our founders and other members of our management team is not a guarantee that we will be able to identify a suitable candidate for our initial business combination or of success with respect to any business combination we may consummate. You should not rely on the historical record of our management's performance as indicative of our future performance.

Our executive officers and directors received certain benefits from being members of the foregoing public acquisition vehicles, including acquiring founder shares and private placement warrants of such entities, payment of administrative fees for making office space and other services available to such entities and the payment of success and consulting fees. Our executive officers and directors will be entitled to receive similar benefits for being members of our company, as set forth under the heading "*The Offering — Limited payments to insiders*" below.

Acquisition Strategy

We intend to employ a pro-active acquisition strategy focused on companies that have demonstrated a potential for future growth and/or companies for which we believe we can be the catalyst to accelerating growth. We believe seeing a large set of potential opportunities creates the highest probability of finding an exceptional business combination. Our acquisition selection process will leverage our team's extensive network of industry, family office, private equity and venture capital sponsor relationships, as well as relationships with management teams of public and private companies, investment bankers, attorneys and accountants who we believe should provide us with significant business combination opportunities.

We have identified the following criteria and guidelines that we believe are important in evaluating prospective target businesses. We intend to seek to acquire companies that we believe:

- Will experience substantial growth post-acquisition. We believe that we are well-positioned to evaluate a company's current growth prospects and opportunities to enhance growth post-acquisition, both organically and through acquisitions.
- Have developed leading positions within industries that exhibit strong fundamentals. We intend to evaluate each industry and the target businesses within those industries based on several factors, including growth characteristics, competitive positioning, profitability margins and sustainability.
- Exhibit unseen value or other characteristics that have been disregarded by the marketplace. We intend to leverage the operational experience and financial acumen of our team to focus on unlocking value others may have overlooked.
- Will offer an attractive risk-adjusted return on investment for our stockholders. We will seek to acquire the target on attractive terms. Financial returns will be evaluated based on both organic cash flow growth potential and an ability to create value through new initiatives. Potential upside from growth in the business will be weighed against any downside risks.
- Are led by exceptionally talented, experienced and highly competent management teams. If needed, we will leverage our experience in identifying and recruiting new management.

In addition, we will consider a prospective target business in the context of its broader stakeholder impact, including environmental, social and governance factors.

While these criteria will be used in evaluating business combination opportunities, we may decide to enter into a business combination with a target business or businesses that do not meet these proposed criteria and guidelines.

We have not contacted any of the prospective target businesses that Capitol I, Capitol II, Capitol III or Capitol IV had considered and rejected. We do not currently intend to contact any of such targets; however, we may do so in the future if we become aware that the valuations, operations, profits or prospects of such target business, or the benefits of any potential transaction with such target business, would be attractive.

Initial Business Combination

The NYSE rules require that we must complete one or more business combinations having an aggregate fair market value of at least 80% of the net assets held in the trust account (net of amounts previously disbursed to management for working capital purposes, if permitted, and excluding the amount of deferred underwriting discounts and commissions held in trust) at the time of our signing a definitive agreement in connection with our initial business combination. If our board of directors is not able to independently determine the fair market value of our initial business combination, we will obtain an opinion from an independent investment banking firm or another independent firm that regularly renders fairness opinions with respect to the satisfaction of such criteria.

We anticipate structuring our initial business combination so that the post-transaction company in which our public stockholders own shares will own or acquire 100% of the equity interests or assets of the target business or businesses. We may, however, structure our initial business combination such that the post-transaction company owns or acquires less than 100% of such interests or assets of the target business in order to meet certain objectives of the target management team or stockholders or for other reasons, but we will only complete such business combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act of 1940, as amended, or the Investment Company Act. Even if the post-transaction company owns or acquires 50% or more of the voting securities of the target, our stockholders prior to the business combination may collectively own a minority interest in the post-transaction company, depending on valuations ascribed to the target and us in the business combination. For example, we could pursue a transaction in which we issue a substantial number of new shares of common stock or preferred stock in exchange for all of the outstanding capital stock of a target in order to consummate such transaction. In this case, we would acquire a 100% controlling interest in the target. However, as a result of the issuance of a substantial number of new shares, our stockholders immediately prior to our initial business combination could own less than a majority of our outstanding shares subsequent to our initial business combination. If less than 100% of the equity interests or assets of a target business or businesses are owned or acquired by the post-transaction company, the portion of such business or businesses that is owned or acquired by us is what will be taken into account for purposes of the NYSE's 80% fair market value test. If the business combination involves more than one target business, the 80% fair market value test will be based on the aggregate value of all of the transactions.

Notwithstanding the foregoing, if we are not then listed on the NYSE for whatever reason, we would no longer be required to meet the foregoing 80% fair market value test.

Our Business Combination Process

In evaluating a prospective target business, we expect to conduct a thorough due diligence review that may encompass, among other things, meetings with incumbent management and employees, document reviews and inspection of facilities, as applicable, as well as a review of financial and other information that will be made available to us.

We are not prohibited from pursuing an initial business combination with a company that is affiliated with our sponsors, officers or directors. In the event we seek to complete our initial business combination with a company that is affiliated with our sponsors, officers or directors, we, or a committee of independent directors, will obtain an opinion from an independent investment banking firm or another independent firm that regularly renders fairness opinions that our initial business combination is fair to our company from a financial point of view.

Members of our management team and directors will directly or indirectly own founder shares and/or private placement warrants following this offering and, accordingly, may have a conflict of interest in determining whether a particular target business is an appropriate business with which to effectuate our initial business combination. Further, each of our officers and directors may have a conflict of interest with respect to evaluating a particular business combination if the retention or resignation of any such officers and directors was included by a target business as a condition to any agreement with respect to our initial business combination.

Each of our officers and directors presently has, and any of them in the future may have additional, fiduciary or contractual obligations to another entity pursuant to which such officer or director is or will be required to present a business combination opportunity to such entity, including as described below. Accordingly, if any of our officers or directors becomes aware of a business combination opportunity which is suitable for an entity to which he or she has then-current fiduciary or contractual obligations, he or she will honor his or her fiduciary or contractual obligations to present such business combination opportunity to such other entity, subject to their fiduciary duties under Delaware law. We do not believe, however, that the fiduciary duties or contractual obligations of our officers or directors will materially affect our ability to complete our initial business combination.

In addition, our sponsors or their affiliates may sponsor other blank check companies similar to ours during the period in which we are seeking an initial business combination, and members of our management team may participate in such blank check companies. Any such companies may present additional conflicts of interest in pursuing an acquisition target, particularly in the event there is overlap among the management teams. However, we do not believe that any potential conflicts would materially affect our ability to complete our initial business combination.

Corporate Information

We were originally formed as a Cayman Islands exempted company on May 1, 2017. In May 2019, we redomesticated from the Cayman Islands to Delaware and are now a Delaware corporation. Our executive offices are located at 1300 17th Street North, Suite 820, Arlington, Virginia 22209, and our telephone number is (202) 654-7060. Our website address is <http://capinvestment.com>. Our website and the information contained on, or that can be accessed through, the website is not deemed to be incorporated by reference in, and is not considered part of, this prospectus or the registration statement of which this prospectus is a part. You should not rely on any such information in making your decision whether to invest in our securities.

We are an “emerging growth company,” as defined in Section 2(a) of the Securities Act of 1933, as amended, or the Securities Act, as modified by the Jumpstart Our Business Startups Act of 2012, or the JOBS Act. As such, we are eligible to take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not “emerging growth companies” including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act of 2002, or the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements and exemptions from the requirements of holding a non-binding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved. If some investors find our securities less attractive as a result, there may be a less active trading market for our securities and the prices of our securities may be more volatile.

In addition, Section 107 of the JOBS Act provides that an “emerging growth company” can take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act for complying with new or revised accounting standards. In other words, an “emerging growth company” can delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. We intend to take advantage of the benefits of this extended transition period.

We will remain an emerging growth company until the earlier of (1) the last day of the fiscal year (a) following the fifth anniversary of the completion of this offering, (b) in which we have total annual gross revenue of at least \$1.07 billion or (c) in which we are deemed to be a large accelerated filer, which means the market value of our Class A common stock that is held by non-affiliates exceeds \$700 million as of the prior June 30, and (2) the date on which we have issued more than \$1.0 billion in non-convertible debt during the prior three-year period. References herein to “emerging growth company” will have the meaning associated with it in the JOBS Act.

Additionally, we are a “smaller reporting company” as defined in Item 10(f)(1) of Regulation S-K. Smaller reporting companies may take advantage of certain reduced disclosure obligations, including, among other things, providing only two years of audited financial statements. We will remain a smaller reporting company until the last day of the fiscal year in which (1) the market value of our Class A common stock held by non-affiliates exceeds \$250 million as of the end of that fiscal year’s second fiscal quarter or (2) our annual revenues exceeded \$100 million during such completed fiscal year and the market value of our Class A common stock held by non-affiliates exceeds \$700 million as of the end of that fiscal year’s second fiscal quarter.

THE OFFERING

In deciding whether to invest in our securities, you should take into account not only the backgrounds of the members of our management team, but also the special risks we face as a blank check company and the fact that this offering is not being conducted in compliance with Rule 419 promulgated under the Securities Act. You will not be entitled to protections normally afforded to investors in Rule 419 blank check offerings. You should carefully consider these and the other risks set forth in the section below entitled “Risk Factors.”

Securities offered

30,000,000 units (or 34,500,000 units if the underwriters’ over-allotment option is exercised in full), at \$10.00 per unit, each unit consisting of:

- one share of Class A common stock; and
- one-third of one redeemable warrant.

Proposed listing symbols

Units: “CAP.U”

Class A common stock: “CAP”

Warrants: “CAP WS”

We cannot guarantee that our securities will be approved for listing.

Trading commencement and separation of Class A common stock and warrants

The units are expected to begin trading on or promptly after the date of this prospectus. The Class A common stock and warrants comprising the units will begin separate trading on the 52nd day following the date of this prospectus (or, if such date is not a business day, the following business day) unless Citigroup Global Markets Inc. informs us of its decision to allow earlier separate trading, subject to our having filed the Current Report on Form 8-K described below and having issued a press release announcing when such separate trading will begin. Once the Class A common stock and warrants commence separate trading, holders will have the option to continue to hold units or separate their units into the component securities. Holders will need to have their brokers contact our transfer agent in order to separate the units into Class A common stock and warrants. No fractional warrants will be issued upon separation of the units and only whole warrants will trade. Accordingly, unless you purchase at least three units, you will not be able to receive or trade a whole warrant.

Additionally, the units will automatically separate into their component parts and will not be traded after completion of our initial business combination.

Separate trading of the Class A common stock and warrants is prohibited until we have filed a Current Report on Form 8-K

In no event will the Class A common stock and warrants be traded separately until we have filed with the Securities and Exchange Commission, or the SEC, a Current Report on Form 8-K which includes an audited balance sheet reflecting our receipt of the gross proceeds at the closing of this offering. We will file the Current Report on Form 8-K promptly, and no later than four business days, after the closing of this offering. If the underwriters’ over-allotment option is exercised following the initial filing of such Current Report on Form 8-K, a second or amended Current Report on Form 8-K will be filed to provide updated financial information to reflect the exercise of the underwriters’ over-allotment option.

Units:

Number outstanding before this offering	0
Number outstanding after this offering	30,000,000 ⁽¹⁾

Common stock:

Number outstanding before this offering	8,625,000 ⁽²⁾⁽³⁾
Number outstanding after this offering	37,500,000 ⁽¹⁾⁽³⁾⁽⁴⁾

Warrants:

Number of private placement warrants to be sold in a private placement simultaneously with this offering	5,233,333 ⁽¹⁾
Number of warrants to be outstanding after this offering and the private placement	15,233,333 ⁽¹⁾

Exercisability

Each whole warrant offered in this offering is exercisable to purchase one share of Class A common stock, subject to adjustment as provided herein. Only whole warrants are exercisable. No fractional warrants will be issued upon separation of the units and only whole warrants will trade.

We structured each unit to contain one-third of one warrant, with each whole warrant exercisable for one share of Class A common stock, as compared to units issued by some other similar blank check companies which contain whole warrants exercisable for one whole share, in order to reduce the dilutive effect of the warrants upon completion of a business combination as compared to units that each contain a whole warrant to purchase one whole share, thus making us, we believe, a more attractive business combination partner for target businesses.

Exercise price

\$11.50 per whole share, subject to adjustments as described herein.

In addition, if (x) we issue additional shares of Class A common stock or equity-linked securities for capital raising purposes in connection with the closing of our initial business combination at an issue price or effective issue price of less than \$9.20 per share of Class A common stock (with such issue price or effective issue price to be determined in good faith by our board of directors and, in the case of any such issuance to our initial stockholders or their affiliates, without taking into account any founder shares held by our initial stockholders or such affiliates, as applicable, prior to such issuance), or the newly issued price, (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of our initial business combination on the date of the consummation of our initial business combination (net of redemptions) and (z) the

-
- (1) Assumes no exercise of the underwriters' over-allotment option and that 1,125,000 founder shares are forfeited by our sponsors for no consideration.
 - (2) Includes up to 1,125,000 founder shares that will be forfeited for no consideration by our sponsors depending on the extent to which the underwriters' over-allotment option is exercised.
 - (3) Founder shares are currently classified as Class B common stock, which shares will automatically convert into Class A common stock at the time of our initial business combination on a one-for-one basis, subject to adjustment as described below adjacent to the caption "*Founder shares conversion and anti-dilution rights.*"
 - (4) Represents 30,000,000 public shares and 7,500,000 founder shares.

volume-weighted average trading price of our Class A common stock during the ten-trading day period starting on the trading day after the day on which we consummate our initial business combination, or the market value, is below \$9.20 per share, then the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to 115% of the higher of the market value and the newly issued price, and the \$18.00 per share redemption trigger price described under “*Description of Securities — Warrants — Public Warrants — Redemption of Warrants When the Price Per Share of Class A Common Stock Equals or Exceeds \$18.00*” will be adjusted (to the nearest cent) to be equal to 180% of the higher of the market value and the newly issued price, and the \$10.00 per share redemption trigger price will be adjusted (to the nearest cent) to be equal to the higher of the market value and the newly issued price.

Exercise period

The warrants will become exercisable on the later of:

- 30 days after the completion of our initial business combination; and
- 12 months from the closing of this offering;

provided, in each case, that we have an effective registration statement under the Securities Act covering the Class A common stock issuable upon exercise of the warrants and a current prospectus relating to them is available and such shares are registered, qualified or exempt from registration under the securities or blue sky laws of the state of residence of the holder (or we permit holders to exercise their warrants on a cashless basis under the circumstances specified in the warrant agreement as a result of (i) our failure to have an effective registration statement by the 60th business day after the closing of our initial business combination as described below or (ii) a notice of redemption described below adjacent to the caption “*Redemption of warrants when the price per share of Class A common stock equals or exceeds \$10.00*”). If and when the warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying securities for sale under all applicable state securities laws.

We are not registering the Class A common stock issuable upon exercise of the warrants at this time. However, we have agreed that as soon as practicable, but in no event later than 20 business days after the closing of our initial business combination, we will use our commercially reasonable efforts to file with the SEC and, within 60 business days following our initial business combination to have declared effective, a registration statement covering the Class A common stock issuable upon exercise of the warrants and to maintain a current prospectus relating to those shares of Class A common stock until the warrants expire or are redeemed, as specified in the warrant agreement; provided that, if our Class A common stock is at the time of any exercise of a warrant not listed on a national securities exchange such that it satisfies the definition of a “covered security” under Section 18(b)(1) of the Securities Act, we may, at our option, require holders of public warrants who exercise their warrants to do so on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act and, in the event we so elect, we will not be required to file or maintain in effect a registration statement.

The warrants will expire at 5:00 p.m., New York City time, five years after the completion of our initial business combination or earlier upon redemption or liquidation. On the exercise of any warrant, the warrant exercise price will be paid directly to us and not placed in the trust account.

**Redemption of warrants
when the price per share of
Class A common stock equals
or exceeds \$18.00**

Once the warrants become exercisable, we may redeem the outstanding warrants (except as described herein with respect to the private placement warrants):

- in whole and not in part;
- at a price of \$0.01 per warrant;
- upon a minimum of 30 days' prior written notice of redemption, which we refer to as the 30-day redemption period; and
- if, and only if, the last reported sale price of our Class A common stock equals or exceeds \$18.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like and for certain issuances of Class A common stock and equity-linked securities as described above) for any 20 trading days within a 30-trading day period ending on the third trading day prior to the date on which we send the notice of redemption to the warrant holders.

We will not redeem the warrants unless a registration statement under the Securities Act covering the Class A common stock issuable upon exercise of the warrants is then effective and a current prospectus relating to those shares of Class A common stock is available throughout the 30-day redemption period, except if the warrants may be exercised on a cashless basis and such cashless exercise is exempt from registration under the Securities Act. If and when the warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying securities for sale under all applicable state securities laws. As a result, we may redeem the warrants as set forth above even if the holders are otherwise unable to exercise the warrants.

Any such exercise would not be on a "cashless" basis and would require the existing warrant holder to pay the exercise price for each warrant being exercised.

None of the private placement warrants will be redeemable by us so long as they are held by our sponsors and independent directors or their permitted transferees.

**Redemption of warrants
when the price per share of
Class A common stock equals
or exceeds \$10.00**

Once the warrants become exercisable, we may redeem the outstanding warrants (except as described below with respect to the private placement warrants):

- in whole and not in part;
- at \$0.10 per warrant upon a minimum of 30 days' prior written notice of redemption; provided that holders will be able to exercise their warrants on a cashless basis prior to redemption and receive that number of shares determined by reference to the table set forth under "*Description of Securities — Warrants — Public Warrants*" based on the redemption date and the "fair market value" of our Class A common stock (as defined below) except as otherwise described in "*Description of Securities — Warrants — Public Warrants*";

- if, and only if, the last reported sale price of our Class A common stock equals or exceeds \$10.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like and for certain issuances of Class A common stock and equity-linked securities as described above) on the trading day prior to the date on which we send the notice of redemption to the warrant holders; and
- if, and only if, the last reported sale price of our Class A common stock is less than \$18.00 per share (as described for stock splits, stock dividends, reorganizations, recapitalizations and the like and for certain issuances of Class A common stock and equity-linked securities as described above), then the private placement warrants are also called for redemption on the same terms as the outstanding public warrants, as described above.

If and when the warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying securities for sale under all applicable state securities laws. As a result, we may redeem the warrants as set forth above even if the holders are otherwise unable to exercise the warrants.

The “fair market value” of our Class A common stock will mean the volume-weighted average price of the Class A common stock for the ten trading days immediately following the date on which the notice of redemption is sent to the holders of warrants. We will provide our warrant holders with the final fair market value no later than one business day after the ten-day trading period described above. In no event will the warrants be exercisable in connection with this redemption feature for more than 0.361 shares of our Class A common stock per warrant (subject to adjustment).

No fractional shares of Class A common stock will be issued upon exercise. If, upon exercise, a holder would be entitled to receive a fractional interest in a share, we will round down to the nearest whole number of the number of shares of Class A common stock to be issued to the holder. Please see the section entitled “*Description of Securities — Warrants — Public Warrants*” for additional information.

Pursuant to the warrant agreement, references above to Class A common stock shall include a security other than Class A common stock into which the Class A common stock has been converted or exchanged for in the event we are not the surviving company in our initial business combination.

Founder shares

Our initial stockholders hold an aggregate of 8,625,000 founder shares (after taking into account (i) a stock dividend of approximately 0.17 shares of Class B common stock for each share of Class B common stock effectuated in October 2017, (ii) a stock dividend of one share of Class B common stock for each outstanding share of Class B common stock effectuated in May 2019 and (iii) an approximately 0.8571-for-1 reverse stock split with respect to our Class B common stock effectuated in November 2020). The number of founder shares issued was determined based on the expectation that the founder shares would represent 20% of the outstanding shares after this offering. Our sponsors will surrender for no consideration up to 1,125,000 shares depending on the extent to which the underwriters' over-allotment option is not exercised. If we increase or decrease the size of this offering, we will effect a stock dividend, stock split, contribution back to capital or other appropriate mechanism, as applicable, with respect to our Class B common stock immediately prior to the consummation of this offering in such amount as to maintain the ownership of our initial stockholders at 20.0% of our issued and outstanding common stock upon the consummation of this offering.

The founder shares are identical to the Class A common stock included in the units being sold in this offering, except that:

- the founder shares are subject to certain transfer restrictions, as described in more detail below;
- our initial stockholders, which include our independent directors, have entered into a letter agreement with us, the form of which has been filed as an exhibit to the registration statement of which this prospectus forms a part, pursuant to which they have agreed to (i) waive their redemption rights with respect to their founder shares and public shares in connection with the completion of our initial business combination (and not seek to sell their shares to us in any tender offer we undertake in connection with our initial business combination), (ii) waive their redemption rights with respect to their founder shares and public shares in connection with a stockholder vote to approve an amendment to our amended and restated certificate of incorporation to modify the substance or timing of our obligation to redeem 100% of our public shares if we have not consummated an initial business combination within 24 months from the closing of this offering and (iii) waive their rights to liquidating distributions from the trust account with respect to their founder shares if we fail to complete our initial business combination within 24 months from the closing of this offering or during any extended time that we have to consummate a business combination beyond 24 months as a result of a stockholder vote to amend our amended and restated certificate of incorporation, or the Extension Period (although they will be entitled to liquidating distributions from the trust account with respect to any public shares they hold if we fail to complete our initial business combination within the prescribed time frame). If we submit our initial business combination to our public stockholders for a vote, our initial stockholders have agreed, pursuant to the above-referenced letter agreement, to vote their founder shares and any public shares purchased during or after this offering in favor of our initial business combination. As a result, in addition to our initial stockholders' founder shares, we would need 11,250,001, or 37.5%, of the 30,000,000 public shares sold in this

offering to be voted in favor of an initial business combination in order to have our initial business combination approved (assuming all outstanding shares are voted and the over-allotment option is not exercised). Our other directors and officers have entered into the letter agreement, which imposes the same obligations on them with respect to any public shares acquired by them directly in or after this offering;

- the founder shares are automatically convertible into our shares of Class A common stock at the time of our initial business combination on a one-for-one basis, subject to adjustment pursuant to certain anti-dilution rights, as described below adjacent to the caption “*Founder shares conversion and anti-dilution rights*”;
- the founder shares are entitled to registration rights; and
- only holders of the founder shares have the right to vote on the election of directors and to remove directors prior to our initial business combination, and such rights may only be amended by a resolution passed by the holders of a majority of our Class B common stock.

Transfer restrictions on founder shares

Our initial stockholders have agreed not to transfer, assign or sell any of their founder shares until the earlier to occur of (i) one year after the completion of our initial business combination and (ii) the date on which we complete a liquidation, merger, stock exchange or other similar transaction after our initial business combination that results in all of our stockholders having the right to exchange their Class A common stock for cash, securities or other property (except as described herein under “*Principal Stockholders — Transfers of Founder Shares and Private Placement Warrants*”). Any permitted transferees will be subject to the same restrictions and other agreements of our initial stockholders with respect to any founder shares. We refer to such transfer restrictions throughout this prospectus as the lock-up.

Notwithstanding the foregoing, if the closing price of our Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination, the founder shares will be released from the lock-up.

Founder shares conversion and anti-dilution rights

The founder shares are designated as Class B common stock and will automatically convert into Class A common stock on the first business day following the consummation of our initial business combination on a one-for-one basis, subject to adjustment as provided herein. In the case that additional shares of Class A common stock or equity-linked securities (as described herein) are issued or deemed issued in excess of the amounts offered in this prospectus and related to the closing of our initial business combination, the ratio at which shares of Class B common stock will convert into Class A common stock will be adjusted (unless the holders of a majority of the outstanding shares of Class B common stock agree to waive such adjustment with respect to any such issuance or deemed issuance) so that the number of shares of Class A common stock issuable upon conversion of all shares of Class B common stock will equal, in the aggregate, 20% of the sum of the shares of common stock outstanding upon the completion of this offering plus the number of shares of Class A common stock and equity-linked securities issued or deemed issued in connection with our initial business

combination (net of redemptions), excluding any shares of Class A common stock or equity-linked securities issued, or to be issued, to any seller in our initial business combination and any private placement warrants issued to our sponsors and independent directors. The term “equity-linked securities” refers to any debt or equity securities that are convertible, exercisable or exchangeable for Class A common stock.

Election of directors; Voting rights

Prior to our initial business combination, only holders of our founder shares will have the right to vote on the election of directors. Holders of our public shares will not be entitled to vote on the election of directors during such time. In addition, prior to the completion of an initial business combination, holders of a majority of our founder shares may remove a member of the board of directors for any reason. These provisions of our amended and restated certificate of incorporation may only be amended by a resolution passed by the holders of a majority of our Class B common stock. With respect to any other matter submitted to a vote of our stockholders, including any vote in connection with our initial business combination, except as required by law or the applicable rules of the NYSE then in effect, holders of our founder shares and holders of our public shares will vote together as a single class, with each share entitling the holder to one vote.

Our amended and restated certificate of incorporation will provide that our board of directors will be divided into three classes, with only one class of directors being elected in each year, and each class (except for those directors appointed prior to our first annual meeting of stockholders) serving a three-year term.

Private placement warrants

Our sponsors and independent directors have committed, pursuant to written agreements, to purchase an aggregate of 5,233,333 private placement warrants (or 5,833,333 if the underwriters’ over-allotment option is exercised in full), each exercisable to purchase one share of Class A common stock at \$11.50 per share, at a price of \$1.50 per warrant (\$7,850,000 in the aggregate or \$8,750,000 if the underwriters’ over-allotment option is exercised in full), in a private placement that will close simultaneously with the closing of this offering. The number of private placement warrants to be purchased by our sponsors and independent directors if the over-allotment option is exercised only in part will be a number of warrants necessary to maintain in the trust account \$10.00 per unit sold to the public in this offering. These additional private placement warrants will be purchased simultaneously with the purchase of units resulting from the exercise of the over-allotment option. If we do not complete our initial business combination within 24 months from the closing of this offering, the private placement warrants will expire worthless. The private placement warrants will be non-redeemable (except as described below under “*Description of Securities — Warrants — Public Warrants — Redemption of Warrants When the Price Per Share of Class A Common Stock Equals or Exceeds \$10.00*”) and exercisable on a cashless basis so long as they are held by the sponsors and independent directors or their permitted transferees. If the private placement warrants are held by holders other than the sponsors and independent directors or their permitted transferees, the private placement warrants will be redeemable by us and exercisable by the holders on the same basis as the warrants included in the units being sold in this offering.

Transfer restrictions on private placement warrants

The private placement warrants (including the shares of Class A common stock issuable upon exercise of the private placement warrants) will not be transferable, assignable or salable until 30 days after the completion of our initial business combination, except as described herein under “*Principal Stockholders — Transfers of Founder Shares and Private Placement Warrants.*”

Proceeds to be held in trust account NYSE listing rules provide that at least 90% of the gross proceeds from this offering and the sale of the private placement warrants be deposited in a trust account. Of the proceeds we will receive from this offering and the sale of the private placement warrants described in this prospectus, \$300.0 million, or \$345.0 million if the underwriters' over-allotment option is exercised in full (\$10.00 per unit in either case), will be deposited into a segregated trust account located in the United States at JP Morgan Chase Bank, N.A. with Continental Stock Transfer & Trust Company acting as trustee, and \$1.85 million will be used to pay expenses in connection with the closing of this offering and for working capital following this offering. The proceeds to be placed in the trust account include \$10,500,000 (or \$12,075,000 if the underwriters' over-allotment option is exercised in full) in deferred underwriting commissions.

Except for the withdrawal of interest to pay our taxes, our amended and restated certificate of incorporation, as discussed below and subject to the requirements of law and regulation, provides that none of the funds held in the trust account will be released from the trust account until the earliest of (i) the completion of our initial business combination, (ii) the redemption of our public shares if we have not completed our initial business combination within 24 months from the closing of this offering, subject to applicable law, and (iii) the redemption of our public shares properly submitted in connection with a stockholder vote to approve an amendment to our amended and restated certificate of incorporation that would modify the substance or timing of our obligation to redeem 100% of our public shares if we have not consummated an initial business combination within 24 months from the closing of this offering. Stockholders who do not exercise their rights to the funds held in the trust account in connection with such an amendment to our certificate of incorporation would still have rights to such funds in connection with any other applicable amendment to our amended and restated certificate of incorporation and a subsequent business combination to the extent they are then stockholders. The proceeds deposited in the trust account could become subject to the claims of our creditors, if any, which could have priority over the claims of our public stockholders.

Anticipated expenses and funding sources

Unless and until we complete our initial business combination, no proceeds held in the trust account will be available for our use, except the withdrawal of interest to pay our taxes. The proceeds held in the trust account may be invested only in U.S. government treasury obligations with a maturity of 180 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations. Except as described above, unless and until we complete our initial business combination, we may pay our expenses only from:

- the net proceeds of this offering and the sale of the private placement warrants not held in the trust account, which will be approximately \$1,000,000 in working capital after the payment of approximately \$850,000 in expenses relating to this offering; and

- any loans or additional investments from our sponsors, officers or directors or any of their respective affiliates, although they are under no obligation to advance funds or invest in us, and provided that any such loans will not have any claim on the proceeds held in the trust account unless such proceeds are released to us upon completion of our initial business combination. Up to \$2,000,000 of such loans may be convertible into warrants of the post-business combination entity at a price of \$1.50 per warrant at the option of the lender. The warrants would be identical to the private placement warrants. There is no limitation on our ability to raise funds privately or through loans in connection with our initial business combination.

Conditions to completing our initial business combination

The NYSE rules require that we must complete one or more business combinations having an aggregate fair market value of at least 80% of the value of the assets held in the trust account (net of amounts previously disbursed to management for working capital purposes, if permitted, and excluding the amount of deferred underwriting discounts and commissions held in trust) at the time of our signing a definitive agreement in connection with our initial business combination. If our board of directors is not able to independently determine the fair market value of our initial business combination, we will obtain an opinion from an independent investment banking firm or another independent firm that regularly renders fairness opinions.

We will complete our initial business combination only if the post-transaction company in which our public stockholders own shares will own or acquire 50% or more of the outstanding voting securities of the target or is otherwise not required to register as an investment company under the Investment Company Act. Even if the post-transaction company owns or acquires 50% or more of the voting securities of the target, our stockholders prior to our initial business combination may collectively own a minority interest in the post-business combination company, depending on valuations ascribed to the target and us in the business combination transaction. If less than 100% of the equity interests or assets of a target business or businesses are owned or acquired by the post-transaction company, the portion of such business or businesses that is owned or acquired is what will be taken into account for purposes of the NYSE's 80% fair market value test; provided that in the event that the business combination involves more than one target business, the 80% fair market value test will be based on the aggregate value of all of the transactions and we will treat the transactions together as our initial business combination for purposes of a tender offer or for seeking stockholder approval, as applicable. Notwithstanding the foregoing, if we are not then listed on the NYSE for whatever reason, we would no longer be required to meet the foregoing 80% fair market value test.

Permitted purchases of public shares and public warrants by our affiliates

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our initial stockholders, directors, executive officers, advisors or their affiliates may purchase shares or public warrants in privately negotiated transactions or in the open market either prior to or following the completion of our initial business combination. There is no limit on the number of shares such persons may purchase, or any restriction on the price that they may pay. Any such price per share may be different than the amount per share a public stockholder would receive if it elected to redeem its shares in connection with our initial business combination. However, such persons have no current commitments, plans or intentions to engage in such transactions and have not formulated any terms or conditions for any such transactions. In the event our initial stockholders, directors, officers, advisors or any of their affiliates determine to make any such purchases at the time of a stockholder vote relating to our initial business combination, such purchases could have the effect of influencing the vote necessary to approve such transaction. None of the funds held in the trust account will be used to purchase shares or public warrants in such transactions. If they engage in such transactions, they will not make any such purchases when they are in possession of any material nonpublic information not disclosed to the seller or if such purchases are prohibited by Regulation M under the Securities Exchange Act of 1934, as amended, or the Exchange Act. Subsequent to the consummation of this offering, we will adopt an insider trading policy which will require insiders to: (1) refrain from purchasing company securities during certain blackout periods and when they are in possession of any material non-public information; and (2) clear all trades in company securities with our legal counsel prior to execution. We cannot currently determine whether our insiders will make such purchases pursuant to a Rule 10b5-1 plan, as it will be dependent upon several factors, including but not limited to, the timing and size of such purchases. Depending on such circumstances, our insiders may either make such purchases pursuant to a Rule 10b5-1 plan or determine that such a plan is not necessary.

We do not currently anticipate that such purchases, if any, would constitute a tender offer subject to the tender offer rules under the Exchange Act or a going-private transaction subject to the going-private rules under the Exchange Act; however, if the purchasers determine at the time of any such purchases that the purchases are subject to such rules, the purchasers will comply with such rules. Any such purchases will be reported pursuant to Section 13 and Section 16 of the Exchange Act to the extent such purchasers are subject to such reporting requirements.

See “*Proposed Business — Permitted Purchases of Our Securities*” for a description of how our sponsors, initial stockholders, directors, executive officers, advisors or any of their affiliates will select which stockholders to purchase securities from in any private transaction.

The purpose of any such purchases of shares could be to vote such shares in favor of the business combination and thereby increase the likelihood of obtaining stockholder approval of the business combination or to satisfy a closing condition in an agreement with a target that requires us to have a minimum net worth or a certain amount of cash at the closing of our initial business combination, where it appears that such requirement would otherwise not be met. The purpose of any such purchases of public warrants could be to reduce the number of public

warrants outstanding or to vote such warrants on any matters submitted to the warrant holders for approval in connection with our initial business combination. Any such purchases of our securities may result in the completion of our initial business combination that may not otherwise have been possible. In addition, if such purchases are made, the public “float” of our Class A common stock or warrants may be reduced and the number of beneficial holders of our securities may be reduced, which may make it difficult to maintain or obtain the quotation, listing or trading of our securities on a national securities exchange.

Redemption rights for public stockholders upon completion of our initial business combination

We will provide our public stockholders with the opportunity to redeem all or a portion of their public shares upon the completion of our initial business combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account calculated as of two business days prior to the consummation of our initial business combination, including interest earned on the trust account and not previously released to us to pay taxes (net of taxes payable), divided by the number of then-outstanding public shares, subject to the limitations described herein. The amount in the trust account is initially anticipated to be \$10.00 per public share. The per share amount we will distribute to investors who properly redeem their shares will not be reduced by the deferred underwriting commissions we will pay to the underwriters. There will be no redemption rights upon the completion of our initial business combination with respect to our warrants. Our initial stockholders, which include our independent directors, have entered into a letter agreement with us, the form of which has been filed as an exhibit to the registration statement of which this prospectus forms a part, pursuant to which they have agreed to waive their redemption rights with respect to their founder shares and any public shares they may acquire during or after this offering in connection with the completion of our initial business combination. Our other directors and officers have entered into the letter agreement, which imposes the same obligations on them with respect to any public shares acquired by them directly in or after this offering.

Limitations on redemptions

Our amended and restated certificate of incorporation will provide that in no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 immediately prior to or upon consummation of any initial business combination (so that we are not subject to the SEC’s “penny stock” rules). However, a greater net tangible asset or cash requirement may be contained in the agreement relating to our initial business combination. For example, the proposed business combination may require (i) cash consideration to be paid to the target or its owners, (ii) cash to be transferred to the target for working capital or other general corporate purposes or (iii) the retention of cash to satisfy other conditions in accordance with the terms of the proposed business combination. Furthermore, although we will not redeem shares in an amount that would cause our net tangible assets to fall below \$5,000,001 immediately prior to or upon consummation of an initial business combination, we do not have a maximum redemption threshold based on the percentage of the shares sold in this offering, as many blank check companies do. This may make it easier for us to consummate our initial business combination.

In the event the aggregate cash consideration we would be required to pay for all Class A common stock that are validly submitted for redemption plus any amount required to satisfy cash conditions pursuant to the terms of the proposed business combination exceed the aggregate amount of cash available to us, we will not complete the business combination or redeem any shares, and all shares of Class A common stock submitted for redemption will be returned to the holders thereof, and we instead may search for an alternate business combination.

Manner of conducting redemptions

We will provide our public stockholders with the opportunity to redeem all or a portion of their public shares upon the completion of our initial business combination either (i) in connection with a stockholder meeting called to approve the business combination or (ii) by means of a tender offer. The decision as to whether we will seek stockholder approval of a proposed business combination or conduct a tender offer will be made by us, solely in our discretion, and will be based on a variety of factors such as the timing of the transaction and whether the terms of the transaction would require us to seek stockholder approval under applicable law or stock exchange listing requirement. Asset acquisitions and stock purchases would not typically require stockholder approval, while direct mergers with our company where we do not survive and any transactions where we issue more than 20% of our outstanding shares of Class A common stock or seek to amend our amended and restated certificate of incorporation would require stockholder approval. We currently intend to conduct redemptions in connection with a stockholder vote unless stockholder approval is not required by applicable law or stock exchange listing requirement and we choose to conduct redemptions pursuant to the tender offer rules of the SEC for business or other legal reasons.

If we hold a stockholder vote to approve our initial business combination, we will:

- file proxy materials with the SEC; and
- conduct the redemptions in conjunction with a proxy solicitation pursuant to Regulation 14A of the Exchange Act, which regulates the solicitation of proxies, and not pursuant to the tender offer rules.

If we seek stockholder approval, we will complete our initial business combination only if a majority of the shares of common stock voted are voted in favor of the business combination. In such case, our initial stockholders have agreed to vote their founder shares and any public shares purchased during or after this offering in favor of our initial business combination. As a result, in addition to our initial stockholders' founder shares, we would need 11,250,001, or 37.5%, of the 30,000,000 public shares sold in this offering to be voted in favor of an initial business combination in order to have our initial business combination approved (assuming all outstanding shares are voted and the over-allotment option is not exercised). Our other directors and officers have entered into the letter agreement, which imposes the same obligations on them with respect to any public shares acquired by them in or after this offering. Each public stockholder may elect to redeem its public shares irrespective of whether it votes for or against the proposed transaction or votes at all. Our amended and restated certificate of incorporation requires that at least ten days' notice will be given of any such stockholder meeting.

If we conduct redemptions pursuant to the tender offer rules of the SEC, we will, pursuant to our amended and restated certificate of incorporation:

- conduct the redemptions pursuant to Rule 13e-4 and Regulation 14E of the Exchange Act, which regulate issuer tender offers; and
- file tender offer documents with the SEC prior to completing our initial business combination which contain substantially the same financial and other information about our initial business combination and the redemption rights as is required under Regulation 14A of the Exchange Act, which regulates the solicitation of proxies.

Upon the public announcement of our initial business combination, if we elect to conduct redemptions pursuant to the tender offer rules, we or our sponsors will terminate any plan established in accordance with Rule 10b5-1 to purchase our Class A common stock in the open market, in order to comply with Rule 14e-5 under the Exchange Act.

In the event we conduct redemptions pursuant to the tender offer rules, our offer to redeem will remain open for at least 20 business days, in accordance with Rule 14e-1(a) under the Exchange Act, and we will not be permitted to complete our initial business combination until the expiration of the tender offer period. In addition, the tender offer will be conditioned on public stockholders not tendering more than the number of public shares we are permitted to redeem. If public stockholders tender more shares than we have offered to purchase, we will withdraw the tender offer and not complete such initial business combination, and we instead may search for an alternate business combination.

Limitation on redemption rights of stockholders holding 20% or more of the shares sold in this offering if we hold stockholder vote

Notwithstanding the foregoing redemption rights, if we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated certificate of incorporation will provide that a public stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a “group” (as defined under Section 13 of the Exchange Act), will be restricted from redeeming its shares with respect to more than an aggregate of 20% of the shares sold in this offering, without our prior consent. We believe the restriction described above will discourage stockholders from accumulating large blocks of shares, and subsequent attempts by such holders to use their ability to redeem their shares as a means to force us or our management to purchase their shares at a significant premium to the then-current market price or on other undesirable terms. Absent this provision, a public stockholder holding more than an aggregate of 20% of the shares sold in this offering could threaten to exercise its redemption rights against a business combination if such holder’s shares are not purchased by us, our sponsors or our management at a premium to the then-current market price or on other undesirable terms. By limiting our stockholders’ ability to redeem to no more than 20% of the shares sold in this offering, we believe we will limit the ability of a small group of stockholders to unreasonably attempt to block our ability to complete our initial business combination, particularly in connection with a business combination with a target that requires as a closing condition that we have a minimum net worth or a certain amount of cash. However, we would not be restricting our stockholders’ ability to vote all of their shares (including all shares held by those stockholders that hold more than 20% of the shares sold in this offering) for or against our initial business combination.

Redemption rights in connection with proposed amendments to our amended and restated certificate of incorporation

Some other blank check companies have a provision in their charter which prohibits the amendment of certain charter provisions. Our amended and restated certificate of incorporation will provide that any of its provisions (other than the provisions of our amended and restated certificate of incorporation related to the right to vote on the election of directors or to remove a member of our board of directors, in each case prior to our initial business combination) may be amended by holders of a majority of our common stock, subject to applicable provisions of the Delaware General Corporation Law, or the DGCL, or applicable stock exchange rules. Our initial stockholders, who will beneficially own 20% of our common stock upon the closing of this offering (assuming they do not purchase any units in this offering), may participate in any vote to amend our amended and restated certificate of incorporation and/or trust agreement and will have the discretion to vote in any manner they choose. Our initial stockholders, officers and directors have agreed, pursuant to a written agreement with us, that they will not propose any amendment to our amended and restated certificate of incorporation to modify the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering, unless we provide our public stockholders with the opportunity to redeem their shares of common stock upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account (net of taxes payable and less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then-outstanding public shares. Our initial stockholders have entered into a letter agreement with us, pursuant to which they have agreed to waive their redemption rights with respect to their founder shares and any public shares held by them in connection with the completion of our initial business combination. Our other directors and officers have also entered into the letter agreement, which imposes the same obligations on them with respect to any public shares acquired by them.

Release of funds in trust account on closing of our initial business combination

On the completion of our initial business combination, the funds held in the trust account will be used to pay amounts due to any public stockholders who exercise their redemption rights as described above adjacent to the caption "*Redemption rights for public stockholders upon completion of our initial business combination,*" to pay the underwriters their deferred underwriting commissions, to pay all or a portion of the consideration payable to the target or owners of the target of our initial business combination and to pay other expenses associated with our initial business combination. If our initial business combination is paid for using equity or debt securities or not all of the funds released from the trust account are used for payment of the consideration in connection with our initial business combination, we may apply the balance of the cash released to us from the trust account for general corporate purposes, including for maintenance or expansion of operations of post-transaction businesses, the payment of principal or interest due on indebtedness incurred in completing our initial business combination, to fund the purchase of other companies or for working capital.

Redemption of public shares and distribution and liquidation if no initial business combination

Our amended and restated certificate of incorporation will provide that we will have only 24 months from the closing of this offering to complete our initial business combination. If we have not completed our initial business combination within such 24-month period or during any Extension Period, we will (i) cease all operations except for the purpose of winding up; (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the trust account not previously released to us to pay taxes (net of taxes payable and less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then-outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidation distributions, if any); and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, dissolve and liquidate. There will be no redemption rights or liquidating distributions with respect to our warrants, which will expire worthless if we fail to complete our initial business combination within such time period.

Our initial stockholders, which include our independent directors, have entered into a letter agreement with us, pursuant to which they have waived their rights to liquidating distributions from the trust account with respect to their founder shares if we fail to complete our initial business combination within 24 months from the closing of this offering or during any Extension Period. Our other directors and officers have entered into the letter agreement, which imposes the same obligations on them with respect to any public shares acquired by them directly in or after this offering. However, if our initial stockholders or other directors or officers acquire public shares in or after this offering, they will be entitled to liquidating distributions from the trust account with respect to such public shares if we fail to complete our initial business combination within the allotted time frame.

The underwriters have agreed to waive their rights to their deferred underwriting commission held in the trust account in the event we do not complete our initial business combination within the allotted time frame (including any Extension Period) and, in such event, such amounts will be included with the funds held in the trust account that will be available to fund the redemption of our public shares.

Our sponsors, executive officers and directors have agreed, pursuant to a written agreement with us, that they will not propose any amendment to our amended and restated certificate of incorporation (i) to modify the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or during any Extension Period or (ii) with respect to any other provision relating to stockholders' rights or pre-initial business combination activity, unless we provide our public stockholders with the opportunity to redeem their shares of Class A common stock upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the trust account not previously released to us to pay taxes (net of taxes payable), divided by the number of then-outstanding public shares, subject to the limitations described above adjacent to the caption "*Limitations on redemptions.*" For example, our board of directors may propose such an amendment if it determines that additional time is necessary to complete our initial business combination. In such event, we will conduct a proxy solicitation and distribute proxy materials pursuant to Regulation 14A of the Exchange Act seeking stockholder approval of such proposal, and in connection therewith, provide our public stockholders with the redemption rights described above upon stockholder approval of such amendment. This redemption right shall apply in the event of the approval of any such amendment, whether proposed by our sponsors, any executive officer, director or director nominee, or any other person.

Limited payments to insiders

There will be no finder's fees, reimbursements or cash payments made by the company to our sponsors, officers or directors, or our or their affiliates, for services rendered to us prior to or in connection with the completion of our initial business combination, other than the following payments, none of which will be made from the proceeds of this offering held in the trust account prior to the completion of our initial business combination:

- repayment of an aggregate of \$250,000 in loans made to us by our sponsors to cover offering-related and organizational expenses;
- reimbursement for office space, secretarial and administrative services provided to us by our sponsors, in an amount not to exceed \$20,000 per month;
- payment of salaries, consulting or success fees;
- reimbursement for any out-of-pocket expenses related to identifying, investigating, negotiating and completing an initial business combination; and
- repayment of loans which may be made by our sponsors, officers, directors or their respective affiliates to finance transaction costs in connection with an intended initial business combination. Up to \$2,000,000 of such loans may be convertible into warrants of the post-business combination entity at a price of \$1.50 per warrant at the option of the lender. The warrants would be identical to the private placement warrants. Except for the foregoing, the terms of such loans, if any, have not been determined and no written agreements exist with respect to such loans.

Audit committee

We will establish and maintain an audit committee, which will be composed entirely of independent directors. Among its responsibilities, the audit committee will review on a quarterly basis all payments that were made to our sponsors, officers or directors, or our or their affiliates, and monitor compliance with the other terms relating to this offering. If any noncompliance is identified, then the audit committee will be charged with the responsibility to promptly take all action necessary to rectify such noncompliance or otherwise to cause compliance with the terms of this offering. For more information, see the section entitled “*Management — Committees of the Board of Directors — Audit Committee.*”

Risks

We are a company that has conducted no operations and has generated no revenues. Until we complete our initial business combination, we will have no operations and will generate no operating revenues. In making your decision whether to invest in our securities, you should take into account not only the background of our management team, but also the special risks we face as a blank check company. This offering is not being conducted in compliance with Rule 419 promulgated under the Securities Act. Accordingly, you will not be entitled to protections normally afforded to investors in Rule 419 blank check offerings. For additional information concerning how Rule 419 blank check offerings differ from this offering, please see “*Proposed Business — Comparison of This Offering to Those of Blank Check Companies Subject to Rule 419.*” You should carefully consider these and the other risks set forth in the section entitled “*Risk Factors.*”

SUMMARY FINANCIAL DATA

The following table summarizes the relevant financial data for our business and should be read with our financial statements, which are included in this prospectus. We have not had any significant operations to date, so only balance sheet data is presented.

	December 31,		June 30, 2020	
	2018	2019	Actual	
	Actual	Actual	Actual	As Adjusted
	(Audited)		(Unaudited)	
Balance Sheet Data:				
Working capital (deficiency) ⁽¹⁾	\$ (85,796)	\$ (125,141)	\$ (125,566)	\$ 290,513,561
Total assets ⁽²⁾	196,227	165,793	213,561	301,013,561
Total liabilities ⁽³⁾	178,600	151,935	200,000	10,500,000
Value of Class A common stock that may be redeemed in connection with our initial business combination (\$10.00 per share) ⁽⁴⁾	—	—	—	285,513,560
Stockholders' equity ⁽⁵⁾	17,627	13,858	13,561	5,000,001

- (1) The "as adjusted" calculation includes \$300,000,000 in cash held in trust from the proceeds of this offering and the sale of the private placement warrants, plus \$1,000,000 in cash held outside the trust account, plus \$13,561 of actual stockholders' equity as of June 30, 2020, less \$10,500,000 of deferred underwriting commissions.
- (2) The "as adjusted" calculation equals \$300,000,000 in cash held in trust from the proceeds of this offering and the sale of the private placement warrants, plus \$1,000,000 in cash held outside the trust account, plus \$13,561 of actual stockholders' equity as of June 30, 2020.
- (3) The "as adjusted" calculation includes \$10,500,000 of deferred underwriting commissions.
- (4) The "as adjusted" calculation equals the "as adjusted" total assets, less the "as adjusted" total liabilities, less the "as adjusted" stockholders' equity, which is set to approximate the minimum net tangible assets threshold of at least \$5,000,001.
- (5) Excludes 28,551,356 public shares which are subject to redemption in connection with our initial business combination. The "as adjusted" calculation equals the "as adjusted" total assets, less the "as adjusted" total liabilities, less the value of Class A common stock that may be redeemed in connection with our initial business combination (initially \$10.00 per share). The actual number of public shares that may be redeemed may exceed the aforementioned amount provided that we will not consummate an initial business combination unless we satisfy the \$5,000,001 minimum net tangible assets threshold.

The "as adjusted" information gives effect to the sale of the units in this offering, the sale of the private placement warrants, repayment of an aggregate of \$250,000 in loans made to us by our sponsors and the payment of the estimated expenses of this offering and assumes no exercise of the underwriters' over-allotment option. The "as adjusted" total assets amount includes the \$300,000,000 held in the trust account (which would be \$345,000,000 if the underwriters' over-allotment option is exercised in full) for the benefit of our public stockholders, which amount, less deferred underwriting commissions, will be available to us only upon the completion of our initial business combination within 24 months from the closing of this offering. The "as adjusted" total assets include \$10,500,000 being held in the trust account (which would be \$12,075,000 if the underwriters' over-allotment option is exercised in full) representing deferred underwriting commissions. The underwriters will not be entitled to any interest accrued on the deferred underwriting discounts and commissions.

If no initial business combination is completed within 24 months from the closing of this offering, the proceeds then on deposit in the trust account, including interest earned on the trust account not previously released to us to pay taxes (net of taxes payable and less up to \$100,000 of interest to pay dissolution expenses), will be used to fund the redemption of our public shares. Our initial stockholders, which include our independent directors, have entered into agreements with us in which they have agreed to waive their rights to liquidating distributions from the trust account with respect to their founder shares if we fail to complete our initial business combination within 24 months.

**CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS
AND RISK FACTOR SUMMARY**

Some of the statements contained in this prospectus may constitute “forward-looking statements” for purposes of the federal securities laws. Our forward-looking statements include, but are not limited to, statements regarding our or our management team’s expectations, hopes, beliefs, intentions or strategies regarding the future. In addition, any statements that refer to projections, forecasts or other characterizations of future events or circumstances, including any underlying assumptions, are forward-looking statements. The words “anticipate,” “believe,” “continue,” “could,” “estimate,” “expect,” “intends,” “may,” “might,” “plan,” “possible,” “potential,” “predict,” “project,” “should,” “would” and similar expressions may identify forward-looking statements, but the absence of these words does not mean that a statement is not forward-looking. Forward-looking statements in this prospectus may include, for example, statements about:

- our ability to select an appropriate target business or businesses;
- our ability to complete our initial business combination;
- our expectations around the performance of a prospective target business or businesses;
- our success in retaining or recruiting, or changes required in, our officers, key employees or directors following our initial business combination;
- our officers and directors allocating their time to other businesses and potentially having conflicts of interest with our business or in approving our initial business combination;
- our potential ability to obtain additional financing to complete our initial business combination;
- our pool of prospective target businesses;
- our ability to consummate an initial business combination due to the uncertainty resulting from the recent COVID-19 pandemic;
- the ability of our officers and directors to generate a number of potential investment opportunities;
- our public securities’ potential liquidity and trading;
- the lack of a market for our securities;
- the use of proceeds not held in the trust account or available to us from interest income on the trust account balance;
- the trust account not being subject to claims of third parties; or
- our financial performance following this offering.

The forward-looking statements contained in this prospectus are based on our current expectations and beliefs concerning future developments and their potential effects on us. There can be no assurance that future developments affecting us will be those that we have anticipated. These forward-looking statements involve a number of risks, uncertainties (some of which are beyond our control) or other assumptions that may cause actual results or performance to be materially different from those expressed or implied by these forward-looking statements. These risks and uncertainties include, but are not limited to, those factors described under the heading “*Risk Factors*.” Should one or more of these risks or uncertainties materialize, or should any of our assumptions prove incorrect, actual results may vary in material respects from those projected in these forward-looking statements. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required under applicable securities laws.

RISK FACTORS

An investment in our securities involves a high degree of risk. You should consider carefully all of the risks described below, together with the other information contained in this prospectus, before making a decision to invest in our units. If any of the following events occur, our business, financial condition and operating results may be materially adversely affected. In that event, the trading price of our securities could decline, and you could lose all or part of your investment.

Risks Related to Searching for and Consummating a Business Combination

Our stockholders may not be afforded an opportunity to vote on our proposed initial business combination, which means we may complete our initial business combination even though a majority of our stockholders do not support such a combination.

We may choose not to hold a stockholder vote before we complete our initial business combination if the business combination would not require stockholder approval under applicable law or stock exchange listing requirement. For instance, if we were seeking to acquire a target business where the consideration we were paying in the transaction was all cash, we would not be required to seek stockholder approval to complete such a transaction. Except for as required by applicable law or stock exchange requirement, the decision as to whether we will seek stockholder approval of a proposed business combination or will allow stockholders to sell their shares to us in a tender offer will be made by us, solely in our discretion, and will be based on a variety of factors, such as the timing of the transaction and whether the terms of the transaction would otherwise require us to seek stockholder approval. Accordingly, we may complete our initial business combination even if holders of a majority of our common stock do not approve of the business combination we complete. Please see the section entitled “*Proposed Business — Stockholders May Not Have the Ability to Approve Our Initial Business Combination*” for additional information.

Your only opportunity to affect the investment decision regarding a potential business combination may be limited to the exercise of your right to redeem your shares from us for cash.

At the time of your investment in us, you will not be provided with an opportunity to evaluate the specific merits or risks of our initial business combination. Since our board of directors may complete a business combination without seeking stockholder approval, public stockholders may not have the right or opportunity to vote on the business combination, unless we seek such stockholder vote. Accordingly, your only opportunity to affect the investment decision regarding our initial business combination may be limited to exercising your redemption rights within the period of time (which will be at least 20 business days) set forth in our tender offer documents mailed to our public stockholders in which we describe our initial business combination.

If we seek stockholder approval of our initial business combination, our initial stockholders and management team have agreed to vote in favor of such initial business combination, regardless of how our public stockholders vote.

Our initial stockholders will own 20% of our outstanding common stock immediately following the completion of this offering. Our initial stockholders and management team also may from time to time purchase shares of Class A common stock prior to our initial business combination. Our amended and restated certificate of incorporation will provide that, if we seek stockholder approval of an initial business combination, such initial business combination will be approved if we receive the affirmative vote of a majority of the shares voted at such meeting, including the founder shares. If we seek stockholder approval of our initial business combination, our initial stockholders and management team have agreed to vote in favor of such initial business combination, regardless of how our public stockholders vote. As a result, in addition to our initial stockholders’ founder shares, we would need 11,250,001, or 37.5%, of the 30,000,000 public shares sold in this offering to be voted in favor of an initial business combination in order to have our initial business combination approved (assuming all outstanding shares are voted and the over-allotment option is not exercised). Accordingly, if we seek stockholder approval of our initial business combination, the agreement by our initial stockholders and management team to vote in favor of our initial business combination will increase the likelihood that we will receive the requisite stockholder approval for such initial business combination.

The ability of our public stockholders to redeem their shares for cash may make our financial condition unattractive to potential business combination targets, which may make it difficult for us to enter into a business combination with a target.

We may seek to enter into a business combination transaction agreement with a prospective target business that requires as a closing condition that we have a minimum net worth or a certain amount of cash. If too many public stockholders exercise their redemption rights, we would not be able to meet such closing condition and, as a result, would not be able to proceed with the business combination. Furthermore, in no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 immediately prior to or upon consummation of an initial business combination (so that we are not subject to the SEC's "penny stock" rules). Consequently, if accepting all properly submitted redemption requests would cause our net tangible assets to be less than \$5,000,001 or such greater amount necessary to satisfy a closing condition as described above, we would not proceed with such redemption and the related business combination and may instead search for an alternate business combination. Prospective targets will be aware of these risks and, thus, may be reluctant to enter into a business combination transaction with us.

The ability of our public stockholders to exercise redemption rights with respect to a large number of our shares may not allow us to complete the most desirable business combination or optimize our capital structure.

At the time we enter into an agreement for our initial business combination, we will not know how many stockholders may exercise their redemption rights, and therefore will need to structure the transaction based on our expectations as to the number of shares that will be submitted for redemption. If our initial business combination agreement requires us to use a portion of the cash in the trust account to pay the purchase price, or requires us to have a minimum amount of cash at closing, we will need to reserve a portion of the cash in the trust account to meet such requirements, or arrange for third-party financing. In addition, if a larger number of shares are submitted for redemption than we initially expected, we may need to restructure the transaction to reserve a greater portion of the cash in the trust account or arrange for third-party financing. Raising additional third-party financing may involve dilutive equity issuances or the incurrence of indebtedness at higher than desirable levels. The above considerations may limit our ability to complete the most desirable business combination available to us or optimize our capital structure. The amount of the deferred underwriting commissions payable to the underwriters will not be adjusted for any shares that are redeemed in connection with an initial business combination. The per-share amount we will distribute to stockholders who properly exercise their redemption rights will not be reduced by the deferred underwriting commission and after such redemptions, the amount held in trust will continue to reflect our obligation to pay the entire deferred underwriting commissions.

The ability of our public stockholders to exercise redemption rights with respect to a large number of our shares could increase the probability that our initial business combination would be unsuccessful and that you would have to wait for liquidation in order to redeem your shares.

If our initial business combination agreement requires us to use a portion of the cash in the trust account to pay the purchase price, or requires us to have a minimum amount of cash at closing, the probability that our initial business combination would be unsuccessful is increased. If our initial business combination is unsuccessful, you would not receive your *pro rata* portion of the trust account until we liquidate the trust account. If you are in need of immediate liquidity, you could attempt to sell your shares in the open market; however, at such time our shares may trade at a discount to the *pro rata* amount per share in the trust account. In either situation, you may suffer a material loss on your investment or lose the benefit of funds expected in connection with our redemption until we liquidate or you are able to sell your shares in the open market.

The requirement that we complete our initial business combination within 24 months after the closing of this offering may give potential target businesses leverage over us in negotiating a business combination and may limit the time we have in which to conduct due diligence on potential business combination targets as we approach our dissolution deadline, which could undermine our ability to complete our initial business combination on terms that would produce value for our stockholders.

Any potential target business with which we enter into negotiations concerning a business combination will be aware that we must complete our initial business combination within 24 months from the closing of this offering. Consequently, such target business may obtain leverage over us in negotiating a business combination, knowing

that if we do not complete our initial business combination with that particular target business, we may be unable to complete our initial business combination with any target business. This risk will increase as we get closer to the timeframe described above. In addition, we may have limited time to conduct due diligence and may enter into our initial business combination on terms that we would have rejected upon a more comprehensive investigation.

We may not be able to complete our initial business combination within 24 months after the closing of this offering, in which case we would cease all operations except for the purpose of winding up and we would redeem our public shares and liquidate.

We may not be able to find a suitable target business and complete our initial business combination within 24 months after the closing of this offering. Our ability to complete our initial business combination may be negatively impacted by general market conditions, volatility in the capital and debt markets and the other risks described herein. If we have not completed our initial business combination within such time period, we will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the trust account not previously released to us to pay taxes (net of taxes payable and less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then-outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidation distributions, if any) and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, dissolve and liquidate, subject in the case of clauses (ii) and (iii), to our obligations under Delaware law to provide for claims of creditors.

Our search for a business combination, and any target business with which we ultimately consummate a business combination, may be materially adversely affected by the COVID-19 outbreak or any future pandemic and the status of debt and equity markets.

In December 2019, a novel strain of coronavirus, or COVID-19, was reported to have surfaced, which has and is continuing to spread throughout the world, including the United States. On January 30, 2020, the World Health Organization declared the outbreak of COVID-19 a "Public Health Emergency of International Concern." On January 31, 2020, U.S. Health and Human Services Secretary Alex M. Azar II declared a public health emergency for the United States to aid the U.S. healthcare community in responding to COVID-19, and on March 11, 2020 the World Health Organization characterized the outbreak as a "pandemic." The outbreak of COVID-19 has adversely affected, and other events (such as terrorist attacks, natural disasters or a significant outbreak of other infectious diseases) could adversely affect, economies and financial markets worldwide, business operations and the conduct of commerce generally, and the business of any potential target business with which we consummate a business combination could be, or may already have been, materially and adversely affected. Furthermore, we may be unable to complete a business combination if continued concerns relating to COVID-19 restrict travel, limit the ability to have meetings with potential investors or the target company's personnel or vendors and service providers are unavailable to negotiate and consummate a transaction in a timely manner. The extent to which COVID-19 impacts our search for and ability to consummate a business combination will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of COVID-19 and the actions to contain COVID-19 or treat its impact, among others. If the disruptions posed by COVID-19, any future pandemic or other events (such as terrorist attacks or natural disasters) continue for an extensive period of time, including as a result of increased market volatility, decreased market liquidity or protectionist sentiments or legislation in our target markets, our ability to consummate a business combination, or the operations of a target business with which we ultimately consummate a business combination, may be materially adversely affected. In addition, our ability to consummate a transaction may be dependent on the ability to raise equity and debt financing which may be impacted by COVID-19 and other events.

If we seek stockholder approval of our initial business combination, our initial stockholders, sponsors, directors, executive officers, advisors and their affiliates may elect to purchase shares or public warrants from public stockholders, which may influence a vote on a proposed business combination and reduce the public "float" of our shares of Class A common stock.

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our initial stockholders, directors,

executive officers, advisors or their affiliates may purchase shares or public warrants in privately negotiated transactions or in the open market either prior to or following the completion of our initial business combination, although they are under no obligation to do so. However, other than as expressly stated herein, they have no current commitments, plans or intentions to engage in such transactions and have not formulated any terms or conditions for any such transactions. None of the funds in the trust account will be used to purchase shares or public warrants in such transactions.

In the event that our initial stockholders, sponsors, directors, executive officers, advisors or their affiliates purchase shares in privately negotiated transactions from public stockholders who have already elected to exercise their redemption rights, such selling stockholders would be required to revoke their prior elections to redeem their shares. The purpose of any such purchases of shares could be to vote such shares in favor of the business combination and thereby increase the likelihood of obtaining stockholder approval of the business combination or to satisfy a closing condition in an agreement with a target business that requires us to have a minimum net worth or a certain amount of cash at the closing of our initial business combination, where it appears that such requirement would otherwise not be met. The purpose of any such purchases of public warrants could be to reduce the number of public warrants outstanding or to vote such warrants on any matters submitted to the warrant holders for approval in connection with our initial business combination. Any such purchases of our securities may result in the completion of our initial business combination that may not otherwise have been possible. Any such purchases will be reported pursuant to Section 13 and Section 16 of the Exchange Act to the extent such purchasers are subject to such reporting requirements. See “*Proposed Business — Permitted Purchases of Our Securities*” for a description of how our sponsors, directors, executive officers, advisors or any of their affiliates will select which stockholders to purchase securities from in any private transaction.

In addition, if such purchases are made, the public “float” of our shares of Class A common stock or public warrants and the number of beneficial holders of our securities may be reduced, possibly making it difficult to maintain or obtain the quotation, listing or trading of our securities on a national securities exchange.

If a stockholder fails to receive notice of our offer to redeem our public shares in connection with our initial business combination, or fails to comply with the procedures for tendering its shares, such shares may not be redeemed.

We will comply with the proxy rules or tender offer rules, as applicable, when conducting redemptions in connection with our initial business combination. Despite our compliance with these rules, if a stockholder fails to receive our proxy solicitation or tender offer materials, as applicable, such stockholder may not become aware of the opportunity to redeem its shares. In addition, the proxy solicitation or tender offer materials, as applicable, that we will furnish to holders of our public shares in connection with our initial business combination will describe the various procedures that must be complied with in order to validly redeem or tender public shares. In the event that a stockholder fails to comply with these procedures, its shares may not be redeemed. See “*Proposed Business — Business Strategy — Tendering share Certificates in Connection with Exercising Redemption Rights.*”

Although we have identified general criteria and guidelines that we believe are important in evaluating prospective target businesses, we may enter into our initial business combination with a target that does not meet such criteria and guidelines, and as a result, the target business with which we enter into our initial business combination may not have attributes entirely consistent with our general criteria and guidelines.

Although we have identified general criteria and guidelines for evaluating prospective target businesses, it is possible that a target business with which we enter into our initial business combination will not have all of these positive attributes. If we complete our initial business combination with a target that does not meet some or all of these guidelines, such combination may not be as successful as a combination with a business that does meet all of our general criteria and guidelines. In addition, if we announce a prospective business combination with a target that does not meet our general criteria and guidelines, a greater number of stockholders may exercise their redemption rights, which may make it difficult for us to meet any closing condition with a target business that requires us to have a minimum net worth or a certain amount of cash. In addition, if stockholder approval of the transaction is required by law, or we decide to obtain stockholder approval for business or other legal reasons, it may be more difficult for us to attain stockholder approval of our initial business combination if the target business does not meet our general criteria and guidelines. If we are unable to complete our initial business combination within the required time period, our public stockholders may only receive their pro rata portion of the funds in the trust account that are available for distribution to public stockholders, and our warrants will expire worthless.

We may seek acquisition opportunities in any industry our management chooses (which industries may or may not be outside of our management's areas of expertise).

We may consider a business combination with a target business operating in any industry our management chooses. Although our management will endeavor to evaluate the risks inherent in any particular business combination candidate, we cannot assure you that we will adequately ascertain or assess all of the significant risk factors. We also cannot assure you that an investment in our units will not ultimately prove to be less favorable to investors in this offering than a direct investment, if an opportunity were available, in a business combination candidate.

We are not required to obtain an opinion from an investment banking firm or another independent firm that regularly renders fairness opinions, and consequently, you may have no assurance from an independent source that the price we are paying for the business is fair to our company from a financial point of view.

Unless we complete our initial business combination with an affiliated entity, we are not required to obtain an opinion from an independent investment banking firm or another independent firm that regularly renders fairness opinions that the price we are paying is fair to our company from a financial point of view. If no opinion is obtained, our stockholders will be relying on the judgment of our board of directors, who will determine fair market value based on standards generally accepted by the financial community. Such standards used will be disclosed in our proxy solicitation or tender offer materials, as applicable, related to our initial business combination.

We may issue additional Class A common stock or preferred stock to complete our initial business combination or under an employee incentive plan after completion of our initial business combination. We may also issue Class A common stock upon the conversion of the founder shares at a ratio greater than one-for-one at the time of our initial business combination as a result of the anti-dilution provisions contained therein. Any such issuances would dilute the interest of our stockholders and likely present other risks.

Our amended and restated certificate of incorporation authorizes the issuance of up to 400,000,000 shares of Class A common stock, par value \$0.0001 per share, 50,000,000 Class B common stock, par value \$0.0001 per share, and 1,000,000 shares of preferred stock, \$0.0001 per share. Immediately after this offering, there will be 370,000,000 and 42,500,000 (assuming in each case that the underwriters have not exercised their over-allotment option) authorized but unissued shares of Class A common stock and Class B common stock, respectively, available for issuance which amount does not take into account shares reserved for issuance upon exercise of outstanding warrants or shares issuable upon conversion of the Class B common stock. The Class B common stock is automatically convertible into Class A common stock at the time of our initial business combination initially at a one-for-one ratio but subject to adjustment as set forth herein. Immediately after this offering, there will be no shares of preferred stock issued and outstanding.

We may issue a substantial number of additional shares of Class A common stock or preferred stock to complete our initial business combination or under an employee incentive plan after completion of our initial business combination. We may also issue Class A common stock upon conversion of the Class B common stock at a ratio greater than one-for-one at the time of our initial business combination as a result of the anti-dilution provisions as set forth herein. However, our amended and restated certificate of incorporation will provide, among other things, that prior to our initial business combination, we may not issue additional shares that would entitle the holders thereof to (i) receive funds from the trust account or (ii) vote on any initial business combination. These provisions of our amended and restated certificate of incorporation, like all provisions of our amended and restated certificate of incorporation, may be amended with a stockholder vote. The issuance of additional common or preferred stock:

- may significantly dilute the equity interest of investors in this offering;
- may subordinate the rights of holders of Class A common stock if preferred stock is issued with rights senior to those afforded our Class A common stock;
- could cause a change in control if a substantial number of Class A common stock are issued, which may affect, among other things, our ability to use our net operating loss carry forwards, if any, and could result in the resignation or removal of our present officers and directors; and
- may adversely affect prevailing market prices for our units, Class A common stock and/or warrants.

We may issue notes or other debt securities, or otherwise incur substantial debt, to complete a business combination, which may adversely affect our leverage and financial condition and thus negatively impact the value of our stockholders' investment in us.

Although we have no commitments as of the date of this prospectus to issue any notes or other debt securities, or to otherwise incur outstanding debt following this offering, we may choose to incur substantial debt to complete our initial business combination. We and our officers have agreed that we will not incur any indebtedness unless we have obtained from the lender a waiver of any right, title, interest or claim of any kind in or to the monies held in the trust account. As such, no issuance of debt will affect the per share amount available for redemption from the trust account. Nevertheless, the incurrence of debt could have a variety of negative effects, including:

- default and foreclosure on our assets if our operating revenues after an initial business combination are insufficient to repay our debt obligations;
- acceleration of our obligations to repay the indebtedness even if we make all principal and interest payments when due if we breach certain covenants that require the maintenance of certain financial ratios or reserves without a waiver or renegotiation of that covenant;
- our immediate payment of all principal and accrued interest, if any, if the debt security is payable on demand;
- our inability to obtain necessary additional financing if the debt security contains covenants restricting our ability to obtain such financing while the debt security is outstanding;
- our inability to pay dividends on our Class A common stock;
- using a substantial portion of our cash flow to pay principal and interest on our debt, which will reduce the funds available for dividends on our Class A common stock if declared, expenses, capital expenditures, acquisitions and other general corporate purposes;
- limitations on our flexibility in planning for and reacting to changes in our business and in the industry in which we operate;
- increased vulnerability to adverse changes in general economic, industry and competitive conditions and adverse changes in government regulation; and
- limitations on our ability to borrow additional amounts for expenses, capital expenditures, acquisitions, debt service requirements, execution of our strategy and other purposes and other disadvantages compared to our competitors who have less debt.

We may only be able to complete one business combination with the proceeds of this offering and the sale of the private placement warrants, which will cause us to be solely dependent on a single business which may have a limited number of products or services. This lack of diversification may negatively impact our operations and profitability.

The net proceeds from this offering and the private placement of warrants will provide us with \$289,500,000 (or \$332,925,000 if the underwriters' over-allotment option is exercised in full) that we may use to complete our initial business combination (after taking into account the \$10,500,000, or \$12,075,000 if the over-allotment option is exercised in full, of deferred underwriting commissions being held in the trust account and assuming we use all of the net proceeds of this offering held outside of the trust account prior to completing such business combination).

We may effectuate our initial business combination with a single target business or multiple target businesses simultaneously or within a short period of time. However, we may not be able to effectuate our initial business combination with more than one target business because of various factors, including the existence of complex accounting issues and the requirement that we prepare and file pro forma financial statements with the SEC that present operating results and the financial condition of several target businesses as if they had been operated on a combined basis. By completing our initial business combination with only a single entity, our lack of diversification may subject us to numerous economic, competitive and regulatory developments. Further, we would not be able to diversify our operations or benefit from the possible spreading of risks or offsetting of losses, unlike other entities

which may have the resources to complete several business combinations in different industries or different areas of a single industry. Accordingly, the prospects for our success may be:

- solely dependent upon the performance of a single business, property or asset; or
- dependent upon the development or market acceptance of a single or limited number of products, processes or services.

This lack of diversification may subject us to numerous economic, competitive and regulatory risks, any or all of which may have a substantial adverse impact upon the particular industry in which we may operate subsequent to our initial business combination.

We may attempt to simultaneously complete business combinations with multiple prospective targets, which may hinder our ability to complete our initial business combination and give rise to increased costs and risks that could negatively impact our operations and profitability.

If we determine to simultaneously acquire several businesses that are owned by different sellers, we will need for each of such sellers to agree that our purchase of its business is contingent on the simultaneous closings of the other business combinations, which may make it more difficult for us, and delay our ability, to complete our initial business combination. With multiple business combinations, we could also face additional risks, including additional burdens and costs with respect to possible multiple negotiations and due diligence (if there are multiple sellers) and the additional risks associated with the subsequent assimilation of the operations and services or products of the acquired companies in a single operating business. If we are unable to adequately address these risks, it could negatively impact our profitability and results of operations.

We may attempt to complete our initial business combination with a private company about which little information is available, which may result in a business combination with a company that is not as profitable as we suspected, if at all.

In pursuing our business combination strategy, we may seek to effectuate our initial business combination with a privately held company. By definition, very little public information generally exists about private companies, and we could be required to make our decision on whether to pursue a potential initial business combination on the basis of limited information, which may result in a business combination with a company that is not as profitable as we suspected, if at all.

Our management may not be able to maintain control of a target business after our initial business combination. We cannot provide assurance that, upon loss of control of a target business, new management will possess the skills, qualifications or abilities necessary to profitably operate such business.

We may structure our initial business combination so that the post-transaction company in which our public stockholders own shares will own less than 100% of the equity interests or assets of a target business, but we will only complete such business combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for us not to be required to register as an investment company under the Investment Company Act. We will not consider any transaction that does not meet such criteria. Even if the post-transaction company owns 50% or more of the voting securities of the target, our stockholders prior to our initial business combination may collectively own a minority interest in the post-business combination company, depending on valuations ascribed to the target and us in the business combination. For example, we could pursue a transaction in which we issue a substantial number of new Class A common stock in exchange for all of the outstanding capital stock of a target. In this case, we would acquire a 100% interest in the target. However, as a result of the issuance of a substantial number of new Class A common stock, our stockholders immediately prior to such transaction could own less than a majority of our outstanding Class A common stock subsequent to such transaction. In addition, other minority stockholders may subsequently combine their holdings resulting in a single person or group obtaining a larger share of the company's shares than we initially acquired. Accordingly, this may make it more likely that our management will not be able to maintain control of the target business.

We do not have a specified maximum redemption threshold. The absence of such a redemption threshold may make it possible for us to complete our initial business combination with which a substantial majority of our stockholders do not agree.

Our amended and restated certificate of incorporation does not provide a specified maximum redemption threshold, except that in no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 immediately prior to or upon consummation of an initial business combination (such that we are not subject to the SEC's "penny stock" rules). As a result, we may be able to complete our initial business combination even though a substantial majority of our public stockholders do not agree with the transaction and have redeemed their shares or, if we seek stockholder approval of our initial business combination and do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, have entered into privately negotiated agreements to sell their shares to our sponsors, officers, directors, advisors or any of their affiliates. In the event the aggregate cash consideration we would be required to pay for all Class A common stock that are validly submitted for redemption plus any amount required to satisfy cash conditions pursuant to the terms of the proposed business combination exceed the aggregate amount of cash available to us, we will not complete the business combination or redeem any shares, all Class A common stock submitted for redemption will be returned to the holders thereof, and we instead may search for an alternate business combination.

Because we must furnish our stockholders with target business financial statements, we may lose the ability to complete an otherwise advantageous initial business combination with some prospective target businesses.

The federal proxy rules require that a proxy statement with respect to a vote on a business combination meeting certain financial significance tests include historical and/or pro forma financial statement disclosure in periodic reports. We will include the same financial statement disclosure in connection with our tender offer documents, whether or not they are required under the tender offer rules. These financial statements may be required to be prepared in accordance with, or be reconciled to, accounting principles generally accepted in the United States of America, or GAAP, or international financing reporting standards as issued by the International Accounting Standards Board, or IFRS, depending on the circumstances and the historical financial statements may be required to be audited in accordance with the standards of the Public Company Accounting Oversight Board (United States), or the PCAOB. These financial statement requirements may limit the pool of potential target businesses we may acquire because some targets may be unable to provide such statements in time for us to disclose such statements in accordance with federal proxy rules and complete our initial business combination within the prescribed time frame.

Because we are neither limited to evaluating a target business in a particular industry sector nor have we selected any specific target businesses with which to pursue our initial business combination, you will be unable to ascertain the merits or risks of any particular target business's operations.

We are not limited to evaluating a target business in any particular industry sector (except that we will not, under our amended and restated certificate of incorporation, be permitted to effectuate our initial business combination with another blank check company or similar company with nominal operations) and we have not selected any specific target business with which to pursue our initial business combination. Because we have not yet selected or approached any specific target business with respect to a business combination, there is no basis to evaluate the possible merits or risks of any particular target business's operations, results of operations, cash flows, liquidity, financial condition or prospects. To the extent we complete our initial business combination, we may be affected by numerous risks inherent in the business operations with which we combine. For example, if we combine with a financially unstable business or an entity lacking an established record of sales or earnings, we may be affected by the risks inherent in the business and operations of a financially unstable or a development stage entity. Although our officers and directors will endeavor to evaluate the risks inherent in a particular target business, we cannot assure you that we will properly ascertain or assess all of the significant risk factors or that we will have adequate time to complete due diligence. Furthermore, some of these risks may be outside of our control and leave us with no ability to control or reduce the chances that those risks will adversely impact a target business. We also cannot assure you that an investment in our units will ultimately prove to be more favorable to investors than a direct investment, if such opportunity were available, in a business combination target. Accordingly, any stockholders who choose to remain stockholders following our initial business combination could suffer a reduction in the value of their securities. Such stockholders are unlikely to have a remedy for such reduction in value unless they are able

to successfully claim that the reduction was due to the breach by our officers or directors of a duty of care or other fiduciary duty owed to them, or if they are able to successfully bring a private claim under securities laws that the proxy solicitation or tender offer materials, as applicable, relating to the business combination contained an actionable material misstatement or material omission.

If we pursue a target company with operations or opportunities outside of the United States for our initial business combination, we may face additional burdens in connection with investigating, agreeing to and completing such initial business combination, and if we effect such initial business combination, we would be subject to a variety of additional risks that may negatively impact our operations.

If we pursue a target a company with operations or opportunities outside of the United States for our initial business combination, we would be subject to risks associated with cross-border business combinations, including in connection with investigating, agreeing to and completing our initial business combination, conducting due diligence in a foreign jurisdiction, having such transaction approved by any local governments, regulators or agencies and changes in the purchase price based on fluctuations in foreign exchange rates.

If we effect our initial business combination with such a company, we would be subject to any special considerations or risks associated with companies operating in an international setting, including any of the following:

- costs and difficulties inherent in managing cross-border business operations;
- rules and regulations regarding currency redemption;
- complex corporate withholding taxes on individuals;
- laws governing the manner in which future business combinations may be effected;
- exchange listing and/or delisting requirements;
- tariffs and trade barriers;
- regulations related to customs and import/export matters;
- local or regional economic policies and market conditions;
- unexpected changes in regulatory requirements;
- longer payment cycles;
- tax issues, such as tax law changes and variations in tax laws as compared to the United States;
- currency fluctuations and exchange controls;
- rates of inflation;
- challenges in collecting accounts receivable;
- cultural and language differences;
- employment regulations;
- underdeveloped or unpredictable legal or regulatory systems;
- corruption;
- protection of intellectual property;
- social unrest, crime, strikes, riots and civil disturbances;
- regime changes and political upheaval;
- terrorist attacks and wars; and
- deterioration of political relations with the United States.

We may not be able to adequately address these additional risks. If we were unable to do so, we may be unable to complete such initial business combination, or, if we complete such combination, our operations might suffer, either of which may adversely impact our business, financial condition and results of operations.

Risks Related to Our Securities

We are a blank check company with no operating history and no revenues, and you have no basis on which to evaluate our ability to achieve our business objective.

We are a blank check company with no operating results, and we will not commence operations until obtaining funding through this offering. Because we lack an operating history, you have no basis upon which to evaluate our ability to achieve our business objective of completing our initial business combination. We have no plans, arrangements or understandings with any prospective target business concerning a business combination and may be unable to complete our initial business combination. If we fail to complete our initial business combination, we will never generate any operating revenues.

Our independent registered public accounting firm's report contains an explanatory paragraph that expresses substantial doubt about our ability to continue as a "going concern."

As of June 30, 2020, we had \$74,434 in cash and a working capital deficiency of \$125,566. Further, we have incurred and expect to continue to incur significant costs in pursuit of our acquisition plans. Management's plans to address this need for capital through this offering are discussed in the section of this prospectus titled "Management's Discussion and Analysis of Financial Condition and Results of Operations." Our plans to raise capital and to consummate our initial business combination may not be successful. These factors, among others, raise substantial doubt about our ability to continue as a going concern. The financial statements contained elsewhere in this prospectus do not include any adjustments that might result from our inability to consummate this offering or our inability to continue as a going concern.

You will not have any rights or interests in funds from the trust account, except under certain limited circumstances. Therefore, to liquidate your investment, you may be forced to sell your public shares or warrants, potentially at a loss.

Our public stockholders will be entitled to receive funds from the trust account only upon the earliest to occur of (i) our completion of an initial business combination, and then only in connection with those Class A common stock that such stockholder properly elected to redeem, subject to the limitations described herein, (ii) the redemption of any public shares properly tendered in connection with a stockholder vote to amend our amended and restated certificate of incorporation to modify the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering and (iii) the redemption of our public shares if we have not completed an initial business combination within 24 months from the closing of this offering, subject to applicable law and as further described herein. In no other circumstances will a public stockholder have any right or interest of any kind in the trust account. Holders of warrants will not have any right to the proceeds held in the trust account with respect to the warrants. Accordingly, to liquidate your investment, you may be forced to sell your public shares or warrants, potentially at a loss.

The NYSE may delist our securities from trading on its exchange, which could limit investors' ability to make transactions in our securities and subject us to additional trading restrictions.

We have applied to have our units listed on the NYSE on or promptly after the date of this prospectus and our Class A common stock and warrants on or promptly after their date of separation. We cannot guarantee that our securities will be approved for listing on the NYSE. Although after giving effect to this offering we expect to meet, on a *pro forma* basis, the minimum initial listing standards set forth in the NYSE listing standards, we cannot assure you that our securities will be, or will continue to be, listed on the NYSE in the future or prior to our initial business combination. In order to continue listing our securities on the NYSE prior to our initial business combination, we must maintain certain financial, distribution and share price levels. Generally, we must maintain a minimum market capitalization (generally \$50,000,000) and a minimum number of holders of our securities (generally 300 public holders).

Additionally, in connection with our initial business combination, we will likely be required to demonstrate compliance with the NYSE's initial listing requirements, which are more rigorous than the NYSE's continued listing requirements, in order to continue to maintain the listing of our securities on the NYSE. For instance, our share price would generally be required to be at least \$4.00 per share and our stockholders' equity would generally be required to be at least \$4.0 million. We cannot assure you that we will be able to meet those initial listing requirements at that time.

If the NYSE delists our securities from trading on its exchange and we are not able to list our securities on another national securities exchange, we expect our securities could be quoted on an over-the-counter market. If this were to occur, we could face significant material adverse consequences, including:

- a limited availability of market quotations for our securities;
- reduced liquidity for our securities;
- a determination that our Class A common stock are a "penny stock" which will require brokers trading in our Class A common stock to adhere to more stringent rules and possibly result in a reduced level of trading activity in the secondary trading market for our securities;
- a limited amount of news and analyst coverage; and
- a decreased ability to issue additional securities or obtain additional financing in the future.

The National Securities Markets Improvement Act of 1996, which is a federal statute, prevents or preempts the states from regulating the sale of certain securities, which are referred to as "covered securities." Because we expect that our units and eventually our Class A common stock and warrants will be listed on the NYSE, our units, Class A common stock and warrants will qualify as covered securities under the statute. Although the states are preempted from regulating the sale of our securities, the federal statute does allow the states to investigate companies if there is a suspicion of fraud, and, if there is a finding of fraudulent activity, then the states can regulate or bar the sale of covered securities in a particular case. While we are not aware of a state having used these powers to prohibit or restrict the sale of securities issued by blank check companies, other than the State of Idaho, certain state securities regulators view blank check companies unfavorably and might use these powers, or threaten to use these powers, to hinder the sale of securities of blank check companies in their states. Further, if we were no longer listed on the NYSE, our securities would not qualify as covered securities under the statute and we would be subject to regulation in each state in which we offer our securities.

You will not be entitled to protections normally afforded to investors of many other blank check companies.

Because the net proceeds of this offering and the sale of the private placement warrants are intended to be used to complete an initial business combination with a target business that has not been selected, we may be deemed to be a "blank check" company under the United States securities laws. However, because we will have net tangible assets of at least \$5,000,001 upon the completion of this offering and the sale of the private placement warrants and will file a Current Report on Form 8-K, including an audited balance sheet demonstrating this fact, we are exempt from rules promulgated by the SEC to protect investors in blank check companies, such as Rule 419. Accordingly, investors will not be afforded the benefits or protections of those rules. Among other things, this means our units will be immediately tradable and we will have a longer period of time to complete our initial business combination than do companies subject to Rule 419. Moreover, if this offering were subject to Rule 419, that rule would prohibit the release of any interest earned on funds held in the trust account to us unless and until the funds in the trust account were released to us in connection with our completion of an initial business combination. For a more detailed comparison of our offering to offerings that comply with Rule 419, please see "*Proposed Business — Comparison of This Offering to Those of Blank Check Companies Subject to Rule 419.*"

If we seek stockholder approval of our initial business combination and we do not conduct redemptions pursuant to the tender offer rules, and if you or a "group" of stockholders are deemed to hold in excess of 20% of our Class A common stock, you will lose the ability to redeem all such shares in excess of 20% of our Class A common stock.

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated certificate of incorporation will provide that a public stockholder, together with any affiliate of such stockholder or

[Table of Contents](#)

any other person with whom such stockholder is acting in concert or as a “group” (as defined under Section 13 of the Exchange Act), will be restricted from seeking redemption rights with respect to more than an aggregate of 20% of the shares sold in this offering without our prior consent, which we refer to as the “Excess Shares.” However, we would not be restricting our stockholders’ ability to vote all of their shares (including Excess Shares) for or against our initial business combination. Your inability to redeem the Excess Shares will reduce your influence over our ability to complete our initial business combination and you could suffer a material loss on your investment in us if you sell Excess Shares in open-market transactions. Additionally, you will not receive redemption distributions with respect to the Excess Shares if we complete our initial business combination. As a result, you will continue to hold that number of shares exceeding 20% and, in order to dispose of such shares, would be required to sell your shares in open-market transactions, potentially at a loss.

Because of our limited resources and the significant competition for business combination opportunities, it may be more difficult for us to complete our initial business combination. If we are unable to complete our initial business combination, our public stockholders may receive only their pro rata portion of the funds in the trust account that are available for distribution to public stockholders, and our warrants will expire worthless.

We expect to encounter intense competition from other entities having a business objective similar to ours, including private investors (which may be individuals or investment partnerships), other blank check companies and other entities, domestic and international, competing for the types of businesses we intend to acquire. Many of these individuals and entities are well-established and have extensive experience in identifying and effecting, directly or indirectly, acquisitions of companies operating in or providing services to various industries. Many of these competitors possess greater technical, human and other resources or more local industry knowledge than we do and our financial resources will be relatively limited when contrasted with those of many of these competitors. While we believe there are numerous target businesses we could potentially acquire with the net proceeds of this offering and the sale of the private placement warrants, our ability to compete with respect to the acquisition of certain target businesses that are sizable will be limited by our available financial resources. This inherent competitive limitation gives others an advantage in pursuing the acquisition of certain target businesses. Furthermore, we are obligated to offer holders of our public shares the right to redeem their shares for cash at the time of our initial business combination in conjunction with a stockholder vote or via a tender offer. Target companies will be aware that this may reduce the resources available to us for our initial business combination. Any of these obligations may place us at a competitive disadvantage in successfully negotiating a business combination. If we are unable to complete our initial business combination, our public stockholders may receive only their *pro rata* portion of the funds in the trust account that are available for distribution to public stockholders, and our warrants will expire worthless.

If the net proceeds of this offering not being held in the trust account, together with the interest that may be released to us, are insufficient to allow us to operate for at least the next 24 months, it could limit the amount available to fund our search for a target business or businesses and complete our initial business combination, and we will depend on loans from our sponsors or management team to fund our search and to complete our initial business combination.

Of the net proceeds of this offering, only \$1,000,000 will be available to us initially outside the trust account to fund our working capital requirements. We believe that, upon closing of this offering, such funds will be sufficient to allow us to operate for at least the next 24 months; however, we cannot assure you that our estimate is accurate.

In the event that our offering expenses (not including underwriting commissions) exceed our estimate of \$850,000, we may fund such excess with funds not to be held in the trust account. In such case, the amount of funds we intend to be held outside the trust account would decrease by a corresponding amount. Conversely, in the event that the offering expenses (not including underwriting commissions) are less than our estimate of \$850,000, the amount of funds we intend to be held outside the trust account would increase by a corresponding amount. The amount held in the trust account will not be impacted as a result of such increase or decrease. If we are required to seek additional capital, we would need to borrow funds from our sponsors, management team or other third parties to operate or may be forced to liquidate. Neither our sponsors, members of our management team nor any of their affiliates is under any obligation to advance funds to us in such circumstances. Any such advances would be repaid only from funds held outside the trust account or from funds released to us upon completion of our initial business combination. Up to \$2,000,000 of such loans may be convertible into warrants of the post-business combination entity at a price of \$1.50 per warrant at the option of the lender. The warrants would be identical to the private placement warrants. Prior to the completion of our initial business combination, we do not expect to seek loans from

parties other than our sponsors, members of our management team or an affiliate of our sponsors or members of our management team as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our trust account. If we are unable to complete our initial business combination because we do not have sufficient funds available to us, we will be forced to cease operations and liquidate the trust account. Consequently, our public stockholders may only receive an estimated \$10.00 per share, or possibly less, on our redemption of our public shares, and our warrants will expire worthless.

Subsequent to our completion of our initial business combination, we may be required to take write-downs or write-offs, restructuring and impairment or other charges that could have a significant negative effect on our financial condition, results of operations and our share price, which could cause you to lose some or all of your investment.

Even if we conduct due diligence on a target business with which we combine, we cannot assure you that this diligence will surface all material issues with a particular target business, that it would be possible to uncover all material issues through a customary amount of due diligence, or that factors outside of the target business and outside of our control will not later arise. As a result of these factors, we may be forced to later write-down or write-off assets, restructure our operations, or incur impairment or other charges that could result in our reporting losses. Even if our due diligence successfully identifies certain risks, unexpected risks may arise and previously known risks may materialize in a manner not consistent with our preliminary risk analysis. Even though these charges may be non-cash items and not have an immediate impact on our liquidity, the fact that we report charges of this nature could contribute to negative market perceptions about us or our securities. In addition, charges of this nature may cause us to violate net worth or other covenants to which we may be subject as a result of assuming pre-existing debt held by a target business or by virtue of our obtaining post-combination debt financing. Accordingly, any stockholders who choose to remain stockholders following the business combination could suffer a reduction in the value of their securities. Such stockholders are unlikely to have a remedy for such reduction in value unless they are able to successfully claim that the reduction was due to the breach by our officers or directors of a duty of care or other fiduciary duty owed to them, or if they are able to successfully bring a private claim under securities laws that the proxy solicitation or tender offer materials, as applicable, relating to the business combination contained an actionable material misstatement or material omission.

If third parties bring claims against us, the proceeds held in the trust account could be reduced and the per-share redemption amount received by stockholders may be less than \$10.00 per share.

Our placing of funds in the trust account may not protect those funds from third-party claims against us. Although we will seek to have all vendors, service providers, prospective target businesses and other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to any monies held in the trust account for the benefit of our public stockholders, such parties may not execute such agreements, or even if they execute such agreements, they may not be prevented from bringing claims against the trust account, including, but not limited to, fraudulent inducement, breach of fiduciary responsibility or other similar claims, as well as claims challenging the enforceability of the waiver, in each case in order to gain advantage with respect to a claim against our assets, including the funds held in the trust account. If any third party refuses to execute an agreement waiving such claims to the monies held in the trust account, our management will perform an analysis of the alternatives available to it and will only enter into an agreement with a third party that has not executed a waiver if management believes that such third party's engagement would be significantly more beneficial to us than any alternative.

Examples of possible instances where we may engage a third party that refuses to execute a waiver include the engagement of a third-party consultant whose particular expertise or skills are believed by management to be significantly superior to those of other consultants that would agree to execute a waiver or in cases where management is unable to find a service provider willing to execute a waiver. In addition, there is no guarantee that such entities will agree to waive any claims they may have in the future as a result of, or arising out of, any negotiations, contracts or agreements with us and will not seek recourse against the trust account for any reason. Upon redemption of our public shares, if we have not completed our initial business combination within the prescribed timeframe, or upon the exercise of a redemption right in connection with our initial business combination, we will be required to provide for payment of claims of creditors that were not waived that may be brought against us within the ten years following redemption. Accordingly, the per-share redemption amount received by public stockholders could be less than the \$10.00 per public share initially held in the trust account, due to claims of such

creditors. Pursuant to a letter agreement the form of which is filed as an exhibit to the registration statement of which this prospectus forms a part, our sponsors have agreed that they will be liable jointly and severally to us if and to the extent any claims by a third party (other than our independent public accountants) for services rendered or products sold to us, or a prospective target business with which we have entered into a written letter of intent, confidentiality or other similar agreement or business combination agreement, reduce the amount of funds in the trust account to below the lesser of (i) \$10.00 per public share and (ii) the actual amount per share held in the trust account as of the date of the liquidation of the trust account, if less than \$10.00 per share due to reductions in the value of the trust assets, less taxes payable; provided that such liability will not apply to any claims by a third party or prospective target business who executed a waiver of any and all rights to the monies held in the trust account (whether or not such waiver is enforceable), nor will it apply to any claims under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. However, we have not asked our sponsors to reserve for such indemnification obligations and we believe our sponsors' only assets are our securities. Therefore, we think it is unlikely that our sponsors would be able to satisfy those obligations. None of our other officers or directors will indemnify us for claims by third parties including, without limitation, claims by vendors and prospective target businesses.

The securities in which we invest the proceeds held in the trust account could bear a negative rate of interest, which could reduce the interest income available for payment of taxes or reduce the value of the assets held in trust such that the per-share redemption amount received by stockholders may be less than \$10.00 per share.

The net proceeds of this offering and certain proceeds from the sale of the private placement warrants will be held in the trust account. The proceeds held in the trust account may only be invested in direct U.S. government treasury obligations with a maturity of 180 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations. While short-term U.S. treasury obligations currently yield a positive rate of interest, they have briefly yielded negative interest rates in recent years. Central banks in Europe and Japan pursued interest rates below zero in recent years, and the Open Market Committee of the Federal Reserve has not ruled out the possibility that it may in the future adopt similar policies in the United States. In the event of very low or negative yields, the amount of interest income (which we are permitted to use for payment of our tax obligations and up to \$100,000 of dissolution expenses) would be reduced. In the event that we have not completed our initial business combination or make certain amendments to our amended and restated certificate of incorporation, our public stockholders are entitled to receive their *pro rata* share of the proceeds held in the trust account, plus any interest income. If the balance of the trust account is reduced below \$300.0 million as a result of negative interest rates, the amount of funds in the trust account available for distribution to our public stockholders may be reduced below \$10.00 per share.

If, after we distribute the proceeds in the trust account to our public stockholders, we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, a bankruptcy court may seek to recover such proceeds, and the members of our board of directors may be viewed as having breached their fiduciary duties to our creditors, thereby exposing the members of our board of directors and us to claims of punitive damages.

If, after we distribute the proceeds in the trust account to our public stockholders, we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, any distributions received by stockholders could be viewed under applicable debtor/creditor and/or bankruptcy laws as either a "preferential transfer" or a "fraudulent conveyance." As a result, a bankruptcy court could seek to recover some or all amounts received by our stockholders. In addition, our board of directors may be viewed as having breached its fiduciary duty to our creditors and/or having acted in bad faith, thereby exposing itself and us to claims of punitive damages, by paying public stockholders from the trust account prior to addressing the claims of creditors.

If, before distributing the proceeds in the trust account to our public stockholders, we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, the claims of creditors in such proceeding may have priority over the claims of our stockholders and the per-share amount that would otherwise be received by our stockholders in connection with our liquidation may be reduced.

If, before distributing the proceeds in the trust account to our public stockholders, we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, the proceeds held in the trust account could be subject to applicable bankruptcy law, and may be included in our bankruptcy estate and subject to the claims of third parties with priority over the claims of our stockholders. To the extent any bankruptcy claims deplete the trust account, the per-share amount that would otherwise be received by our stockholders in connection with our liquidation may be reduced.

If we are deemed to be an investment company under the Investment Company Act, we may be required to institute burdensome compliance requirements and our activities may be restricted, which may make it difficult for us to complete our initial business combination.

If we are deemed to be an investment company under the Investment Company Act, our activities may be restricted, including:

- restrictions on the nature of our investments; and
- restrictions on the issuance of securities,

each of which may make it difficult for us to complete our initial business combination. In addition, we may have imposed upon us burdensome requirements, including:

- registration as an investment company;
- adoption of a specific form of corporate structure; and
- reporting, record keeping, voting, proxy and disclosure requirements and other rules and regulations.

In order not to be regulated as an investment company under the Investment Company Act, unless we can qualify for an exclusion, we must ensure that we are engaged primarily in a business other than investing, reinvesting or trading of securities and that our activities do not include investing, reinvesting, owning, holding or trading “investment securities” constituting more than 40% of our assets (exclusive of U.S. government securities and cash items) on an unconsolidated basis. Our business will be to identify and complete a business combination and thereafter to operate the post-transaction business or assets for the long term. We do not plan to buy businesses or assets with a view to resale or profit from their resale. We do not plan to buy unrelated businesses or assets or to be a passive investor.

We do not believe that our anticipated principal activities will subject us to the Investment Company Act. To this end, the proceeds held in the trust account may only be invested in United States “government securities” within the meaning of Section 2(a)(16) of the Investment Company Act having a maturity of 180 days or less or in money market funds meeting certain conditions under Rule 2a-7 promulgated under the Investment Company Act which invest only in direct U.S. government treasury obligations. Pursuant to the trust agreement, the trustee is not permitted to invest in other securities or assets. By restricting the investment of the proceeds to these instruments, and by having a business plan targeted at acquiring and growing businesses for the long term (rather than on buying and selling businesses in the manner of a merchant bank or private equity fund), we intend to avoid being deemed an “investment company” within the meaning of the Investment Company Act. This offering is not intended for persons who are seeking a return on investments in government securities or investment securities. The trust account is intended as a holding place for funds pending the earliest to occur of either: (i) the completion of our initial business combination; (ii) the redemption of any public shares properly tendered in connection with a stockholder vote to amend our amended and restated certificate of incorporation to modify the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering; or (iii) absent an initial business combination within 24 months from the closing of this offering, our return of the funds held in the trust account to our public stockholders as part of our redemption

of the public shares. If we do not invest the proceeds as discussed above, we may be deemed to be subject to the Investment Company Act. If we were deemed to be subject to the Investment Company Act, compliance with these additional regulatory burdens would require additional expenses for which we have not allotted funds and may hinder our ability to complete a business combination. If we are unable to complete our initial business combination, our public stockholders may only receive their *pro rata* portion of the funds in the trust account that are available for distribution to public stockholders, and our warrants will expire worthless.

Changes in laws or regulations, or a failure to comply with any laws and regulations, may adversely affect our business, including our ability to negotiate and complete our initial business combination, and results of operations.

We are subject to laws and regulations enacted by national, regional and local governments. In particular, we will be required to comply with certain SEC and other legal requirements. Compliance with, and monitoring of, applicable laws and regulations may be difficult, time consuming and costly. Those laws and regulations and their interpretation and application may also change from time to time and those changes could have a material adverse effect on our business, investments and results of operations. In addition, a failure to comply with applicable laws or regulations, as interpreted and applied, could have a material adverse effect on our business, including our ability to negotiate and complete our initial business combination, and results of operations.

If we are unable to consummate our initial business combination within 24 months from the closing of this offering, our public stockholders may be forced to wait beyond such to 24 months before redemption from our trust account.

If we are unable to consummate our initial business combination within 24 months from the closing of this offering, the proceeds then on deposit in the trust account, including interest earned on the trust account not previously released to us to pay taxes (net of taxes payable and less up to \$100,000 of interest to pay dissolution expenses), will be used to fund the redemption of our public shares, as further described herein. Any redemption of public stockholders from the trust account will be effected automatically by function of our amended and restated certificate of incorporation prior to any voluntary winding up. If we are required to wind-up, liquidate the trust account and distribute such amount therein, *pro rata*, to our public stockholders, as part of any liquidation process, such winding up, liquidation and distribution must comply with the applicable provisions of the DGCL. In that case, investors may be forced to wait beyond 24 months from the closing of this offering before the redemption proceeds of our trust account become available to them, and they receive the return of their *pro rata* portion of the proceeds from our trust account. We have no obligation to return funds to investors prior to the date of our redemption or liquidation unless we consummate our initial business combination prior thereto and only then in cases where investors have sought to redeem their Class A common stock. Only upon our redemption or any liquidation will public stockholders be entitled to distributions if we are unable to complete our initial business combination.

We may not hold an annual meeting of stockholders until after the consummation of our initial business combination and you will not be entitled to any of the corporate protections provided by such a meeting.

In accordance with NYSE corporate governance requirements, we are not required to hold an annual meeting until one year after our first year end following our listing on the NYSE. We may not hold an annual meeting of stockholders until after we consummate our initial business combination and thus may not be in compliance with Section 211(b) of the DGCL, which requires an annual meeting of stockholders be held for the purposes of electing directors in accordance with a company's bylaws unless such election is made by written consent in lieu of such a meeting. Therefore, if our stockholders want us to hold an annual meeting prior to our consummation of our initial business combination, they may attempt to force us to hold one by submitting an application to the Delaware Court of Chancery in accordance with Section 211(c) of the DGCL. Additionally, only holders of Class B common stock will have the right to vote on the election of directors and to remove directors prior to our initial business combination, and such rights may only be amended by a resolution passed by the holders of a majority of our Class B common stock. Accordingly, you may not have any say in the management of our company prior to the consummation of an initial business combination.

We are not registering the Class A common stock issuable upon exercise of the warrants under the Securities Act or any state securities laws at this time, and such registration may not be in place when an investor desires to exercise warrants, thus precluding such investor from being able to exercise its warrants and causing such warrants to expire worthless.

We are not registering the Class A common stock issuable upon exercise of the warrants under the Securities Act or any state securities laws at this time. However, we have agreed that as soon as practicable, but in no event later than 20 business days after the closing of our initial business combination, we will use our commercially reasonable efforts to file with the SEC and have, within 60 business days following our initial business combination to have declared effective, a registration statement covering the Class A common stock issuable upon exercise of the warrants and to maintain a current prospectus relating to those Class A common stock until the warrants expire or are redeemed, as specified in the warrant agreement. We cannot assure you that we will be able to do so if, for example, any facts or events arise which represent a fundamental change in the information set forth in the registration statement or prospectus, the financial statements contained or incorporated by reference therein are not current or correct or the SEC issues a stop order. If the shares issuable upon exercise of the warrants are not registered under the Securities Act, we will be required to permit holders to exercise their warrants on a cashless basis. However, no warrant will be exercisable for cash or on a cashless basis, and we will not be obligated to issue any shares to holders seeking to exercise their warrants, unless the issuance of the shares upon such exercise is registered or qualified under the securities laws of the state of the exercising holder, unless an exemption is available. In no event will we be required to net cash settle any warrant, or issue securities or other compensation in exchange for the warrants in the event that we are unable to register or qualify the shares underlying the warrants under the Securities Act or applicable state securities laws. If the issuance of the shares upon exercise of the warrants is not so registered or qualified or exempt from registration or qualification, the holder of such warrant will not be entitled to exercise such warrant and such warrant may have no value and expire worthless. In such event, holders who acquired their warrants as part of a purchase of units will have paid the full unit purchase price solely for the Class A common stock included in the units. If and when the warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying securities for sale under all applicable state securities laws.

The private placement warrants may be exercised at a time when the public warrants may not be exercised.

Once the private placement warrants become exercisable, such warrants may immediately be exercised on a cashless basis, at the holder's option, so long as they are held by the purchasers or their permitted transferees. The public warrants, however, will only be exercisable on a cashless basis at the option of the holders if we fail to register the shares issuable upon exercise of the warrants under the Securities Act within 60 days following the closing of our initial business combination. Accordingly, it is possible that the holders of the private placement warrants could exercise such warrants at a time when the holders of public warrants could not exercise their warrants.

The grant of registration rights to our initial stockholders and holders of our private placement warrants may make it more difficult to complete our initial business combination, and the future exercise of such rights may adversely affect the market price of our Class A common stock.

Pursuant to an agreement to be entered into concurrently with the issuance and sale of the securities in this offering, our initial stockholders and their permitted transferees can demand that we register the Class A common stock into which founder shares are convertible, holders of our private placement warrants and their permitted transferees can demand that we register the private placement warrants and the Class A common stock issuable upon exercise of the private placement warrants and holders of warrants that may be issued upon conversion of working capital loans may demand that we register such warrants or the Class A common stock issuable upon conversion of such warrants. The registration rights will be exercisable with respect to the founder shares and the private placement warrants and the Class A common stock issuable upon exercise of such private placement warrants. We will bear the cost of registering these securities. The registration and availability of such a significant number of securities for trading in the public market may have an adverse effect on the market price of our Class A common stock. In addition, the existence of the registration rights may make our initial business combination more costly or difficult to conclude. This is because the stockholders of the target business may increase the equity stake they seek in the combined entity or ask for more cash consideration to offset the negative impact on the market price of our

Class A common stock that is expected when the securities owned by our initial stockholders, holders of our private placement warrants or their respective permitted transferees are registered.

A provision of our warrant agreement may make it more difficult for us to consummate an initial business combination.

If (x) we issue additional shares of Class A common stock or equity-linked securities for capital raising purposes in connection with the closing of our initial business combination at an issue price or effective issue price of less than \$9.20 per share of Class A common stock (with such issue price or effective issue price to be determined in good faith by our board of directors and, in the case of any such issuance to our initial stockholders or their affiliates, without taking into account any founder shares held by our initial stockholders or such affiliates, as applicable, prior to such issuance), (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of our initial business combination on the date of the consummation of our initial business combination (net of redemptions) and (z) the volume-weighted average trading price of our Class A common stock during the ten-trading day period starting on the trading day after the day on which we consummate our initial business combination, or the market value, is below \$9.20 per share, then the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to 115% of the higher of the market value and the newly issued price and the \$18.00 per share redemption trigger price described below under “Description of Securities — Warrants — Public Warrants — Redemption of Warrants When the Price Per Share of Class A Common Stock Equals or Exceeds \$18.00” will be adjusted (to the nearest cent) to be equal to 180% of the higher of the market value and the newly issued price, and the \$10.00 per share redemption trigger price will be adjusted (to the nearest cent) to be equal to the higher of the market value and the newly issued price. This may make it more difficult for us to consummate an initial business combination with a target business.

Unlike most other similarly structured blank check companies, our initial stockholders will receive additional shares of Class A common stock if we issue shares to consummate an initial business combination.

The founder shares will automatically convert into Class A common stock on the first business day following the consummation of our initial business combination on a one-for-one basis, subject to adjustment as provided herein. In the case that additional shares of Class A common stock, or equity-linked securities convertible or exercisable for Class A common stock, are issued or deemed issued in excess of the amounts offered in this prospectus and related to the closing of our initial business combination, the ratio at which founder shares will convert into Class A common stock will be adjusted (unless the holders of a majority of the outstanding shares of Class B common stock agree to waive such adjustment with respect to any such issuance or deemed issuance) so that the number of shares of Class A common stock issuable upon conversion of all founder shares will equal, in the aggregate, 20% of the sum of our common stock outstanding upon completion of this offering plus the number of shares of Class A common stock and equity-linked securities issued or deemed issued in connection with our initial business combination (net of redemptions), excluding any shares of Class A common stock or equity-linked securities issued, or to be issued, to any seller in our initial business combination and any private placement warrants issued to our sponsors and independent directors. This is different than most other similarly structured blank check companies in which the initial stockholders will only be issued an aggregate of 20% of the total number of shares to be outstanding prior to our initial business combination.

Resources could be wasted in researching acquisitions that are not completed, which could materially adversely affect subsequent attempts to locate and acquire or merge with another business. If we are unable to complete our initial business combination within the required time period, our public stockholders may only receive their pro rata portion of the funds in the trust account that are available for distribution to public stockholders, and our warrants will expire worthless.

We anticipate that the investigation of each specific target business and the negotiation, drafting and execution of relevant agreements, disclosure documents and other instruments will require substantial management time and attention and substantial costs for accountants, attorneys and others. If we decide not to complete a specific initial business combination, the costs incurred up to that point for the proposed transaction likely would not be recoverable. Furthermore, if we reach an agreement relating to a specific target business, we may fail to complete our initial business combination for any number of reasons including those beyond our control. Any such event will result in a loss to us of the related costs incurred which could materially adversely affect subsequent attempts to

locate and acquire or merge with another business. If we are unable to complete our initial business combination within the required time period, our public stockholders may only receive their *pro rata* portion of the funds in the trust account that are available for distribution to public stockholders, and our warrants will expire worthless.

Our sponsors contributed \$25,000, or approximately \$0.003 per founder share, and, accordingly, you will experience immediate and substantial dilution from the purchase of our Class A common stock.

The difference between the public offering price per share (allocating all of the unit purchase price to the share of Class A common stock and none to the warrant included in the unit) and the pro forma net tangible book value per share of our Class A common stock after this offering constitutes the dilution to you and the other investors in this offering. Our sponsors acquired the founder shares at a nominal price, significantly contributing to this dilution. Upon closing of this offering, and assuming no value is ascribed to the warrants included in the units, you and the other public stockholders will incur an immediate and substantial dilution of approximately 94.4% (or \$9.44 per share), the difference between the pro forma net tangible book value per share after this offering of \$0.56 and the initial offering price of \$10.00 per unit. This dilution would increase to the extent that the anti-dilution provisions of the founder shares result in the issuance of Class A common stock on a greater than one-for-one basis upon conversion of the founder shares at the time of our initial business combination. In addition, because of the anti-dilution protection in the founder shares, any equity or equity-linked securities issued in connection with our initial business combination would be disproportionately dilutive to our Class A common stock.

We may amend the terms of the warrants in a manner that may be adverse to holders of public warrants with the approval by the holders of at least 50% of the then-outstanding public warrants. As a result, the exercise price of your warrants could be increased, the exercise period could be shortened and the number of shares of our Class A common stock purchasable upon exercise of a warrant could be decreased, all without your approval.

Our warrants will be issued in registered form under a warrant agreement between Continental Stock Transfer & Trust Company, as warrant agent, and us. The warrant agreement provides that the terms of the warrants may be amended without the consent of any holder to cure any ambiguity or correct any defective provision, but requires the approval by the holders of at least 50% of the then-outstanding public warrants to make any change that adversely affects the interests of the registered holders of public warrants. Accordingly, we may amend the terms of the public warrants in a manner adverse to a holder if holders of at least 50% of the then-outstanding public warrants approve of such amendment. To do so, we would need approval from 5,000,001 public warrants to amend the terms of the warrants. Although our ability to amend the terms of the public warrants with the consent of at least 50% of the then-outstanding public warrants is unlimited, examples of such amendments could be amendments to, among other things, increase the exercise price of the warrants, convert the warrants into cash, shorten the exercise period or decrease the number of Class A common stock purchasable upon exercise of a warrant.

We may redeem your unexpired warrants prior to their exercise at a time that is disadvantageous to you, thereby making your warrants worthless.

We have the ability to redeem outstanding warrants at any time after they become exercisable and prior to their expiration, at a price of \$0.01 per warrant, provided that the closing price of our Class A common stock equals or exceeds \$18.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within a 30 trading-day period ending on the third trading day prior to proper notice of such redemption, provided that on the date we give notice of redemption. If and when the warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying securities for sale under all applicable state securities laws. Redemption of the outstanding warrants could force you to (i) exercise your warrants and pay the exercise price therefor at a time when it may be disadvantageous for you to do so, (ii) sell your warrants at the then-current market price when you might otherwise wish to hold your warrants or (iii) accept the nominal redemption price which, at the time the outstanding warrants are called for redemption, is likely to be substantially less than the market value of your warrants. None of the private placement warrants will be redeemable by us (except as described below under “*Description of Securities — Warrants — Public Warrants — Redemption of Warrants When the Price Per Share of Class A Common Stock Equals or Exceeds \$10.00*”) so long as they are held by the sponsors and independent directors or their permitted transferees.

In addition, we may redeem your warrants at any time after they become exercisable and prior to their expiration at a price of \$0.10 per warrant upon a minimum of 30 days' prior written notice of redemption, provided that holders will be able to exercise their warrants prior to redemption for a number of Class A common stock determined based on the redemption date and the fair market value of our Class A common stock. Please see "*Description of Securities — Warrants — Public Warrants — Redemption of Warrants When the Price Per Share of Class A Common Stock Equals or Exceeds \$10.00.*" Any such redemption may have similar consequences to a cash redemption described above. In addition, such redemption may occur at a time when the warrants are "out of the money," in which case you would lose any potential embedded value from a subsequent increase in the value of the Class A common stock had your warrants remained outstanding, and may not compensate the holders for the value of the warrants, including because the number of common stock received is capped at 0.361 shares of our Class A common stock per warrant (subject to adjustment) irrespective of the remaining life of the warrants.

Our warrants may have an adverse effect on the market price of our Class A common stock and make it more difficult to effectuate our initial business combination.

We will be issuing warrants to purchase 10,000,000 of our Class A common stock (or up to 11,500,000 Class A common stock if the underwriters' over-allotment option is exercised in full) as part of the units offered by this prospectus and, simultaneously with the closing of this offering, we will be issuing in a private placement an aggregate of 5,233,333 private placement warrants (or 5,833,333 if the underwriters' over-allotment option is exercised in full), each exercisable to purchase one share of Class A common stock at \$11.50 per share. In addition, if our sponsors make any working capital loans, they may convert those loans into up to an additional 1,333,333 private placement warrants, at the price of \$1.50 per warrant. To the extent we issue common stock to effectuate a business transaction, the potential for the issuance of a substantial number of additional Class A common stock upon exercise of these warrants could make us a less attractive acquisition vehicle to a target business. Such warrants, when exercised, will increase the number of issued and outstanding Class A common stock and reduce the value of the Class A common stock issued to complete the business transaction. Therefore, our warrants may make it more difficult to effectuate a business transaction or increase the cost of acquiring the target business.

Because each unit contains one-third of one warrant and only a whole warrant may be exercised, the units may be worth less than units of other blank check companies.

Each unit contains one-third of one warrant. Pursuant to the warrant agreement, no fractional warrants will be issued upon separation of the units, and only whole units will trade. If, upon exercise of the warrants, a holder would be entitled to receive a fractional interest in a share, we will, upon exercise, round down to the nearest whole number the number of Class A common stock to be issued to the warrant holder. This is different from other offerings similar to ours whose units include one share of common stock and one warrant to purchase one whole share. We have established the components of the units in this way in order to reduce the dilutive effect of the warrants upon completion of a business combination since the warrants will be exercisable in the aggregate for one-third of the number of shares compared to units that each contain a whole warrant to purchase one share, thus making us, we believe, a more attractive merger partner for target businesses. Nevertheless, this unit structure may cause our units to be worth less than if it included a warrant to purchase one whole share.

The determination of the offering price of our units and the size of this offering is more arbitrary than the pricing of securities and size of an offering of an operating company in a particular industry. You may have less assurance, therefore, that the offering price of our units properly reflects the value of such units than you would have in a typical offering of an operating company.

Prior to this offering there has been no public market for any of our securities. The public offering price of the units and the terms of the warrants were negotiated between us and the underwriters. In determining the size of this offering, management held customary organizational meetings with representatives of the underwriters, both prior to our inception and thereafter, with respect to the state of capital markets, generally, and the amount the underwriters believed they reasonably could raise on our behalf. Factors considered in determining the size of this offering, prices and terms of the units, including the Class A common stock and warrants underlying the units, include:

- the history and prospects of companies whose principal business is the acquisition of other companies;
- prior offerings of those companies;

- our prospects for acquiring an operating business at attractive values;
- a review of debt to equity ratios in leveraged transactions;
- our capital structure;
- an assessment of our management and their experience in identifying operating companies;
- general conditions of the securities markets at the time of this offering; and
- other factors as were deemed relevant.

Although these factors were considered, the determination of our offering price is more arbitrary than the pricing of securities of an operating company in a particular industry since we have no historical operations or financial results.

There is currently no market for our securities and a market for our securities may not develop, which would adversely affect the liquidity and price of our securities.

There is currently no market for our securities. Stockholders therefore have no access to information about prior market history on which to base their investment decision. Following this offering, the price of our securities may vary significantly due to one or more potential business combinations and general market or economic conditions. Furthermore, an active trading market for our securities may never develop or, if developed, it may not be sustained. You may be unable to sell your securities unless a market can be established and sustained.

We are an emerging growth company and a smaller reporting company within the meaning of the Securities Act, and if we take advantage of certain exemptions from disclosure requirements available to emerging growth companies or smaller reporting companies, this could make our securities less attractive to investors and may make it more difficult to compare our performance with other public companies.

We are an “emerging growth company” within the meaning of the Securities Act, as modified by the JOBS Act, and we may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved. As a result, our stockholders may not have access to certain information they may deem important. We could be an emerging growth company for up to five years, although circumstances could cause us to lose that status earlier, including if the market value of our Class A common stock held by non-affiliates exceeds \$700 million as of any June 30 before that time, in which case we would no longer be an emerging growth company as of the following December 31. We cannot predict whether investors will find our securities less attractive because we will rely on these exemptions. If some investors find our securities less attractive as a result of our reliance on these exemptions, the trading prices of our securities may be lower than they otherwise would be, there may be a less active trading market for our securities and the trading prices of our securities may be more volatile.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such an election to opt out is irrevocable. We have elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, we, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of our financial statements with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

Additionally, we are a “smaller reporting company” as defined in Item 10(f)(1) of Regulation S-K. Smaller reporting companies may take advantage of certain reduced disclosure obligations, including, among other things, providing only two years of audited financial statements. We will remain a smaller reporting company until the last day of the fiscal year in which (1) the market value of our Class A common stock held by non-affiliates exceeds \$250 million as of the end of that fiscal year’s second fiscal quarter, or (2) our annual revenues exceeded \$100 million during such completed fiscal year and the market value of our Class A common stock held by non-affiliates exceeds \$700 million as of the end of that fiscal year’s second fiscal quarter. To the extent we take advantage of such reduced disclosure obligations, it may also make comparison of our financial statements with other public companies difficult or impossible.

Compliance obligations under the Sarbanes-Oxley Act may make it more difficult for us to effectuate a business combination, require substantial financial and management resources, and increase the time and costs of completing an acquisition.

Section 404 of the Sarbanes-Oxley Act requires that we evaluate and report on our system of internal controls beginning with our Annual Report on Form 10-K for the year ending December 31, 2021. Only in the event we are deemed to be a large accelerated filer or an accelerated filer will we be required to comply with the independent registered public accounting firm attestation requirement on our internal control over financial reporting. Further, for as long as we remain an emerging growth company, we will not be required to comply with the independent registered public accounting firm attestation requirement on our internal control over financial reporting. The fact that we are a blank check company makes compliance with the requirements of the Sarbanes-Oxley Act particularly burdensome on us as compared to other public companies because a target business with which we seek to complete our initial business combination may not be in compliance with the provisions of the Sarbanes-Oxley Act regarding adequacy of its internal controls. The development of the internal control of any such entity to achieve compliance with the Sarbanes-Oxley Act may increase the time and costs necessary to complete any such acquisition.

Provisions in our amended and restated certificate of incorporation may inhibit a takeover of us, which could limit the price investors might be willing to pay in the future for our Class A common stock and could entrench management.

Our amended and restated certificate of incorporation contain provisions that may discourage unsolicited takeover proposals that stockholders may consider to be in their best interests. These provisions include a staggered board of directors and the ability of the board of directors to designate the terms of and issue new series of preferred stock, which may make more difficult the removal of management and may discourage transactions that otherwise could involve payment of a premium over prevailing market prices for our securities.

Our amended and restated certificate of incorporation will provide, subject to limited exceptions, that the Court of Chancery of the State of Delaware will be the sole and exclusive forum for certain stockholder litigation matters, which could limit our stockholders’ ability to obtain a favorable judicial forum for disputes with us or our directors, officers, employees or stockholders.

Our amended and restated certificate of incorporation requires, to the fullest extent permitted by law, that derivative actions brought in our name, actions against directors, officers and employees for breach of fiduciary duty and other similar actions may be brought only in the Court of Chancery in the State of Delaware and, if brought outside of Delaware, the stockholder bringing the suit will be deemed to have consented to service of process on such stockholder’s counsel. This exclusive forum provision will apply to state and federal law claims brought by stockholders (including claims pursuant to the Securities Act), although stockholders will not be deemed to have waived our compliance with the federal securities laws and the rules and regulations thereunder, and the Court of Chancery and the federal district court for the District of Delaware shall concurrently be the sole and exclusive forums for claims arising under the federal securities laws, including the Securities Act. Notwithstanding the foregoing, Section 27 of the Exchange Act creates exclusive federal jurisdiction over all suits brought to enforce any duty or liability created by the Exchange Act or the rules and regulations thereunder. As a result, the exclusive forum provision will not apply to suits brought to enforce any duty or liability created by the Exchange Act or any other claim for which the federal courts have exclusive jurisdiction. The enforceability of similar choice of forum provisions in other companies’ organizational documents has been challenged in legal proceedings, and it is possible that, in connection with claims arising under federal securities laws, a court could find the choice of forum provisions contained in our amended and restated certificate of incorporation to be inapplicable or unenforceable.

If that were the case, because stockholders will not be deemed to have waived our compliance with the federal securities laws and the rules and regulations thereunder, it would allow stockholders to bring claims for breach of these provisions in any appropriate forum. Any person or entity purchasing or otherwise acquiring any interest in shares of our capital stock shall be deemed to have notice of and consented to the forum provisions in our amended and restated certificate of incorporation.

This choice of forum provision may limit a stockholder's ability to bring a claim in a judicial forum that it finds favorable for disputes with us or any of our directors, officers, other employees or stockholders, which may discourage lawsuits with respect to such claims. Alternatively, if a court were to find the choice of forum provision contained in our amended and restated certificate of incorporation to be inapplicable or unenforceable in an action, we may incur additional costs associated with resolving such action in other jurisdictions, which could harm our business, operating results and financial condition.

An investment in this offering may result in uncertain or adverse United States federal income tax consequences.

An investment in this offering may result in uncertain U.S. federal income tax consequences. For instance, because there are no authorities that directly address instruments similar to the units we are issuing in this offering, the allocation an investor makes with respect to the purchase price of a unit between the share of Class A common stock and the one-third of one warrant to purchase Class A common stock included in each unit could be challenged by the U.S. Internal Revenue Service, or the IRS, or the courts. Furthermore, the U.S. federal income tax consequences of a cashless exercise of a warrant included in the units is unclear under current law. Finally, it is unclear whether the redemption rights with respect to our shares of Class A common stock suspend the running of a U.S. holder's holding period for purposes of determining whether any gain or loss realized by such holder on the sale or exchange of Class A common stock is long-term capital gain or loss and for determining whether any dividend we pay would qualify for the dividends received deduction or be considered "qualified dividend income" for U.S. federal income tax purposes. See "*United States Federal Income Tax Considerations*" below for a summary of the principal U.S. federal income tax consequences of an investment in our securities. Prospective investors are urged to consult their tax advisors with respect to these and other tax consequences when purchasing, holding or disposing of our securities.

Risks Related to Our Management, Directors and Employees

Past performance by our management team may not be indicative of future performance of an investment in us.

Information regarding performance by, or businesses associated with, our management team is presented for informational purposes only. Any past experience and performance of our management team and their respective affiliates is not a guarantee either: (1) that we will be able to successfully identify a suitable candidate for our initial business combination; or (2) of any results with respect to any initial business combination we may consummate. You should not rely on the historical record of our management team's or their respective affiliate's performance as indicative of the future performance of an investment in us or the returns we will, or are likely to, generate going forward.

Our directors may decide not to enforce the indemnification obligations of our sponsors, resulting in a reduction in the amount of funds in the trust account available for distribution to our public stockholders.

In the event that the proceeds in the trust account are reduced below the lesser of (i) \$10.00 per share and (ii) the actual amount per share held in the trust account as of the date of the liquidation of the trust account if less than \$10.00 per share due to reductions in the value of the trust assets, in each case less taxes payable, and our sponsors assert that they are unable to satisfy their obligations or that they have no indemnification obligations related to a particular claim, our independent directors would determine whether to take legal action against our sponsors to enforce their indemnification obligations. While we currently expect that our independent directors would take legal action on our behalf against our sponsors to enforce their indemnification obligations to us, it is possible that our independent directors in exercising their business judgment and subject to their fiduciary duties may choose not to do so in any particular instance. If our independent directors choose not to enforce these indemnification obligations, the amount of funds in the trust account available for distribution to our public stockholders may be reduced below \$10.00 per share.

We may not have sufficient funds to satisfy indemnification claims of our directors and executive officers.

We have agreed to indemnify our officers and directors to the fullest extent permitted by law. However, our officers and directors have agreed to waive any right, title, interest or claim of any kind in or to any monies in the trust account and to not seek recourse against the trust account for any reason whatsoever. Accordingly, any indemnification provided will be able to be satisfied by us only if (i) we have sufficient funds outside of the trust account or (ii) we consummate an initial business combination. Our obligation to indemnify our officers and directors may discourage stockholders from bringing a lawsuit against our officers or directors for breach of their fiduciary duty. These provisions also may have the effect of reducing the likelihood of derivative litigation against our officers and directors, even though such an action, if successful, might otherwise benefit us and our stockholders. Furthermore, a stockholder's investment may be adversely affected to the extent we pay the costs of settlement and damage awards against our officers and directors pursuant to these indemnification provisions.

Our ability to successfully effect our initial business combination and to be successful thereafter will be totally dependent upon the efforts of our key personnel, some of whom may join us following our initial business combination. The loss of key personnel could negatively impact the operations and profitability of our post-combination business.

Prior to the completion of an initial business combination, our operations will be dependent upon a relatively small group of individuals and, in particular, our executive officers and directors. We believe that our success depends on the continued service of our officers and directors, at least until we have completed our initial business combination. In addition, our executive officers and directors are not required to commit any specified amount of time to our affairs and, accordingly, will have conflicts of interest in allocating their time among various business activities, including identifying potential business combinations and monitoring the related due diligence. We do not have an employment agreement with, or key-man insurance on the life of, any of our directors or executive officers. The unexpected loss of the services of one or more of our directors or executive officers could have a detrimental effect on us.

The role of our key personnel in the target business, however, cannot presently be ascertained. Although some of our key personnel may remain with the target business in senior management or advisory positions following our initial business combination, it is likely that some or all of the management of the target business will remain in place. While we intend to closely scrutinize any individuals we engage after our initial business combination, we cannot assure you that our assessment of these individuals will prove to be correct. These individuals may be unfamiliar with the requirements of operating a company regulated by the SEC, which could cause us to have to expend time and resources helping them become familiar with such requirements.

Our key personnel may negotiate employment or consulting agreements with a target business in connection with a particular business combination, and a particular business combination may be conditioned on the retention or resignation of such key personnel. These agreements may provide for them to receive compensation following our initial business combination and as a result, may cause them to have conflicts of interest in determining whether a particular business combination is the most advantageous.

Our key personnel may be able to remain with our company after the completion of our initial business combination only if they are able to negotiate employment or consulting agreements in connection with the business combination. Such negotiations would take place simultaneously with the negotiation of the business combination and could provide for such individuals to receive compensation in the form of cash payments and/or our securities for services they would render to us after the completion of the business combination. Such negotiations also could make such key personnel's retention or resignation a condition to any such agreement. The personal and financial interests of such individuals may influence their motivation in identifying and selecting a target business.

Our executive officers and directors will allocate their time to other businesses thereby causing conflicts of interest in their determination as to how much time to devote to our affairs. This conflict of interest could have a negative impact on our ability to complete our initial business combination.

Our executive officers and directors are not required to, and will not, commit their full time to our affairs, which may result in a conflict of interest in allocating their time between our operations and our search for a business combination and their other businesses. We do not intend to have any full-time employees prior to the

completion of our initial business combination. Each of our executive officers is engaged in several other business endeavors for which he may be entitled to substantial compensation and our executive officers are not obligated to contribute any specific number of hours per week to our affairs. Our independent directors also serve as officers and board members for other entities. If our executive officers' and directors' other business affairs require them to devote substantial amounts of time to such affairs in excess of their current commitment levels, it could limit their ability to devote time to our affairs which may have a negative impact on our ability to complete our initial business combination. For a complete discussion of our executive officers' and directors' other business affairs, please see "Management."

Our officers and directors presently have fiduciary or contractual obligations to other entities and, accordingly, may have conflicts of interest in determining to which entity a particular business opportunity should be presented.

Following the completion of this offering and until we consummate our initial business combination, we intend to engage in the business of identifying and combining with one or more businesses. Each of our officers and directors presently has, and any of them in the future may have, additional fiduciary or contractual obligations to other entities pursuant to which such officer or director is or will be required to present a business combination opportunity to such entity. Accordingly, our officers and directors may have conflicts of interest in determining to which entity a particular business opportunity should be presented. These conflicts may not be resolved in our favor and a potential target business may be presented to another entity prior to its presentation to us.

For a complete discussion of our executive officers' and directors' business affiliations and the potential conflicts of interest that you should be aware of, please see "Management — Officers and Directors" and "Management — Conflicts of Interest."

Our officers and directors may in the future become affiliated with entities engaged in business activities similar to those intended to be conducted by us, including another blank check company, and, accordingly, may have conflicts of interest in determining to which entity a particular business opportunity should be presented.

Following the completion of this offering and until we consummate our initial business combination, we intend to engage in the business of identifying and combining with one or more businesses. Our sponsors and officers and directors may in the future become affiliated with entities that are engaged in a similar business, including another blank check company that may have acquisition objectives that are similar to ours. Accordingly, they may have conflicts of interest in determining to which entity a particular business opportunity should be presented. These conflicts may not be resolved in our favor and a potential target business may be presented to other entities prior to its presentation to us.

In addition to the foregoing, Leland Investments, through its personnel including Mr. Ein, provides management services to Kastle Acquisition LLC and its subsidiaries, which provides building security products and services. These services include strategic, marketing and financial advisory, consulting and other oversight services in relation to Kastle Acquisition's operations. The agreement with Kastle Acquisition contains a non-competition clause that generally provides that neither Leland Investments, Mr. Ein nor any entity that he controls shall directly and materially compete with the business of Kastle Acquisition and its subsidiaries. Accordingly, we generally will not be able to acquire a target business that is in the same line of business that Kastle Acquisition and its subsidiaries are in.

For a complete discussion of our officers' and directors' business affiliations and the potential conflicts of interest that you should be aware of, please see "Management — Directors and Executive Officers," "Management — Conflicts of Interest" and "Certain Relationships and Related Party Transactions."

Our executive officers, directors, security holders and their respective affiliates may have competitive pecuniary interests that conflict with our interests.

We have not adopted a policy that expressly prohibits our directors, executive officers, security holders or affiliates from having a direct or indirect pecuniary or financial interest in any investment to be acquired or disposed of by us or in any transaction to which we are a party or have an interest. In fact, we may enter into a business combination with a target business that is affiliated with our sponsors, our directors or executive officers,

although we do not currently intend to do so. Nor do we have a policy that expressly prohibits any such persons from engaging for their own account in business activities of the types conducted by us. Accordingly, such persons or entities may have a conflict between their interests and ours.

The personal and financial interests of our directors and officers may influence their motivation in timely identifying and selecting a target business and completing a business combination. Consequently, our directors' and officers' discretion in identifying and selecting a suitable target business may result in a conflict of interest when determining whether the terms, conditions and timing of a particular business combination are appropriate and in our stockholders' best interest. See the section titled "*Description of Securities — Certain Differences in Corporate Law — Stockholder Suits*" for further information on the ability to bring such claims. However, we might not ultimately be successful in any claim we may make against them for such reason.

We may engage in a business combination with one or more target businesses that have relationships with entities that may be affiliated with our sponsors, executive officers, directors or existing holders which may raise potential conflicts of interest.

Our sponsors, officers and directors are not currently aware of any specific opportunities for us to complete our initial business combination with any entities with which they are affiliated, and there have been no substantive discussions concerning a business combination with any such entity or entities. Although we will not be specifically focusing on, or targeting, any transaction with any affiliated entities, we could pursue such a transaction if we determined that such affiliated entity met our criteria for a business combination as set forth in "*Proposed Business — Effecting our Initial Business Combination — Evaluation of a Target Business and Structuring of Our Initial Business Combination*" and such transaction was approved by a majority of our independent and disinterested directors. Despite our agreement to obtain an opinion regarding the fairness to our company from a financial point of view of a business combination with one or more businesses affiliated with our sponsors, executive officers, directors or existing holders, potential conflicts of interest still may exist and, as a result, the terms of the business combination may not be as advantageous to our public stockholders as they would be absent any conflicts of interest.

Because our sponsors, executive officers and directors will lose their entire investment in us if our initial business combination is not completed (other than with respect to public shares they may acquire during or after this offering), a conflict of interest may arise in determining whether a particular business combination target is appropriate for our initial business combination.

Our initial stockholders hold an aggregate of 8,625,000 founder shares (after taking into account (i) a stock dividend of approximately 0.17 shares of Class B common stock for each share of Class B common stock effectuated in October 2017, (ii) a stock dividend of one share of Class B common stock for each outstanding share of Class B common stock effectuated in May 2019 and (iii) an approximately 0.8571-for-1 reverse stock split with respect to our Class B common stock effectuated in November 2020) for which we received a capital contribution of an aggregate of \$25,000. The number of founder shares issued was determined based on the expectation that the total size of this offering would be a maximum of 34,500,000 units if the underwriters' over-allotment option is exercised in full, and therefore that such founder shares would represent 20% of the outstanding shares after this offering. Our sponsors will surrender for no consideration up to 1,125,000 shares depending on the extent to which the underwriters' over-allotment option is not exercised. The founder shares will be worthless if we do not complete an initial business combination. In addition, our sponsors and independent directors have committed, pursuant to written agreements, to purchase an aggregate of 5,233,333 private placement warrants (or 5,833,333 if the underwriters' over-allotment option is exercised in full), each exercisable to purchase one share of Class A common stock at \$11.50 per share, at a price of \$1.50 per warrant (\$7,850,000 in the aggregate or \$8,750,000 if the underwriters' over-allotment option is exercised in full), in a private placement that will close simultaneously with the closing of this offering. If we do not complete our initial business combination within 24 months from the closing of this offering, the private placement warrants will expire worthless. The personal and financial interests of our executive officers and directors may influence their motivation in identifying and selecting a target business combination, completing an initial business combination and influencing the operation of the business following our initial business combination. This risk may become more acute as the 24-month anniversary of the closing of this offering nears, which is the deadline for our completion of an initial business combination.

Our initial stockholders will control the election of our board of directors until the consummation of our initial business combination and will control a substantial interest in us. As a result, they will elect all of our directors prior to the consummation of our initial business combination and may exert a substantial influence on actions requiring a stockholder vote, potentially in a manner that you do not support.

Upon closing of this offering, our initial stockholders will own 20% of our issued and outstanding common stock (assuming they do not purchase any units in this offering). In addition, the founder shares, all of which are held by our initial stockholders, will entitle the holders to elect all of our directors prior to the consummation of our initial business combination. Holders of our public shares will have no right to vote on the election of directors during such time. These provisions of our amended and restated certificate of incorporation may only be amended by a majority of our Class B common stock. Accordingly, they may exert a substantial influence on actions requiring a stockholder vote, potentially in a manner that you do not support, including amendments to our amended and restated certificate of incorporation. If our initial stockholders purchase any units in this offering or if our initial stockholders purchase any additional Class A common stock in the aftermarket or in privately negotiated transactions, this would increase their control. Neither our initial stockholders nor, to our knowledge, any of our officers or directors, have any current intention to purchase additional securities, other than as disclosed in this prospectus. Factors that would be considered in making such additional purchases would include consideration of the current trading price of our Class A common stock. In addition, our board of directors, whose members were elected by our sponsors, is and will be divided into three classes, each of which will generally serve for a term for three years with only one class of directors being elected in each year. We may not hold an annual meeting of stockholders to elect new directors prior to the completion of our initial business combination, in which case all of the current directors will continue in office until at least the completion of the business combination. If there is an annual meeting, as a consequence of our “staggered” board of directors, only a minority of the board of directors will be considered for election and our initial stockholders, because of their ownership position, will control the outcome, as only holders of founder shares have the right to vote on the election of directors and to remove directors prior to our initial business combination. Accordingly, our initial stockholders will continue to exert control at least until the completion of our initial business combination.

USE OF PROCEEDS

We are offering 30,000,000 units at an offering price of \$10.00 per unit. We estimate that the net proceeds of this offering, together with the funds we will receive from the sale of the private placement warrants, will be used as set forth in the following table.

	Without Over-allotment Option	Over-allotment Option Exercised
Gross proceeds		
Gross proceeds from units offered to public ⁽¹⁾	\$ 300,000,000	\$ 345,000,000
Gross proceeds from private placement warrants offered in the private placement	7,850,000	8,750,000
Total gross proceeds	<u>\$ 307,850,000</u>	<u>\$ 353,750,000</u>
Estimated offering expenses ⁽²⁾		
Underwriting commissions (2.0% of gross proceeds from units offered to public, excluding deferred portion) ⁽³⁾	\$ 6,000,000	\$ 6,900,000
Legal fees and expenses	300,000	300,000
Printing and engraving expenses	40,000	40,000
Accounting fees and expenses	40,000	40,000
SEC/FINRA Expenses	90,000	90,000
Travel and road show	25,000	25,000
Stock exchange listing and filing fees	85,000	85,000
Director and officer liability insurance premiums	250,000	250,000
Miscellaneous	20,000	20,000
Total offering expenses	<u>\$ 6,850,000</u>	<u>\$ 7,750,000</u>
Proceeds after estimated offering expenses	<u>\$ 301,000,000</u>	<u>\$ 346,000,000</u>
Held in trust account ⁽³⁾	<u>\$ 300,000,000</u>	<u>\$ 345,000,000</u>
% of public offering size	100%	100%
Not held in trust account	<u>\$ 1,000,000</u>	<u>\$ 1,000,000</u>

The following table shows the use of the estimated \$1,000,000 of net proceeds not held in the trust account.⁽⁴⁾⁽⁵⁾

	Amount	% of Total
Legal, accounting, due diligence, travel and other expenses in connection with any business combination	\$ 240,000	24.0%
Legal and accounting fees related to regulatory reporting obligations	50,000	5.0%
Payment for office space, administrative and support services	480,000	48.0%
Consulting, travel and miscellaneous expenses incurred during search for initial business combination target	100,000	10.0%
Stock exchange continued listing fees	80,000	8.0%
Working capital to cover miscellaneous expenses	50,000	5.0%
Total	<u>\$ 1,000,000</u>	<u>100.0%</u>

- (1) Includes amounts payable to public stockholders who properly redeem their shares in connection with our successful completion of our initial business combination.
- (2) A portion of the offering expenses have been paid from the proceeds of loans from our sponsors of an aggregate of \$250,000 as described in this prospectus. These loans will be repaid upon completion of this offering.
- (3) The underwriters have agreed to defer underwriting commissions of 3.5% of the gross proceeds of this offering. Upon and concurrently with the completion of our initial business combination, \$10,500,000, which constitutes the underwriters' deferred commissions (or \$12,075,000 if the underwriters' over-allotment option is exercised in full) will be paid to the underwriters from the funds held in the trust account. The remaining funds, less amounts released to the trustee to pay redeeming stockholders, will be released to us and can be used to pay all or a portion of the purchase price of the business or businesses with which our initial business combination occurs or for general corporate purposes, including payment of principal or interest on indebtedness incurred in connection with our initial business combination, to fund the purchases of other companies or for working capital. The underwriters will not be entitled to any interest accrued on the deferred underwriting discounts and commissions.

Table of Contents

- (4) These expenses are estimates only. Our actual expenditures for some or all of these items may differ from the estimates set forth herein. For example, we may incur greater legal and accounting expenses than our current estimates in connection with negotiating and structuring our initial business combination based upon the level of complexity of such business combination. In the event we identify a business combination target in a specific industry subject to specific regulations, we may incur additional expenses associated with legal due diligence and the engagement of special legal counsel. In addition, our staffing needs may vary and as a result, we may engage a number of consultants to assist with legal and financial due diligence. We do not anticipate any change in our intended use of proceeds, other than fluctuations among the current categories of allocated expenses, which fluctuations, to the extent they exceed current estimates for any specific category of expenses, would not be available for our expenses.
- (5) The amount in the table above does not include interest available to us from the trust account. The proceeds held in the trust account may be invested only in U.S. government treasury obligations with a maturity of 180 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations.

Of the approximately \$307.9 million in proceeds we receive from this offering and the sale of the private placement warrants described in this prospectus, or approximately \$353.8 million if the underwriters' over-allotment option is exercised in full, \$300.0 million (\$10.00 per unit), or \$345.0 million if the underwriters' over-allotment option is exercised in full (\$10.00 per unit), will be deposited into a trust account with Continental Stock Transfer & Trust Company acting as trustee, and approximately \$6.9 million, or approximately \$7.8 million if the underwriters' over-allotment option is exercised in full, will be used to pay expenses in connection with the closing of this offering and for working capital following this offering. The proceeds held in the trust account may be invested only in U.S. government treasury obligations with a maturity of 180 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations. We will not be permitted to withdraw any of the principal or interest held in the trust account, except for the withdrawal of interest to pay our taxes until the earliest of (i) the completion of our initial business combination, (ii) the redemption of our public shares if we have not completed our initial business combination within 24 months from the closing of this offering, subject to applicable law and (iii) the redemption of our public shares properly submitted in connection with a stockholder vote to approve an amendment to our amended and restated certificate of incorporation that would affect the substance or timing of our obligation to redeem 100% of our public shares if we have not consummated an initial business combination within 24 months from the closing of this offering. Based on current interest rates, we expect that interest earned on the trust account will be sufficient to pay our taxes.

The net proceeds held in the trust account may be used as consideration to pay the sellers of a target business with which we ultimately complete our initial business combination. If our initial business combination is paid for using equity or debt securities, or not all of the funds released from the trust account are used for payment of the consideration in connection with our initial business combination, we may apply the balance of the cash released from the trust account for general corporate purposes, including for maintenance or expansion of operations of the post-transaction company, the payment of principal or interest due on indebtedness incurred in completing our initial business combination, to fund the purchase of other companies or for working capital. There is no limitation on our ability to raise funds privately or through loans in connection with our initial business combination, including pursuant to forward purchase agreements we may enter into following consummation of this offering.

We believe that amounts not held in trust, in addition to the interest earned on the funds held in the trust account that may be released to us as described above, will be sufficient to pay the costs and expenses to which such proceeds are allocated. This belief is based on the fact that while we may begin preliminary due diligence of a target business in connection with an indication of interest, we intend to undertake in-depth due diligence, depending on the circumstances of the relevant prospective acquisition, only after we have negotiated and signed a letter of intent or other preliminary agreement that addresses the terms of a business combination. However, if our estimate of the costs of undertaking in-depth due diligence and negotiating a business combination is less than the actual amount necessary to do so, we may be required to raise additional capital, the amount, availability and cost of which is currently unascertainable. If we are required to seek additional capital, we could seek such additional capital through loans or additional investments from our sponsors, members of our management team or any of their affiliates, but such persons are not under any obligation to advance funds to, or invest in, us.

We will reimburse our sponsors for office space, secretarial and administrative services provided to members of our management team, in an amount not to exceed \$20,000 per month. Upon completion of our initial business combination or our liquidation, we will cease paying these monthly fees.

[Table of Contents](#)

Prior to the date of this prospectus, our sponsors have loaned us \$250,000 to be used for a portion of the expenses of this offering. These loans are non-interest bearing, unsecured and are due at the earliest of October 20, 2021, the closing of this offering and if we determine to abandon this offering. The loans will be repaid upon the closing of this offering out of the funds not held in the trust account.

In addition, in order to finance transaction costs in connection with an intended initial business combination, our sponsors, officers or directors or their affiliates may, but are not obligated to, loan us funds as may be required on an interest-free basis. If we complete our initial business combination, we would repay such loaned amounts out of the proceeds of the trust account released to us. Otherwise, such loans would be repaid only out of funds held outside the trust account. In the event that our initial business combination does not close, we may use a portion of the working capital held outside the trust account to repay such loaned amounts but no proceeds from our trust account would be used to repay such loaned amounts. Up to \$2,000,000 of such loans may be convertible into warrants of the post-business combination entity at a price of \$1.50 per warrant at the option of the lender. The warrants would be identical to the private placement warrants. Prior to the completion of our initial business combination, we do not expect to seek loans from parties other than our sponsors, officers or directors or their affiliates as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our trust account.

DIVIDEND POLICY

We have not paid any cash dividends on our common stock to date and do not intend to pay cash dividends prior to the completion of our initial business combination. The payment of cash dividends in the future will be dependent upon our revenues and earnings, if any, capital requirements and general financial condition subsequent to completion of our initial business combination. If we incur any indebtedness in connection with a business combination, our ability to declare dividends may be limited by restrictive covenants we may agree to in connection therewith. The payment of any cash dividends subsequent to our initial business combination will be within the discretion of our board of directors at such time.

If we increase the size of this offering, we will effect a stock dividend, stock split, contribution back to capital or other appropriate mechanism immediately prior to the consummation of this offering in such amount as to maintain the number of founder shares at 20.0% of our issued and outstanding common stock upon the consummation of this offering.

DILUTION

The difference between the public offering price per share of Class A common stock, assuming no value is attributed to the warrants included in the units we are offering pursuant to this prospectus or the private placement warrants, and the *pro forma* net tangible book value per share of our Class A common stock after this offering constitutes the dilution to investors in this offering. Such calculation does not reflect any dilution associated with the sale and exercise of warrants, including the private placement warrants, which would cause the actual dilution to the public stockholders to be higher, particularly where a cashless exercise is utilized. Net tangible book value per share is determined by dividing our net tangible book value, which is our total tangible assets less total liabilities (including the value of Class A common stock which may be redeemed for cash), by the number of outstanding Class A common stock.

At June 30, 2020, our net tangible book value was \$(125,566), or approximately \$(0.01) per share of Class B common stock. After giving effect to the sale of 30,000,000 shares of Class A common stock included in the units we are offering by this prospectus, the sale of the private placement warrants and the deduction of underwriting commissions and estimated expenses of this offering, our *pro forma* net tangible book value at June 30, 2020 would have been \$5,000,001, or \$0.56 per share, representing an immediate increase in net tangible book value (as decreased by the value of the 28,551,356 shares of Class A common stock that may be redeemed for cash, or 32,893,856 shares of Class A common stock if the underwriters' over-allotment option is exercised in full) of \$0.57 per share (or \$0.50 per share if the underwriters' over-allotment option is exercised in full) to our initial stockholders as of the date of this prospectus and an immediate dilution to public stockholders from this offering of \$9.44 per share (or \$9.51 per share if the underwriters' over-allotment option is exercised in full).

The following table illustrates the dilution to the public stockholders on a per-share basis, assuming no value is attributed to the warrants included in the units or the private placement warrants:

Public offering price	\$	10.00
Net tangible book value before this offering	\$	(0.01)
Increase attributable to public stockholders and private sales		0.57
<i>Pro forma</i> net tangible book value after this offering		0.56
Dilution to public stockholders	\$	9.44
Percentage of dilution to public stockholders		94.4%

For purposes of presentation, we have reduced our *pro forma* net tangible book value after this offering (assuming no exercise of the underwriters' over-allotment option) by \$285,513,560 because holders of up to approximately 95.2% of our public shares may redeem their shares for a *pro rata* share of the aggregate amount then on deposit in the trust account at a per share redemption price equal to the amount in the trust account as set forth in our tender offer or proxy materials (initially anticipated to be the aggregate amount held in trust two business days prior to the commencement of our tender offer or stockholders meeting, including interest earned on the trust account not previously released to us and net of taxes payable), divided by the number of Class A common stock sold in this offering. The actual number of public shares that may be redeemed may exceed the aforementioned amount provided that we will not consummate an initial business combination unless we satisfy the \$5,000,001 minimum net tangible assets threshold.

The following table sets forth information with respect to our initial stockholders and the public stockholders:

Number	Shares		Total Consideration		Average Price per Share
	Purchased ⁽¹⁾	Percentage	Amount	Percentage	
Initial stockholders	7,500,000	20%	\$ 25,000	0.01%	0.003
Public stockholders	30,000,000	80%	\$ 300,000,000	99.99%	10.00
Total	37,500,000	100%	\$ 300,025,000	100.0%	

(1) Assumes that 1,125,000 founder shares are forfeited for no consideration by our sponsors after the closing of this offering in the event the underwriters do not exercise their over-allotment option.

[Table of Contents](#)

The *pro forma* net tangible book value per share after the offering is calculated as follows:

Numerator:	
Net tangible book value before the offering	\$ (125,566)
Net proceeds from this offering and private placement of private placement warrants	301,000,000
Plus: Offering costs accrued for and paid in advance, excluded from tangible book value before this offering	139,127
Less: Proceeds held in trust subject to redemption/tender	(285,513,560)
Less: Underwriters' Deferred Commissions	(10,500,000)
	<u>5,000,001</u>
Denominator:	
Class B common stock outstanding prior to this offering	7,500,000
Class A common stock included in the units offered	30,000,000
Less: Shares subject to redemption/tender	(28,551,356)
Total	<u>8,948,644</u>

CAPITALIZATION

The following table sets forth our capitalization at June 30, 2020, and as adjusted to give effect to the sale of our units in this offering and the sale of the private placement warrants and the application of the estimated net proceeds derived from the sale of such securities, assuming no exercise by the underwriters of their over-allotment option:

	June 30, 2020	
	Actual	As Adjusted ⁽¹⁾
Notes payable to related party ⁽¹⁾	\$ 200,000	\$ —
Deferred underwriting discounts and commissions	—	10,500,000
Class A common stock subject to possible redemption; \$0.0001 par value, 0 and 28,551,356 shares subject to possible redemption, actual and adjusted, respectively ⁽²⁾	—	285,513,560
Stockholders' equity:		
Preferred Stock, \$0.0001 par value, 1,000,000 shares authorized, no shares issued and outstanding, actual and as adjusted	—	—
Class A common stock, \$0.0001 par value, 400,000,000 shares authorized; no shares issued and outstanding, actual; 1,448,644 shares issued and outstanding (excluding 28,551,356 shares subject to redemption), as adjusted	—	145
Class B common stock, \$0.0001 par value; 50,000,000 shares authorized; 8,625,000 and 7,500,000 shares issued and outstanding, actual and as adjusted, respectively	863	750
Additional paid-in capital	24,137	5,010,545
Accumulated deficit	(11,439)	(11,439)
Total stockholders' equity	13,561	5,000,001
Total capitalization	<u>\$ 213,561</u>	<u>\$ 301,013,561</u>

- (1) Our sponsors have loaned us \$200,000 as of June 30, 2020 under unsecured promissory notes to be used for a portion of the expenses of this offering. The "as adjusted" information gives effect to the repayment of any loans made under these notes out of the proceeds from this offering and the sale of the private placement warrants.
- (2) Upon the completion of our initial business combination, we will provide our public stockholders with the opportunity to redeem their public shares for cash at a per-share price equal to the aggregate amount then on deposit in the trust account calculated as of two business days prior to the consummation of our initial business combination, including interest earned on the trust account not previously released to us to pay taxes (net of taxes payable), divided by the number of then-outstanding public shares, subject to the limitations described herein whereby redemptions cannot cause our net tangible assets to be less than \$5,000,001 immediately prior to or upon consummation of an initial business combination and any limitations (including, but not limited to, cash requirements) created by the terms of the proposed business combination. The actual number of public shares that may be redeemed may exceed the amount set forth herein provided that we will not consummate an initial business combination unless we satisfy the \$5,000,001 minimum net tangible assets threshold.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

We are a blank check company formed for the purpose of effecting a merger, stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses or entities. We are not limited to any particular industry or geographic location in selecting a target business with which to engage in a business combination.

We have not selected any business combination target and we have not, nor has anyone on our behalf, initiated any substantive discussions, directly or indirectly, with any business combination target. We intend to effectuate our initial business combination using cash from the proceeds of this offering and the private placement of the private placement warrants, the proceeds of the sale of our shares in connection with our initial business combination (pursuant to forward purchase agreements or backstop agreements we may enter into following the consummation of this offering or otherwise), shares issued to the owners of the target, debt issued to bank or other lenders or the owners of the target or a combination of the foregoing.

The issuance of additional shares in connection with a business combination to the owners of the target or other investors:

- may significantly dilute the equity interest of investors in this offering, which dilution would increase if the anti-dilution provisions in the Class B common stock result in the issuance of Class A common stock on a greater than one-for-one basis upon conversion of the Class B common stock;
- may subordinate the rights of holders of Class A common stock if shares of preferred stock are issued with rights senior to those afforded our Class A common stock;
- could cause a change in control if a substantial number of our shares of Class A common stock are issued, which may affect, among other things, our ability to use our net operating loss carry forwards, if any, and could result in the resignation or removal of our present officers and directors;
- may have the effect of delaying or preventing a change of control of us by diluting the share ownership or voting rights of a person seeking to obtain control of us; and
- may adversely affect prevailing market prices for our Class A common stock and/or warrants.

Similarly, if we issue debt securities or otherwise incur significant debt to bank or other lenders or the owners of a target, it could result in:

- default and foreclosure on our assets if our operating revenues after an initial business combination are insufficient to repay our debt obligations;
- acceleration of our obligations to repay the indebtedness even if we make all principal and interest payments when due if we breach certain covenants that require the maintenance of certain financial ratios or reserves without a waiver or renegotiation of that covenant;
- our immediate payment of all principal and accrued interest, if any, if the debt is payable on demand;
- our inability to obtain necessary additional financing if the debt contains covenants restricting our ability to obtain such financing while the debt is outstanding;
- our inability to pay dividends on our Class A common stock;
- using a substantial portion of our cash flow to pay principal and interest on our debt, which will reduce the funds available for dividends on our Class A common stock if declared, expenses, capital expenditures, acquisitions and other general corporate purposes;
- limitations on our flexibility in planning for and reacting to changes in our business and in the industry in which we operate;

[Table of Contents](#)

- increased vulnerability to adverse changes in general economic, industry and competitive conditions and adverse changes in government regulation; and
- limitations on our ability to borrow additional amounts for expenses, capital expenditures, acquisitions, debt service requirements, execution of our strategy and other purposes and other disadvantages compared to our competitors who have less debt.

As indicated in the accompanying financial statements, as of June 30, 2020, we had \$74,434 in cash and deferred offering costs of \$139,127. Further, we expect to incur significant costs in the pursuit of our initial business combination. We cannot assure you that our plans to raise capital or to complete our initial business combination will be successful.

Results of Operations and Known Trends or Future Events

We have neither engaged in any operations nor generated any revenues to date. Our only activities since inception have been organizational activities and those necessary to prepare for this offering. Following this offering, we will not generate any operating revenues until after completion of our initial business combination. We may generate non-operating income in the form of interest income on cash and cash equivalents after this offering. There has been no significant change in our financial or trading position and no material adverse change has occurred since the date of our audited financial statements. After this offering, we expect to incur increased expenses as a result of being a public company (for legal, financial reporting, accounting and auditing compliance), as well as for due diligence expenses. We expect our expenses to increase substantially after the closing of this offering.

Liquidity and Capital Resources

As indicated in the accompanying financial statements, we had \$74,434 in cash and a working capital deficiency of \$125,566 as of June 30, 2020. Management's plans to address this uncertainty through this offering are discussed above. Our plans to raise capital or to consummate our initial business combination may not be successful. These factors, among others, raise substantial doubt about our ability to continue as a going concern.

Our liquidity needs have been satisfied prior to the completion of this offering through receipt of a \$25,000 capital contribution from our sponsors in exchange for the issuance of the founder shares and \$250,000 in loans from our sponsors. We estimate that the net proceeds from (i) the sale of the units in this offering, after deducting offering expenses of \$850,000 and underwriting commissions of \$6,000,000, or \$6,900,000 if the underwriters' over-allotment option is exercised in full (excluding deferred underwriting commissions of \$10,500,000, or \$12,075,000 if the underwriters' over-allotment option is exercised in full), and (ii) the sale of the private placement warrants for a purchase price of \$7,850,000 (or \$8,750,000 if the underwriters' over-allotment option is exercised in full) will be \$301.0 million (or \$346.0 million if the underwriters' over-allotment option is exercised in full). \$300.0 million (or \$345.0 million if the underwriters' over-allotment option is exercised in full) will be held in the trust account, which includes the deferred underwriting commissions described above. The proceeds held in the trust account may be invested only in U.S. government treasury obligations with a maturity of 180 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations. The remaining \$1,000,000 will not be held in the trust account. In the event that our offering expenses exceed our estimate of \$850,000, we may fund such excess with funds not to be held in the trust account. In such case, the amount of funds we intend to be held outside the trust account would decrease by a corresponding amount. Conversely, in the event that the offering expenses are less than our estimate of \$850,000, the amount of funds we intend to be held outside the trust account would increase by a corresponding amount.

We intend to use substantially all of the funds held in the trust account, including any amounts representing interest earned on the trust account not previously released to us (less taxes payable and deferred underwriting commissions) to complete our initial business combination. We may withdraw interest to pay our taxes. To the extent that our equity or debt is used, in whole or in part, as consideration to complete our initial business combination, the remaining proceeds held in the trust account will be used as working capital to finance the operations of the target business or businesses, make other acquisitions and pursue our growth strategies.

Prior to the completion of our initial business combination, we will have available to us the \$1,000,000 of proceeds held outside the trust account for our working capital needs. We will use these funds to primarily identify and evaluate target businesses, perform business due diligence on prospective target businesses, travel to and from the offices, plants or similar locations of prospective target businesses or their representatives or owners, review corporate documents and material agreements of prospective target businesses and structure, negotiate and complete a business combination.

We do not believe we will need to raise additional funds following this offering in order to meet the expenditures required for operating our business prior to our initial business combination. However, if our estimates of the costs of identifying a target business, undertaking in-depth due diligence and negotiating an initial business combination are less than the actual amount necessary to do so, we may have insufficient funds available to operate our business prior to our initial business combination. In order to fund working capital deficiencies or finance transaction costs in connection with an intended initial business combination, our sponsors, officers and directors or their respective affiliates may, but are not obligated to, loan us funds as may be required on a non-interest basis. If we complete our initial business combination, we would repay such loaned amounts. In the event that our initial business combination does not close, we may use a portion of the working capital held outside the trust account to repay such loaned amounts but no proceeds from our trust account would be used for such repayment. Up to \$2,000,000 of such loans may be convertible into warrants of the post-business combination entity at a price of \$1.50 per warrant at the option of the lender. The warrants would be identical to the private placement warrants. Prior to the completion of our initial business combination, we do not expect to seek loans from parties other than our sponsors, officers, directors or their respective affiliates as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our trust account.

We expect our primary liquidity requirements during the 24 months after this offering (assuming a business combination is not consummated during this time) to include approximately \$240,000 for legal, accounting, due diligence, travel and other expenses associated with structuring, negotiating and documenting successful business combinations; \$50,000 for legal and accounting fees related to regulatory reporting requirements; \$100,000 for consulting, travel and miscellaneous expenses incurred during the search for an initial business combination target; \$80,000 for stock exchange continued listing fees; and \$50,000 for general working capital that will be used for miscellaneous expenses and reserves. We will also reimburse our sponsors for office space, secretarial and administrative services provided to us in an amount not to exceed \$20,000 per month (\$480,000 in the aggregate). These amounts are estimates and may differ materially from our actual expenses.

Moreover, we may need to obtain additional financing to complete our initial business combination, either because the transaction requires more cash than is available from the proceeds held in our trust account or because we become obligated to redeem a significant number of our public shares upon completion of the business combination, in which case we may issue additional securities or incur debt in connection with such business combination. If we are unable to complete our initial business combination because we do not have sufficient funds available to us, we will be forced to cease operations and liquidate the trust account.

Controls and Procedures

We are not currently required to maintain an effective system of internal controls as defined by Section 404 of the Sarbanes-Oxley Act. We will be required to comply with the internal control requirements of the Sarbanes-Oxley Act for the fiscal year ending December 31, 2021. Only in the event that we are deemed to be a large accelerated filer or an accelerated filer would we be required to comply with the independent registered public accounting firm attestation requirement. Further, for as long as we remain an emerging growth company as defined in the JOBS Act, we intend to take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the independent registered public accounting firm attestation requirement.

Prior to the closing of this offering, we have not completed an assessment, nor has our independent registered public accounting firm tested our systems, of our internal controls. We expect to assess the internal controls of our target business or businesses prior to the completion of our initial business combination and, if necessary, to implement and test additional controls as we may determine are necessary in order to state that we maintain

[Table of Contents](#)

an effective system of internal controls. A target business may not be in compliance with the provisions of the Sarbanes-Oxley Act regarding the adequacy of internal controls. Many small and mid-sized target businesses we may consider for our initial business combination may have internal controls that need improvement in areas such as:

- staffing for financial, accounting and external reporting areas, including segregation of duties;
- reconciliation of accounts;
- proper recording of expenses and liabilities in the period to which they relate;
- evidence of internal review and approval of accounting transactions;
- documentation of processes, assumptions and conclusions underlying significant estimates; and
- documentation of accounting policies and procedures.

Because it will take time, management involvement and perhaps outside resources to determine what internal control improvements are necessary for us to meet regulatory requirements and market expectations for our operation of a target business, we may incur significant expenses in meeting our public reporting responsibilities, particularly in the areas of designing, enhancing or remediating internal and disclosure controls. Doing so effectively may also take longer than we expect, thus increasing our exposure to financial fraud or erroneous financing reporting.

Once our management's report on internal controls is complete, we will retain our independent registered public accounting firm to audit and render an opinion on such report when required by Section 404. The independent registered public accounting firm may identify additional issues concerning a target business's internal controls while performing their audit of internal control over financial reporting.

Quantitative and Qualitative Disclosures about Market Risk

The net proceeds of this offering and the sale of the private placement warrants held in the trust account may be invested only in U.S. government treasury obligations with a maturity of 180 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations. Due to the short-term nature of these investments, we believe there will be no associated material exposure to interest rate risk.

Off-Balance Sheet Arrangements; Commitments and Contractual Obligations; Quarterly Results

As of June 30, 2020, we did not have any off-balance sheet arrangements as defined in Item 303(a)(4) (ii) of Regulation S-K and did not have any commitments or contractual obligations. No unaudited quarterly operating data is included in this prospectus as we have not conducted any operations to date.

JOBS Act and Smaller Reporting Company Status

The JOBS Act contains provisions that, among other things, relax certain reporting requirements for qualifying public companies. We will qualify as an "emerging growth company" and under the JOBS Act will be allowed to comply with new or revised accounting pronouncements based on the effective date for private (not publicly traded) companies. We are electing to delay the adoption of new or revised accounting standards, and as a result, we may not comply with new or revised accounting standards on the relevant dates on which adoption of such standards is required for non-emerging growth companies. As a result, our financial statements may not be comparable to companies that comply with new or revised accounting pronouncements as of public company effective dates.

Additionally, we are in the process of evaluating the benefits of relying on the other reduced reporting requirements provided by the JOBS Act. Subject to certain conditions set forth in the JOBS Act, if, as an "emerging growth company," we choose to rely on such exemptions we may not be required to, among other things, (i) provide an auditor's attestation report on our system of internal controls over financial reporting pursuant to Section 404, (ii) provide all of the compensation disclosure that may be required of non-emerging growth public companies under the Dodd-Frank Wall Street Reform and Consumer Protection Act, (iii) comply with any requirement that may be adopted by the PCAOB regarding mandatory audit firm rotation or a supplement to the auditor's report

[Table of Contents](#)

providing additional information about the audit and the financial statements (auditor discussion and analysis) and (iv) disclose certain executive compensation related items such as the correlation between executive compensation and performance and comparisons of the CEO's compensation to median employee compensation. These exemptions will apply until we are no longer an "emerging growth company."

Additionally, we are a "smaller reporting company" as defined in Item 10(f)(1) of Regulation S-K. Smaller reporting companies may take advantage of certain reduced disclosure obligations, including, among other things, providing only two years of audited financial statements. We will remain a smaller reporting company until the last day of the fiscal year in which (1) the market value of our Class A common stock held by non-affiliates exceeds \$250 million as of the end of that fiscal year's second fiscal quarter, or (2) our annual revenues exceeded \$100 million during such completed fiscal year and the market value of our Class A common stock held by non-affiliates exceeds \$700 million as of the end of that fiscal year's second fiscal quarter.

PROPOSED BUSINESS

General

Mark Ein and Dyson Dryden have established Capitol Investment Corp. V, their fifth blank check company, to invest in and help build an industry-leading public company that will aim to deliver long term value to stockholders. We are one of only two U.S. sponsor teams of SPACs over \$100 million in size to close four SPAC transactions. We believe that our extensive investing and company building experience, long track record with public acquisition companies, broad network of relationships, strategic expertise and deep engagement as proactive directors and advisors, combined with the capital raised in this offering, can be a meaningful catalyst for growth and value creation for the business that we partner with over the long term.

Mr. Ein is an investor, entrepreneur and philanthropist, who has created, acquired, invested in and built a series of growth companies across a diverse set of industries over the course of his 30-year career. During this time, in addition to leading four successful public acquisition companies, Mr. Ein has been involved in the founding or early stages of six companies that have been worth over one billion dollars and has led over \$1.8 billion of private equity, venture capital and public company investments. Mr. Dryden has worked with Mr. Ein for over a decade, initially as his advisor, and since 2013 as his partner principally focused on their public acquisition platform and its related investments. He brings over 20 years of investing, capital markets, capital raising and strategic advisory experience to Capitol V.

Mr. Ein and Mr. Dryden have a long track record of successfully sourcing, evaluating, structuring, negotiating and executing four previous public acquisition company transactions. They are supported by a strong, dedicated investment team with a history of working together that we believe will provide us with valuable analytical, financial, transactional, communications and other expertise that we will leverage to identify and execute a business combination and drive future value for the combined business.

Our team's combined experience, expansive networks and long-standing relationships will provide valuable access to the highest-quality growth companies. Our management team is also well positioned to identify and execute a business combination as a preferred partner to a wide range of business owners. Our previous investments include companies owned by founders, families, private equity funds, hedge funds and venture funds.

Capitol Investment Corp. V is a Delaware blank check company formed for the purpose of effecting a merger, stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses or entities. We have not selected any potential business combination target, and we have not, nor has anyone on our behalf, initiated any substantive discussions, directly or indirectly, with any potential business combination target. We are not limited to any particular industry or geographic location in selecting a target business with which to engage in a business combination.

Track Record with Similarly Structured Acquisition Vehicles

Mr. Ein and Mr. Dryden have a long track record of successfully raising capital and executing transactions through public acquisition companies structured similarly to Capitol V, having completed four such transactions over a 13-year period, across different industries and at different stages of the economic cycle. We are one of only two U.S. sponsor teams of SPACs over \$100 million in size to close four SPAC transactions.

Capitol I/Two Harbors

Creation of a Real Estate Investment Trust to capitalize on the severe dislocation in the residential mortgage-backed securities market following the global financial crisis in 2009.

Capitol I was a \$261 million special purpose acquisition company that completed its initial public offering in June 2007. Mr. Ein was the founder, Chairman and Chief Executive Officer of Capitol I. Capitol I completed its business combination with Two Harbors in October 2009. Two Harbors was a newly formed Maryland REIT established to focus on residential mortgage backed securities in partnership with Pine River Capital Management L.P. Two Harbors' common stock is traded on the NYSE under the symbol "TWO." Mr. Ein served as Vice-Chairman of the board of directors of Two Harbors from October 2009 to May 2015. During Mr. Ein's tenure as Vice-Chairman, Two Harbors became one of the world's largest REITs and also founded, and then completed the

spin-off of, Silver Bay Realty Trust, which was the first ever publicly traded single family housing REIT. Mr. Dryden served as Capitol I's investment banker throughout the search process and assisted with the execution of the Two Harbors transaction.

Capitol II/Lindblad Expeditions

Growth equity invested in founder-owned and led business to extend leadership position in global expedition cruising in partnership with National Geographic in 2015.

Capitol II was a \$200 million special purpose acquisition company that completed its initial public offering in May 2013. Mr. Ein was the Chairman of the Board and Chief Executive Officer and Mr. Dryden was Chief Financial Officer and Director of Capitol II. Capitol II completed its \$439 million business combination with Lindblad in July 2015. Lindblad is a global leader in expedition cruising and extraordinary travel experiences offering captivating trips featuring highly curated content to 40+ remarkable destinations on all seven continents in partnership with National Geographic. Lindblad's merger with Capitol II enabled it to pursue attractive future growth opportunities including new ship builds, expanded charters and acquisitions. Lindblad's common stock is traded on the NASDAQ under the symbol "LIND." Since the closing of the business combination with Lindblad, Mr. Ein has continued to serve as the Chairman of the Board and Mr. Dryden has continued to serve as a Director of Lindblad.

Capitol III/Cision

Deleveraging and growth capital investment in leading global provider of private-equity owned public relations software, media distribution, media intelligence and related professional services enhanced the company's balance sheet to enable organic growth investments and facilitate acquisitions.

Capitol III was a \$325 million special purpose acquisition company that completed its initial public offering in October 2015. Mr. Ein was the Chairman of the Board and Chief Executive Officer and Mr. Dryden was President, Chief Financial Officer and Director of Capitol III. Capitol III completed its \$2.4 billion business combination with Cision, a portfolio company of private equity firm GTCR, in June 2017. At that time, merger of Capitol III and Cision was the largest transaction by a U.S. public acquisition company completed since 2010. Cision is a leading global provider of public relations software, media distribution, media intelligence and related professional services. Public relations and communications professionals use Cision's products and services to help manage, execute and measure their strategic public relations and communications programs. Cision solutions also include market-leading media technologies such as PR Newswire. Cision serves over 75,000 customers in more than 170 countries and 40 languages worldwide, and maintains offices in North America, Europe, Australia, Asia and Latin America. In January 2020, Platinum Equity took Cision private in a transaction valued at \$2.7 billion. Mr. Ein served as Vice Chairman of the Board and Mr. Dryden served as a Director of the combined company from June 2017 until January 2020, when the sale to Platinum Equity closed.

Capitol IV/Nesco

Investment in one of the largest specialty equipment rental providers to the growing critical infrastructure industries of electric utility transmission and distribution, telecom and rail in North America deleveraged the business to enable growth investments and facilitate acquisitions.

Capitol IV was a \$402.5 million special purpose acquisition company that completed its initial public offering in August 2017. Mr. Ein was the Chairman of the Board and Chief Executive Officer of Capitol IV and Mr. Dryden was the President, Chief Financial Officer and a Director of Capitol IV. Capitol IV completed its \$1.1 billion business combination with Nesco, a portfolio company of private equity firm Energy Capital Partners, in July 2019. Nesco is one of the largest specialty equipment rental providers to the growing electric utility transmission and distribution, telecom and rail industries in North America. Nesco offers its specialized equipment to a diverse customer base for the maintenance, repair, upgrade and installation of critical infrastructure assets, including electric lines, telecommunications networks and rail systems. The combined company's common stock and warrants are traded on the NYSE under the symbols "NSCO" and "NSCO WS." Mr. Ein and Mr. Dryden have both continued to serve on the Board of Directors of the combined company, with Mr. Dryden currently serving as Co-Chairman and Mr. Ein as Vice Chairman.

Our Team

Mr. Ein has over 30 years of private equity, venture capital and public acquisition company investing experience. Starting in 2007, Mr. Ein has led the successful execution (including initial public offerings and business combinations) of four consecutive public acquisition vehicles: Capitol I, II, III and IV. Mr. Ein is the founder and Chief Executive Officer of Venturehouse Group, LLC, a holding company that creates, invests in, grows and builds technology, communications and related business services companies. Venturehouse was founded in 1999 to work closely with a small number of portfolio companies at any one time and to provide operational, strategic and financing support throughout their lifecycle. Since January 2007, Mr. Ein has been the Co-Chairman and majority owner of Kastle Systems, a firm specializing in building and office security systems, which he acquired through his personal investment holding company, Leland Investments Inc. Prior to forming Venturehouse, from 1992 to 1999, Mr. Ein was a Principal with The Carlyle Group, a leading global private equity firm. Mr. Ein led many of Carlyle's technology and telecommunications private equity investment activities. Earlier in his career, from 1989 to 1990, Mr. Ein worked for Brentwood Associates, a leading West Coast growth-focused private equity firm, and from 1986 to 1989 for Goldman, Sachs & Co.

Mr. Dryden has over 20 years of experience in M&A, capital formation and public acquisition company investing. Mr. Dryden has partnered with Mr. Ein on the successful execution of three consecutive public acquisition vehicles, Capitol II, III and IV, and served as an advisor on Capitol I. Mr. Dryden continues to serve on the Board of Directors of Nesco and Lindblad, which completed deals with Capitol IV and Capitol II, respectively, and currently serves as Co-Chairman of Nesco. Mr. Dryden served as a Director of Cision from the time of its business combination with Capitol III until the sale of the company in January 2020. Mr. Dryden has also been an investor in and the Vice Chairman of CDS Logistics Management, Inc., one of the largest providers of home improvement product delivery services in the United States, since 2009. Prior to Capitol, Mr. Dryden worked in Citigroup's Investment Banking division in New York, most recently as a Managing Director in the firm's Global Technology, Media and Telecommunications group. Mr. Dryden is currently a member of the Board of Directors of Washington E-Sports Ventures, LLC, founded to purchase an Overwatch League Team and build other esports teams that will represent the National Capital Region. Mr. Dryden holds a B.S. in Business Administration with a dual concentration in finance and management from the University of Richmond.

The Capitol team also includes veterans of our prior public acquisition companies. Our Executive Vice President was a member of the Capitol II, Capitol III and Capitol IV teams and was an investment banker to Capitol I. Our Vice President was a member of the Capitol III and Capitol IV teams and was an investment banker to Capitol II. Additionally, two of our independent directors were members of the Capitol I, Capitol II, Capitol III and Capitol IV teams. The past performance of our founders and other members of our management team is not a guarantee that we will be able to identify a suitable candidate for our initial business combination or of success with respect to any business combination we may consummate. You should not rely on the historical record of our management's performance as indicative of our future performance.

Our executive officers and directors received certain benefits from being members of the foregoing public acquisition vehicles, including acquiring founder shares and private placement warrants of such entities, payment of administrative fees for making office space and other services available to such entities and the payment of success and consulting fees. Our executive officers and directors will be entitled to receive similar benefits for being members of our company, as set forth under the heading "*The Offering — Limited payments to insiders*" below.

Acquisition Strategy

We intend to employ a pro-active acquisition strategy focused on companies that have demonstrated a potential for future growth and/or companies for which we believe we can be the catalyst to accelerating growth. We believe seeing a large set of potential opportunities creates the highest probability of finding an exceptional business combination. Our acquisition selection process will leverage our team's extensive network of industry, family office, private equity and venture capital sponsor relationships, as well as relationships with management teams of public and private companies, investment bankers, attorneys and accountants who we believe should provide us with significant business combination opportunities.

We have identified the following criteria and guidelines that we believe are important in evaluating prospective target businesses. We intend to seek to acquire companies that we believe:

- Will experience substantial growth post-acquisition. We believe that we are well-positioned to evaluate a company's current growth prospects and opportunities to enhance growth post-acquisition, both organically and through acquisitions.
- Have developed leading positions within industries that exhibit strong fundamentals. We intend to evaluate each industry and the target businesses within those industries based on several factors, including growth characteristics, competitive positioning, profitability margins and sustainability.
- Exhibit unseen value or other characteristics that have been disregarded by the marketplace. We intend to leverage the operational experience and financial acumen of our team to focus on unlocking value others may have overlooked.
- Will offer an attractive risk-adjusted return on investment for our stockholders. We will seek to acquire the target on attractive terms. Financial returns will be evaluated based on both organic cash flow growth potential and an ability to create value through new initiatives. Potential upside from growth in the business will be weighed against any downside risks.
- Are led by exceptionally talented, experienced and highly competent management teams. If needed, we will leverage our experience in identifying and recruiting new management.

In addition, we will consider a prospective target business in the context of its broader stakeholder impact, including environmental, social and governance factors.

While these criteria will be used in evaluating business combination opportunities, we may decide to enter into a business combination with a target business or businesses that do not meet these proposed criteria and guidelines.

We have not contacted any of the prospective target businesses that Capitol I, Capitol II, Capitol III or Capitol IV had considered and rejected. We do not currently intend to contact any of such targets; however, we may do so in the future if we become aware that the valuations, operations, profits or prospects of such target business, or the benefits of any potential transaction with such target business, would be attractive.

Initial Business Combination

The NYSE rules require that we must complete one or more business combinations having an aggregate fair market value of at least 80% of the value of the assets held in the trust account (net of amounts previously disbursed to management for working capital purposes, if permitted, and excluding the amount of deferred underwriting discounts and commissions held in trust) at the time of our signing a definitive agreement in connection with our initial business combination. If our board of directors is not able to independently determine the fair market value of our initial business combination, we will obtain an opinion from an independent investment banking firm or another independent firm that regularly renders fairness opinions with respect to the satisfaction of such criteria.

We anticipate structuring our initial business combination so that the post-transaction company in which our public stockholders own shares will own or acquire 100% of the equity interests or assets of the target business or businesses. We may, however, structure our initial business combination such that the post-transaction company owns or acquires less than 100% of such interests or assets of the target business in order to meet certain objectives of the target management team or stockholders or for other reasons, but we will only complete such business combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act. Even if the post-transaction company owns or acquires 50% or more of the voting securities of the target, our stockholders prior to the business combination may collectively own a minority interest in the post-transaction company, depending on valuations ascribed to the target and us in the business combination. For example, we could pursue a transaction in which we issue a substantial number of new shares of common stock or preferred stock in exchange for all of the outstanding capital stock of a target in order to consummate such transaction. In this case, we would acquire a 100% controlling interest in the target. However, as a result of the issuance of a substantial number of new shares, our stockholders immediately prior to our initial business combination could own less than a majority of our outstanding shares subsequent to our initial business combination. If less than 100% of the equity interests or assets of a target business or businesses

are owned or acquired by the post-transaction company, the portion of such business or businesses that is owned or acquired is what will be taken into account for purposes of the NYSE's 80% fair market value test. If the business combination involves more than one target business, the 80% fair market value test will be based on the aggregate value of all of the transactions.

Notwithstanding the foregoing, if we are not then listed on the NYSE for whatever reason, we would no longer be required to meet the foregoing 80% fair market value test.

Status as a Public Company

We believe our structure will make us an attractive business combination partner to target businesses. As an existing public company, we offer a target business an alternative to the traditional initial public offering through a merger or other business combination with us. In a business combination transaction with us, the owners of the target business may, for example, exchange their shares of stock in the target business for our Class A common stock (or shares of a new holding company) or for a combination of our Class A common stock and cash, allowing us to tailor the consideration to the specific needs of the sellers. We believe target businesses will find this method a more expeditious and cost-effective method to becoming a public company than the typical initial public offering. The typical initial public offering process takes a significantly longer period of time than the typical business combination transaction process, and there are significant expenses in the initial public offering process, including underwriting discounts and commissions, that may not be present to the same extent in connection with a business combination with us.

Furthermore, once a proposed business combination is completed, the target business will have effectively become public, whereas an initial public offering is always subject to the underwriters' ability to complete the offering, as well as general market conditions, which could prevent the offering from occurring. Once public, we believe the target business would then have greater access to capital, an additional means of providing management incentives consistent with stockholders' interests and the ability to use its shares as currency for acquisitions. Being a public company can offer further benefits by augmenting a company's profile among potential new customers and vendors and aid in attracting talented employees.

While we believe that our structure and our management team's backgrounds and experience will make us an attractive business partner, some potential target businesses may view our status as a blank check company, such as our lack of an operating history and our ability to seek stockholder approval of any proposed initial business combination, negatively.

Financial Position

With funds available in the trust account for a business combination initially in the amount of \$289,500,000 (or \$332,925,000 if the underwriters' over-allotment option is exercised in full), after payment of \$10,500,000 of deferred underwriting fees (or \$12,075,000 if the underwriters' over-allotment option is exercised in full), we offer a target business a variety of options such as creating a liquidity event for its owners, providing capital for the potential growth and expansion of its operations or strengthening its balance sheet by reducing its debt ratio. Because we are able to complete our initial business combination using our cash, debt or equity securities, or a combination of the foregoing, we have the flexibility to use the most efficient combination that will allow us to tailor the consideration to be paid to the target business to fit its needs and desires. However, we have not taken any steps to secure third-party financing and there can be no assurance it will be available to us.

Effecting Our Initial Business Combination

General

We are not presently engaged in, and we will not engage in, any operations for an indefinite period of time following this offering. We intend to effectuate our initial business combination using cash from the proceeds of this offering and the private placement of the private placement warrants, the proceeds of the sale of our shares in connection with our initial business combination, shares issued to the owners of the target, debt issued to bank or other lenders or the owners of the target, or a combination of the foregoing. We may seek to complete our initial business combination with a company or business that may be financially unstable or in its early stages of development or growth, which would subject us to the numerous risks inherent in such companies and businesses.

If our initial business combination is paid for using equity or debt securities, or not all of the funds released from the trust account are used for payment of the consideration in connection with our initial business combination or used for redemptions of our Class A common stock, we may apply the balance of the cash released to us from the trust account for general corporate purposes, including for maintenance or expansion of operations of the post-transaction company, the payment of principal or interest due on indebtedness incurred in completing our initial business combination, to fund the purchase of other companies or for working capital.

We have not selected any business combination target and we have not, nor has anyone on our behalf, initiated any substantive discussions with any business combination target. Accordingly, there is no current basis for investors in this offering to evaluate the possible merits or risks of the target business with which we may ultimately complete our initial business combination. Although our management will assess the risks inherent in a particular target business with which we may combine, we cannot assure you that this assessment will result in our identifying all risks that a target business may encounter. Furthermore, some of those risks may be outside of our control, meaning that we can do nothing to control or reduce the chances that those risks will adversely affect a target business.

Additionally, we have not contacted any of the prospective target businesses that Capitol I, Capitol II, Capitol III or Capitol IV, the only other blank check companies that our principals have been involved with, had considered and rejected. We do not currently intend to contact any of such targets; however, we may do so in the future if we become aware that the valuations, operations, profits or prospects of such target business, or the benefits of any potential transaction with such target business, would be attractive.

We may need to obtain additional financing to complete our initial business combination, either because the transaction requires more cash than is available from the proceeds held in our trust account or because we become obligated to redeem a significant number of our public shares upon completion of the business combination, in which case we may issue additional securities or incur debt in connection with such business combination. There are no prohibitions on our ability to issue securities or incur debt in connection with our initial business combination. We are not currently a party to any arrangement or understanding with any third party with respect to raising any additional funds through the sale of securities, the incurrence of debt or otherwise.

Sources of Target Businesses

We anticipate that target business candidates will be brought to our attention from various unaffiliated sources, including investment bankers and private investment funds. Target businesses may be brought to our attention by such unaffiliated sources as a result of being solicited by us through calls or mailings.

These sources may also introduce us to target businesses in which they think we may be interested on an unsolicited basis, since many of these sources will have read this prospectus and know what types of businesses we are targeting. Our officers and directors, as well as their affiliates, may also bring to our attention target business candidates of which they become aware through their business contacts as a result of formal or informal inquiries or discussions they may have, as well as attending trade shows or conventions. In addition, we expect to receive a number of proprietary deal flow opportunities that would not otherwise necessarily be available to us as a result of the track record and business relationships of our officers and directors. While we do not presently anticipate engaging the services of professional firms or other individuals that specialize in business acquisitions on any formal basis, we may engage these firms or other individuals in the future, in which event we may pay a finder's fee, consulting fee or other compensation to be determined in an arm's length negotiation based on the terms of the transaction. We will engage a finder only to the extent our management determines that the use of a finder may bring opportunities to us that may not otherwise be available to us or if finders approach us on an unsolicited basis with a potential transaction that our management determines is in our best interest to pursue. Payment of a finder's fee is customarily tied to completion of a transaction, in which case any such fee will be paid out of the funds held in the trust account. In no event, however, will our sponsors or any of our existing officers or directors, or any entity with which they are affiliated, be paid any finder's fee for introducing a target business to us.

We are not prohibited from pursuing an initial business combination with a business combination target that is affiliated with our sponsors, officers or directors, or from making the acquisition through a joint venture or other form of shared ownership with our sponsors, officers or directors. In the event we seek to complete our initial business combination with a business combination target that is affiliated with our sponsors, executive officers or

directors, we, or a committee of independent directors, would obtain an opinion from an independent investment banking firm or another independent firm that regularly renders fairness opinions that such an initial business combination is fair to our company from a financial point of view. We are not required to obtain such an opinion in any other context.

Evaluation of a Target Business and Structuring of Our Initial Business Combination

In evaluating a prospective target business, we expect to conduct a thorough due diligence review which may encompass, among other things, meetings with incumbent management and employees, document reviews, interviews of customers and suppliers, inspection of facilities, as applicable, as well as a review of financial, operational, legal and other information which will be made available to us. If we determine to move forward with a particular target, we will proceed to structure and negotiate the terms of the business combination transaction.

The time required to select and evaluate a target business and to structure and complete our initial business combination, and the costs associated with this process, are not currently ascertainable with any degree of certainty. Any costs incurred with respect to the identification and evaluation of, and negotiation with, a prospective target business with which our initial business combination is not ultimately completed will result in our incurring losses and will reduce the funds we can use to complete another business combination.

Lack of Business Diversification

For an indefinite period of time after the completion of our initial business combination, the prospects for our success may depend entirely on the future performance of a single business. Unlike other entities that have the resources to complete business combinations with multiple entities in one or several industries, it is probable that we will not have the resources to diversify our operations and mitigate the risks of being in a single line of business. By completing our initial business combination with only a single entity, our lack of diversification may:

- subject us to negative economic, competitive and regulatory developments, any or all of which may have a substantial adverse impact on the particular industry in which we operate after our initial business combination; and
- cause us to depend on the marketing and sale of a single product or limited number of products or services.

Limited Ability to Evaluate the Target's Management Team

Although we intend to closely scrutinize the management of a prospective target business when evaluating the desirability of effecting our initial business combination with that business, our assessment of the target business's management may not prove to be correct. In addition, the future management may not have the necessary skills, qualifications or abilities to manage a public company. Furthermore, the future role of members of our management team, if any, in the target business cannot presently be stated with any certainty. The determination as to whether any of the members of our management team will remain with the combined company will be made at the time of our initial business combination. While it is possible that one or more of our directors will remain associated in some capacity with us following our initial business combination, it is unlikely that any of them will devote their full efforts to our affairs subsequent to our initial business combination. Moreover, we cannot assure you that members of our management team will have significant experience or knowledge relating to the operations of the particular target business.

We cannot assure you that any of our key personnel will remain in senior management or advisory positions with the combined company. The determination as to whether any of our key personnel will remain with the combined company will be made at the time of our initial business combination.

Following a business combination, we may seek to recruit additional managers to supplement the incumbent management of the target business. We cannot assure you that we will have the ability to recruit additional managers, or that additional managers will have the requisite skills, knowledge or experience necessary to enhance the incumbent management.

Stockholders May Not Have the Ability to Approve Our Initial Business Combination

We may conduct redemptions without a stockholder vote pursuant to the tender offer rules of the SEC subject to the provisions of our amended and restated certificate of incorporation. However, we will seek stockholder approval if it is required by law or applicable stock exchange rule, or we may decide to seek stockholder approval for business or other legal reasons.

Under the NYSE's listing rules, stockholder approval would be required for our initial business combination if, for example:

- we issue common stock that will be equal to or in excess of 20% of the number of our common stock then outstanding (other than in a public offering);
- any of our directors, officers or substantial stockholders (as defined by the NYSE rules) has a 5% or greater interest earned on the trust account (or such persons collectively have a 10% or greater interest), directly or indirectly, in the target business or assets to be acquired or otherwise and the present or potential issuance of common stock could result in an increase in outstanding common stock or voting power of 5% or more; or
- the issuance or potential issuance of common stock will result in our undergoing a change of control.

Permitted Purchases of Our Securities

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our initial stockholders, directors, executive officers, advisors or their affiliates may purchase shares or public warrants in privately negotiated transactions or in the open market either prior to or following the completion of our initial business combination. There is no limit on the number of shares such persons may purchase, or any restriction on the price that they may pay. Any such price per share may be different than the amount per share a public stockholder would receive if it elected to redeem its shares in connection with our initial business combination. However, such persons have no current commitments, plans or intentions to engage in such transactions and have not formulated any terms or conditions for any such transactions. In the event our initial stockholders, directors, officers, advisors or any of their affiliates determine to make any such purchases at the time of a stockholder vote relating to our initial business combination, such purchases could have the effect of influencing the vote necessary to approve such transaction. None of the funds in the trust account will be used to purchase shares or public warrants in such transactions. If our initial stockholders, sponsors, directors, executive officers, advisors or their affiliates engage in such transactions, they will not make any such purchases when they are in possession of any material non-public information not disclosed to the seller or if such purchases are prohibited by Regulation M under the Exchange Act. Subsequent to the consummation of this offering, we will adopt an insider trading policy which will require insiders to: (1) refrain from purchasing company securities during certain blackout periods and when they are in possession of any material non-public information; and (2) clear all trades in company securities with our legal counsel prior to execution. We cannot currently determine whether our insiders will make such purchases pursuant to a Rule 10b5-1 plan, as it will be dependent upon several factors, including but not limited to, the timing and size of such purchases. Depending on such circumstances, our insiders may either make such purchases pursuant to a Rule 10b5-1 plan or determine that such a plan is not necessary.

In the event that our initial stockholders, sponsors, directors, officers, advisors or their affiliates purchase shares in privately negotiated transactions from public stockholders who have already elected to exercise their redemption rights, such selling stockholders would be required to revoke their prior elections to redeem their shares. We do not currently anticipate that such purchases, if any, would constitute a tender offer subject to the tender offer rules under the Exchange Act or a going-private transaction subject to the going-private rules under the Exchange Act; however, if the purchasers determine at the time of any such purchases that the purchases are subject to such rules, the purchasers will be required to comply with such rules.

The purpose of any such purchases of shares could be to (i) vote such shares in favor of the business combination and thereby increase the likelihood of obtaining stockholder approval of the business combination or (ii) to satisfy a closing condition in an agreement with a target that requires us to have a minimum net worth or a certain amount of cash at the closing of our initial business combination, where it appears that such requirement

would otherwise not be met. The purpose of any such purchases of public warrants could be to reduce the number of public warrants outstanding or to vote such warrants on any matters submitted to the warrant holders for approval in connection with our initial business combination. Any such purchases of our securities may result in the completion of our initial business combination that may not otherwise have been possible.

In addition, if such purchases are made, the public “float” of our Class A common stock or public warrants may be reduced and the number of beneficial holders of our securities may be reduced, which may make it difficult to maintain or obtain the quotation, listing or trading of our securities on a national securities exchange.

Our initial stockholders, sponsors, officers, directors and/or their affiliates anticipate that they may identify the public stockholders with whom they may pursue privately negotiated purchases by either the public stockholders contacting us directly or by our receipt of redemption requests submitted by public stockholders (in the case of Class A common stock) following our mailing of proxy materials in connection with our initial business combination.

To the extent that our initial stockholders, sponsors, officers, directors or their affiliates enter into a private purchase, they would identify and contact only potential selling stockholders who have expressed their election to redeem their shares for a *pro rata* share of the trust account or vote against our initial business combination. Our initial stockholders, sponsors, executive officers, directors or any of their affiliates will select which public stockholders to purchase shares from based on the negotiated price and number of shares and any other factors that they may deem relevant, and will only purchase shares if such purchases comply with Regulation M under the Exchange Act and the other federal securities laws. Any such purchases will be reported pursuant to Section 13 and Section 16 of the Exchange Act to the extent such purchasers are subject to such reporting requirements.

Redemption Rights for Public Stockholders upon Completion of Our Initial Business Combination

We will provide our public stockholders with the opportunity to redeem all or a portion of their Class A common stock upon the completion of our initial business combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account calculated as of two business days prior to the consummation of our initial business combination, including interest earned on the trust account not previously released to us to pay taxes (net of taxes payable), divided by the number of then-outstanding public shares, subject to the limitations described herein. The amount in the trust account is initially anticipated to be \$10.00 per public share. The per share amount we will distribute to investors who properly redeem their shares will not be reduced by the deferred underwriting commissions we will pay to the underwriters. The redemption rights will include the requirement that a beneficial holder must identify itself in order to validly redeem its shares. Our initial stockholders, which include our independent directors, have entered into agreements with us, pursuant to which they have agreed to waive their redemption rights with respect to their founder shares and any public shares they may hold in connection with the completion of our initial business combination. The other members of our management team have entered into agreements similar to the one entered into by our initial stockholders with respect to any public shares acquired by them in or after this offering.

Limitations on Redemptions

Our amended and restated certificate of incorporation will provide that in no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 immediately prior to or upon consummation of an initial business combination (so that we are not subject to the SEC’s “penny stock” rules). However, the proposed business combination may require (i) cash consideration to be paid to the target or its owners, (ii) cash to be transferred to the target for working capital or other general corporate purposes or (iii) the retention of cash to satisfy other conditions in accordance with the terms of the proposed business combination. In the event the aggregate cash consideration we would be required to pay for all shares of Class A common stock that are validly submitted for redemption plus any amount required to satisfy cash conditions pursuant to the terms of the proposed business combination exceed the aggregate amount of cash available to us, we will not complete the business combination or redeem any shares, and all shares of Class A common stock submitted for redemption will be returned to the holders thereof, and we instead may search for an alternate business combination.

Manner of Conducting Redemptions

We will provide our public stockholders with the opportunity to redeem all or a portion of their Class A common stock upon the completion of our initial business combination either (i) in connection with a stockholder meeting called to approve the business combination or (ii) by means of a tender offer. In the case of a stockholder meeting, such election must be made, unless extended by us in our sole discretion, no later than two business days prior to the initially scheduled vote on the initial business combination. The decision as to whether we will seek stockholder approval of a proposed business combination or conduct a tender offer will be made by us, solely in our discretion, and will be based on a variety of factors such as the timing of the transaction and whether the terms of the transaction would require us to seek stockholder approval under applicable law or stock exchange listing requirement. Asset acquisitions and stock purchases would not typically require stockholder approval while direct mergers with our company where we do not survive and any transactions where we issue more than 20% of our outstanding common stock or seek to amend our amended and restated certificate of incorporation would require stockholder approval. We currently intend to conduct redemptions in connection with a stockholder vote unless stockholder approval is not required by applicable law or stock exchange listing requirement and we choose to conduct redemptions pursuant to the tender offer rules of the SEC for business or other legal reasons.

If we hold a stockholder vote to approve our initial business combination, we will, pursuant to our amended and restated certificate of incorporation:

- conduct the redemptions in conjunction with a proxy solicitation pursuant to Regulation 14A of the Exchange Act, which regulates the solicitation of proxies, and not pursuant to the tender offer rules; and
- file proxy materials with the SEC.

In the event that we seek stockholder approval of our initial business combination, we will distribute proxy materials and, in connection therewith, provide our public stockholders with the redemption rights described above upon completion of our initial business combination.

If we seek stockholder approval, we will complete our initial business combination only if a majority of the shares of common stock voted are voted in favor of the business combination. In such case, our initial stockholders have agreed to vote their founder shares and any public shares purchased during or after this offering in favor of our initial business combination. As a result, in addition to our initial stockholders' founder shares, we would need 11,250,001, or 37.5%, of the 30,000,000 public shares sold in this offering to be voted in favor of an initial business combination in order to have our initial business combination approved (assuming all outstanding shares are voted and the over-allotment option is not exercised). Each public stockholder may elect to redeem its public shares irrespective of whether it votes, or how it votes on, the proposed transaction. In addition, our initial stockholders have entered into the letter agreement with us, pursuant to which they have agreed to waive their redemption rights with respect to their founder shares and public shares in connection with the completion of a business combination. Our other directors and officers have entered into the letter agreement, which imposes the same obligations on them with respect to any public shares acquired by them in or after this offering.

If we conduct redemptions pursuant to the tender offer rules of the SEC, we will, pursuant to our amended and restated certificate of incorporation:

- conduct the redemptions pursuant to Rule 13e-4 and Regulation 14E of the Exchange Act, which regulate issuer tender offers; and
- file tender offer documents with the SEC prior to completing our initial business combination which contain substantially the same financial and other information about our initial business combination and the redemption rights as is required under Regulation 14A of the Exchange Act, which regulates the solicitation of proxies.

In the event we conduct redemptions pursuant to the tender offer rules, our offer to redeem will remain open for at least 20 business days, in accordance with Rule 14e-1(a) under the Exchange Act, and we will not be permitted to complete our initial business combination until the expiration of the tender offer period. In addition, the tender offer will be conditioned on public stockholders not tendering more than the number of public shares we are permitted to redeem. If public stockholders tender more shares than we have offered to purchase, we will withdraw the tender offer and not complete our initial business combination, and we instead may search for an alternate business combination.

Limitation on Redemption upon Completion of Our Initial Business Combination If We Seek Stockholder Approval

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated certificate of incorporation will provide that a public stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a “group” (as defined under Section 13 of the Exchange Act), will be restricted from seeking redemption rights with respect to Excess Shares. We believe this restriction will discourage stockholders from accumulating large blocks of shares, and subsequent attempts by such holders to use their ability to exercise their redemption rights against a proposed business combination as a means to force us or our management to purchase their shares at a significant premium to the then-current market price or on other undesirable terms. Absent this provision, a public stockholder holding more than an aggregate of 20% of the shares sold in this offering could threaten to exercise its redemption rights if such holder’s shares are not purchased by us, our sponsors or our management at a premium to the then-current market price or on other undesirable terms. By limiting our stockholders’ ability to redeem no more than 20% of the shares sold in this offering without our prior consent, we believe we will limit the ability of a small group of stockholders to unreasonably attempt to block our ability to complete our initial business combination, particularly in connection with a business combination with a target that requires as a closing condition that we have a minimum net worth or a certain amount of cash.

However, we would not be restricting our stockholders’ ability to vote all of their shares (including Excess Shares) for or against our initial business combination.

Tendering Stock Certificates in Connection with Exercising Redemption Rights

In connection with any vote held to approve a proposed business combination, public stockholders seeking to exercise their redemption rights, whether they are record holders or hold their shares in “street name,” will be required to either tender their certificates to our transfer agent or to deliver their shares to the transfer agent electronically using The Depository Trust Company’s DWAC (Deposit/Withdrawal At Custodian) System, at the holder’s option, in each case no later than two business days prior to the initially scheduled vote on the proposal to approve the business combination. The proxy solicitation materials that we will furnish to holders of our public shares in connection with our initial business combination will indicate the applicable delivery requirements, which will include the requirement that a beneficial holder must identify itself in order to validly redeem its shares. Accordingly, a public stockholder would have up to two days prior to the vote on the business combination to tender its shares if it wishes to seek to exercise its redemption rights. Given the relatively short period in which to exercise redemption rights, it is advisable for stockholders to use electronic delivery of their public shares.

There is a nominal cost associated with the above-referenced tendering process and the act of certifying the shares or delivering them through the DWAC System. The transfer agent will typically charge the tendering broker a fee of approximately \$80.00 and it would be up to the broker whether or not to pass this cost on to the redeeming holder. However, this fee would be incurred regardless of whether or not we require holders seeking to exercise redemption rights to tender their shares. The need to deliver shares is a requirement of exercising redemption rights regardless of the timing of when such delivery must be effectuated.

Any request to redeem such shares, once made, may be withdrawn at any time up to two business days prior to the vote on the proposal to approve the business combination, unless otherwise agreed to by us. Furthermore, if a holder of a public share delivered its certificate in connection with an election of redemption rights and subsequently decides prior to the applicable date not to elect to exercise such rights, such holder may simply request that the transfer agent return the certificate (physically or electronically). It is anticipated that the funds to be distributed to holders of our public shares electing to redeem their shares will be distributed promptly after the completion of our initial business combination.

If our initial business combination is not approved or completed for any reason, then our public stockholders who elected to exercise their redemption rights would not be entitled to redeem their shares for the applicable *pro rata* share of the trust account. In such case, we will promptly return any certificates delivered by public holders who elected to redeem their shares.

If our initial proposed business combination is not completed, we may continue to try to complete a business combination with a different target until 24 months from the closing of this offering.

Redemption of Public Shares and Liquidation If No Initial Business Combination

Our amended and restated certificate of incorporation will provide that we will have only 24 months from the closing of this offering to complete our initial business combination. If we have not completed our initial business combination within such 24-month period or during any Extension Period, we will (i) cease all operations except for the purpose of winding up; (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the trust account not previously released to us to pay taxes (net of taxes payable and less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then-outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidation distributions, if any); and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, dissolve and liquidate, subject in the case of clauses (ii) and (iii) to our obligations under Delaware law to provide for claims of creditors. There will be no redemption rights or liquidating distributions with respect to our warrants, which will expire worthless if we fail to complete our initial business combination within such time period.

Our initial stockholders, which include our independent directors, have entered into a letter agreement with us, pursuant to which they have waived their rights to liquidating distributions from the trust account with respect to their founder shares if we fail to complete our initial business combination within 24 months from the closing of this offering or during any Extension Period. Our other directors and officers have entered into the letter agreement, which imposes the same obligations on them with respect to any public shares acquired by them directly in or after this offering. However, if our initial stockholders or other directors or officers acquire public shares in or after this offering, they will be entitled to liquidating distributions from the trust account with respect to such public shares if we fail to complete our initial business combination within the allotted time period.

The underwriters have agreed to waive their rights to their deferred underwriting commission held in the trust account in the event we do not complete our initial business combination within the allotted time frame (including any Extension Period) and, in such event, such amounts will be included with the funds held in the trust account that will be available to fund the redemption of our public shares.

Our sponsors, executive officers and directors have agreed, pursuant to a written agreement with us, that they will not propose any amendment to our amended and restated certificate of incorporation to modify the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or during any Extension Period, unless we provide our public stockholders with the opportunity to redeem their public shares upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the trust account not previously released to us to pay taxes (net of taxes payable), divided by the number of then-outstanding public shares. However, we may not redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 immediately prior to or upon consummation of an initial business combination (so that we are not subject to the SEC's "penny stock" rules). If this optional redemption right is exercised with respect to an excessive number of public shares such that we cannot satisfy the net tangible asset requirement, we would not proceed with the amendment or the related redemption of our public shares at such time. This redemption right shall apply in the event of the approval of any such amendment, whether proposed by our sponsors, any executive officer, director or director nominee, or any other person.

We expect that all costs and expenses associated with implementing our plan of dissolution, as well as payments to any creditors, will be funded from amounts remaining out of the \$1,000,000 of proceeds held outside the trust account plus the interest earned on the funds in the trust account available to us, although we cannot assure you that there will be sufficient funds for such purpose. We will depend on sufficient interest being earned on the proceeds held in the trust account to provide us with additional working capital we will need to identify and complete one or more initial business combinations, as well as to pay any tax obligations that we may owe. However, if those funds are not sufficient to cover the costs and expenses associated with implementing our plan

of dissolution, we may request the trustee to release to us an additional amount of up to \$100,000 of such accrued interest to pay those costs and expenses.

If we were to expend all of the net proceeds of this offering, other than the proceeds deposited in the trust account, and without taking into account interest, if any, earned on the trust account, the per-share redemption amount received by stockholders upon our dissolution would be \$10.00. The proceeds deposited in the trust account could, however, become subject to the claims of our creditors which would have higher priority than the claims of our public stockholders. We cannot assure you that the actual per-share redemption amount received by stockholders will not be less than \$10.00. While we intend to pay such amounts, if any, we cannot assure you that we will have funds sufficient to pay or provide for all creditors' claims.

Although we will seek to have all vendors, service providers, prospective target businesses and other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to any monies held in the trust account for the benefit of our public stockholders, there is no guarantee that they will execute such agreements or even if they execute such agreements that they would be prevented from bringing claims against the trust account including but not limited to fraudulent inducement, breach of fiduciary responsibility or other similar claims, as well as claims challenging the enforceability of the waiver, in each case in order to gain an advantage with respect to a claim against our assets, including the funds held in the trust account. If any third party refuses to execute an agreement waiving such claims to the monies held in the trust account, our management will perform an analysis of the alternatives available to it and will only enter into an agreement with a third party that has not executed a waiver if management believes that such third party's engagement would be significantly more beneficial to us than any alternative. Examples of possible instances where we may engage a third party that refuses to execute a waiver include the engagement of a third-party consultant whose particular expertise or skills are believed by management to be significantly superior to those of other consultants that would agree to execute a waiver or in cases where management is unable to find a service provider willing to execute a waiver. In addition, there is no guarantee that such entities will agree to waive any claims they may have in the future as a result of, or arising out of, any negotiations, contracts or agreements with us and will not seek recourse against the trust account for any reason. In order to protect the amounts held in the trust account, our sponsors have agreed that they will be liable to us if and to the extent any claims by a third party (other than our independent public accountants) for services rendered or products sold to us, or a prospective target business with which we have entered into a written letter of intent, confidentiality or other similar agreement or business combination agreement, reduce the amount of funds in the trust account to below the lesser of (i) \$10.00 per public share and (ii) the actual amount per public share held in the trust account as of the date of the liquidation of the trust account, if less than \$10.00 per share due to reductions in the value of the trust assets, less taxes payable; provided that such liability will not apply to any claims by a third party or prospective target business who executed a waiver of any and all rights to the monies held in the trust account (whether or not such waiver is enforceable), nor will it apply to any claims under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. However, we have not asked our sponsors to reserve for such indemnification obligations and we believe our sponsors' only assets are our securities. Therefore, we think it is unlikely that our sponsors would be able to satisfy those obligations. None of our other officers or directors will indemnify us for claims by third parties including, without limitation, claims by vendors and prospective target businesses.

In the event that the proceeds in the trust account are reduced below the lesser of (i) \$10.00 per public share and (ii) the actual amount per public share held in the trust account as of the date of the liquidation of the trust account if less than \$10.00 per share due to reductions in the value of the trust assets, in each case less taxes payable, and our sponsors assert that they are unable to satisfy their indemnification obligations or that they have no indemnification obligations related to a particular claim, our independent directors would determine whether to take legal action against our sponsors to enforce their indemnification obligations. While we currently expect that our independent directors would take legal action on our behalf against our sponsors to enforce their indemnification obligations to us, it is possible that our independent directors in exercising their business judgment may choose not to do so in any particular instance. Accordingly, we cannot assure you that due to claims of creditors the actual value of the per-share redemption price will not be less than \$10.00 per share.

We will seek to reduce the possibility that our sponsors will have to indemnify the trust account due to claims of creditors by endeavoring to have all vendors, service providers, prospective target businesses or other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to monies held in the trust account. Our sponsors will also not be liable as to any claims under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. We will have access to up to \$1,000,000 from the proceeds of this offering with which to pay any such potential claims (including costs and expenses incurred in connection with our liquidation, currently estimated to be no more than approximately \$100,000). In the event that we liquidate and it is subsequently determined that the reserve for claims and liabilities is insufficient, stockholders who received funds from our trust account could be liable for claims made by creditors. In the event that our offering expenses exceed our estimate of \$850,000, we may fund such excess with funds from the funds not to be held in the trust account. In such case, the amount of funds we intend to be held outside the trust account would decrease by a corresponding amount. Conversely, in the event that the offering expenses are less than our estimate of \$850,000, the amount of funds we intend to be held outside the trust account would increase by a corresponding amount.

If we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, the proceeds held in the trust account could be subject to applicable bankruptcy law, and may be included in our bankruptcy estate and subject to the claims of third parties with priority over the claims of our stockholders. To the extent any bankruptcy claims deplete the trust account, we cannot assure you we will be able to return \$10.00 per share to our public stockholders. Additionally, if we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, any distributions received by stockholders could be viewed under applicable debtor/creditor and/or bankruptcy laws as either a “preferential transfer” or a “fraudulent conveyance.” As a result, a bankruptcy court could seek to recover some or all amounts received by our stockholders. Furthermore, our board of directors may be viewed as having breached its fiduciary duty to our creditors and/or may have acted in bad faith, and thereby exposing itself and our company to claims of punitive damages, by paying public stockholders from the trust account prior to addressing the claims of creditors. We cannot assure you that claims will not be brought against us for these reasons.

Our public stockholders will be entitled to receive funds from the trust account only (i) in the event of the redemption of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering, (ii) in connection with a stockholder vote to amend our amended and restated certificate of incorporation to modify the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or (iii) if they redeem their respective shares for cash upon the completion of our initial business combination. In no other circumstances will a stockholder have any right or interest of any kind to or in the trust account. In the event we seek stockholder approval in connection with our initial business combination, a stockholder’s voting in connection with the business combination alone will not result in a stockholder’s redeeming its shares to us for an applicable *pro rata* share of the trust account. Such stockholder must have also exercised its redemption rights described above. These provisions of our amended and restated certificate of incorporation, like all provisions of our amended and restated certificate of incorporation, may be amended with a stockholder vote.

Comparison of Redemption or Purchase Prices in Connection with Our Initial Business Combination and If We Fail to Complete Our Initial Business Combination.

The following table compares the redemptions and other permitted purchases of public shares that may take place in connection with the completion of our initial business combination and if we have not completed our initial business combination within 24 months from the closing of this offering.

	Redemptions in Connection with our Initial Business Combination	Other Permitted Purchases of Public Shares by our Affiliates	Redemptions if We Fail to Complete an Initial Business Combination
Calculation of redemption price	Redemptions at the time of our initial business combination may be made pursuant to a tender offer or in connection with a stockholder vote. The redemption price will be the same whether we conduct redemptions pursuant to a tender offer or in connection with a stockholder vote. In either case, our public stockholders may redeem their public shares for cash equal to the aggregate amount then on deposit in the trust account calculated as of two business days prior to the consummation of our initial business combination (which is initially anticipated to be \$10.00 per share), including interest earned on the trust account not previously released to us to pay taxes (net of taxes payable), divided by the number of then-outstanding public shares, subject to the limitation that no redemptions will take place if all of the redemptions would cause our net tangible assets to be less than \$5,000,001 immediately prior to or upon consummation of an initial business combination and any limitations (including but not limited to cash requirements) agreed to in connection with the negotiation of terms of a proposed business combination.	If we seek stockholder approval of our initial business combination, our initial stockholders, directors, officers, advisors or their affiliates may purchase shares in privately negotiated transactions or in the open market either prior to or following completion of our initial business combination. There is no limit to the prices that our initial stockholders, directors, officers, advisors or their affiliates may pay in these transactions. If they engage in such transactions, they will not make any such purchases when they are in possession of any material nonpublic information not disclosed to the seller or if such purchases are prohibited by Regulation M under the Securities Exchange Act of 1934, as amended, or the Exchange Act. We do not currently anticipate that such purchases, if any, would constitute a tender offer subject to the tender offer rules under the Exchange Act or a going-private transaction subject to the going-private rules under the Exchange Act; however, if the purchasers determine at the time of any such purchases that the purchases are subject to such rules, the purchasers will comply with such rules.	If we have not completed our initial business combination within 24 months from the closing of this offering, we will redeem all public shares at a per-share price, payable in cash, equal to the aggregate amount, then on deposit in the trust account (which is initially anticipated to be \$10.00 per share), including interest earned on the trust account not previously released to us to pay taxes (net of taxes payable and less up to \$100,000 of interest to pay dissolution expenses) divided by the number of then-outstanding public shares.

	Redemptions in Connection with our Initial Business Combination	Other Permitted Purchases of Public Shares by our Affiliates	Redemptions if We Fail to Complete an Initial Business Combination
Impact to remaining stockholders	The redemptions in connection with our initial business combination will reduce the book value per share for our remaining stockholders, who will bear the burden of the deferred underwriting commissions and taxes payable	If the permitted purchases described above are made, there would be no impact to our remaining stockholders because the purchase price would not be paid by us.	The redemption of our public shares if we fail to complete our initial business combination will reduce the book value per share for the shares held by our initial stockholders, who will be our only remaining stockholders after such redemptions

Comparison of This Offering to Those of Blank Check Companies Subject to Rule 419

The following table compares the terms of this offering to the terms of an offering by a blank check company subject to the provisions of Rule 419. This comparison assumes that the gross proceeds, underwriting commissions and underwriting expenses of our offering would be identical to those of an offering undertaken by a company subject to Rule 419, and that the underwriters will not exercise their over-allotment option. None of the provisions of Rule 419 apply to our offering.

	Terms of Our Offering	Terms Under a Rule 419 Offering
Escrow of offering proceeds	\$300,000,000 of the net proceeds of this offering and the sale of the private placement warrants will be deposited into a trust account located in the United States with Continental Stock Transfer & Trust Company acting as trustee.	Approximately \$255,150,000 of the offering proceeds, representing the gross proceeds of this offering, would be required to be deposited into either an escrow account with an insured depository institution or in a separate bank account established by a broker-dealer in which the broker-dealer acts as trustee for persons having the beneficial interests in the account.
Investment of net proceeds	\$300,000,000 of the net proceeds of this offering and the sale of the private placement warrants held in trust may be invested only in U.S. government treasury obligations with a maturity of 180 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations.	Proceeds could be invested only in specified securities such as a money market fund meeting conditions of the Investment Company Act or in securities that are direct obligations of, or obligations guaranteed as to principal or interest by, the United States.
Receipt of interest on escrowed funds	Interest on proceeds from the trust account to be paid to stockholders is reduced by (i) any taxes paid or payable and (ii) in the event of our liquidation for failure to complete our initial business combination within the allotted time, up to an additional \$100,000 of net interest that may be released to us should we have no or insufficient working capital to fund the costs and expenses of our dissolution and liquidation.	Interest on funds in escrow account would be held for the sole benefit of investors, unless and only after the funds held in escrow were released to us in connection with our completion of a business combination.

	<u>Terms of Our Offering</u>	<u>Terms Under a Rule 419 Offering</u>
Limitation on fair value or net assets of target business	<p>We must complete one or more business combinations having an aggregate fair market value of at least 80% of the value of the assets held in the trust account (net of amounts previously disbursed to management for working capital purposes, if permitted, and excluding the amount of deferred underwriting discounts and commissions held in trust) at the time of the agreement to enter into our initial business combination.</p> <p>Notwithstanding the foregoing, if we are not then listed on the NYSE for whatever reason, we would no longer be required to meet the foregoing 80% fair market value test.</p>	<p>The fair value or net assets of a target business must represent at least 80% of the maximum offering proceeds.</p>
Trading of securities issued	<p>The units are expected to begin trading on or promptly after the date of this prospectus. The Class A common stock and warrants comprising the units will begin separate trading on the 52nd day following the date of this prospectus (or, if such date is not a business day, the following business day) unless Citigroup Global Markets Inc. informs us of its decision to allow earlier separate trading, subject to our having filed the Current Report on Form 8-K described below and having issued a press release announcing when such separate trading will begin. We will file the Current Report on Form 8-K promptly, and no later than four business days, after the closing of this offering. If the over-allotment option is exercised following the initial filing of such Current Report on Form 8-K, a second or amended Current Report on Form 8-K will be filed to provide updated financial information to reflect the exercise of the over-allotment option.</p>	<p>No trading of the units or the underlying Class A common stock and warrants would be permitted until the completion of a business combination. During this period, the securities would be held in the escrow or trust account.</p>
Exercise of the warrants	<p>The warrants cannot be exercised until the later of 30 days after the completion of our initial business combination or 12 months from the closing of this offering</p>	<p>The warrants could be exercised prior to the completion of a business combination, but securities received and cash paid in connection with the exercise would be deposited in the escrow or trust account.</p>

Election to remain an investor

Terms of Our Offering

We will provide our public stockholders with the opportunity to redeem their public shares for cash at a per-share price equal to the aggregate amount then on deposit in the trust account calculated as of two business days prior to the consummation of our initial business combination, including interest earned on the trust account not previously released to us to pay taxes (net of taxes payable), divided by the number of then-outstanding public shares, upon the completion of our initial business combination, subject to the limitations described herein. We may not be required by law to hold a stockholder vote. If we are not required by law and do not otherwise decide to hold a stockholder vote, we will, pursuant to our amended and restated certificate of incorporation, conduct the redemptions pursuant to the tender offer rules of the SEC and file tender offer documents with the SEC which will contain substantially the same financial and other information about our initial business combination and the redemption rights as is required under the SEC's proxy rules.

If, however, we hold a stockholder vote, we will, like many blank check companies, offer to redeem shares in conjunction with a proxy solicitation pursuant to the proxy rules and not pursuant to the tender offer rules. If we seek stockholder approval, we will complete our initial business combination only if a majority of the shares of common stock voted are voted in favor of the business combination. Additionally, each public stockholder may elect to redeem its public shares irrespective of whether it votes for or against the proposed transaction.

Terms Under a Rule 419 Offering

A prospectus containing information pertaining to the business combination required by the SEC would be sent to each investor. Each investor would be given the opportunity to notify the company in writing, within a period of no less than 20 business days and no more than 45 business days from the effective date of a post-effective amendment to the company's registration statement, to decide if he, she or it elects to remain a stockholder of the company or require the return of his, her or its investment. If the company has not received the notification by the end of the 45th business day, funds and interest or dividends, if any, held in the trust or escrow account are automatically returned to the stockholder. Unless a sufficient number of investors elect to remain investors, all funds on deposit in the escrow account must be returned to all of the investors and none of the securities are issued.

	<u>Terms of Our Offering</u>	<u>Terms Under a Rule 419 Offering</u>
Business combination deadline	<p>If we have not completed an initial business combination within 24 months from the closing of this offering, we will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem 100% of the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the trust account not previously released to us to pay taxes (net of taxes payable and less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then-outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidation distributions, if any) and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, dissolve and liquidate, subject in the case of clauses (ii) and (iii) to our obligations under Delaware law to provide for claims of creditors.</p>	<p>If an acquisition has not been completed within 18 months after the effective date of the company's registration statement, funds held in the trust or escrow account are returned to investors.</p>
Release of funds	<p>Except for the withdrawal of interest to pay our taxes, none of the funds held in trust will be released from the trust account until the earliest of (i) the completion of our initial business combination, (ii) the redemption of our public shares if we have not completed our initial business combination within 24 months from the closing of this offering, subject to applicable law and (iii) the redemption of our public shares properly submitted in connection with a stockholder vote to approve an amendment to our amended and restated certificate of incorporation that would affect the substance or timing of our obligation to redeem 100% of our public shares if we have not consummated an initial business combination within 24 months from the closing of this offering.</p>	<p>The proceeds held in the escrow account are not released until the earlier of the completion of a business combination or the failure to effect a business combination within the allotted time.</p>

Competition

In identifying, evaluating and selecting a target business for our initial business combination, we may encounter intense competition from other entities having a business objective similar to ours, including other blank check companies, private equity groups and leveraged buyout funds, public companies and operating businesses seeking strategic acquisitions. Many of these entities are well established and have extensive experience identifying and effecting business combinations directly or through affiliates. Moreover, many of these competitors possess greater financial, technical, human and other resources than us. Our ability to acquire larger target businesses will be limited by our available financial resources. This inherent limitation gives others an advantage in pursuing the acquisition of a target business. Furthermore, our obligation to pay cash in connection with our public stockholders who exercise their redemption rights may reduce the resources available to us for our initial business combination and our outstanding warrants, and the future dilution they potentially represent, may not be viewed favorably by certain target businesses. Either of these factors may place us at a competitive disadvantage in successfully negotiating an initial business combination.

Facilities

We currently maintain our executive offices at 1300 17th Street North, Suite 820, Arlington, Virginia 22209. We also have an office in Maryland provided by our sponsors. The cost for our use of these spaces is included in the up to \$20,000 per month fee we will pay to our sponsors for office space, administrative and support services. We consider our current office space adequate for our current operations.

Employees

We currently have four executive officers. These individuals are not obligated to devote any specific number of hours to our matters but they intend to devote as much of their time as they deem necessary to our affairs until we have completed our initial business combination. The amount of time they will devote in any time period will vary based on whether a target business has been selected for our initial business combination and the stage of the business combination process we are in. We do not intend to have any full time employees prior to the completion of our initial business combination.

Periodic Reporting and Financial Information

We will register our units, Class A common stock and warrants under the Exchange Act and have reporting obligations, including the requirement that we file annual, quarterly and current reports with the SEC. In accordance with the requirements of the Exchange Act, our annual reports will contain financial statements audited and reported on by our independent registered public accountants.

We will provide stockholders with audited financial statements of the prospective target business as part of the proxy solicitation or tender offer materials, as applicable, sent to stockholders. These financial statements may be required to be prepared in accordance with, or reconciled to, GAAP, or IFRS, depending on the circumstances, and the historical financial statements may be required to be audited in accordance with the standards of the PCAOB. These financial statement requirements may limit the pool of potential target businesses we may acquire because some targets may be unable to provide such statements in time for us to disclose such statements in accordance with federal proxy rules and complete our initial business combination within the prescribed time frame. We cannot assure you that any particular target business identified by us as a potential acquisition candidate will have financial statements prepared in accordance with the requirements outlined above, or that the potential target business will be able to prepare its financial statements in accordance with the requirements outlined above. To the extent that these requirements cannot be met, we may not be able to acquire the proposed target business. While this may limit the pool of potential acquisition candidates, we do not believe that this limitation will be material.

We will be required to evaluate our internal control procedures for the fiscal year ending December 31, 2021 as required by the Sarbanes-Oxley Act. Only in the event we are deemed to be a large accelerated filer or an accelerated filer will we be required to comply with the independent registered public accounting firm attestation requirements on our internal control over financial reporting. A target business may not be in compliance with the provisions of the Sarbanes-Oxley Act regarding adequacy of their internal controls. The development of the internal controls of any such entity to achieve compliance with the Sarbanes-Oxley Act may increase the time and costs necessary to complete any such acquisition.

[Table of Contents](#)

We are an “emerging growth company,” as defined in Section 2(a) of the Securities Act, as modified by the JOBS Act. As such, we are eligible to take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not “emerging growth companies” including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements, and exemptions from the requirements of holding a non-binding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved. If some investors find our securities less attractive as a result, there may be a less active trading market for our securities and the prices of our securities may be more volatile.

In addition, Section 107 of the JOBS Act also provides that an “emerging growth company” can take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act for complying with new or revised accounting standards. In other words, an “emerging growth company” can delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. We intend to take advantage of the benefits of this extended transition period.

We will remain an emerging growth company until the earlier of (1) the last day of the fiscal year (a) following the fifth anniversary of the completion of this offering, (b) in which we have total annual gross revenue of at least \$1.07 billion, or (c) in which we are deemed to be a large accelerated filer, which means the market value of our Class A common stock that are held by non-affiliates exceeds \$700 million as of the prior June 30th, and (2) the date on which we have issued more than \$1.0 billion in non-convertible debt during the prior three-year period.

Additionally, we are a “smaller reporting company” as defined in Item 10(f)(1) of Regulation S-K. Smaller reporting companies may take advantage of certain reduced disclosure obligations, including, among other things, providing only two years of audited financial statements. We will remain a smaller reporting company until the last day of the fiscal year in which (1) the market value of our Class A common stock held by non-affiliates exceeds \$250 million as of the end of that fiscal year’s second fiscal quarter or (2) our annual revenues exceeded \$100 million during such completed fiscal year and the market value of our Class A common stock held by non-affiliates exceeds \$700 million as of the end of that fiscal year’s second fiscal quarter.

Legal Proceedings

There is no material litigation, arbitration or governmental proceeding currently pending against us or any members of our management team in their capacity as such.

MANAGEMENT

Officers and Directors

Our officers and directors are as follows:

Name	Age	Position
Mark D. Ein	55	Chairman of the Board and Chief Executive Officer
L. Dyson Dryden	45	President, Chief Financial Officer and Director
Alfheidur H. Saemundsson	41	Executive Vice President and Secretary
Preston P. Parnell	28	Vice President
Lawrence Calcano	56	Director
Richard C. Donaldson	59	Director
Raul J. Fernandez	53	Director
Thomas S. Smith, Jr.	55	Director

Mark D. Ein. Mr. Ein has served as our Chairman, Chief Executive Officer and a member of the Board of Directors since our inception. Mr. Ein is an investor, entrepreneur and philanthropist, who has created, acquired, invested in and built a series of growth companies across a diverse set of industries over the course of his 30-year career. During this time, Mr. Ein has been involved in the founding or early stages of six companies that have been worth over one billion dollars and has led over \$1.8 billion of private equity, venture capital and public company investments. From May 2017 until July 2019, Mr. Ein was the Chairman of the Board and Chief Executive Officer of Capitol IV, a blank check company formed for substantially similar purposes of our company. In July 2019, Capitol IV completed its business combination with Nesco (NYSE:NSCO), one of the largest specialty equipment rental providers to the growing electric utility transmission and distribution, telecom and rail industries in North America. Mr. Ein has served as Vice-Chairman of the Board of Nesco since the closing of its business combination. From July 2015 until June 2017, Mr. Ein was the Chairman of the Board and Chief Executive Officer of Capitol III, a blank check company formed for substantially similar purposes as our company. In June 2017, Capitol III completed its business combination with Cision (NYSE:CISN), a leading media communication technology and analytics company. Mr. Ein served as Vice-Chairman of the Board of Cision from the closing of its business combination until January 2020 when it was sold to Platinum Equity and taken private. From August 2010 to July 2015, Mr. Ein was the Chairman of the Board, Chief Executive Officer, Treasurer and Secretary of Capitol II, a blank check company formed for substantially similar purposes as our company. In July 2015, Capitol II completed its business combination with Lindblad (NASDAQ:LIND), a global leader in expedition cruising and extraordinary travel experiences. Mr. Ein has served as Chairman of the Board of Lindblad since the closing of the business combination. From June 2007 to October 2009, Mr. Ein was the Chief Executive Officer and Director of Capitol I, a blank check company formed for substantially similar purposes as our company. Capitol I completed its business combination with Two Harbors (NYSE:TWO), a Maryland real estate investment trust, in October 2009. From October 2009 to May 2015, Mr. Ein served as the Non-Executive Vice Chairman of Two Harbors' Board of Directors. Mr. Ein is the Founder of Venturehouse Group, LLC, a holding company that creates, invests in and builds companies, and has served as its Chairman and Chief Executive Officer since 1999. He has also been the President of Leland Investments Inc., a private investment firm, since 2005. Mr. Ein is Co-Chairman of Kastle Holding Company LLC, which through its subsidiaries is the majority owner and conducts the business of Kastle Systems, LLC, a provider of building and office security systems that was acquired in January 2007. Mr. Ein has also served on the Board of Directors of Soho House Holdings Limited since September 2018.

Mr. Ein is the Founder and Owner of MDE Sports, which owns the Citi Open tennis tournament in Washington, D.C., one of the five largest tennis events in the United States and one of only five major tournaments in the United States featuring players from both the ATP and WTA Tours competing simultaneously. MDE Sports also owns the Washington Kastles World Team Tennis franchise that has won the league championship six of its 13 years since its founding by Mr. Ein and had one of the longest winning streaks in U.S. pro team sports history, winning 34 straight matches from 2011 through 2013. In September 2018, Mr. Ein founded and became Chairman of Washington E-Sports Ventures, which owns the Washington Justice esports franchise in the Overwatch League, bringing the premier global esports league to the greater Washington, D.C. region, and, also in 2018, Mr. Ein acquired the Washington City Paper, the renowned weekly paper serving the Washington, D.C. metropolitan area since 1981.

A native of the Washington area, he actively supports many community, charitable and cultural organizations and currently serves on the boards of the D.C. Public Education Fund (as Chairman since 2010, the Fund has raised \$130 million of philanthropic support for D.C. Public Schools), the Smithsonian National Museum of Natural History, D.C. College Access Program and D.C. Policy Center (Co-Founder). He currently serves as a Presidential Appointee to the Board of the United States Tennis Association, having previously served on the board from 2012 to 2018 (serving as a Vice President of the Board from 2016 to 2018). Mr. Ein has been a member of the World Economic Forum since 2016, and the Gridiron Club, the oldest and one of the most prestigious journalistic organizations in Washington, DC.

He has won numerous awards, including the Washington Business Hall of Fame, Washington, D.C. Business Leader of the Year from the Chamber of Commerce in 2011 and 2019, the Jefferson Award for public service and Entrepreneur of the Year Awards from Ernst and Young and the National Foundation for Teaching Entrepreneurship. In September 2009, Washington, D.C. Mayor Adrian Fenty presented Mr. Ein with the Key to the City, highlighting his Washington Kastles success on the court and, “for their commitment to the District’s communities and our youth.”

Previously in his career, Mr. Ein worked for The Carlyle Group, Brentwood Associates, and Goldman, Sachs & Co. Mr. Ein received a B.S. in Economics with a concentration in Finance from the University of Pennsylvania’s Wharton School of Finance and an M.B.A. from the Harvard Business School.

We believe Mr. Ein is well-qualified to serve as a member of the board due to his public company experience, business leadership, operational experience, and experience in prior blank check offerings, such as Capitol I, Capitol II, Capitol III and Capitol IV.

L. Dyson Dryden. Mr. Dryden has served as our President, Chief Financial Officer and a member of the Board of Directors since our inception. From May 2017 until it completed its business combination with Nesco in July 2019, Mr. Dryden served as President, Chief Financial Officer and a member of the Board of Directors of Capitol IV. Mr. Dryden currently serves as Co-Chairman of Nesco and has been a member of the Board of Directors since its business combination with Capitol IV. From July 2015 until it completed its business combination with Cision in June 2017, Mr. Dryden was the President, Chief Financial Officer, Treasurer, Secretary and a Director of Capitol III. From the closing of the business combination until the sale of the company January 2020, Mr. Dryden served as a Director of Cision. From March 2013 to July 2015, Mr. Dryden served as the Chief Financial Officer and a Director of Capitol II. In July 2015, Capitol II completed its business combination with Lindblad. Mr. Dryden has continued to serve as a Director of Lindblad since the closing of its business combination. Mr. Dryden is also the founder of Dryden Capital Management, LLC, a private investment firm that invests in and builds private companies, and has served as its President since March 2013. Mr. Dryden has also been Vice Chairman of CDS Logistics Management, Inc., one of the largest providers of home improvement product delivery services in the United States, since 2009. From August 2005 to February 2013, Mr. Dryden worked in Citigroup’s Investment Banking division in New York, most recently as a Managing Director where he led the coverage effort for a number of the firm’s Global Technology, Media and Telecommunications clients. From 2000 to 2005, Mr. Dryden held the titles of Associate and Vice President at Jefferies & Company, a middle market investment banking firm. From 1998 to 2000, Mr. Dryden worked in the investment banking group at BB&T Corporation. Mr. Dryden is currently a member of the Board of Directors of Washington E-Sports Ventures, LLC, founded to purchase an Overwatch League Team and build other esports teams that will represent the capital region from Baltimore to Richmond including Washington, D.C. and all of Maryland and Virginia. Mr. Dryden holds a B.S. in Business Administration with a dual concentration in finance and management from the University of Richmond.

We believe Mr. Dryden is well-qualified to serve as a member of the board due to his corporate finance and public company experience, as well as his experience in prior blank check offerings, such as Capitol I, Capitol II, Capitol III and Capitol IV.

Alfheidur H. Saemundsson has served as our Executive Vice President and Secretary since October 2017. From July 2017 until its business combination in July 2019, Ms. Saemundsson was Executive Vice President of Corporate Development and Secretary of Capitol IV. From October 2015 to June 2017, Ms. Saemundsson served as vice president of Capitol III. From May 2013 to July 2015, Ms. Saemundsson served as a consultant to Capitol II and has continued to serve as a consultant to Lindblad Expeditions since the closing of its business combination with Capitol II supporting the company’s financial planning and analysis, corporate development, capital raising

and investor relations activities. From November 2011 to May 2013, Ms. Saemundsson was a vice president with Quadrangle Group LLC, a private investment firm focused on the communications, media and information sectors. Prior to joining Quadrangle, Ms. Saemundsson held the role of Vice President in Citigroup's investment banking division in New York where she covered the media and telecommunications sectors. Previously, Ms. Saemundsson was an Analyst with British Sky Broadcasting in London. Ms. Saemundsson also previously served on the Board of Directors of NTELOS Holdings Corp. Ms. Saemundsson received a Bachelor of Arts degree from Yale University and an M.B.A. from the Yale School of Management where she was a Silver Scholar. Ms. Saemundsson is a CFA charterholder.

Preston P. Parnell has served as our Vice President since August 2019. Mr. Parnell previously served as a consultant for Capitol IV from July 2017 until its business combination with Nesco in July 2019. Since the business combination, Mr. Parnell has continued to serve as a consultant to Nesco supporting the company's financial planning and analysis, corporate development and investor relations activities. Mr. Parnell also serves as Vice President of Business Development for Washington Esports Ventures, Mr. Ein and Mr. Dryden's esports investment platform. Previously, Mr. Parnell was a consultant for Capitol III from February 2016 until its business combination with Cision in June 2017 and continued as a board observer until the company was acquired in December 2019. Prior to Capitol III, Mr. Parnell worked in the Media and Telecommunications investment banking group at Citi, where he covered a wide array of media and telecom clients and was involved in advising multiple transactions, including Capitol II in its business combination with Lindblad Expeditions. Mr. Parnell graduated cum laude from New York University's Stern School of Business, where he received a Bachelor of Science degree in finance and accounting with a minor in politics.

Lawrence Calcano has served as a member of our Board of Directors since December 2018. Mr. Calcano is the Chairman and Chief Executive Officer of Institutional Capital Network, Inc. (or iCapital Network). Mr. Calcano began working with iCapital shortly after its 2013 founding to lead key strategic and business development initiatives. iCapital is a technology platform for the alternative investment marketplace that currently has about \$63 billion of assets operated and managed on its platform. Throughout Mr. Calcano's tenure, iCapital has completed seven acquisitions and has also grown significantly on an organic basis. Mr. Calcano has a long affiliation with the Capitol team. From September 2007 until its merger with Two Harbors in October 2009, Mr. Calcano served as a member of the Board of Directors of Capitol I. From March 2013 until its merger with Lindblad Expeditions, Mr. Calcano also served as a member of the Board of Directors of Capitol II. From September 2015 until its merger with Cision in June 2017, Mr. Calcano also served as a member of the Board of Directors of Capitol III. From June 2017 until its merger with Nesco, Mr. Calcano served as a member of the Board of Directors of Capitol IV. From 1990 to June 2006, Mr. Calcano was affiliated with Goldman, Sachs & Co., most recently serving as the co-head of the Global Technology Banking Group of the Investment Banking Division, prior to which he headed the firm's east coast technology group and was the co-Chief Operating Officer of the High Technology Department. From 1985 to 1988, Mr. Calcano was an analyst at Morgan Stanley. Mr. Calcano was named to the Forbes Midas List of the most influential people in venture capital in 2001 (the inaugural year), 2002, 2004, 2005 and 2006. Mr. Calcano received a B.A. from College of the Holy Cross, and attended the Amos Tuck School of Business at Dartmouth College from 1988 to 1990, graduating as a Tuck Scholar.

We believe Mr. Calcano is well-qualified to serve as a member of the board due to his public company experience, business leadership, operational experience, and experience with Capitol I, Capitol II, Capitol III and Capitol IV.

Richard C. Donaldson has served as a member of our Board of Directors since December 2018. Mr. Donaldson is a Retired Partner with Pillsbury Winthrop Shaw Pittman LLP, a global law firm, where he started in 1985. Mr. Donaldson served as Pillsbury's Chief Operating Officer and a member of the firm's Executive Team from June 2006 until July 2017. Mr. Donaldson also served as a member of Pillsbury's Board of Directors from May 2006 until May 2015. Mr. Donaldson has a long affiliation with the Capitol team. From September 2007 until its merger with Two Harbors in October 2009, Mr. Donaldson served as a member of the Board of Directors of Capitol I. From March 2013 until its merger with Lindblad Expeditions, Mr. Donaldson also served as a member of the Board of Directors of Capitol II. From September 2015 until its merger with Cision in June 2017, Mr. Donaldson also served as a member of the Board of Directors of Capitol III. From June 2017 until its merger with Nesco, Mr. Donaldson served as a member of the Board of Directors of Capitol IV. Mr. Donaldson currently serves on the Board of Directors of Arizona Cardinals Holdings, Inc. From June 2000 to August 2001, Mr. Donaldson served as Managing Director of Venturehouse Group and he has served as a member of its Board of Directors since June 2000.

He previously served on the Board of Directors of Greater DC Cares and the Board of Directors of the Woolly Mammoth Theatre Company in Washington, D.C. Mr. Donaldson received a B.A. from Cornell University in 1982 and a J.D. from The University of Chicago Law School in 1985.

We believe Mr. Donaldson is well-qualified to serve as a member of the board due to his public company experience, business leadership, operational experience, and experience with Capitol I, Capitol II, Capitol III and Capitol IV.

Raul J. Fernandez has served as a member of our Board of Directors since October 2020. Mr. Fernandez has served as Vice Chairman and owner of Monumental Sports & Entertainment, a private partnership that co-owns the NBA's Washington Wizards, the NHL's Washington Capitals, the WNBA's Washington Mystics and Wizards District Gaming NBA 2K team, and which co-owns and operates the Capital One Arena in Washington, D.C., since 2010. He has served as Special Advisor to, and is a Limited Partner of, General Atlantic Partners, a growth equity firm, since 2001. He also serves as Special Advisor to, and Limited Partner of, Carrick Capital Partners, a growth equity firm. Mr. Fernandez has a long affiliation with the Capitol team and served on the Board of Directors of Capitol I from September 2007 until its merger with Two Harbors in October 2009. Mr. Fernandez previously served in several leadership roles at various technology companies, including, from 2004 to 2017, as Chairman and Chief Executive Officer for ObjectVideo, Inc., a developer of intelligent video surveillance software. Mr. Fernandez also founded Proxicom, Inc. (NASDAQ: PXCM), a global provider of e-commerce solutions for Fortune 500 companies, and served as its Chief Executive Officer and Chairman of its board of directors since its inception in 1991 until its acquisition in 2001. He is currently on the board of directors of Broadcom Inc., GameStop Corp. and DXC Technology Company. Mr. Fernandez also served as a director of Kate Spade & Co. from 2001 through 2017, and previously served as a member of President George W. Bush's Council of Advisors on Science and Technology.

We believe Mr. Fernandez is well-qualified to serve as a member of the board due to his public company experience, business leadership, operational experience and experience with Capitol I.

Thomas S. (Tad) Smith, Jr. has served as a member of our Board of Directors since October 2020. Mr. Smith was most recently the President and CEO of the global auction house Sotheby's, serving from March 2015 through October 2019, and then stepping down after successfully selling the company. From February 2014 to March 2015, he served as President and Chief Executive Officer of Madison Square Garden Company, a diversified media, entertainment and sports company. From 2009 to February 2014, Mr. Smith was President, Local Media, of Cablevision, as well as responsible for Cablevision Media Sales. From 2000 to 2009, he worked for Reed Elsevier Group PLC, a worldwide media company, where he last served as chief executive officer of the company's U.S. business-to-business division, Reed Business Information. He currently serves as an Adjunct Professor at NYU Stern School of Business. Mr. Smith currently serves as a board member of Lindblad, which went public through a business combination with Capitol II in July 2015. Mr. Smith also serves as a board member of Los Angeles-based technology company Verishop and as a board member of New York-based technology company Simulmedia. Mr. Smith is also the Chairman of the Advisory Board of the Zero Gravity Corporation, which provides science and tourism flights in zero gravity environments. Mr. Smith serves on the Dean's Advisory Board of Harvard Business School, the Advisory Board of the Hospital for Special Surgery, the President's Council for Lincoln Center for the Performing Arts and the board of directors of the Prostate Cancer Foundation. Mr. Smith received a Master of Business Administration from Harvard Business School where he was a George F. Baker Scholar and a Horace W. Goldsmith Fellow. He received a Bachelor of Arts from Princeton University's Woodrow Wilson School of Public and International Affairs, where he received the R.W. Van de Velde Award.

We believe Mr. Smith is well-qualified to serve as a member of the board due to his public company experience, operational experience and business leadership.

Number and Terms of Office of Officers and Directors

Our board of directors consists of six members and is divided into three classes, with only one class of directors being elected in each year, and with each class (except for those directors appointed prior to our first annual meeting of stockholders) serving a three-year term. In accordance with the NYSE corporate governance requirements, we are not required to hold an annual meeting until one year after our first fiscal year end following our listing on the NYSE. The term of office of the first class of directors, consisting of Raul Fernandez and Lawrence Calcano, will expire at our first annual meeting of stockholders. The term of office of the second class of directors, consisting of L. Dyson Dryden and Richard C. Donaldson, will expire at our second annual meeting

of stockholders. The term of office of the third class of directors, consisting of Mark D. Ein and Tad Smith, will expire at our third annual meeting of stockholders. We may not hold an annual meeting of stockholders until after we consummate our initial business combination. Holders of our founder shares will have the right to elect all of our directors prior to consummation of our initial business combination and to remove directors prior to our initial business combination, and holders of our public shares will not have the right to vote on the election of directors during such time.

Our officers are appointed by the board of directors and serve at the discretion of the board of directors, rather than for specific terms of office. Our board of directors is authorized to appoint such officers as it deems appropriate pursuant to our amended and restated certificate of incorporation.

Director Independence

The NYSE listing standards require that a majority of our board of directors be independent. Our board of directors has determined that Messrs. Calcano, Donaldson, Fernandez and Smith are “independent directors” as defined in the NYSE listing standards and applicable SEC rules. Our independent directors will have regularly scheduled meetings at which only independent directors are present.

Executive Officer and Director Compensation

None of our executive officers or directors have received any cash compensation for services rendered to us. Commencing on the date that our securities are first listed on the NYSE through the earlier of consummation of our initial business combination and our liquidation, we will reimburse our sponsors for office space, secretarial and administrative services provided to us in an amount not to exceed \$20,000 per month. We may also pay salaries or consulting or success fees to our sponsors, officers, directors or their affiliates after this offering. In addition, our sponsors, executive officers and directors, or any of their respective affiliates will be reimbursed for any out-of-pocket expenses incurred in connection with activities on our behalf such as identifying potential target businesses and performing due diligence on suitable business combinations. Our audit committee will review on a quarterly basis all payments that were made to our sponsors, executive officers or directors, or our or their affiliates. Any such payments prior to an initial business combination will be made using funds held outside the trust account. Other than quarterly audit committee review of such reimbursements, we do not expect to have any additional controls in place governing our reimbursement payments to our directors and executive officers for their out-of-pocket expenses incurred in connection with our activities on our behalf in connection with identifying and consummating an initial business combination. Other than these payments and reimbursements, no compensation of any kind will be paid by the company to our sponsors, executive officers and directors, or any of their respective affiliates, prior to completion of our initial business combination.

After the completion of our initial business combination, directors or members of our management team who remain with us may be paid consulting or management fees from the combined company. All of these fees will be fully disclosed to stockholders, to the extent then known, in the proxy solicitation materials or tender offer materials furnished to our stockholders in connection with a proposed business combination. We have not established any limit on the amount of such fees that may be paid by the combined company to our directors or members of management. It is unlikely the amount of such compensation will be known at the time of the proposed business combination, because the directors of the post-combination business will be responsible for determining executive officer and director compensation. Any compensation to be paid to our executive officers will be determined, or recommended to the board of directors for determination, either by a compensation committee constituted solely by independent directors or by a majority of the independent directors on our board of directors.

We do not intend to take any action to ensure that members of our management team maintain their positions with us after the consummation of our initial business combination, although it is possible that some or all of our executive officers and directors may negotiate employment or consulting arrangements to remain with us after our initial business combination. The existence or terms of any such employment or consulting arrangements to retain their positions with us may influence our management’s motivation in identifying or selecting a target business but we do not believe that the ability of our management to remain with us after the consummation of our initial business combination will be a determining factor in our decision to proceed with any potential business combination. We are not party to any agreements with our executive officers and directors that provide for benefits upon termination of employment.

Committees of the Board of Directors

Upon the effectiveness of the registration statement of which this prospectus forms a part, our board of directors will have three standing committees: an audit committee, a nominating committee and a compensation committee. Each of these committees will be comprised solely of independent directors.

Audit Committee

Upon the effectiveness of the registration statement of which this prospectus forms a part, we will establish an audit committee of the board of directors. Messrs. Calcano, Donaldson and _____ will serve as members of our audit committee, all of whom are independent. Each member of the audit committee is financially literate and our board of directors has determined that Mr. Calcano qualifies as an “audit committee financial expert” as defined in applicable SEC rules.

The audit committee is responsible for:

- meeting with our independent auditor regarding, among other issues, audits, and adequacy of our accounting and control systems;
- monitoring the independence of the independent auditor;
- verifying the rotation of the lead (or coordinating) audit partner having primary responsibility for the audit and the audit partner responsible for reviewing the audit as required by law;
- inquiring and discussing with management our compliance with applicable laws and regulations;
- pre-approving all audit services and permitted non-audit services to be performed by our independent auditor, including the fees and terms of the services to be performed;
- appointing or replacing the independent auditor;
- determining the compensation and oversight of the work of the independent auditor (including resolution of disagreements between management and the independent auditor regarding financial reporting) for the purpose of preparing or issuing an audit report or related work;
- establishing procedures for the receipt, retention and treatment of complaints received by us regarding accounting, internal accounting controls or reports which raise material issues regarding our financial statements or accounting policies;
- monitoring compliance on a quarterly basis with the terms of this offering and, if any noncompliance is identified, immediately taking all action necessary to rectify such noncompliance or otherwise causing compliance with the terms of this offering; and
- reviewing and approving all payments made to our existing stockholders, executive officers or directors and their respective affiliates. Any payments made to members of our audit committee will be reviewed and approved by our board of directors, with the interested director or directors abstaining from such review and approval.

Nominating Committee

Effective upon the date of this prospectus, we will establish a nominating committee of the board of directors, which will consist of Messrs. Calcano, Donaldson and _____, each of whom is an independent director under the NYSE’s listing standards. The nominating committee is responsible for overseeing the selection of persons to be nominated to serve on our board of directors. The nominating committee considers persons identified by its members, management, stockholders, investment bankers and others.

Guidelines for Selecting Director Nominees

The guidelines for selecting nominees, which are specified in the Nominating Committee Charter, generally provide that persons to be nominated:

- should have demonstrated notable or significant achievements in business, education or public service;

[Table of Contents](#)

- should possess the requisite intelligence, education and experience to make a significant contribution to the board of directors and bring a range of skills, diverse perspectives and backgrounds to its deliberations; and
- should have the highest ethical standards, a strong sense of professionalism and intense dedication to serving the interests of the stockholders.

The Nominating Committee will consider a number of qualifications relating to management and leadership experience, background and integrity and professionalism in evaluating a person's candidacy for membership on the board of directors. The nominating committee may require certain skills or attributes, such as financial or accounting experience, to meet specific board needs that arise from time to time and will also consider the overall experience and makeup of its members to obtain a broad and diverse mix of board members. The nominating committee does not distinguish among nominees recommended by stockholders and other persons.

Compensation Committee

Upon the effectiveness of the registration statement of which this prospectus forms a part, we will establish a compensation committee of our board of directors. The members of our compensation committee will be Messrs. Calcano, Donaldson and . We will adopt a compensation committee charter, which will detail the principal functions of the compensation committee, including:

- reviewing and approving on an annual basis the corporate goals and objectives relevant to our co-chief executive officers' compensation, evaluating our co-chief executive officers' performance in light of such goals and objectives and determining and approving the remuneration (if any) of our co-chief executive officers based on such evaluation;
- reviewing and approving the compensation of all of our other Section 16 executive officers;
- reviewing our executive compensation policies and plans;
- implementing and administering our incentive compensation equity-based remuneration plans;
- assisting management in complying with our proxy statement and annual report disclosure requirements;
- approving all special perquisites, special cash payments and other special compensation and benefit arrangements for our executive officers and employees;
- producing a report on executive compensation to be included in our annual proxy statement; and
- reviewing, evaluating and recommending changes, if appropriate, to the remuneration for directors.

The charter will also provide that the compensation committee may, in its sole discretion, retain or obtain the advice of a compensation consultant, legal counsel or other adviser and will be directly responsible for the appointment, compensation and oversight of the work of any such adviser. However, before engaging or receiving advice from a compensation consultant, external legal counsel or any other adviser, the compensation committee will consider the independence of each such adviser, including the factors required by the NYSE and the SEC.

Compensation Committee Interlocks and Insider Participation

None of our executive officers currently serves, and in the past year has not served, as a member of the compensation committee of any entity that has one or more executive officers serving on our board of directors.

Code of Ethics

Upon the effectiveness of the registration statement of which this prospectus forms a part, we will have adopted a Code of Ethics applicable to our directors, officers and employees, including our principal executive officer, principal financial officer, principal accounting officer and controller, or persons performing similar functions. Our Code of Business Conduct and Ethics is a "code of ethics," as defined in Item 406(b) of Regulation S-K. A copy of the Code of Ethics will be provided without charge upon request from us, and will be posted on our website. We intend to disclose any legally required amendments to, or waivers of, provisions of our Code of Ethics on our website.

Conflicts of Interest

In general, officers and directors of a corporation incorporated under the laws of the State of Delaware are required to present business opportunities to a corporation if:

- the corporation could financially undertake the opportunity;
- the opportunity is within the corporation’s line of business; and
- it would not be fair to the corporation and its stockholders for the opportunity not to be brought to the attention of the corporation.

Accordingly, as a result of multiple business affiliations, our officers and directors may have similar legal obligations relating to presenting business opportunities meeting the above-listed criteria to multiple entities. We cannot assure you that any of the above mentioned conflicts will be resolved in our favor.

Our sponsors, officers and directors may participate in the formation of, or become an officer or director of, another blank check company prior to completion of our initial business combination. Our sponsors, officers and directors have agreed that if they do, they will present to us, prior to presenting to such other blank check company, all suitable business combination opportunities. Accordingly, we do not believe that the involvement in any future blank check company will affect our ability to complete an initial business combination or present a conflict of interest in determining which entity to present suitable business combination opportunities to.

Below is a table summarizing the other entities to which our executive officers and directors currently have fiduciary duties or contractual obligations:

Individual	Entity	Entity’s Business
Mark D. Ein	Nesco Holdings, Inc.	Nesco is one of the largest specialty equipment rental providers to the growing electric utility transmission and distribution, telecom and rail industries in North America.
	Lindblad Expeditions Holdings, Inc.	Lindblad provides expedition cruising and adventure travel experiences.
	Visual Systems Group, Inc.	Visual Systems Group is a video conferencing and collaboration solutions company.
	MDE City Paper Holdings, LLC	MDE City Paper Holdings owns the Washington City Paper, a renowned weekly paper serving the Washington, DC metropolitan area.
	Soho House Holdings Limited	Soho House is global private membership club and lifestyle brand.
	Washington E-Sports Ventures, LLC	Washington E-Sports Ventures, LLC is an owner and operator of e-sports teams.
L. Dyson Dryden	Nesco Holdings, Inc.	Nesco is one of the largest specialty equipment rental providers to the growing electric utility transmission and distribution, telecom and rail industries in North America.
	Lindblad Expeditions Holdings, Inc.	Lindblad provides expedition cruising and adventure travel experiences.
	CDS Logistics Management, Inc.	CDS provides home improvement product delivery services.
	Washington E-Sports Ventures, LLC	Washington E-Sports Ventures, LLC is an owner and operator of e-sports teams.

Individual	Entity	Entity's Business
Lawrence Calcano	iCapital Network	iCapital Network is a technology platform for the alternative investment marketplace.
Raul J. Fernandez	Broadcom, Inc.	Broadcom is a global infrastructure technology company.
	Monumental Sports & Entertainment	Monumental Sports is an owner and operator of sports teams and venues.
	GameStop Corp.	GameStop is the world's largest video game, consumer electronics and gaming merchandise retailer.
	DXC Technology Company	DXC Technology is a leading independent, end-to-end IT services and solutions company.
Thomas S. (Tad) Smith	Lindblad Expeditions Holdings, Inc.	Lindblad provides expedition cruising and adventure travel experiences.
	Verishop Inc.	Verishop is a Los-Angeles based online retailer providing a social shopping platform.
	Simulmedia, Inc.	Simulmedia is an end-to-end television advertising platform.

Additionally, Leland Investments, through its personnel including Mr. Ein, provides management services to Kastle Acquisition LLC and its subsidiaries, which provides building security products and services. These services include strategic, marketing and financial advisory, consulting and other oversight services in relation to Kastle Acquisition's operations. The agreement with Kastle Acquisition contains a non-competition clause that generally provides that neither Leland Investments, Mr. Ein nor any entity that he controls shall directly and materially compete with the business of Kastle Acquisition and its subsidiaries. Accordingly, we generally will not be able to acquire a target business that is in the same line of business that Kastle Acquisition and its subsidiaries are in.

Potential investors should also be aware of the following other potential conflicts of interest:

- Our executive officers and directors are not required to, and will not, commit their full time to our affairs, which may result in a conflict of interest in allocating their time between our operations and our search for a business combination and their other businesses. We do not intend to have any full-time employees prior to the completion of our initial business combination. Each of our executive officers is engaged in several other business endeavors for which he may be entitled to substantial compensation, including Capitol IV, and our executive officers are not obligated to contribute any specific number of hours per week to our affairs.
- Our sponsors and directors purchased founder shares prior to the date of this prospectus and will purchase private placement warrants in a transaction that will close simultaneously with the closing of this offering. Our initial stockholders, which include our independent directors, have entered into agreements with us, pursuant to which they have agreed to waive their redemption rights with respect to their founder shares and public shares in connection with the completion of our initial business combination. The members of our management team have entered into agreements similar to the one entered into by our initial stockholders with respect to any public shares acquired by them directly in or after this offering. Additionally, our initial stockholders have agreed to waive their rights to liquidating distributions from the trust account with respect to their founder shares if we fail to complete our initial business combination within the prescribed time frame. If we do not complete our initial business combination within the prescribed time frame, the private placement warrants will expire worthless. Furthermore, our initial stockholders have agreed not to transfer, assign or sell any of their founder shares until the earlier to occur of (i) one year after the completion of our initial business combination and (ii) the date following the completion of our initial business combination on which we complete a

liquidation, merger, stock exchange or other similar transaction that results in all of our stockholders having the right to exchange their common stock for cash, securities or other property.

Notwithstanding the foregoing, if the closing price of our Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination, the founder shares will be released from the lockup. The private placement warrants will not be transferable until 30 days following the completion of our initial business combination. Because each of our executive officers and directors will own common stock or warrants directly or indirectly, they may have a conflict of interest in determining whether a particular target business is an appropriate business with which to effectuate our initial business combination.

- Our officers and directors may loan funds to us after this offering and may be owed reimbursement for expenses incurred in connection with certain activities on our behalf which would only be repaid if we complete an initial business combination.
- Our officers and directors may be paid salaries or consulting fees after this offering or success fees upon consummation of an initial business combination.
- Our officers and directors may have a conflict of interest with respect to evaluating a particular business combination if the retention or resignation of any such officers and directors was included by a target business as a condition to any agreement with respect to our initial business combination.

We are not prohibited from pursuing an initial business combination with a business combination target that is affiliated with our sponsors, officers or directors or making the acquisition through a joint venture or other form of shared ownership with our sponsors, officers or directors. In the event we seek to complete our initial business combination with an business combination target that is affiliated with our sponsors, executive officers or directors, we, or a committee of independent directors, would obtain an opinion from an independent investment banking firm or another independent firm that regularly renders fairness opinions that such initial business combination is fair to our company from a financial point of view. We are not required to obtain such an opinion in any other context.

We cannot assure you that any of the above mentioned conflicts will be resolved in our favor.

In the event that we submit our initial business combination to our public stockholders for a vote, our initial stockholders have agreed to vote their founder shares, and they, and the members of our management team, have agreed to vote any shares purchased during or after the offering, in favor of our initial business combination.

Limitation on Liability and Indemnification of Officers and Directors

Our amended and restated certificate of incorporation will provide that our directors and officers will be indemnified by us to the fullest extent authorized by Delaware law as it now exists or may in the future be amended. In addition, our amended and restated certificate of incorporation will provide that our directors will not be personally liable for monetary damages to us for breaches of their fiduciary duty as directors, unless they violated their duty of loyalty to us or our stockholders, acted in bad faith, knowingly or intentionally violated the law, authorized unlawful payments of dividends, unlawful stock purchases or unlawful redemptions, or derived an improper personal benefit from their actions as directors.

Our bylaws also will permit us to secure insurance on behalf of any officer, director or employee for any liability arising out of his or her actions, regardless of whether Delaware law would permit indemnification. We will purchase a policy of directors' and officers' liability insurance that insures our directors and officers against the cost of defense, settlement or payment of a judgment in some circumstances and insures us against our obligations to indemnify the directors and officers.

We will also enter into indemnification agreements with our officers and directors. These agreements will require us to indemnify these individuals to the fullest extent permitted under Delaware law against liabilities that may arise by reason of their service to us, and to advance expenses incurred as a result of any proceeding against them as to which they could be indemnified.

Our indemnification obligations may discourage stockholders from bringing a lawsuit against our officers or directors for breach of their fiduciary duty. These provisions also may have the effect of reducing the likelihood of derivative litigation against our officers and directors, even though such an action, if successful, might otherwise benefit us and our stockholders. Furthermore, a stockholder's investment may be adversely affected to the extent we pay the costs of settlement and damage awards against our officers and directors pursuant to these indemnification provisions.

We believe that these provisions, the insurance and the indemnity agreements are necessary to attract and retain talented and experienced officers and directors.

PRINCIPAL STOCKHOLDERS

The following table sets forth information regarding the beneficial ownership of our common stock as of the date of this prospectus, and as adjusted to reflect the sale of our Class A common stock included in the units offered by this prospectus, and assuming no purchase of units in this offering, by:

- each person known by us to be the beneficial owner of more than 5% of our outstanding common stock;
- each of our executive officers and directors that beneficially owns common stock; and
- all our executive officers and directors as a group.

Unless otherwise indicated, we believe that all persons named in the table have sole voting and investment power with respect to all of our common stock beneficially owned by them. The following table does not reflect record or beneficial ownership of the private placement warrants as these warrants are not exercisable within 60 days of the date of this prospectus.

The post-offering percentages in the following table assume that the underwriters do not exercise their over-allotment option, that our sponsors have forfeited for no consideration 1,125,000 founder shares and that there are 37,500,000 shares of common stock issued and outstanding after this offering.

Name and Address of Beneficial Owner ⁽¹⁾	Prior to Offering ⁽²⁾		After Offering ⁽⁴⁾	
	Amount and Nature of Beneficial Ownership ⁽³⁾	Approximate Percentage of Outstanding Common Stock	Amount and Nature of Beneficial Ownership ⁽³⁾	Approximate Percentage of Outstanding Common Stock
Mark D. Ein ⁽⁵⁾	5,336,395	61.9%	4,623,820	12.3%
L. Dyson Dryden ⁽⁶⁾	3,088,605	35.8%	2,676,180	7.1%
Alfheidur H. Saemundsson ⁽⁷⁾	—	*	—	*
Preston P. Parnell	—	*	—	*
Lawrence Calcano	50,000	*	50,000	*
Richard C. Donaldson	50,000	*	50,000	*
Raul F. Fernandez	50,000	*	50,000	*
Thomas S. Smith, Jr.	50,000	*	50,000	*
Capitol Acquisition Management V, LLC	5,336,395	61.9%	4,623,820	12.3%
Capitol Acquisition Founder V, LLC	3,088,605	35.8%	2,676,180	7.1%
All officers and directors as a group (eight individuals)	8,625,000	100.0%	7,500,000	20.0%

* Less than one percent.

- (1) Unless otherwise noted, the business address of each of our stockholders is 1300 17th Street North, Suite 820, Arlington, Virginia 22209.
- (2) Includes up to 1,125,000 founder shares that will be forfeited for no consideration by our sponsors depending on the extent to which the underwriters' over-allotment option is exercised.
- (3) Interests shown consist solely of founder shares, classified as Class B common stock. Such shares will automatically convert into Class A common stock at the time of our initial business combination on a one-for-one basis, subject to adjustment, as described in the section entitled "Description of Securities."
- (4) Assumes no exercise of the over-allotment option and, therefore, the forfeiture of an aggregate of 1,125,000 founder shares.
- (5) Represents shares held by Capitol Acquisition Management V, LLC, which is controlled by Mr. Ein.
- (6) Represents shares held by Capitol Acquisition Founder V, LLC, which is controlled by Mr. Dryden.
- (7) Does not include any shares held by Capitol Acquisition Management V, LLC and Capitol Acquisition Founder V, LLC, of which this person is a member.

Immediately after this offering, our initial stockholders will beneficially own 20.0% of the then issued and outstanding common stock (assuming they do not purchase any units in this offering) and will have the right to elect all of our directors prior to our initial business combination. Holders of our public shares will not have the right to elect any directors to our board of directors prior to our initial business combination. Because of this ownership block, our initial stockholders may be able to effectively influence the outcome of all other matters requiring approval by our stockholders, including amendments to our amended and restated certificate of incorporation and approval of significant corporate transactions including our initial business combination.

Our sponsors and independent directors have committed, pursuant to written agreements, to purchase an aggregate of 5,233,333 private placement warrants (or 5,833,333 if the underwriters' over-allotment option is exercised in full), each exercisable to purchase one share of Class A common stock at \$11.50 per share, at a price of \$1.50 per warrant (\$7,850,000 in the aggregate or \$8,750,000 if the underwriters' over-allotment option is exercised in full), in a private placement that will close simultaneously with the closing of this offering. The number of private placement warrants to be purchased by our sponsors and independent directors if the over-allotment option is exercised only in part will be a number of warrants necessary to maintain in the trust account \$10.00 per unit sold to the public in this offering. These additional private placement warrants will be purchased simultaneously with the purchase of units resulting from the exercise of the over-allotment option. If we do not complete our initial business combination within 24 months from the closing of this offering, the private placement warrants will expire worthless. The private placement warrants are subject to the transfer restrictions described below. The private placement warrants will not be redeemable by us so long as they are held by the sponsors and independent directors or their permitted transferees. Our sponsors and independent directors, or their permitted transferees, have the option to exercise the private placement warrants on a cashless basis. If the private placement warrants are held by holders other than the sponsors and independent directors or their permitted transferees, the private placement warrants will be redeemable by us and exercisable by the holders on the same basis as the warrants included in the units being sold in this offering. Otherwise, the private placement warrants have terms and provisions that are identical to those of the warrants being sold as part of the units in this offering.

Our sponsors and Messrs. Ein and Dryden are deemed to be our "promoters" as such term is defined under the federal securities laws.

Transfers of Founder Shares and Private Placement Warrants

The founder shares, private placement warrants and any Class A common stock issued upon conversion or exercise thereof are each subject to transfer restrictions pursuant to lock-up provisions in the agreements entered into by our initial stockholders and management team. Those lock-up provisions provide that such securities are not transferable or salable (i) in the case of the founder shares, until the earlier of (A) one year after the completion of our initial business combination or earlier if, subsequent to our initial business combination, the closing price of the Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination and (B) the date following the completion of our initial business combination on which we complete a liquidation, merger, stock exchange or other similar transaction that results in all of our stockholders having the right to exchange their Class A common stock for cash, securities or other property and (ii) in the case of the private placement warrants and the respective Class A common stock underlying such warrants, until 30 days after the completion of our initial business combination except in each case (a) to our sponsors, officers, directors, employees consultants or affiliates, or any affiliates or family members of any of our sponsors, officers, directors, employees, consultants or affiliates, any member of a sponsor or any affiliate of a sponsor; (b) to such person's officers, directors, employees or members upon such person's liquidation, in each case if such person is an entity; (c) by *bona fide* gift to a member of such person's immediate family or to a trust, the beneficiary of which is such person or a member of such person's immediate family or an affiliate of such person, or to a charitable organization; (d) by virtue of laws of descent and distribution upon death of such person; (e) pursuant to a qualified domestic relations order; (f) to us for no value for cancellation in connection with the consummation of our initial business combination; (g) by private sales or transfers made at, prior to or in connection with the consummation of a business combination at prices no greater than the price at which the shares or warrants were originally purchased; (h) by virtue of the laws of the State of Delaware or our sponsors' limited liability company agreements upon dissolution of a sponsor; or (i) in the event that, subsequent to our consummation of an initial business combination, we complete a liquidation, merger, stock exchange, reorganization or other similar transaction

which results in all of our stockholders having the right to exchange their Class A common stock for cash, securities or other property; provided, however, that, unless we otherwise consent, in the case of clauses (a) through (h) these permitted transferees must enter into a written agreement agreeing to be bound by these transfer restrictions and the other restrictions contained in the letter agreement or warrant agreement, as applicable.

Registration Rights

The holders of the founder shares, private placement warrants and warrants that may be issued upon conversion of working capital loans will have registration rights to require us to register a sale of any of our securities held by them pursuant to a registration rights agreement to be signed prior to or on the effective date of this offering. These holders will be entitled to make up to three demands, excluding short form registration demands, that we register such securities for sale under the Securities Act. In addition, these holders will have “piggy-back” registration rights to include their securities in other registration statements filed by us. However, the registration rights agreement provides that we will not permit any registration statement filed under the Securities Act to become effective until termination of the applicable lockup period, which is described above under “— *Transfers of Founder Shares and Private Placement Warrants.*”

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

In May 2017, we issued to our sponsors an aggregate of 4,312,500 founder shares in exchange for a capital contribution of \$25,000, or approximately \$0.006 per share. In October 2017, we effectuated a dividend of approximately 0.17 shares of Class B common stock for each share of Class B common stock outstanding, resulting in our sponsors holding an aggregate of 5,031,250 founder shares. In May 2019, we effectuated a dividend of one share of Class B common stock for each share of Class B common stock outstanding, resulting in our sponsors holding an aggregate of 10,062,500 founder shares. In November 2020, we effected an approximately 0.8571-for-1 reverse stock split with respect to our Class B common stock, resulting in our sponsors holding an aggregate of 8,625,000 founder shares. Our sponsors thereafter transferred 50,000 founder shares to each of our independent directors at the same per-share purchase price paid by our sponsors. Prior to the initial investment in our company of \$25,000 by our sponsors, we had no assets, tangible or intangible. The per-share price of the founder shares was determined by dividing the amount contributed to us by the number of founder shares issued. The number of founder shares issued was determined based on the expectation that the founder shares would represent 20% of the outstanding shares after this offering. Our sponsors will surrender for no consideration up to 1,125,000 founder shares depending on the extent to which the underwriters' over-allotment option is not exercised. If we increase or decrease the size of this offering, we will effect a stock dividend, stock split, contribution back to capital or other appropriate mechanism, as applicable, with respect to our Class B common stock immediately prior to the consummation of this offering in such amount as to maintain the number of founder shares at 20.0% of our issued and outstanding common stock upon the consummation of this offering.

Our sponsors and independent directors have committed, pursuant to written agreements, to purchase an aggregate of 5,233,333 private placement warrants (or 5,833,333 if the underwriters' over-allotment option is exercised in full), each exercisable to purchase one share of Class A common stock at \$11.50 per share, at a price of \$1.50 per warrant (\$7,850,000 in the aggregate or \$8,750,000 if the underwriters' over-allotment option is exercised in full), in a private placement that will close simultaneously with the closing of this offering. The number of private placement warrants to be purchased by our sponsors and independent directors if the over-allotment option is exercised only in part will be a number of warrants necessary to maintain in the trust account \$10.00 per unit sold to the public in this offering. These additional private placement warrants will be purchased simultaneously with the purchase of units resulting from the exercise of the over-allotment option. The private placement warrants (including the Class A common stock issuable upon exercise of the private placement warrants) may not, subject to certain limited exceptions, be transferred, assigned or sold until 30 days after the completion of our initial business combination.

We currently maintain our executive offices at 1300 17th Street North, Suite 820, Arlington, Virginia 22209. We also have an office in Maryland. The cost for our use of these spaces is included in the up to \$20,000 per month fee we will pay to our sponsors for office space, administrative and support services, commencing on the date that our securities are first listed on the NYSE. Upon completion of our initial business combination or our liquidation, we will cease paying these monthly fees.

After this offering, we may pay salaries or consulting fees to our sponsors, officers, directors or their affiliates. We may also pay success fees to such individuals upon consummation of our initial business combination.

Other than the monthly administrative fees and salaries, consulting fees or success fees described above, no compensation of any kind, including finder's fees, will be paid by us to our sponsors, executive officers and directors, or any of their respective affiliates, for services rendered prior to or in connection with the completion of an initial business combination. However, these individuals will be reimbursed for any out-of-pocket expenses incurred in connection with activities on our behalf such as identifying potential target businesses and performing due diligence on suitable business combinations. Our audit committee will review on a quarterly basis all payments that were made to our sponsors, officers, directors or our or their affiliates.

Our sponsors previously loaned to us \$250,000. These loans are non-interest bearing, unsecured and are due at the earliest of October 20, 2021, the closing of this offering and if we determine to abandon this offering. The loans will be repaid upon the closing of this offering.

In addition, in order to finance transaction costs in connection with an intended initial business combination, our sponsors, officers, directors or their respective affiliates may, but are not obligated to, loan us funds as may be required on a non-interest basis. If we complete an initial business combination, we would repay such loaned amounts. In the event that our initial business combination does not close, we may use a portion of the working capital held outside the trust account to repay such loaned amounts but no proceeds from our trust account would be used for such repayment. Up to \$2,000,000 of such loans may be convertible into warrants of the post-business combination entity at a price of \$1.50 per warrant at the option of the lender. The warrants would be identical to the private placement warrants. Prior to the completion of our initial business combination, we do not expect to seek loans from other third parties as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our trust account.

After our initial business combination, members of our management team who remain with us may be paid consulting, management or other fees from the combined company with any and all amounts being fully disclosed to our stockholders, to the extent then known, in the proxy solicitation or tender offer materials, as applicable, furnished to our stockholders. It is unlikely the amount of such compensation will be known at the time of distribution of such tender offer materials or at the time of a stockholder meeting held to consider our initial business combination, as applicable, as it will be up to the directors of the post-combination business to determine executive and director compensation.

We have entered into a registration rights agreement with respect to the founder shares and private placement warrants, which is described under the heading “*Principal Stockholders — Registration Rights.*”

Related Party Policy

Our Code of Ethics requires us to avoid, wherever possible, all related party transactions that could result in actual or potential conflicts of interests, except under guidelines approved by the board of directors (or the audit committee). Related-party transactions are defined as transactions in which (1) the aggregate amount involved will or may be expected to exceed \$120,000 in any calendar year, (2) we or any of our subsidiaries is a participant, and (3) any (a) executive officer, director or nominee for election as a director, (b) greater than 5% beneficial owner of our Class A common stock, or (c) immediate family member, of the persons referred to in clauses (a) and (b), has or will have a direct or indirect material interest (other than solely as a result of being a director or a less than 10% beneficial owner of another entity). A conflict of interest situation can arise when a person takes actions or has interests that may make it difficult to perform his or her work objectively and effectively. Conflicts of interest may also arise if a person, or a member of his or her family, receives improper personal benefits as a result of his or her position.

Our audit committee, pursuant to its written charter, will be responsible for reviewing and approving related-party transactions to the extent we enter into such transactions. The audit committee will consider all relevant factors when determining whether to approve a related party transaction, including whether the related party transaction is on terms no less favorable to us than terms generally available from an unaffiliated third party under the same or similar circumstances and the extent of the related party’s interest in the transaction. No director may participate in the approval of any transaction in which he is a related party, but that director is required to provide the audit committee with all material information concerning the transaction. We also require each of our directors and executive officers to complete a directors’ and officers’ questionnaire that elicits information about related party transactions.

These procedures are intended to determine whether any such related party transaction impairs the independence of a director or presents a conflict of interest on the part of a director, employee or officer.

To further minimize conflicts of interest, we have agreed not to consummate an initial business combination with an entity that is affiliated with any of our sponsors, officers or directors unless we have obtained an opinion from an independent investment banking firm, or another independent entity that commonly renders valuation opinions on the type of target business we are seeking to acquire that the business combination is fair to our company from a financial point of view.

DESCRIPTION OF SECURITIES

As of the date of this prospectus, we will be authorized to issue 450,000,000 shares of common stock, par value \$0.0001, including 400,000,000 shares of Class A common stock and 50,000,000 shares of Class B common stock, as well as 1,000,000 shares of preferred stock, par value \$0.0001. As of the date of this prospectus, 8,625,000 shares of Class B common stock are outstanding. No shares of Class A common stock or preferred stock are currently outstanding. The following description summarizes the material terms of our securities. Because it is only a summary, it may not contain all the information that is important to you. For a complete description you should refer to our amended and restated certificate of incorporation, bylaws and the form of warrant agreement, which are filed as exhibits to the registration statement of which this prospectus is a part, and to the applicable provisions of Delaware law.

Units

Each unit has an offering price of \$10.00 and consists of one share of Class A common stock and one-third of one warrant. Each whole warrant entitles the holder thereof to purchase one share of Class A common stock at a price of \$11.50 per share, subject to adjustment as described in this prospectus. Pursuant to the warrant agreement, a warrant holder may exercise its warrants only for a whole number of our shares of Class A common stock. This means only a whole warrant may be exercised at any given time by a warrant holder. For example, if a warrant holder holds one-third or two-thirds of one warrant to purchase a share of Class A common stock, such warrant will not be exercisable. If a warrant holder holds three-thirds of one warrant, such whole warrant will be exercisable for one share of Class A common stock at a price of \$11.50 per share. The Class A common stock and warrants comprising the units are expected to begin separate trading on the 52nd day following the date of this prospectus (or, if such date is not a business day, the following business day) unless Citigroup Global Markets Inc. informs us of its decision to allow earlier separate trading, subject to our having filed the Current Report on Form 8-K described below and having issued a press release announcing when such separate trading will begin. Once the Class A common stock and warrants commence separate trading, holders will have the option to continue to hold units or separate their units into the component securities. Holders will need to have their brokers contact our transfer agent in order to separate the units into Class A common stock and warrants. No fractional warrants will be issued upon separation of the units and only whole warrants will trade. Accordingly, unless you purchase at least three units, you will not be able to receive or trade a whole warrant.

Additionally, the units will automatically separate into their component parts and will not be traded after completion of our initial business combination.

In no event will the Class A common stock and warrants be traded separately until we have filed with the SEC a Current Report on Form 8-K which includes an audited balance sheet reflecting our receipt of the gross proceeds of this offering. We will file a Current Report on Form 8-K which includes this audited balance sheet promptly, and no later than four business days, after the closing of this offering. If the underwriters' over-allotment option is exercised following the initial filing of such Current Report on Form 8-K, a second or amended Current Report on Form 8-K will be filed to provide updated financial information to reflect the exercise of the underwriters' over-allotment option.

It is anticipated that the units will automatically separate into their component parts and will not be traded after completion of our initial business combination.

Common Stock

Prior to the date of this prospectus, there were 8,625,000 shares of Class B common stock (after giving effect to (i) a stock dividend effectuated in October 2017 of approximately 0.17 shares of Class B common stock for each outstanding share of Class B common stock, (ii) a stock dividend effectuated in May 2019 of one share of Class B common stock for each outstanding share of Class B common stock and (iii) an approximately 0.8571-for-1 reverse stock split with respect to our Class B common stock effectuated in November 2020) issued and outstanding, all of which were held of record by our initial stockholders, so that our initial stockholders will own 20% of our issued and outstanding shares after this offering (assuming our initial stockholders do not purchase any units in this offering). Our sponsors will surrender for no consideration up to 1,125,000 shares of Class B common stock depending on the extent to which the underwriters' over-allotment is not exercised. Upon the closing of this offering,

[Table of Contents](#)

37,500,000 shares of common stock will be issued and outstanding (assuming no exercise of the underwriters' over-allotment option and the corresponding surrender for no consideration of 1,125,000 founder shares by our sponsors) including:

- 30,000,000 Class A common stock underlying the units issued as part of this offering; and
- 7,500,000 Class B common stock held by our initial stockholders.

If we increase or decrease the size of this offering, we will effect a stock dividend, stock split, contribution back to capital or other appropriate mechanism, as applicable, with respect to our Class B common stock immediately prior to the consummation of this offering in such amount as to maintain the ownership of our initial stockholders at 20.0% of our issued and outstanding common stock upon the consummation of this offering.

Stockholders of record are entitled to one vote for each share held on all matters to be voted on by stockholders. Holders of Class A common stock and holders of Class B common stock will vote together as a single class on all matters submitted to a vote of our stockholders except as required by law or the applicable rules of the NYSE then in effect. However, prior to the vote on our initial business combination, only holders of our founder shares will have the right to vote on the election of directors and to remove directors. These provisions in our amended and restated certificate of incorporation may only be amended by a resolution passed by the holders of a majority of our Class B common stock. Holders of our public shares will not be entitled to vote on the election of directors during such time.

Because our amended and restated certificate of incorporation authorize the issuance of up to 400,000,000 Class A common stock, if we were to enter into a business combination, we may (depending on the terms of such a business combination) be required to increase the number of Class A common stock which we are authorized to issue at the same time as our stockholders vote on the business combination to the extent we seek stockholder approval in connection with our initial business combination.

Our board of directors is divided into three classes with only one class of directors being elected in each year and each class (except for those directors appointed prior to our first annual meeting of stockholders) serving a three-year term. In accordance with NYSE corporate governance requirements, we are not required to hold an annual meeting until one year after our first fiscal year end following our listing on the NYSE. We may not hold an annual meeting of stockholders to elect new directors prior to the consummation of our initial business combination.

We will provide our public stockholders with the opportunity to redeem all or a portion of their public shares upon the completion of our initial business combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account calculated as of two business days prior to the consummation of our initial business combination, including interest earned on the trust account to pay taxes (net of taxes payable), divided by the number of then-outstanding public shares, subject to the limitations described herein. The amount in the trust account is initially anticipated to be \$10.00 per public share. The per share amount we will distribute to investors who properly redeem their shares will not be reduced by the deferred underwriting commissions we will pay to the underwriters. Our initial stockholders, which include our independent directors, have entered into agreements with us, pursuant to which they have agreed to waive their redemption rights with respect to their founder shares and public shares in connection with the completion of our initial business combination. The members of our management team have entered into agreements similar to the one entered into by our initial stockholders with respect to any public shares acquired by them directly in or after this offering. Unlike many blank check companies that hold stockholder votes and conduct proxy solicitations in conjunction with their initial business combinations and provide for related redemptions of public shares for cash upon completion of such initial business combinations even when a vote is not required by law, if a stockholder vote is not required by law and we do not decide to hold a stockholder vote for business or other legal reasons, we will, pursuant to our amended and restated certificate of incorporation, conduct the redemptions pursuant to the tender offer rules of the SEC, and file tender offer documents with the SEC prior to completing our initial business combination. Our amended and restated certificate of incorporation requires these tender offer documents to contain substantially the same financial and other information about our initial business combination and the redemption rights as is required under the SEC's proxy rules. If, however, a stockholder approval of the transaction is required by law, or we decide to obtain stockholder approval for business or other legal reasons, we will, like many blank check companies, offer to redeem shares in conjunction with a proxy solicitation pursuant to the proxy rules and not pursuant to the tender offer rules. If we seek stockholder approval, we will complete our initial business combination only if a majority of the shares

of common stock voted are voted in favor of our initial business combination. However, the participation of our sponsors, officers, directors, advisors or their affiliates in privately negotiated transactions (as described in this prospectus), if any, could result in the approval of our initial business combination even if a majority of our public stockholders vote, or indicate their intention to vote, against such initial business combination. For purposes of seeking approval of the majority of our outstanding common stock, non-votes will have no effect on the approval of our initial business combination once a quorum is obtained.

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated certificate of incorporation will provide that a public stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a “group” (as defined under Section 13 of the Exchange Act), will be restricted from redeeming its shares with respect to Excess Shares. However, we would not be restricting our stockholders’ ability to vote all of their shares (including Excess Shares) for or against our initial business combination. Our stockholders’ inability to redeem the Excess Shares will reduce their influence over our ability to complete our initial business combination, and such stockholders could suffer a material loss in their investment if they sell such Excess Shares on the open market. Additionally, such stockholders will not receive redemption distributions with respect to the Excess Shares if we complete our initial business combination. And, as a result, such stockholders will continue to hold that number of shares exceeding 20% and, in order to dispose such shares would be required to sell their shares in open market transactions, potentially at a loss.

If we seek stockholder approval in connection with our initial business combination, our initial stockholders have agreed to vote their founder shares and any public shares purchased during or after this offering in favor of our initial business combination. As a result, in addition to our initial stockholders’ founder shares, we would need 11,250,001, or 37.5%, of the 30,000,000 public shares sold in this offering to be voted in favor of an initial business combination in order to have our initial business combination approved (assuming all outstanding shares are voted and the over-allotment option is not exercised). The other members of our management team have entered into agreements similar to the one entered into by our initial stockholders with respect to any public shares acquired by them in or after this offering. Additionally, each public stockholder may elect to redeem their public shares irrespective of whether they vote for or against the proposed transaction.

Pursuant to our amended and restated certificate of incorporation, if we have not completed our initial business combination within 24 months from the closing of this offering, we will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but no more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the trust account to pay taxes (net of taxes payable and less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then-outstanding public shares, which redemption will completely extinguish public stockholders’ rights as stockholders (including the right to receive further liquidation distributions, if any), subject to applicable law and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, dissolve and liquidate, subject in the case of clauses (ii) and (iii) to our obligations under Delaware law to provide for claims of creditors. Our initial stockholders have entered into agreements with us, pursuant to which they have agreed to waive their rights to liquidating distributions from the trust account with respect to their founder shares if we fail to complete our initial business combination within 24 months from the closing of this offering. However, if our initial stockholders or management team acquire public shares in or after this offering, they will be entitled to liquidating distributions from the trust account with respect to such public shares if we fail to complete our initial business combination within the prescribed time period.

In the event of a liquidation, dissolution or winding up of the company after a business combination, our stockholders are entitled to share ratably in all assets remaining available for distribution to them after payment of liabilities and after provision is made for each class of shares, if any, having preference over the common stock. Our stockholders have no preemptive or other subscription rights. There are no sinking fund provisions applicable to the common stock, except that we will provide our public stockholders with the opportunity to redeem their public shares for cash at a per-share price equal to the aggregate amount then on deposit in the trust account, including interest earned on the trust account to pay taxes (net of taxes payable), divided by the number of then-outstanding public shares, upon the completion of our initial business combination, subject to the limitations described herein.

Founder Shares

The founder shares are designated as Class B common stock and, except as described below, are identical to the Class A common stock included in the units being sold in this offering, and holders of founder shares have the same stockholder rights as public stockholders, except that (i) the founder shares are subject to certain transfer restrictions, as described in more detail below, (ii) our initial stockholders have entered into agreements with us, pursuant to which they have agreed (A) to waive their redemption rights with respect to their founder shares and public shares in connection with the completion of our initial business combination, (B) to waive their redemption rights with respect to their founder shares and public shares in connection with a stockholder vote to approve an amendment to our amended and restated certificate of incorporation that would affect the substance or timing of our obligation to redeem 100% of our public shares if we have not consummated an initial business combination within 24 months from the closing of this offering and (C) to waive their rights to liquidating distributions from the trust account with respect to their founder shares if we fail to complete our initial business combination within 24 months from the closing of this offering, although they will be entitled to liquidating distributions from the trust account with respect to any public shares they hold if we fail to complete our initial business combination within such time period, (iii) the founder shares are automatically convertible into Class A common stock at the time of our initial business combination on a one-for-one basis, subject to adjustment as described herein, and (iv) prior to the completion of our initial business combination, only our founder shares will have the right to vote on the election of our directors and to remove directors. If we submit our initial business combination to our public stockholders for a vote, our initial stockholders have agreed to vote their founder shares and any public shares purchased during or after this offering in favor of our initial business combination. The members of our management team have entered into agreements similar to the one entered into by our initial stockholders with respect to any public shares acquired by them directly in or after this offering.

The founder shares will automatically convert into Class A common stock on the first business day following the consummation of our initial business combination on a one-for-one basis, subject to adjustment as provided herein. In the case that additional Class A common stock, or equity-linked securities convertible or exercisable for Class A common stock, such as options, rights or warrants, are issued or deemed issued in excess of the amounts offered in this prospectus and related to the closing of our initial business combination, the ratio at which shares of Class B common stock will convert into Class A common stock will be adjusted (unless the holders of a majority of the outstanding shares of Class B common stock agree to waive such adjustment with respect to any such issuance or deemed issuance) so that the number of shares of Class A common stock issuable upon conversion of all shares of Class B common stock will equal, in the aggregate, 20% of the sum of the shares of common stock outstanding upon completion of this offering plus the number of shares of Class A common stock and equity-linked securities issued or deemed issued in connection with our initial business combination (net of redemptions), excluding any shares of Class A common stock or equity-linked securities issued, or to be issued, to any seller in our initial business combination and any private placement warrants issued to our sponsors and independent directors.

With certain limited exceptions, the founder shares are not transferable, assignable or salable (except to our officers and directors and other persons or entities affiliated with our sponsors, each of whom will be subject to the same transfer restrictions) until the earlier of (A) one year after the completion of our initial business combination or earlier if, subsequent to our initial business combination, the closing price of the Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination and (B) the date following the completion of our initial business combination on which we complete a liquidation, merger, stock exchange or other similar transaction that results in all of our stockholders having the right to exchange their Class A common stock for cash, securities or other property. Up to 1,125,000 founder shares will be forfeited for no consideration by our sponsors depending on the exercise of the over-allotment option.

Preferred Stock

Our amended and restated certificate of incorporation authorizes 1,000,000 shares of preferred stock and provides that preferred stock may be issued from time to time in one or more series. Our board of directors will be authorized to fix the voting rights, if any, designations, powers, preferences, the relative, participating, optional or other special rights and any qualifications, limitations and restrictions thereof, applicable to the shares of each series. Our board of directors will be able to, without stockholder approval, issue shares of preferred stock with voting and other rights that could adversely affect the voting power and other rights of the holders of the common stock and could have anti-takeover effects. The ability of our board of directors to issue shares of preferred stock

without stockholder approval could have the effect of delaying, deferring or preventing a change of control of us or the removal of existing management. We have no shares of preferred stock issued and outstanding at the date hereof. Although we do not currently intend to issue any preferred stock, we cannot assure you that we will not do so in the future. No shares of preferred stock are being issued or registered in this offering.

Warrants

Public Warrants

Each whole warrant entitles the registered holder to purchase one share of Class A common stock at a price of \$11.50 per share, subject to adjustment as discussed below, at any time commencing on the later of one year from the closing of this offering and 30 days after the completion of our initial business combination; provided, in each case, that we have an effective registration statement under the Securities Act covering the Class A common stock issuable upon exercise of the warrants and a current prospectus relating to them is available and such shares are registered, qualified or exempt from registration under the securities or blue sky laws of the state of residence of the holder (or we permit holders to exercise their warrants on a cashless basis under the circumstances specified in the warrant agreement as a result of (i) our failure to have an effective registration statement by the 60th business day after the closing of our initial business combination as described below or (ii) a notice of redemption described below under “—*Redemption of Warrants When the Price Per Share of Class A Common Stock Equals or Exceeds \$10.00*”). Pursuant to the warrant agreement, a warrant holder may exercise its warrants only for a whole number of shares of Class A common stock. This means only a whole warrant may be exercised at a given time by a warrant holder. No fractional warrants will be issued upon separation of the units and only whole warrants will trade. Accordingly, unless you purchase at least three units, you will not be able to receive or trade a whole warrant. The warrants will expire five years after the completion of our initial business combination, at 5:00 p.m., New York City time, or earlier upon redemption or liquidation.

We will not be obligated to deliver any shares of Class A common stock pursuant to the exercise of a warrant and will have no obligation to settle such warrant exercise unless a registration statement under the Securities Act with respect to the Class A common stock underlying the warrants is then effective and a prospectus relating thereto is current, subject to our satisfying our obligations described below with respect to registration. No warrant will be exercisable and we will not be obligated to issue a share of Class A common stock upon exercise of a warrant unless the Class A common stock issuable upon such warrant exercise has been registered, qualified or deemed to be exempt under the securities laws of the state of residence of the registered holder of the warrants. In the event that the conditions in the two immediately preceding sentences are not satisfied with respect to a warrant, the holder of such warrant will not be entitled to exercise such warrant and such warrant may have no value and expire worthless. In no event will we be required to net cash settle any warrant. In the event that a registration statement is not effective for the exercised warrants, the purchaser of a unit containing such warrant will have paid the full purchase price for the unit solely for the share of Class A common stock underlying such unit.

We have agreed that as soon as practicable, but in no event later than 20 business days after the closing of our initial business combination, we will use our commercially reasonable efforts to file with the SEC a registration statement for the registration, under the Securities Act, of the Class A common stock issuable upon exercise of the warrants. We will use our commercially reasonable efforts to cause the same to become effective and to maintain the effectiveness of such registration statement, and a current prospectus relating thereto, until the expiration of the warrants in accordance with the provisions of the warrant agreement; provided that, if our Class A common stock is at the time of any exercise of a warrant not listed on a national securities exchange such that it satisfies the definition of a “covered security” under Section 18(b)(1) of the Securities Act, we may, at our option, require holders of public warrants who exercise their warrants to do so on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act and, in the event we so elect, we will not be required to file or maintain in effect a registration statement.

Redemption of Warrants When the Price Per Share of Class A Common Stock Equals or Exceeds \$18.00

Once the warrants become exercisable, we may call the warrants for redemption:

- in whole and not in part;
- at a price of \$0.01 per warrant;
- upon not less than 30 days’ prior written notice of redemption, or the 30-day redemption period, to each warrant holder; and

- if, and only if, the last reported sale price of the Class A common stock equals or exceeds \$18.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like and for certain issuances of Class A common stock and equity-linked securities as described below) for any 20 trading days within a 30-trading day period ending three business days before we send to the notice of redemption to the warrant holders.

If and when the warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying securities for sale under all applicable state securities laws.

We have established the last redemption criterion discussed above to prevent a redemption call unless there is at the time of the call a significant premium to the warrant exercise price. If the foregoing conditions are satisfied and we issue a notice of redemption of the warrants, each warrant holder will be entitled to exercise his, her or its warrant prior to the scheduled redemption date. However, the price of the Class A common stock may fall below the \$18.00 redemption trigger price (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) as well as the \$11.50 warrant exercise price after the redemption notice is issued.

We will not redeem the warrants as described above unless a registration statement under the Securities Act covering the issuance of the shares of Class A common stock issuable upon a cashless exercise of the warrants is then effective and a current prospectus relating to those shares of Class A common stock is available throughout the 30-day redemption period, except if the warrants may be exercised on a cashless basis and such cashless exercise is exempt from registration under the Securities Act. If and when the warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying securities for sale under all applicable state securities laws. As a result, we may redeem the warrants as set forth above even if the holders are otherwise unable to exercise the warrants.

Redemption of Warrants When the Price Per Share of Class A Common Stock Equals or Exceeds \$10.00

Once the warrants become exercisable, we may redeem the outstanding warrants (except as described herein with respect to the private placement warrants):

- in whole and not in part;
- at \$0.10 per warrant upon a minimum of 30 days' prior written notice of redemption; provided that holders will be able to exercise their warrants prior to redemption and receive that number of shares determined by reference to the table below, based on the redemption date and the "fair market value" of our Class A common stock (as defined below) except as otherwise described below;
- if, and only if, the last reported sale price of our Class A common stock equals or exceeds \$10.00 per share (as adjusted per stock splits, stock dividends, reorganizations, reclassifications, recapitalizations and the like and for certain issuances of Class A common stock and equity-linked securities as described above) on the trading day prior to the date on which we send the notice of redemption to the warrant holders; and
- if, and only if, the last reported sale price of our Class A common stock is less than \$18.00 per share (as described for stock splits, stock dividends, reorganizations, recapitalizations and the like and for certain issuances of Class A common stock and equity-linked securities as described above), then the private placement warrants are also called for redemption on the same terms as the outstanding public warrants, as described above.

Beginning on the date the notice of redemption is given until the warrants are redeemed or exercised, holders may elect to exercise their warrants on a cashless basis. If and when the warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying securities for sale under all applicable state securities laws. As a result, we may redeem the warrants as set forth above even if the holders are otherwise unable to exercise the warrants.

The numbers in the table below represent the number of shares of Class A common stock that a warrant holder will receive upon exercise in connection with a redemption by us pursuant to this redemption feature, based on the "fair market value" of our Class A common stock on the corresponding redemption date (assuming holders elect to exercise their warrants and such warrants are not redeemed for \$0.10 per warrant), determined based on the volume-weighted average price of Class A common stock for the ten trading days immediately following the date on

[Table of Contents](#)

which the notice of redemption is sent to the holders of warrants, and the number of months that the corresponding redemption date precedes the expiration date of the warrants, each as set forth in the table below. We will provide our warrant holders with the final fair market value no later than one business day after the ten-day trading period described above.

Pursuant to the warrant agreement, references above to Class A common stock shall include a security other than Class A common stock into which the Class A common stock has been converted or exchanged for in the event we are not the surviving company in our initial business combination. The numbers in the table below will not be adjusted when determining the number of shares of Class A common stock to be issued upon exercise of the warrants if we are not the surviving entity following our initial business combination.

The stock prices set forth in the column headings of the table below will be adjusted as of any date on which the number of shares issuable upon exercise of a warrant is adjusted as set forth in the first three paragraphs under the heading “— *Anti-Dilution Adjustments*” below. The adjusted stock prices in the column headings will equal the stock prices immediately prior to such adjustment, multiplied by a fraction, the numerator of which is the number of shares deliverable upon exercise of a warrant immediately prior to such adjustment and the denominator of which is the number of shares deliverable upon exercise of a warrant as so adjusted. The number of shares in the table below shall be adjusted in the same manner and at the same time as the number of shares issuable upon exercise of a warrant. If the exercise price of a warrant is adjusted, (a) in the case of an adjustment pursuant to the fifth paragraph under the heading “— *Anti-Dilution Adjustments*” below, the adjusted share prices in the column headings will equal the unadjusted share price multiplied by a fraction, the numerator of which is the higher of the market value and the newly issued price as set forth under the heading “— *Anti-Dilution Adjustments*” and the denominator of which is \$10.00 and (b) in the case of an adjustment pursuant to the second paragraph under the heading “*Anti-Dilution Adjustments*” below, the adjusted share prices in the column headings will equal the unadjusted share price less the decrease in the exercise price of a warrant pursuant to such exercise price adjustment.

Redemption Date (period to expiration of warrants)	Fair Market Value of Class A Common Stock								
	≤10.00	11.00	12.00	13.00	14.00	15.00	16.00	17.00	≥18.00
57 months	0.257	0.277	0.294	0.310	0.324	0.337	0.348	0.358	0.361
54 months	0.252	0.272	0.291	0.307	0.322	0.335	0.347	0.357	0.361
51 months	0.246	0.268	0.287	0.304	0.320	0.333	0.346	0.357	0.361
48 months	0.241	0.263	0.283	0.301	0.317	0.332	0.344	0.356	0.361

The exact fair market value and time to expiration may not be set forth in the table above, in which case, if the fair market value is between two values in the table or the redemption date is between two redemption dates in the table, the number of shares of Class A common stock to be issued for each warrant exercised will be determined by a straight-line interpolation between the number of shares set forth for the higher and lower fair market values and the earlier and later redemption dates, as applicable, based on a 365 or 366-day year, as applicable. For example, if the

[Table of Contents](#)

volume-weighted average price of our Class A common stock for the ten trading days immediately following the date on which the notice of redemption is sent to the holders of the warrants is \$11 per share, and at such time there are 57 months until the expiration of the warrants, holders may choose to, in connection with this redemption feature, exercise their warrants for 0.277 shares of Class A common stock for each whole warrant. For an example where the exact fair market value and redemption date are not as set forth in the table above, if the volume-weighted average price of our Class A common stock for the ten trading days immediately following the date on which the notice of redemption is sent to the holders of the warrants is \$13.50 per share, and at such time there are 38 months until the expiration of the warrants, holders may choose to, in connection with this redemption feature, exercise their warrants for 0.298 shares of Class A common stock for each whole warrant. In no event will the warrants be exercisable in connection with this redemption feature for more than 0.361 shares of Class A common stock per warrant, subject to adjustment. Finally, as reflected in the table above, if the warrants are out of the money and about to expire, they cannot be exercised on a cashless basis in connection with a redemption by us pursuant to this redemption feature, since they will not be exercisable for any shares of Class A common stock. In no event will the warrants be exercisable in connection with this redemption feature for more than 0.361 shares of Class A common stock per warrant (subject to adjustment).

This redemption feature is structured to allow for all of the outstanding warrants to be redeemed when the Class A common stock is trading at or above \$10.00 per share, which may be at a time when the trading price of our Class A common stock is below the exercise price of the warrants. We have established this redemption feature to provide us with the flexibility to redeem the warrants without the warrants having to reach the \$18.00 per share threshold set forth above under “— *Redemption of Warrants When the Price Per Share of Class A Common Stock Equals or Exceeds \$18.00.*” Holders choosing to exercise their warrants in connection with a redemption pursuant to this feature will, in effect, receive a number of shares for their warrants based on an option pricing model with a fixed volatility input as of the date of this prospectus. This redemption right provides us with an additional mechanism by which to redeem all of the outstanding warrants, and therefore have certainty as to our capital structure as the warrants would no longer be outstanding and would have been exercised or redeemed and we will be required to pay the redemption price to warrant holders if we choose to exercise this redemption right and it will allow us to quickly proceed with a redemption of the warrants if we determine it is in our best interest to do so. As such, we would redeem the warrants in this manner when we believe it is in our best interest to update our capital structure to remove the warrants and pay the redemption price to the warrant holders.

As stated above, we can redeem the warrants when the Class A common stock is trading at a price starting at \$10.00, which is below the exercise price of \$11.50, because it will provide certainty with respect to our capital structure and cash position while providing warrant holders with the opportunity to exercise their warrants on a cashless basis for the applicable number of shares. If we choose to redeem the warrants when the Class A common stock is trading at a price below the exercise price of the warrants, this could result in the warrant holders receiving fewer shares of Class A common stock than they would have received if they had chosen to wait to exercise their warrants for Class A common stock if and when such Class A common stock trades at a price higher than the exercise price of \$11.50 per share.

No fractional Class A common stock will be issued upon exercise. If, upon exercise, a holder would be entitled to receive a fractional interest in a share, we will round down to the nearest whole number of the number of Class A common stock to be issued to the holder. If, at the time of redemption, the warrants are exercisable for a security other than the shares of Class A common stock pursuant to the warrant agreement (for instance, if we are not the surviving company in our initial business combination), the warrants may be exercised for such security.

Redemption Procedures

A holder of a warrant may notify us in writing in the event it elects to be subject to a requirement that such holder will not have the right to exercise such warrant, to the extent that after giving effect to such exercise, such person (together with such person’s affiliates), to the warrant agent’s actual knowledge, would beneficially own in excess of 9.8% (or such other amount as a holder may specify) of the shares of Class A common stock outstanding immediately after giving effect to such exercise.

Anti-Dilution Adjustments

If the number of outstanding shares of Class A common stock is increased by a stock dividend payable in shares of Class A common stock, or by a split-up of shares of Class A common stock or other similar event, then, on the effective date of such stock dividend, split-up or similar event, the number of shares of Class A common stock issuable on exercise of each warrant will be increased in proportion to such increase in the outstanding shares of Class A common stock. A rights offering to holders of Class A common stock entitling holders to purchase shares of Class A common stock at a price less than the fair market value will be deemed a stock dividend of a number of shares of Class A common stock equal to the product of (1) the number of shares of Class A common stock actually sold in such rights offering (or issuable under any other equity securities sold in such rights offering that are convertible into or exercisable for Class A common stock) multiplied by (2) one minus the quotient of (x) the price per share of Class A common stock paid in such rights offering divided by (y) the fair market value. For these purposes (1) if the rights offering is for securities convertible into or exercisable for Class A common stock, in determining the price payable for Class A common stock, there will be taken into account any consideration received for such rights, as well as any additional amount payable upon exercise or conversion and (2) fair market value means the volume-weighted average price of Class A common stock as reported during the ten trading day period ending on the trading day prior to the first date on which the shares of Class A common stock trade on the applicable exchange or in the applicable market, regular way, without the right to receive such rights.

In addition, if we, at any time while the warrants are outstanding and unexpired, pay a dividend or make a distribution in cash, securities or other assets to the holders of Class A common stock on account of such shares of Class A common stock (or other shares of our capital stock into which the warrants are convertible), other than (a) as described above, (b) certain ordinary cash dividends, (c) to satisfy the redemption rights of the holders of Class A common stock in connection with a proposed initial business combination, (d) to satisfy the redemption rights of the holders of Class A common stock in connection with a stockholder vote to amend our amended and restated certificate of incorporation to modify the substance or timing of our obligation to redeem 100% of our Class A common stock if we do not complete our initial business combination within 24 months from the closing of this offering or (e) in connection with the redemption of our public shares upon our failure to complete our initial business combination, then the warrant exercise price will be decreased, effective immediately after the effective date of such event, by the amount of cash and/or the fair market value of any securities or other assets paid on each share of Class A common stock in respect of such event.

If the number of outstanding shares of our Class A common stock is decreased by a consolidation, combination, reverse stock split or reclassification of shares of Class A common stock or other similar event, then, on the effective date of such consolidation, combination, reverse stock split, reclassification or similar event, the number of shares of Class A common stock issuable on exercise of each warrant will be decreased in proportion to such decrease in outstanding shares of Class A common stock.

Whenever the number of shares of Class A common stock purchasable upon the exercise of the warrants is adjusted, as described above, the warrant exercise price will be adjusted by multiplying the warrant exercise price immediately prior to such adjustment by a fraction (x) the numerator of which will be the number of shares of Class A common stock purchasable upon the exercise of the warrants immediately prior to such adjustment, and (y) the denominator of which will be the number of shares of Class A common stock so purchasable immediately thereafter.

In addition, if (x) we issue additional shares of Class A common stock or equity-linked securities for capital raising purposes in connection with the closing of our initial business combination at an issue price or effective issue price of less than \$9.20 per share of Class A common stock (with such issue price or effective issue price to be determined in good faith by our board of directors and, in the case of any such issuance to our initial stockholders or their respective affiliates, without taking into account any founder shares held by our initial stockholders or such affiliates, as applicable, prior to such issuance) (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of our initial business combination on the date of the consummation of our initial business combination (net of redemptions), and (z) the volume-weighted average trading price of our Class A common stock during the ten-trading day period starting on the trading day after the day on which we consummate our initial business combination, or the market value, is below \$9.20 per share, then the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to

[Table of Contents](#)

115% of the higher of the market value and the newly issued price, and the \$18.00 per share redemption trigger price described above under “— *Redemption of Warrants When the Price Per Share of Class A Common Stock Equals or Exceeds \$18.00*” will be adjusted (to the nearest cent) to be equal to 180% of the higher of the market value and the newly issued price, and the \$10.00 per share redemption trigger price will be adjusted (to the nearest cent) to be equal to the higher of the market value and the newly issued price.

In case of any reclassification or reorganization of the outstanding shares of Class A common stock (other than those described above or that solely affects the par value of such shares of Class A common stock), or in the case of any merger or consolidation of us with or into another corporation (other than a consolidation or merger in which we are the continuing corporation and that does not result in any reclassification or reorganization of our outstanding shares of Class A common stock), or in the case of any sale or conveyance to another corporation or entity of the assets or other property of us as an entirety or substantially as an entirety in connection with which we are dissolved, the holders of the warrants will thereafter have the right to purchase and receive, upon the basis and upon the terms and conditions specified in the warrants and in lieu of the shares of our Class A common stock immediately theretofore purchasable and receivable upon the exercise of the rights represented thereby, the kind and amount of shares of stock or other securities or property (including cash) receivable upon such reclassification, reorganization, merger or consolidation, or upon a dissolution following any such sale or transfer, that the holder of the warrants would have received if such holder had exercised their warrants immediately prior to such event. However, if such holders were entitled to exercise a right of election as to the kind or amount of securities, cash or other assets receivable upon such consolidation or merger, then the kind and amount of securities, cash or other assets for which each warrant will become exercisable will be deemed to be the weighted average of the kind and amount received per share by such holders in such consolidation or merger that affirmatively make such election, and if a tender, exchange or redemption offer has been made to and accepted by such holders (other than a tender, exchange or redemption offer made by the company in connection with redemption rights held by stockholders of the company as provided for in the company’s amended and restated certificate of incorporation or as a result of the redemption of shares of Class A common stock by the company if a proposed initial business combination is presented to the stockholders of the company for approval) under circumstances in which, upon completion of such tender or exchange offer, the maker thereof, together with members of any group (within the meaning of Rule 13d-5(b)(1) under the Exchange Act) of which such maker is a part, and together with any affiliate or associate of such maker (within the meaning of Rule 12b-2 under the Exchange Act) and any members of any such group of which any such affiliate or associate is a part, own beneficially (within the meaning of Rule 13d-3 under the Exchange Act) more than 50% of the outstanding shares of Class A common stock, the holder of a warrant will be entitled to receive the highest amount of cash, securities or other property to which such holder would actually have been entitled as a stockholder if such warrant holder had exercised the warrant prior to the expiration of such tender or exchange offer, accepted such offer and all of the Class A common stock held by such holder had been purchased pursuant to such tender or exchange offer, subject to adjustments (from and after the consummation of such tender or exchange offer) as nearly equivalent as possible to the adjustments provided for in the warrant agreement. Additionally, if less than 70% of the consideration receivable by the holders of Class A common stock in such a transaction is payable in the form of common equity in the successor entity that is listed for trading on a national securities exchange or is quoted in an established over-the-counter market, or is to be so listed for trading or quoted immediately following such event, and if the registered holder of the warrant properly exercises the warrant within thirty days following public disclosure of such transaction, the warrant exercise price will be reduced as specified in the warrant agreement based on the per share consideration minus Black-Scholes Warrant Value (as defined in the warrant agreement) of the warrant.

The warrants will be issued in registered form under a warrant agreement between Continental Stock Transfer & Trust Company, as warrant agent, and us. You should review a copy of the warrant agreement, which will be filed as an exhibit to the registration statement of which this prospectus is a part, for a complete description of the terms and conditions applicable to the warrants. The warrant agreement provides that the terms of the warrants may be amended without the consent of any holder to cure any ambiguity or correct any defective provision, but requires the approval by the holders of at least 50% of the then-outstanding public warrants to make any change that adversely affects the interests of the registered holders of public warrants.

The warrants may be exercised upon surrender of the warrant certificate on or prior to the expiration date at the offices of the warrant agent, with the exercise form on the reverse side of the warrant certificate completed and executed as indicated, accompanied by full payment of the exercise price (or on a cashless basis, if applicable), by certified or official bank check payable to us, for the number of warrants being exercised. The warrant holders do not have the rights or privileges of holders of Class A common stock and any voting rights until they exercise their

warrants and receive shares of Class A common stock. After the issuance of shares of Class A common stock upon exercise of the warrants, each holder will be entitled to one vote for each share held of record on all matters to be voted on by holders of Class A common stock.

No fractional warrants will be issued upon separation of the units and only whole warrants will trade.

Private Placement Warrants

The private placement warrants (including the Class A common stock issuable upon exercise of the private placement warrants) will not be transferable, assignable or salable until 30 days after the completion of our initial business combination (except, among other limited exceptions as described under “*Principal Stockholders — Transfers of Founder Shares and Private Placement Warrants,*” to our officers and directors and other persons or entities affiliated with the sponsors of the private placement warrants) and they will not be redeemable by us so long as they are held by the sponsors and independent directors or their permitted transferees, except as described above. The sponsors and independent directors, or their permitted transferees, have the option to exercise the private placement warrants on a cashless basis. Except as described above, the private placement warrants have terms and provisions that are identical to those of the warrants being sold as part of the units in this offering. If the private placement warrants are held by holders other than the sponsors and independent directors or their permitted transferees, the private placement warrants will be redeemable by us and exercisable by the holders on the same basis as the warrants included in the units being sold in this offering.

If holders of the private placement warrants elect to exercise them on a cashless basis, they would pay the exercise price by surrendering his, her or its warrants for that number of shares of Class A common stock equal to the quotient obtained by dividing (x) the product of the number of shares of Class A common stock underlying the warrants, multiplied by the difference between the exercise price of the warrants and the “fair market value” (defined below) by (y) the fair market value. The “fair market value” will mean the average reported closing price of the Class A common stock for the ten trading days ending on the third trading day prior to the date on which the notice of warrant exercise is sent to the warrant agent. The reason that we have agreed that these warrants will be exercisable on a cashless basis so long as they are held by the sponsors and independent directors or their permitted transferees is because it is not known at this time whether they will be affiliated with us following a business combination. If they remain affiliated with us, their ability to sell our securities in the open market will be significantly limited. We expect to have policies in place that prohibit insiders from selling our securities except during specific periods of time. Even during such periods of time when insiders will be permitted to sell our securities, an insider cannot trade in our securities if he or she is in possession of material non-public information. Accordingly, unlike public stockholders who could exercise their warrants and sell the Class A common stock received upon such exercise freely in the open market in order to recoup the cost of such exercise, the insiders could be significantly restricted from selling such securities. As a result, we believe that allowing the holders to exercise such warrants on a cashless basis is appropriate.

In order to finance transaction costs in connection with an intended initial business combination, our sponsors, officers, directors or their respective affiliates may, but are not obligated to, loan us funds as may be required. Up to \$2,000,000 of such loans may be convertible into warrants of the post-business combination entity at a price of \$1.50 per warrant at the option of the lender. Such warrants would be identical to the private placement warrants.

The sponsors and independent directors have agreed not to transfer, assign or sell any of the private placement warrants (including the Class A common stock issuable upon exercise of any of these warrants) until the date that is 30 days after the date we complete our initial business combination, except that, among other limited exceptions as described under “*Principal Stockholders — Transfers of Founder Shares and Private Placement Warrants,*” transfers can be made to our officers and directors and other persons or entities affiliated with our sponsors.

Dividends

We have not paid any cash dividends on our common stock to date and do not intend to pay cash dividends prior to the completion of a business combination. The payment of cash dividends in the future will be dependent upon our revenues and earnings, if any, capital requirements and general financial condition subsequent to completion of a business combination. If we incur any indebtedness, our ability to declare dividends may be limited by restrictive covenants we may agree to in connection therewith. The payment of any cash dividends subsequent to a business combination will be within the discretion of our board of directors at such time.

If we increase the size of this offering, then we may effect a stock dividend with respect to our founder shares immediately prior to the consummation of this offering in such amount as to maintain the number of founder shares at 20.0% of our issued and outstanding common stock upon the consummation of this offering.

Our Transfer Agent and Warrant Agent

The transfer agent for our common stock and warrant agent for our warrants is Continental Stock Transfer & Trust Company. We have agreed to indemnify Continental Stock Transfer & Trust Company in its roles as transfer agent and warrant agent, its agents and each of its stockholders, directors, officers and employees against all claims and losses that may arise out of acts performed or omitted for its activities in that capacity, except for any claims and losses due to any gross negligence or intentional misconduct of the indemnified person or entity.

Continental Stock Transfer & Trust Company has agreed that it has no right of set-off or any right, title, interest or claim of any kind to, or to any monies in, the trust account, and has irrevocably waived any right, title, interest or claim of any kind to, or to any monies in, the trust account that it may have now or in the future. Accordingly, any indemnification provided will only be able to be satisfied, or a claim will only be able to be pursued, solely against us and our assets outside the trust account and not against the any monies in the trust account or interest earned thereon.

Certain Anti-Takeover Provisions of Delaware Law and Our Amended and Restated Certificate of Incorporation and By-Laws

Staggered Board of Directors

Our amended and restated certificate of incorporation will provide that our board of directors will be classified into three classes of directors of approximately equal size. As a result, in most circumstances, a person can gain control of our board only by successfully engaging in a proxy contest at two or more annual meetings. Furthermore, prior to the consummation of our initial business combination, the holders of our founder shares will have the right to elect all of our directors and to remove directors.

Class B Common Stock Consent Right

For so long as any shares of our Class B common stock remain outstanding, we may not, without the prior vote or written consent of the holders of a majority of the shares of our Class B common stock then outstanding, voting separately as a single class, amend, alter or repeal any provision of our amended and restated certificate of incorporation, whether by merger, consolidation or otherwise, if such amendment, alteration or repeal would alter or change the powers, preferences or relative, participating, optional or other or special rights of the Class B common stock. Any action required or permitted to be taken at any meeting of the holders of our Class B common stock may be taken without a meeting, without prior notice and without a vote, if a consent or consents in writing, setting forth the action so taken, shall be signed by the holders of the outstanding Class B common stock having not less than the minimum number of votes that would be necessary to authorize or take such action at a meeting at which all shares of our Class B common stock were present and voted.

Special Meeting of Stockholders

Our bylaws provide that special meetings of our stockholders may be called only by a majority vote of our board of directors, by our president or by our chairman or co-chairman, if any, or by our chief executive officer or secretary.

Advance Notice Requirements for Stockholder Proposals and Director Nominations

Our bylaws provide that stockholders seeking to bring business before our annual meeting of stockholders, or to nominate candidates for election as directors at our annual meeting of stockholders must provide timely notice of their intent in writing. To be timely, a stockholder's notice will need to be delivered to our principal executive offices not later than the close of business on the 60th day nor earlier than the close of business on the 90th day prior to the scheduled date of the annual meeting of stockholders. In the event that less than 70 days' notice or prior public disclosure of the date of the annual meeting of stockholders is given, a stockholder's notice shall be timely if delivered to our principal executive offices not later than the 10th day following the day on which public

announcement of the date of our annual meeting of stockholders is first made or sent by us. Our bylaws also specify certain requirements as to the form and content of a stockholders' meeting. These provisions may preclude our stockholders from bringing matters before our annual meeting of stockholders or from making nominations for directors at our annual meeting of stockholders.

Authorized but Unissued Shares

Our authorized but unissued common stock and preferred stock are available for future issuances without stockholder approval and could be utilized for a variety of corporate purposes, including future offerings to raise additional capital, acquisitions and employee benefit plans. The existence of authorized but unissued and unreserved common stock and preferred stock could render more difficult or discourage an attempt to obtain control of us by means of a proxy contest, tender offer, merger or otherwise.

Exclusive Forum Selection

Our amended and restated certificate of incorporation will require, to the fullest extent permitted by law, that derivative actions brought in our name, actions against directors, officers and employees for breach of fiduciary duty and other similar actions may be brought only in the Court of Chancery in the State of Delaware, except any action (A) as to which the Court of Chancery in the State of Delaware determines that there is an indispensable party not subject to the jurisdiction of the Court of Chancery (and the indispensable party does not consent to the personal jurisdiction of the Court of Chancery within ten days following such determination), (B) which is vested in the exclusive jurisdiction of a court or forum other than the Court of Chancery, (C) for which the Court of Chancery does not have subject matter jurisdiction or (D) any action arising under the Securities Act, as to which the Court of Chancery and the federal district court for the District of Delaware shall have concurrent jurisdiction. If an action is brought outside of Delaware, the stockholder bringing the suit will be deemed to have consented to service of process on such stockholder's counsel. Although we believe this provision benefits us by providing increased consistency in the application of Delaware law in the types of lawsuits to which it applies, a court may determine that this provision is unenforceable, and to the extent it is enforceable, the provision may have the effect of discouraging lawsuits against our directors and officers, although our stockholders will not be deemed to have waived our compliance with federal securities laws and the rules and regulations thereunder and therefore bring a claim in another appropriate forum. Additionally, we cannot be certain that a court will decide that this provision is either applicable or enforceable, and if a court were to find the choice of forum provision contained in our amended and restated certificate of incorporation to be inapplicable or unenforceable in an action, we may incur additional costs associated with resolving such action in other jurisdictions, which could harm our business, operating results and financial condition.

Our amended and restated certificate of incorporation will provide that the exclusive forum provision will be applicable to the fullest extent permitted by applicable law. Section 27 of the Exchange Act creates exclusive federal jurisdiction over all suits brought to enforce any duty or liability created by the Exchange Act or the rules and regulations thereunder. As a result, the exclusive forum provision will not apply to suits brought to enforce any duty or liability created by the Exchange Act or any other claim for which the federal courts have exclusive jurisdiction.

Section 203 Opt Out

Pursuant to our amended and restated certificate of incorporation, we have opted out of the provisions of Section 203 of the DGCL regulating corporate takeovers. This section prevents certain Delaware corporations, under certain circumstances, from engaging in a "business combination" with:

- a stockholder who owns 15% or more of our outstanding voting stock, or an interested stockholder;
- an affiliate of an interested stockholder; or
- an associate of an interested stockholder, for three years following the date that the stockholder became an interested stockholder. A "business combination" includes a merger or sale of more than 10% of our assets. However, the above provisions of Section 203 do not apply if:
- our board of directors approves the transaction that made the stockholder an "interested stockholder," prior to the date of the transaction;

[Table of Contents](#)

- after the completion of the transaction that resulted in the stockholder becoming an interested stockholder, that stockholder owned at least 85% of our voting stock outstanding at the time the transaction commenced, other than statutorily excluded shares of common stock; or
- on or subsequent to the date of the transaction, the business combination is approved by our board of directors and authorized at a meeting of our stockholders, and not by written consent, by an affirmative vote of at least two-thirds of the outstanding voting stock not owned by the interested stockholder.

We have opted out of the provisions of Section 203 of the DGCL because we believe this statute could prohibit or delay mergers or other change in control attempts, and thus may discourage attempts to acquire us.

SECURITIES ELIGIBLE FOR FUTURE SALE

Immediately after this offering we will have 37,500,000 (or 43,125,000 if the underwriters' over-allotment option is exercised in full) shares of common stock outstanding. Of these shares, the Class A common stock sold in this offering (30,000,000 shares of Class A common stock if the underwriters' over-allotment option is not exercised and 34,500,000 shares if the underwriters' over-allotment option is exercised in full) will be freely tradable without restriction or further registration under the Securities Act, except for any Class A common stock purchased by one of our affiliates within the meaning of Rule 144 under the Securities Act. All of the outstanding founder shares (7,500,000 founder shares if the underwriters' over-allotment option is not exercised and 8,625,000 founder shares if the underwriters' over-allotment option is exercised in full) and all of the outstanding private placement warrants (5,233,333 warrants if the underwriters' over-allotment option is not exercised and 5,833,333 warrants if the underwriters' over-allotment option is exercised in full) will be restricted securities under Rule 144, in that they were issued in private transactions not involving a public offering.

Rule 144

Pursuant to Rule 144, a person who has beneficially owned restricted shares or warrants for at least six months would be entitled to sell their securities provided that (i) such person is not deemed to have been one of our affiliates at the time of, or at any time during the three months preceding, a sale and (ii) we are subject to the Exchange Act periodic reporting requirements for at least three months before the sale and have filed all required reports under Section 13 or 15(d) of the Exchange Act during the 12 months (or such shorter period as we were required to file reports) preceding the sale.

Persons who have beneficially owned restricted shares or warrants for at least six months but who are our affiliates at the time of, or at any time during the three months preceding, a sale, would be subject to additional restrictions, by which such person would be entitled to sell within any three-month period only a number of securities that does not exceed the greater of:

- 1% of the total number of shares of common stock then outstanding, which will equal 375,000 shares immediately after this offering (or 431,250 if the underwriters exercise in full their over-allotment option); and
- the average weekly reported trading volume of the Class A common stock during the four calendar weeks preceding the filing of a notice on Form 144 with respect to the sale.

Sales by our affiliates under Rule 144 are also limited by manner of sale provisions and notice requirements and to the availability of current public information about us.

Restrictions on the Use of Rule 144 by Shell Companies or Former Shell Companies

Rule 144 is not available for the resale of securities initially issued by shell companies (other than business combination related shell companies) or issuers that have been at any time previously a shell company. However, Rule 144 also includes an important exception to this prohibition if the following conditions are met:

- the issuer of the securities that was formerly a shell company has ceased to be a shell company;
- the issuer of the securities is subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act;
- the issuer of the securities has filed all Exchange Act reports and material required to be filed, as applicable, during the preceding 12 months (or such shorter period that the issuer was required to file such reports and materials), other than Form 8-K reports; and
- at least one year has elapsed from the time that the issuer filed current Form 10 type information with the SEC reflecting its status as an entity that is not a shell company.

As a result, our initial stockholders will be able to sell their founder shares and private placement warrants, as applicable, pursuant to Rule 144 without registration one year after we have completed our initial business combination.

Registration Rights

The holders of the founder shares, private placement warrants and warrants that may be issued upon conversion of working capital loans (and any Class A common stock issuable upon the exercise of the private placement warrants and warrants that may be issued upon conversion of working capital loans) will be entitled to registration rights pursuant to a registration rights agreement to be signed prior to or on the effective date of this offering. The holders of these securities are entitled to make up to three demands, excluding short form demands, that we register such securities. In addition, the holders have certain “piggy-back” registration rights with respect to registration statements filed subsequent to our completion of our initial business combination. However, the registration rights agreement provides that we will not permit any registration statement filed under the Securities Act to become effective until termination of the applicable lockup period, which occurs (i) in the case of the founder shares, upon the earlier of (A) one year after the completion of our initial business combination or (B) the date on which we complete a liquidation, merger, stock exchange or other similar transaction after our initial business combination that results in all of our public stockholders having the right to exchange their Class A common stock for cash, securities or other property (except as described herein under “*Principal Stockholders — Transfers of Common stock and Warrants*”), provided that, notwithstanding the foregoing, the founder shares will be released from the lock-up if the closing price of our Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination and (ii) in the case of the private placement warrants and the respective Class A common stock underlying such warrants, 30 days after the completion of our initial business combination. We will bear the expenses incurred in connection with the filing of any such registration statements.

Listing of Securities

We have applied to have our units listed on the NYSE under the symbol “CAP.U” commencing on or promptly after the date of this prospectus. Once the securities comprising the units begin separate trading, we expect that the Class A common stock and warrants will be listed on the NYSE under the symbols “CAP” and “CAP WS,” respectively. We cannot guarantee that our securities will be approved for listing on the NYSE. It is anticipated that units will automatically separate into their component parts and will not be traded as a unit after the consummation of the initial business combination.

UNITED STATES FEDERAL INCOME TAX CONSIDERATIONS

The following discussion is a summary of the material U.S. federal income tax considerations relating to the purchase, ownership and disposition of our units, Class A common stock and warrants issued pursuant to this offering, which we refer to collectively as our securities, but does not purport to be a complete analysis of all potential tax effects. The effects of other U.S. federal tax laws, such as estate and gift tax laws, and any applicable state, local or non-U.S. tax laws are not discussed. This discussion is based on the U.S. Internal Revenue Code of 1986, as amended, or the Code, Treasury Regulations promulgated thereunder, judicial decisions and published rulings and administrative pronouncements of the IRS, in each case in effect as of the date hereof. These authorities may change or be subject to differing interpretations. Any such change or differing interpretation may be applied retroactively in a manner that could adversely affect the tax consequences discussed below. We have not sought and will not seek any rulings from the IRS regarding the matters discussed below. There can be no assurance the IRS or a court will not take a contrary position to that discussed below regarding the tax consequences of the purchase, ownership and disposition of our units, Class A common stock or warrants.

This discussion is limited to holders that hold our units, Class A common stock and warrants as a “capital asset” within the meaning of Section 1221 of the Code (generally, property held for investment). This discussion does not address all U.S. federal income tax consequences relevant to a holder’s particular circumstances, including the impact of the Medicare contribution tax on net investment income or the alternative minimum tax. In addition, it does not address consequences relevant to holders subject to special rules, including, without limitation:

- banks;
- certain financial institutions;
- regulated investment companies and real estate investment trusts;
- insurance companies;
- brokers or dealers in securities;
- traders in securities that elect to use a mark-to-market method of tax accounting;
- tax-exempt organizations or governmental organizations;
- U.S. expatriates and former citizens or long-term residents of the United States;
- persons holding our units, Class A common stock or warrants as part of a hedge, straddle or other risk reduction strategy or as part of a conversion transaction or other integrated investment;
- persons that actually or constructively own 10% or more of our voting stock by vote or value;
- “controlled foreign corporations,” “passive foreign investment companies,” and corporations that accumulate earnings to avoid U.S. federal income tax;
- S corporations, partnerships or other entities or arrangements treated as partnerships for U.S. federal income tax purposes (and investors therein);
- persons deemed to sell our units, Class A common stock or warrants under the constructive sale provisions of the Code;
- persons who hold or receive our units, Class A common stock or warrants pursuant to the exercise of any employee stock option or otherwise as compensation;
- tax-qualified retirement plans; and
- “qualified foreign pension funds” as defined in Section 897(1)(2) of the Code and entities all of the interests of which are held by qualified foreign pension funds.

If an entity or arrangement treated as a partnership for U.S. federal income tax purposes holds our units, Class A common stock or warrants, the tax treatment of an owner of such an entity or arrangement will depend on the status of the owner, the activities of the entity or arrangement and certain determinations made at the owner

level. Accordingly, entities or arrangements treated as partnerships for U.S. federal income tax purposes holding our units, Class A common stock and warrants and the owners in such entities or arrangements should consult their tax advisors regarding the U.S. federal income tax consequences to them.

THIS DISCUSSION IS FOR INFORMATIONAL PURPOSES ONLY AND IS NOT TAX ADVICE. INVESTORS SHOULD CONSULT THEIR TAX ADVISORS WITH RESPECT TO THE APPLICATION OF THE U.S. FEDERAL INCOME TAX LAWS TO THEIR PARTICULAR SITUATIONS AS WELL AS ANY TAX CONSEQUENCES OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF OUR UNITS, CLASS A COMMON STOCK AND WARRANTS ARISING UNDER THE U.S. FEDERAL ESTATE OR GIFT TAX LAWS OR UNDER THE LAWS OF ANY STATE, LOCAL OR NON-U.S. TAXING JURISDICTION OR UNDER ANY APPLICABLE INCOME TAX TREATY.

Personal Holding Company Status

We could be subject to a second level of U.S. federal income tax on a portion of our income if we are determined to be a personal holding company, or PHC, for U.S. federal income tax purposes. A U.S. corporation generally will be classified as a PHC for U.S. federal income tax purposes in a given taxable year if (i) at any time during the last half of such taxable year, five or fewer individuals (without regard to their citizenship or residency and including as individuals for this purpose certain entities such as certain tax-exempt organizations, pension funds and charitable trusts) own or are deemed to own (pursuant to certain constructive ownership rules) more than 50% of the stock of the corporation by value and (ii) at least 60% of the corporation's adjusted ordinary gross income, as determined for U.S. federal income tax purposes, for such taxable year consists of PHC income (which includes, among other things, dividends, interest, certain royalties, annuities and, under certain circumstances, rents).

Depending on the date and size of our Initial Business Combination, at least 60% of our adjusted ordinary gross income may consist of PHC income as discussed above. In addition, depending on the concentration of our stock in the hands of individuals, including the members of our sponsors and certain tax-exempt organizations, pension funds and charitable trusts, more than 50% of our stock may be owned or deemed owned (pursuant to the constructive ownership rules) by such persons during the last half of a taxable year. Thus, no assurance can be given that we will not be a PHC following this offering or in the future. If we are or were to become a PHC in a given taxable year, we would be subject to an additional PHC tax, currently 20%, on our undistributed PHC income, which generally includes our taxable income, subject to certain adjustments.

Allocation of Purchase Price and Characterization of a Unit

No statutory, administrative or judicial authority directly addresses the treatment of a unit or instruments or arrangements similar to a unit for U.S. federal income tax purposes and, therefore, that treatment is not entirely clear. The acquisition of a unit should be treated for U.S. federal income tax purposes as the acquisition of one share of Class A common stock and one-third of one warrant to acquire one share of Class A common stock. We intend to treat the acquisition of a unit in this manner and, by purchasing a unit, you will agree to adopt such treatment for U.S. federal income tax purposes. For U.S. federal income tax purposes, each U.S. Holder of a unit must allocate the purchase price paid by such holder for such Unit between the one share of Class A common stock and the one-third of one warrant based on the relative fair market value of each at the time of issuance. Under U.S. federal income tax law, each investor must make his or her own determination of such value based on all the facts and circumstances. Therefore, we strongly urge each investor to consult his or her own tax adviser regarding the determination of value for these purposes. The price allocated to each share of Class A common stock and the one-third of one warrant should be the shareholder's tax basis in such share or one-third of one warrant, as the case may be. Any disposition of a unit should be treated for U.S. federal income tax purposes as a disposition of the share of Class A common stock and the one-third of one warrant constituting the unit, and the amount realized on the disposition should be allocated between the Class A common stock and the one-third of one warrant based on their respective fair market values at the time of disposition (as determined by each such unit holder based on all the facts and circumstances).

The separation of shares of Class A common stock and warrants comprising the units should not be a taxable event for U.S. federal income tax purposes. The foregoing U.S. federal income tax treatment of the shares of our Class A common stock and warrants and a U.S. Holder's purchase price allocation are not binding on the IRS or the courts. Because there are no authorities that directly address instruments that are similar to the units, no assurance can be given that the IRS or the courts will agree with the characterization described above or the discussion below.

Accordingly, each prospective investor is urged to consult its own tax advisors regarding the tax consequences of an investment in a unit (including alternative characterizations of a unit). The balance of this discussion assumes that the characterization of the units described above is respected for U.S. federal income tax purposes.

U.S. Holders

For purposes of this discussion, a “*U.S. Holder*” is any beneficial owner of our units, Class A common stock and warrants that is for U.S. federal income tax purposes:

- an individual who is a citizen or resident of the United States;
- a corporation (or other entity taxable as a corporation) created or organized under the laws of the United States, any state thereof, or the District of Columbia;
- an estate, the income of which is subject to U.S. federal income tax regardless of its source; or
- a trust that (1) is subject to the primary supervision of a U.S. court and the control of one or more “United States persons” (within the meaning of Section 7701(a)(30) of the Code), or (2) has a valid election in effect to be treated as a United States person for U.S. federal income tax purposes.

Taxation of Distributions. The gross amount of distributions made with respect to the Class A common stock generally will be includible in a U.S. Holder’s gross income, in accordance with such U.S. Holder’s method of accounting for U.S. federal income tax purposes, as dividend income, but only to the extent that such distributions are paid out of our current or accumulated earnings and profits as determined under U.S. federal income tax principles. The dividends will be taxable to a corporate U.S. Holder at regular corporate tax rates and will generally be eligible for the dividends received deduction if the requisite holding period is satisfied. Distributions in excess of such earnings and profits generally will be applied against and reduce the U.S. Holder’s basis in its Class A common stock (but not below zero) and, to the extent in excess of such basis, will be treated as gain from the sale or exchange of such Class A common stock.

With respect to non-corporate U.S. Holders and with certain exceptions, dividends may be “qualified dividend income,” which is taxed at the lower applicable long-term capital gain rate provided that the U.S. Holder satisfies certain holding period requirements and the U.S. Holder is not under an obligation to make related payments with respect to positions in substantially similar or related property. It is unclear whether the redemption rights with respect to the Class A common stock described in this prospectus may prevent a U.S. Holder from satisfying the applicable holding period requirements with respect to the dividends received deduction or the preferential tax rate on qualified dividend income, as the case may be. If the holding period requirements are not satisfied, then non-corporate U.S. Holders may be subject to tax on such dividends at regular ordinary income tax rates instead of the preferential rate that applies to qualified dividend income.

Gain or Loss on Sale, Taxable Exchange or Other Taxable Disposition of Units, Class A Common Stock and Warrants. Upon a sale or other taxable disposition of our units, Class A common stock or warrants, which, in general, would include a redemption of Class A common stock or warrants that is treated as a sale of such securities as described below, and including as a result of a dissolution and liquidation in the event we do not consummate an initial business combination within the required time period, a U.S. Holder generally will recognize capital gain or loss in an amount equal to the difference between the amount realized and the U.S. Holder’s adjusted tax basis in the Class A common stock or warrants.

Any such capital gain or loss generally will be long-term capital gain or loss if the U.S. Holder’s holding period for the Class A common stock or warrants so disposed of exceeds one year. It is unclear, however, whether the redemption rights with respect to the Class A common stock described in this prospectus may suspend the running of the applicable holding period for this purpose. If the running of the holding period is suspended, then non-corporate U.S. Holders may not be able to satisfy the one-year holding period requirement for long-term capital gain treatment, in which case any gain on a sale or taxable disposition of the shares or warrants would be subject to short-term capital gain treatment and would be taxed at regular ordinary income tax rates. Long-term capital gains recognized by non-corporate U.S. Holders will be eligible to be taxed at reduced rates. The deductibility of capital losses is subject to limitations.

Generally, the amount of gain or loss recognized by a U.S. Holder is an amount equal to the difference between (i) the sum of the amount of cash and the fair market value of any property received in such disposition (or, if the Class A common stock or warrants are held as part of units at the time of the disposition, the portion of the amount realized on such disposition that is allocated to the Class A common stock or the warrant based upon the then fair market values of the Class A common stock and the warrants included in the units) and (ii) the U.S. Holder's adjusted tax basis in its Class A common stock or warrants so disposed of. A U.S. Holder's adjusted tax basis in its Class A common stock or warrant generally will equal the U.S. Holder's adjusted cost (that is, as discussed above, the portion of the purchase price of a unit allocated to a share of Class A common stock or one-third of one warrant or, as discussed below, the U.S. Holder's initial basis for Class A common stock received upon exercise of warrants) less, in the case of a share of Class A common stock, any prior distributions treated as a return of capital.

Redemption of Class A Common Stock. In the event that a U.S. Holder's Class A common stock is redeemed pursuant to the redemption provisions described in this prospectus under the section entitled "*Description of Securities — Common Stock*" or if we purchase a U.S. Holder's share of Class A common stock in an open-market transaction, the treatment of the transaction for U.S. federal income tax purposes will depend on whether the redemption or purchase by us qualifies as a sale of the Class A common stock under Section 302 of the Code. If the redemption or purchase by us qualifies as a sale of Class A common stock, the U.S. Holder will be treated as described under "*— U.S. Holders — Gain or Loss on Sale, Taxable Exchange or Other Taxable Disposition of Units, Class A Common Stock and Warrants*" above. Whether a redemption or purchase by us qualifies for sale treatment will depend largely on the total number of shares of our stock treated as held by the U.S. Holder (including any stock constructively owned by the U.S. Holder as a result of owning warrants) relative to all of our shares outstanding both before and after the redemption or purchase by us. The redemption or purchase by us of Class A common stock generally will be treated as a sale of the Class A common stock (rather than a corporate distribution) if the redemption or purchase by us (i) is "substantially disproportionate" with respect to the U.S. holder, (ii) results in a "complete termination" of the U.S. Holder's interest in us or (iii) is "not essentially equivalent to a dividend" with respect to the U.S. Holder. These tests are explained more fully below.

In determining whether any of the foregoing tests are satisfied, a U.S. holder takes into account not only stock actually owned by the U.S. Holder, but also shares of our stock that are constructively owned by it. A U.S. Holder may constructively own, in addition to stock owned directly, stock owned by certain related individuals and entities in which the U.S. Holder has an interest or that have an interest in such U.S. Holder, as well as any stock the U.S. Holder has a right to acquire by exercise of an option, which would generally include Class A common stock which could be acquired pursuant to the exercise of the warrants. In order to meet the substantially disproportionate test, the percentage of our outstanding voting stock actually and constructively owned by the U.S. Holder immediately following the redemption or purchase by us of Class A common stock must, among other requirements, be less than 80% of the percentage of our outstanding voting stock actually and constructively owned by the U.S. Holder immediately before the redemption or purchase by us. There will be a complete termination of a U.S. Holder's interest if either (i) all of the shares of our stock actually and constructively owned by the U.S. Holder are redeemed or (ii) all of the shares of our stock actually owned by the U.S. Holder are redeemed and the U.S. Holder is eligible to waive, and effectively waives in accordance with specific rules, the attribution of stock owned by certain family members and the U.S. Holder does not constructively own any other stock. The redemption or purchase by us of the Class A common stock will not be essentially equivalent to a dividend if a U.S. Holder's conversion results in a "meaningful reduction" of the U.S. Holder's proportionate interest in us. Whether the redemption or purchase by us will result in a meaningful reduction in a U.S. Holder's proportionate interest in us will depend on the particular facts and circumstances. However, the IRS has indicated in a published ruling that even a small reduction in the proportionate interest of a small minority stockholder in a publicly held corporation who exercises no control over corporate affairs may constitute such a "meaningful reduction." A U.S. Holder should consult with its own tax advisors as to the tax consequences of a redemption or purchase by us.

If none of the foregoing tests is satisfied, then the redemption or purchase by us will be treated as a corporate distribution and the tax effects will be as described under "*— U.S. Holders — Taxation of Distributions,*" above. After the application of those rules, any remaining tax basis of the U.S. Holder in the redeemed Class A common stock will be added to the U.S. Holder's adjusted tax basis in its remaining stock, or, if it has none, to the U.S. Holder's adjusted tax basis in its warrants or possibly in other stock constructively owned by it.

Exercise, Lapse or Redemption of a Warrant. Except as discussed below with respect to the cashless exercise of a warrant, a U.S. Holder generally will not recognize gain or loss upon the acquisition of a share of Class A common stock on the exercise of a warrant for cash. A U.S. Holder's tax basis in a share of our Class A common stock received upon exercise of the warrant generally will be an amount equal to the sum of the U.S. Holder's initial investment in the warrant (i.e., the portion of the U.S. Holder's purchase price for a unit that is allocated to the warrants, as described above under "*— U.S. Holders — Allocation of Purchase Price and Characterization of a Unit*") and the exercise price. The U.S. Holder's holding period for the share of Class A common stock received upon exercise of the warrant generally will commence on the date of exercise of the warrant or the date following the date of exercise of the warrant; however, in either case the holding period will not include the period during which the U.S. Holder held the warrant. If a warrant is allowed to lapse unexercised, a U.S. Holder generally will recognize a capital loss equal to such holder's tax basis in the warrant.

The tax consequences of a cashless exercise of a warrant are not clear under current tax law. A cashless exercise may be tax-free, either because the exercise is not a gain realization event or because the exercise is treated as a recapitalization for U.S. federal income tax purposes. In either tax-free situation, a U.S. Holder's basis in the share of Class A common stock received would equal the holder's basis in the warrants used to effect the cashless exercise. If the cashless exercise is not treated as a gain realization event, a U.S. Holder's holding period in the Class A common stock generally would be treated as commencing on the date following the date of exercise (or possibly the date of exercise of the warrant). If the cashless exercise were treated as a recapitalization, the holding period of the Class A common stock would include the holding period of the warrant.

It is also possible that a cashless exercise could be treated in part as a taxable exchange in which gain or loss would be recognized. In such event, a U.S. Holder could be deemed to have surrendered warrants equal to the number of shares of Class A common stock having an aggregate fair market value equal to the exercise price for the total number of warrants to be exercised. The U.S. Holder would recognize capital gain or loss in an amount equal to the difference between the fair market value of the warrants deemed surrendered and the U.S. Holder's tax basis in such warrants. In this case, a U.S. Holder's tax basis in the Class A common stock received would equal the sum of the U.S. Holder's initial investment in the warrants deemed exercised (i.e., the portion of the U.S. Holder's purchase price for the units that is allocated to the warrants, as described above under "*— Allocation of Purchase Price and Characterization of a Unit*") and the exercise price of such warrants. A U.S. Holder's holding period for the Class A common stock in such case generally would commence on the date following the date of exercise (or possibly the date of exercise) of the warrant.

Due to the absence of authority on the U.S. federal income tax treatment of a cashless exercise, there can be no assurance which, if any, of the alternative tax consequences and holding periods described above would be adopted by the IRS or a court of law. Accordingly, U.S. Holders should consult their tax advisors regarding the tax consequences of a cashless exercise.

If we redeem warrants for cash pursuant to the redemption provisions described in the section of this prospectus entitled "*Description of Securities — Warrants — Redemption of warrants for cash*" or if we purchase warrants in an open-market transaction, such redemption or purchase generally will be treated as a taxable disposition to the U.S. Holder, taxed as described above under "*— Gain or Loss on Sale, Taxable Exchange or Other Taxable Disposition of Class A Common Stock and Warrants.*"

Possible Constructive Distributions. The terms of each warrant provide for an adjustment to the number of shares of Class A common stock for which the warrant may be exercised or to the exercise price of the warrant in certain events. An adjustment which has the effect of preventing dilution generally is not taxable. The U.S. Holders of the warrants would, however, be treated as receiving a constructive distribution from us if, for example, the adjustment increases the warrant holders' proportionate interest in our assets or earnings and profits (for instance, through an increase in the number of shares of Class A common stock that would be obtained upon exercise or through a decrease in the exercise price of the warrant) as a result of a distribution of cash or other property such as other securities to the holders of our Class A common stock which is taxable to the U.S. Holders of such shares of Class A common stock, or as a result of the issuance of a stock dividend to holders of shares of our common stock as described under "*— U.S. Holders — Taxation of Distributions*" above. Such constructive distributions would be subject to tax as described under that section in the same manner as if the U.S. Holders of the warrants received a cash distribution from us equal to the fair market value of such increased interest. For certain informational reporting purposes, we are required to determine the date and amount of any such constructive distributions and publicly

report such information or report such information to the IRS and holders of warrants not exempt from information reporting. Proposed Treasury Regulations, which we may rely on prior to the issuance of final regulations, specify how the date and amount of constructive distributions are determined.

U.S. Information Reporting and Backup Withholding. Distributions with respect to the Class A common stock to a U.S. Holder, regardless of whether such distributions constitute dividends, and proceeds from the sale, exchange or redemption of the Class A common stock by a U.S. Holder generally are subject to information reporting to the IRS and possible U.S. backup withholding, unless the U.S. Holder is an exempt recipient. Backup withholding may apply to such payments if a U.S. Holder fails to furnish a correct taxpayer identification number, a certification of exempt status or has been notified by the IRS that it is subject to backup withholding (and such notification has not been withdrawn).

Backup withholding is not an additional tax. Amounts withheld as backup withholding may be credited against a U.S. Holder's U.S. federal income tax liability, and such holder may obtain a refund of any excess amounts withheld under the backup withholding rules by timely filing the appropriate claim for refund with the IRS and furnishing any required information.

Non-U.S. Holders

For purposes of this discussion, a “*Non-U.S. Holder*” is any beneficial owner of our units, Class A common stock or warrants that is for U.S. federal income tax purposes:

- a non-resident alien individual;
- a foreign corporation; or
- a foreign estate or trust.

Taxation of Distributions. In general, any distributions (including constructive distributions) we make to a Non-U.S. Holder of shares of our Class A common stock, to the extent paid out of our current or accumulated earnings and profits (as determined under U.S. federal income tax principles) will constitute dividends for U.S. federal income tax purposes. Amounts not treated as dividends for U.S. federal income tax purposes will constitute a return of capital and first be applied against and reduce a Non-U.S. Holder's adjusted tax basis in its common stock, but not below zero. Any excess will be treated as capital gain and will be treated as described below under “*Non-U.S. Holders — Gain or Loss on Sale, Taxable Exchange or Other Taxable Disposition of Units, Class A Common Stock and Warrants.*”

Subject to the discussion below on effectively connected income, dividends paid to a Non-U.S. Holder of our Class A common stock will be subject to U.S. federal withholding tax at a rate of 30% of the gross amount of the dividends (or such lower rate specified by an applicable income tax treaty, provided the Non-U.S. Holder furnishes a valid IRS Form W-8BEN or W-8BEN-E (or other applicable documentation) certifying qualification for the lower treaty rate). In the case of any constructive dividend, it is possible that this tax would be withheld from any amount owed to a Non-U.S. Holder by the applicable withholding agent, including cash distributions on other property or sale proceeds from warrants or other property subsequently paid or credited to such holder. A Non-U.S. Holder that does not timely furnish the required documentation, but that qualifies for a reduced treaty rate, may obtain a refund of any excess amounts withheld by timely filing an appropriate claim for refund with the IRS. Non-U.S. Holders should consult their tax advisors regarding their entitlement to benefits under any applicable income tax treaty. In addition, if we determine that we are likely to be classified as a “United States real property holding corporation” (see “— *Non-U.S. Holders — Gain or Loss on Sale, Taxable Exchange or Other Taxable Disposition of Units, Class A Common Stock and Warrants*” below), we will withhold 15% of any distribution that exceeds our current and accumulated earnings and profits, including a distribution in redemption of our Class A common stock treated as a taxable sale of our Class A common stock. See also “*Non-U.S. Holders — Possible Constructive Distributions*” for potential U.S. federal tax consequences with respect to constructive distributions.

If dividends paid to a Non-U.S. Holder are effectively connected with the Non-U.S. Holder's conduct of a trade or business within the United States (and, if required by an applicable income tax treaty, the Non-U.S. Holder maintains a permanent establishment in the United States to which such dividends are attributable), the Non-U.S. Holder will be exempt from the U.S. federal withholding tax described above. To claim the exemption, the Non-U.S. Holder must furnish to the applicable withholding agent a valid IRS Form W-8ECI, certifying that the dividends are effectively connected with the Non-U.S. Holder's conduct of a trade or business within the United States.

Any such effectively connected dividends will be subject to U.S. federal income tax on a net income basis at the regular graduated rates. A Non-U.S. Holder that is a corporation also may be subject to a branch profits tax at a rate of 30% (or such lower rate specified by an applicable income tax treaty) on such effectively connected dividends, as adjusted for certain items. Non-U.S. Holders should consult their tax advisors regarding any applicable tax treaties that may provide for different rules.

Exercise, Lapse or Redemption of a Warrant. The U.S. federal income tax treatment of the exercise, redemption or lapse of a warrant held by a Non-U.S. Holder, generally will follow the U.S. federal income tax treatment of the exercise, redemption or lapse of a warrant by a U.S. Holder, as described under “— U.S. Holders — Exercise, Lapse or Redemption of a Warrant” above, although to the extent a cashless exercise or redemption results in a taxable exchange, the consequences would follow those described below in “— Non-U.S. Holders — Gain or Loss on Sale, Taxable Exchange or Other Taxable Disposition of Units, Class A Common Stock and Warrants.”

Gain or Loss on Sale, Taxable Exchange or Other Taxable Disposition of Units, Class A Common Stock and Warrants. A Non-U.S. Holder generally will not be subject to U.S. federal income or withholding tax in respect of any gain realized upon the sale, taxable exchange or other taxable disposition of our Class A common stock (including a dissolution and liquidation in the event we do not complete an initial business combination within 24 months from the date of the closing of the Offering) or warrants (including an expiration or redemption of our warrants), in each case, without regard to whether those securities were held as part of a unit, unless:

- the gain is effectively connected with the Non-U.S. Holder’s conduct of a trade or business within the United States (and, if required by an applicable income tax treaty, the Non-U.S. Holder maintains a permanent establishment in the United States to which such gain is attributable);
- the Non-U.S. Holder is a nonresident alien individual present in the United States for 183 days or more during the taxable year of the disposition and certain other requirements are met; or
- we are or have been a “United States real property holding corporation” for U.S. federal income tax purposes at any time during the shorter of the five-year period ending on the date of disposition or the period that the Non-U.S. holder held our Class A common stock or warrants, as applicable, and, in the case where shares of our Class A common stock and warrants are treated as regularly traded on an established securities market, the Non-U.S. holder has owned, directly or constructively, more than 5% of our Class A common stock or more than 5% of warrants, as applicable, at any time within the shorter of the five-year period preceding the disposition or such Non-U.S. Holder’s holding period for the shares of our Class A common stock or warrants, as applicable. There can be no assurance that our Class A common stock or warrants will be treated as regularly traded on an established securities market for this purpose.

Gain described in the first bullet point above generally will be subject to U.S. federal income tax on a net income basis at the regular graduated rates applicable to a U.S. Holder, unless an applicable tax treaty provides otherwise. A Non-U.S. Holder that is a corporation also may be subject to a branch profits tax at a rate of 30% (or such lower rate specified by an applicable income tax treaty) on such effectively connected gain, as adjusted for certain items.

Gain described in the second bullet point above will be subject to U.S. federal income tax at a rate of 30% (or such lower rate specified by an applicable income tax treaty), which may be offset by U.S. source capital losses of the Non-U.S. Holder (even though the individual is not considered a resident of the United States), provided the Non-U.S. Holder has timely filed U.S. federal income tax returns with respect to such losses.

If the third bullet point above applies to a Non-U.S. Holder, gain recognized by such holder on the sale, exchange or other disposition of our Class A common stock or warrants will be subject to tax at generally applicable U.S. federal income tax rates. In addition, a buyer of our Class A common stock or warrants from such holder may be required to withhold U.S. federal income tax at a rate of 15% of the amount realized upon such disposition. We cannot determine whether we will be a U.S. real property holding corporation in the future until we complete an initial business combination. We will be classified as a U.S. real property holding corporation if the fair market value of our “U.S. real property interests” equals or exceeds 50 percent of the sum of the fair market value of our worldwide real property interests plus our other assets used or held for use in a trade or business, as determined for U.S. federal income tax purposes.

Non-U.S. Holders should consult their tax advisors regarding potentially applicable income tax treaties that may provide for different rules.

Redemption of Class A Common Stock. The characterization for U.S. federal income tax purposes of the redemption of a Non-U.S. Holder's share of Class A common stock pursuant to the redemption provisions described in the section of this prospectus entitled "*Description of Securities — Common Stock*" generally will follow the U.S. federal income tax characterization of such a redemption of a U.S. Holder's Class A common stock, as described under "*— U.S. Holders — Redemption of Class A Common Stock*" above, and the consequences of the redemption to the Non-U.S. Holder will be as described above under "*Non-U.S. Holders — Taxation of Distributions*" and "*— Non-U.S. Holders — Gain or Loss on Sale, Taxable Exchange or Other Taxable Disposition of Units, Class A Common Stock or Warrants,*" as applicable. It is possible that because the applicable withholding agent may not be able to determine the proper characterization of a redemption of a Non-U.S. Holder's Class A common stock, the withholding agent might treat the redemption as a distribution subject to withholding tax.

Possible Constructive Distributions. The terms of each warrant provide for an adjustment to the number of shares of Class A common stock for which the warrant may be exercised or to the exercise price of the warrant in certain events. An adjustment which has the effect of preventing dilution generally is not taxable. The Non-U.S. Holders of the warrants would, however, be treated as receiving a constructive distribution from us if, for example, the adjustment increases the Non-U.S. Holders' proportionate interest in our assets or earnings and profits (for instance, through an increase in the number of shares of Class A common stock that would be obtained upon exercise or through a decrease in the exercise price of the warrant) as a result of a distribution of cash or other property such as other securities to the holders of shares of our Class A common stock, or as a result of the issuance of a stock dividend to holders of shares of our common stock. Such constructive distribution to a Non-U.S. Holder of warrants would be treated as if such Non-U.S. Holder had received a cash distribution from us equal to the fair market value of such increased interest (taxed as described above under "*— Non-U.S. Holders — Taxation of Distributions*"). For certain informational reporting purposes, we are required to determine the date and amount of any such constructive distributions and publicly report such information or report such information to the IRS and holders of warrants not exempt from information reporting. Proposed Treasury Regulations, which taxpayers may generally rely on prior to the issuance of final regulations, specify how the date and amount of constructive distributions are determined.

Information Reporting and Backup Withholding. Payments of dividends on our Class A common stock will not be subject to backup withholding, provided the applicable withholding agent does not have actual knowledge or reason to know the holder is a United States person and the holder either certifies its non-U.S. status, such as by furnishing a valid IRS Form W-8BEN, W-8BEN-E or W-8ECI, or otherwise establishes an exemption. However, information returns are required to be filed with the IRS in connection with any dividends on our common stock paid to the Non-U.S. Holder, regardless of whether any tax was actually withheld. In addition, proceeds from a sale or other taxable disposition of our Class A common stock and warrants within the United States or conducted through certain U.S.-related brokers generally will not be subject to backup withholding or information reporting if the applicable withholding agent receives the certification described above and does not have actual knowledge or reason to know that such holder is a United States person, or the holder otherwise establishes an exemption. Proceeds from a disposition of our Class A common stock and warrants conducted through a non-U.S. office of a non-U.S. broker generally will not be subject to backup withholding or information reporting.

Copies of information returns that are filed with the IRS may also be made available under the provisions of an applicable treaty or agreement to the tax authorities of the country in which the Non-U.S. Holder resides or is established.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be allowed as a refund or a credit against a Non-U.S. Holder's U.S. federal income tax liability, provided the required information is timely furnished to the IRS.

Additional Withholding Tax on Payments Made to Foreign Accounts. Withholding taxes may be imposed under Sections 1471 to 1474 of the Code (such Sections commonly referred to as the Foreign Account Tax Compliance Act, or FATCA) on certain types of payments made to non-U.S. financial institutions and certain other non-U.S. entities. Specifically, a 30% withholding tax may be imposed on dividends on, or (subject to the proposed Treasury Regulations discussed below) gross proceeds from the sale or disposition of, our units or Class A common stock paid, or constructive distributions deemed paid, if any, with respect to our warrants, to a "foreign financial institution" or a "non-financial foreign entity" (each as defined in the Code), unless (1) the foreign financial

institution undertakes certain diligence and reporting obligations, (2) the non-financial foreign entity either certifies it does not have any “substantial United States owners” (as defined in the Code) or furnishes identifying information regarding each substantial United States owner, or (3) the foreign financial institution or non-financial foreign entity otherwise qualifies for an exemption from these rules. If the payee is a foreign financial institution and is subject to the diligence and reporting requirements in (1) above, it must enter into an agreement with the U.S. Department of the Treasury requiring, among other things, that it undertake to identify accounts held by certain “specified United States persons” or “United States-owned foreign entities” (each as defined in the Code), annually report certain information about such accounts, and withhold 30% on certain payments to non-compliant foreign financial institutions and certain other account holders. Foreign financial institutions located in jurisdictions that have an intergovernmental agreement with the United States governing FATCA may be subject to different rules.

Under the applicable Treasury Regulations and administrative guidance, withholding under FATCA generally applies to payments of dividends on our common stock. While withholding under FATCA would have applied also to payments of gross proceeds from the sale or other disposition of our units or Class A common stock on or after January 1, 2019, recently proposed Treasury Regulations eliminate FATCA withholding on payments of gross proceeds entirely. Taxpayers generally may rely on these proposed Treasury Regulations until final Treasury Regulations are issued.

Prospective investors should consult their tax advisors regarding the potential application of withholding under FATCA to their investment in our securities.

THE DISCUSSION ABOVE IS A GENERAL SUMMARY. IT DOES NOT COVER ALL TAX MATTERS THAT MAY BE IMPORTANT TO YOU. EACH PROSPECTIVE PURCHASER SHOULD CONSULT ITS TAX ADVISOR ABOUT THE TAX CONSEQUENCES OF AN INVESTMENT IN OUR CLASS A COMMON STOCK AND WARRANTS BASED ON THE INVESTOR’S CIRCUMSTANCES.

UNDERWRITING

Citigroup Global Markets Inc. is acting as book-running manager of this offering and as representative of the underwriters named below. Subject to the terms and conditions of the underwriting agreement dated the date of this prospectus, each underwriter named below has severally agreed to purchase, and we have agreed to sell to that underwriter, the following number of units set forth opposite the underwriters' name.

Underwriters	Number of Units
Citigroup Global Markets Inc.	
Deutsche Bank Securities Inc.	
Morgan Stanley & Co. LLC	
Total	30,000,000

The underwriting agreement provides that the obligations of the underwriters to purchase the units included in this offering are subject to approval of legal matters by counsel and to other conditions. The underwriters are obligated to purchase all of the units (other than those covered by the over-allotment option described below) if they purchase any of the units.

Units sold by the underwriters to the public will initially be offered at the initial public offering price set forth on the cover of this prospectus. After the initial public offering, if all of the units are not sold at the initial offering price, the underwriters may change the offering price and the other selling terms. The representatives have advised us that the underwriters do not intend to make sales to discretionary accounts.

If the underwriters sell more units than the total number set forth in the table above, we have granted to the underwriters an option, exercisable for 45 days from the date of this prospectus, to purchase up to 5,250,000 additional units at the public offering price less the underwriting discount. The underwriters may exercise this option solely for the purpose of covering over-allotments, if any, in connection with this offering. Any units issued or sold under the option will be issued and sold on the same terms and conditions as the other units that are the subject of this offering.

We, our sponsors and our officers and directors have agreed that, for a period of 180 days from the date of this prospectus, we and they will not, without the prior written consent of Citigroup Global Markets Inc., offer, sell, contract to sell, pledge or otherwise dispose of, directly or indirectly, any units, warrants, Class A common stock or any other securities convertible into, or exercisable, or exchangeable for, Class A common stock; provided, however, that we may (1) issue and sell the private placement warrants, (2) issue and sell the additional units to cover our underwriters' over-allotment option (if any), (3) register with the SEC pursuant to an agreement to be entered into concurrently with the issuance and sale of the securities in this offering, the resale of the founder shares and the private placement warrants or the warrants and Class A common stock issuable upon exercise of the warrants and (4) issue securities in connection with an initial business combination. Citigroup Global Markets Inc. in its sole discretion may release any of the securities subject to these lock-up agreements at any time without notice.

Our sponsors have agreed not to transfer, assign or sell any of their founder shares until the earlier to occur of (A) one year after the completion of our initial business combination and (B) the date on which we complete a liquidation, merger, stock exchange or other similar transaction after our initial business combination that results in all of our stockholders having the right to exchange their Class A common stock for cash, securities or other property (except as described herein under "*Principal Stockholders — Transfers of Founder Shares and Private Placement Warrants*"). Any permitted transferees will be subject to the same restrictions and other agreements of our initial stockholders with respect to any founder shares. We refer to such transfer restrictions throughout this prospectus as the lock-up. Notwithstanding the foregoing, the founder shares will be released from the lockup if the closing price of our Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination.

The private placement warrants (including the Class A common stock issuable upon exercise of the private placement warrants) will not be transferable, assignable or salable until 30 days after the completion of our initial business combination (except with respect to permitted transferees as described herein under "*Principal Stockholders — Transfers of Founder Shares and Private Placement Warrants*").

[Table of Contents](#)

We have applied to have our units listed on the NYSE under the symbol “CAP.U” commencing on or promptly after the date of this prospectus. Once the securities comprising the units begin separate trading, we expect that the Class A common stock and warrants will be listed on the NYSE under the symbols “CAP” and “CAP WS,” respectively. We cannot guarantee that our securities will be approved for listing.

The following table shows the underwriting discounts and commissions that we are to pay to the underwriters in connection with this offering. These amounts are shown assuming both no exercise and full exercise of the underwriters’ over-allotment option.

	Paid by Capitol Investment Corp. V	
	No Exercise	Full Exercise
Per Unit ⁽¹⁾	\$ 0.55	\$ 0.55
Total ⁽¹⁾	\$ 16,500,000	\$ 18,975,000

(1) \$0.20 per unit, or \$6,000,000 in the aggregate (or \$6,900,000 in the aggregate if the underwriters’ over-allotment option is exercised in full), is payable upon the closing of this offering. \$0.35 per unit, or \$10,500,000 in the aggregate (or \$12,075,000 in the aggregate if the underwriters’ over-allotment option is exercised in full) payable to the underwriters for deferred underwriting commissions will be placed in a trust account located in the United States as described herein. The deferred commissions will be released to the underwriters only on and concurrently with completion of an initial business combination.

If we do not complete our initial business combination within 24 months from the closing of this offering, the underwriters have agreed that (i) they will forfeit any rights or claims to its deferred underwriting discounts and commissions, including any accrued interest thereon, then in the trust account and (ii) that the deferred underwriters’ discounts and commissions will be distributed on a *pro rata* basis, together with any accrued interest thereon (which interest will be net of taxes payable) to the public stockholders.

In connection with the offering, the underwriters may purchase and sell units in the open market. Purchases and sales in the open market may include short sales, purchases to cover short positions, which may include purchases pursuant to the over-allotment option, and stabilizing purchases.

- Short sales involve secondary market sales by the underwriters of a greater number of units than it is required to purchase in the offering.
- “Covered” short sales are sales of units in an amount up to the number of units represented by the underwriters’ over-allotment option.
- “Naked” short sales are sales of units in an amount in excess of the number of units represented by the underwriters’ over-allotment option.
- Covering transactions involve purchases of units either pursuant to the over-allotment option or in the open market after the distribution has been completed in order to cover short positions.
- To close a naked short position, the underwriters must purchase units in the open market after the distribution has been completed. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the units in the open market after pricing that could adversely affect investors who purchase in the offering.
- To close a covered short position, the underwriters must purchase units in the open market after the distribution has been completed or must exercise the over-allotment option. In determining the source of units to close the covered short position, the underwriters will consider, among other things, the price of units available for purchase in the open market as compared to the price at which it may purchase units through the over-allotment option.
- Stabilizing transactions involve bids to purchase units so long as the stabilizing bids do not exceed a specified maximum.

Purchases to cover short positions and stabilizing purchases, as well as other purchases by the underwriters for their own accounts, may have the effect of preventing or retarding a decline in the market price of the units. They may also cause the price of the units to be higher than the price that would otherwise exist in the open market in the absence of these transactions. The underwriters may conduct these transactions in the over-the-counter market or otherwise. If the underwriters commence any of these transactions, they may discontinue them at any time.

We estimate that the total expenses of this offering payable by us will be \$850,000, excluding underwriting discounts and commissions.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act, or to contribute to payments the underwriters may be required to make because of any of those liabilities. In addition, we have agreed to pay for the FINRA-related fees and expenses of the underwriters' legal counsel, not to exceed \$15,000.

We are not under any contractual obligation to engage the underwriters to provide any services for us after this offering, and have no present intent to do so. However, the underwriters may introduce us to potential target businesses or assist us in raising additional capital in the future. If the underwriters provide services to us after this offering, we may pay the underwriters fair and reasonable fees that would be determined at that time in an arm's length negotiation; provided that no agreement will be entered into with the underwriters and no fees for such services will be paid to the underwriters prior to the date that is 90 days from the date of this prospectus, unless FINRA determines that such payment would not be deemed underwriters' compensation in connection with this offering and we may pay the underwriters of this offering or any entity with which it is affiliated a finder's fee or other compensation for services rendered to us in connection with the completion of a business combination.

The underwriters and their affiliates have engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with us or our affiliates. They have received, or may in the future receive, customary fees and commissions for these transactions.

In addition, in the ordinary course of its business activities, the underwriters and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of its customers. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. The underwriters and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Notice to Prospective Investors in Canada

The units may be sold only to purchasers purchasing, or deemed to be purchasing, as principal that are accredited investors, as defined in National Instrument 45-106 *Prospectus Exemptions* or subsection 73.3(1) of the Securities Act (Ontario), and are permitted clients, as defined in National Instrument 31-103 *Registration Requirements, Exemptions and Ongoing Registrant Obligations*. Any resale of the units must be made in accordance with an exemption from, or in a transaction not subject to, the prospectus requirements of applicable securities laws.

Securities legislation in certain provinces or territories of Canada may provide a purchaser with remedies for rescission or damages if this prospectus (including any amendment thereto) contains a misrepresentation, provided that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province or territory for particulars of these rights or consult with a legal advisor.

Pursuant to section 3A.3 of National Instrument 33-105 *Underwriting Conflicts*, or NI 33-105, the underwriters are not required to comply with the disclosure requirements of NI 33-105 regarding underwriters' conflicts of interest in connection with this offering.

Notice to Prospective Investors in the European Economic Area and the United Kingdom

In relation to each member state of the European Economic Area and the United Kingdom (each, a Relevant State), no units have been offered or will be offered to the public in that Relevant State prior to the publication of a prospectus in relation to the units which has been approved by the competent authority in that Relevant State or, where appropriate, approved in another Relevant State and notified to the competent authority in that Relevant State, all in accordance with the Prospectus Regulation), except that offers of units may be made to the public in that Relevant State at any time under the following exemptions under the Prospectus Regulation:

- to any legal entity which is a qualified investor as defined under the Prospectus Regulation;
- to fewer than 150 natural or legal persons (other than qualified investors as defined under the Prospectus Regulation), subject to obtaining the prior consent of Citigroup Global Markets Inc. for any such offer; or
- in any other circumstances falling within Article 1(4) of the Prospectus Regulation;

provided that no such offer of units shall require us or the underwriters to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation.

For the purposes of this provision, the expression an “offer to the public” in relation to any units in any Relevant State means the communication in any form and by any means of sufficient information on the terms of the offer and any units to be offered so as to enable an investor to decide to purchase or subscribe for any units, and the expression “Prospectus Regulation” means Regulation (EU) 2017/1129.

Notice to Prospective Investors in the Dubai International Financial Centre

This prospectus relates to an Exempt Offer in accordance with the Offered Securities Rules of the Dubai Financial Services Authority, or the DFSA. This prospectus is intended for distribution only to persons of a type specified in the Offered Securities Rules of the DFSA. It must not be delivered to, or relied on by, any other person. The DFSA has no responsibility for reviewing or verifying any documents in connection with Exempt Offers. The DFSA has not approved this prospectus nor taken steps to verify the information set forth herein and has no responsibility for the prospectus. The securities to which this prospectus relates may be illiquid and/or subject to restrictions on their resale. Prospective purchasers of the securities offered should conduct their own due diligence on the securities. If you do not understand the contents of this prospectus you should consult an authorized financial advisor.

Notice to Prospective Investors in Australia

No placement document, prospectus, product disclosure statement or other disclosure document has been lodged with the Australian Securities and Investments Commission in relation to this offering. This prospectus does not constitute a prospectus, product disclosure statement or other disclosure document under the Corporations Act 2001, or the Corporations Act, and does not purport to include the information required for a prospectus, product disclosure statement or other disclosure document under the Corporations Act.

Any offer in Australia of the securities may only be made to persons, or the Exempt Investors, who are “sophisticated investors” (within the meaning of section 708(8) of the Corporations Act), “professional investors” (within the meaning of section 708(11) of the Corporations Act) or otherwise pursuant to one or more exemptions contained in section 708 of the Corporations Act so that it is lawful to offer the securities without disclosure to investors under Chapter 6D of the Corporations Act.

The securities applied for by Exempt Investors in Australia must not be offered for sale in Australia in the period of 12 months after the date of allotment under the offering, except in circumstances where disclosure to investors under Chapter 6D of the Corporations Act would not be required pursuant to an exemption under section 708 of the Corporations Act or otherwise or where the offer is pursuant to a disclosure document which complies with Chapter 6D of the Corporations Act. Any person acquiring securities must observe such on-sale restrictions.

This prospectus contains general information only and does not take account of the investment objectives, financial situation or particular needs of any particular person. It does not contain any securities recommendations or financial product advice. Before making an investment decision, investors need to consider whether the information in this prospectus is appropriate to their needs, objectives and circumstances, and, if necessary, seek expert advice on those matters.

Notice to Prospective Investors in Switzerland

The securities may not be publicly offered in Switzerland and will not be listed on the SIX Swiss Exchange, or the SIX, or on any other stock exchange or regulated trading facility in Switzerland. This document has been prepared without regard to the disclosure standards for issuance prospectuses under art. 652a or art. 1156 of the Swiss Code of Obligations or the disclosure standards for listing prospectuses under art. 27 ff. of the SIX Listing Rules or the listing rules of any other stock exchange or regulated trading facility in Switzerland. Neither this document nor any other offering or marketing material relating to the securities or the offering may be publicly distributed or otherwise made publicly available in Switzerland.

Neither this document nor any other offering or marketing material relating to the offering, the company or the shares has been or will be filed with or approved by any Swiss regulatory authority. In particular, this document will not be filed with, and the offer of securities will not be supervised by, the Swiss Financial Market Supervisory Authority, and the offer of securities has not been and will not be authorized under the Swiss Federal Act on Collective Investment Schemes, or the CISA. The investor protection afforded to acquirers of interests in collective investment schemes under the CISA does not extend to acquirers of securities.

Notice to Prospective Investors in France

Neither this prospectus nor any other offering material relating to the units described in this prospectus has been submitted to the clearance procedures of the Autorité des Marchés Financiers or by the competent authority of another member state of the European Economic Area and notified to the Autorité des Marchés Financiers.

The units have not been offered or sold and will not be offered or sold, directly or indirectly, to the public in France. Neither this prospectus nor any other offering material relating to the units has been or will be:

- released, issued, distributed or caused to be released, issued or distributed to the public in France; or
- used in connection with any offer for subscription or sale of the units to the public in France.

Such offers, sales and distributions will be made in France only:

- to qualified investors (*investisseurs qualifiés*) and/or to a restricted circle of investors (*cercle restreint d'investisseurs*), in each case investing for their own account, all as defined in, and in accordance with, Article L.411-2, D.411-1, D.411-2, D.734-1, D.744-1, D.754-1 and D.764-1 of the French Code monétaire et financier;
- to investment services providers authorized to engage in portfolio management on behalf of third parties; or
- in a transaction that, in accordance with article L.411-2-II-1°-or-2°-or 3° of the French Code monétaire et financier and article 211-2 of the General Regulations (*Règlement Général*) of the Autorité des Marchés Financiers, does not constitute a public offer (*appel public à l'épargne*).

The units may be resold directly or indirectly, only in compliance with Articles L.411-1, L.411-2, L.412-1 and L.621-8 through L.621-8-3 of the French Code monétaire et financier.

Notice to Prospective Investors in Hong Kong

The units may not be offered or sold in Hong Kong by means of any document other than (i) in circumstances which do not constitute an offer to the public within the meaning of the Companies Ordinance (Cap. 32, Laws of Hong Kong), or (ii) to “professional investors” within the meaning of the Securities and Futures Ordinance (Cap. 571, Laws of Hong Kong) and any rules made thereunder, or (iii) in other circumstances which do not result in the document being a “prospectus” within the meaning of the Companies Ordinance (Cap. 32, Laws of Hong Kong) and no advertisement, invitation or document relating to the units may be issued or may be in the possession of any person for the purpose of issue (in each case whether in Hong Kong or elsewhere), which is directed at, or the contents of which are likely to be accessed or read by, the public in Hong Kong (except if permitted to do so under the laws of Hong Kong) other than with respect to units which are or are intended to be disposed of only to persons outside Hong Kong or only to “professional investors” within the meaning of the Securities and Futures Ordinance (Cap. 571, Laws of Hong Kong) and any rules made thereunder.

Notice to Prospective Investors in Japan

The units have not been and will not be registered under the Financial Instruments and Exchange Law of Japan (Law No. 25 of 1948, as amended) and, accordingly, will not be offered or sold, directly or indirectly, in Japan, or for the benefit of any Japanese Person or to others for re-offering or resale, directly or indirectly, in Japan or to any Japanese Person, except in compliance with all applicable laws, regulations and ministerial guidelines promulgated by relevant Japanese governmental or regulatory authorities in effect at the relevant time. For the purposes of this paragraph, “*Japanese Person*” shall mean any person resident in Japan, including any corporation or other entity organized under the laws of Japan.

Notice to Prospective Investors in Singapore

This prospectus has not been registered as a prospectus with the Monetary Authority of Singapore. Accordingly, this prospectus and any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of the units may not be circulated or distributed, nor may the units be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than (i) to an institutional investor under Section 274 of the Securities and Futures Act, Chapter 289 of Singapore, or the SFA, (ii) to a relevant person pursuant to Section 275(1), or any person pursuant to Section 275(1A), and in accordance with the conditions specified in Section 275 of the SFA or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA, in each case subject to compliance with conditions set forth in the SFA.

Where the units are subscribed or purchased under Section 275 of the SFA by a relevant person which is (a) a corporation (which is not an accredited investor) the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an accredited investor, or (b) a trust (where the trustee is not an accredited investor) whose sole purpose is to hold investments and each beneficiary is an accredited investor, shares, debentures and units of shares and debentures of that corporation or the beneficiaries’ rights and interest (howsoever described) in that trust shall not be transferred within six months after that corporation or that trust has acquired the shares pursuant to an offer made under Section 275 of the SFA except:

- to an institutional investor (for corporations, under Section 274 of the SFA) or to a relevant person defined in Section 275(2) of the SFA, or to any person pursuant to an offer that is made on terms that such shares, debentures and units of shares and debentures of that corporation or such rights and interest in that trust are acquired at a consideration of not less than S\$200,000 (or its equivalent in a foreign currency) for each transaction, whether such amount is to be paid for in cash or by exchange of securities or other assets, and further for corporations, in accordance with the conditions specified in Section 275 of the SFA;
- where no consideration is or will be given for the transfer; or
- where the transfer is by operation of law.

Notice to Prospective Investors in the United Kingdom

Each of the underwriters severally represents, warrants and agrees as follows:

- (a) it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of section 21 of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005, or FSMA, to persons who have professional experience in matters relating to investments falling with Article 19(5) of FISMA or in circumstances in which section 21 of FSMA does not apply to the company; and
- (b) it has complied with, and will comply with, all applicable provisions of FSMA with respect to anything done by it in relation to the units in, from or otherwise involving the United Kingdom.

Cayman Islands

No offer or invitation to subscribe for securities may be made to the public in the Cayman Islands.

LEGAL MATTERS

Latham & Watkins LLP, Washington, District of Columbia, is acting as counsel in connection with the registration of our securities under the Securities Act, and as such, will pass upon the validity of the securities offered in this prospectus. Davis Polk & Wardwell LLP, New York, New York, advised the underwriters in connection with the offering of the securities.

EXPERTS

The financial statements of Capitol Investment Corp. V as of December 31, 2019 and 2018 and for the years ended December 31, 2019 and 2018 appearing in this prospectus have been audited by Marcum LLP, independent registered public accounting firm, as set forth in their report thereon (which contains an explanatory paragraph relating to substantial doubt about the ability of Capitol Investment Corp. V to continue as a going concern, as described in Note 1 to the financial statements), appearing elsewhere in this prospectus, and are included in reliance upon such report given on the authority of such firm as experts in accounting and auditing.

WHERE YOU CAN FIND ADDITIONAL INFORMATION

We have filed with the SEC a registration statement on Form S-1 under the Securities Act with respect to the securities we are offering by this prospectus. This prospectus does not contain all of the information included in the registration statement. For further information about us and our securities, you should refer to the registration statement and the exhibits and schedules filed with the registration statement. Whenever we make reference in this prospectus to any of our contracts, agreements or other documents, the references are materially complete but may not include a description of all aspects of such contracts, agreements or other documents, and you should refer to the exhibits attached to the registration statement for copies of the actual contract, agreement or other document.

Upon completion of this offering, we will be subject to the information requirements of the Exchange Act and will file annual, quarterly and current event reports, proxy statements and other information with the SEC. You can read our SEC filings, including the registration statement, over the Internet at the SEC's website at www.sec.gov.

Capitol Investment Corp. V

Opinion on the Financial Statements

We have audited the accompanying balance sheets of Capitol Investment Corp. V (the “*Company*”) as of December 31, 2019 and 2018, the related statements of operations, changes in stockholders’ equity and cash flows for each of the two years in the period ended December 31, 2019, and the related notes (collectively referred to as the “*financial statements*”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2019 and 2018, and the results of its operations and its cash flows for each of the two years in the period ended December 31, 2019, in conformity with accounting principles generally accepted in the United States of America.

Explanatory Paragraph — Going Concern

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As more fully described in Note 1 to the financial statements, the Company’s ability to execute its business plan is dependent upon its completion of the proposed initial public offering described in Note 3 to the financial statements. The Company has a working capital deficiency as of December 31, 2019 and lacks the financial resources it needs to sustain operations for a reasonable period of time, which is considered to be one year from the issuance date of the financial statements. These conditions raise substantial doubt about the Company’s ability to continue as a going concern. Management’s plans with regard to these matters are also described in Notes 1 and 3. The financial statements do not include any adjustments that might become necessary should the Company be unable to continue as a going concern.

Basis for Opinion

These financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on the Company’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“*PCAOB*”) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

/s/ Marcum LLP

Marcum LLP

We have served as the Company’s auditor since 2017.

New York, NY

September 25, 2020, except for the second paragraph of Note 8, as to which the date is November 4, 2020.

CAPITOL INVESTMENT CORP. V
NOTES TO FINANCIAL STATEMENTS

Note 1 — Organization, Plan of Business Operations and Going Concern Consideration

Capitol Investment Corp. V (the “*Company*”) was originally incorporated in the Cayman Islands on May 1, 2017 as a blank check company. In May 2019, the Company was redomesticated from the Cayman Islands to the state of Delaware. The Company’s objective is to acquire, through a merger, stock exchange, asset acquisition, stock purchase, recapitalization, reorganization or other similar business combination, one or more businesses or entities (a “*Business Combination*”).

At June 30, 2020, the Company had not yet commenced any operations. All activity through June 30, 2020 relates to the Company’s formation and the proposed public offering described below.

The Company’s ability to commence operations is contingent upon obtaining adequate financial resources through a proposed public offering of up to 30,000,000 units (“*Units*”), which is discussed in Note 3 (“*Proposed Public Offering*”), and the sale of 5,233,333 warrants (“*Founders’ Warrants*”) at a price of \$1.50 per Founders’ Warrant. The Company’s management has broad discretion with respect to the specific application of the net proceeds of the Proposed Public Offering and the private placement of Founders’ Warrants, although substantially all of the net proceeds are intended to be applied generally toward consummating a Business Combination. There is no assurance that the Company will be able to effect a Business Combination successfully. Upon the closing of the Proposed Public Offering, it is anticipated that \$10.00 per share of Class A common stock sold to the public in the Proposed Public Offering included in the Units (“*Public Shares*”) (regardless of whether the underwriters’ over-allotment option is exercised in full or in part), including the proceeds of the private placement of the Founders’ Warrants will be held in a trust account (“*Trust Account*”) and may be invested only in U.S. “government securities” within the meaning of Section 2(a)(16) of the Investment Company Act of 1940, as amended (the “*Investment Company Act*”), having a maturity of 180 days or less or in money market funds meeting certain conditions under Rule 2a-7 promulgated under the Investment Company Act until the earlier of (i) the consummation of the Company’s first Business Combination and (ii) the Company’s failure to consummate a Business Combination within the prescribed time.

Placing funds in the Trust Account may not protect those funds from third-party claims against the Company. Although the Company will seek to have all vendors, service providers, prospective target businesses or other entities it engages, execute agreements with the Company waiving any claim of any kind in or to any monies held in the Trust Account, there is no guarantee that such persons will execute such agreements. The Sponsors have agreed that they will be liable jointly and severally to the Company if and to the extent any claims by a third party for services rendered or products sold to the Company, or a prospective target business with which the Company has entered into a written letter of intent, confidentiality or other similar agreement or business combination agreement, reduce the amount of funds in the Trust Account to below the lesser of (i) \$10.00 per Public Share and (ii) the actual amount per share held in the Trust Account as of the date of the liquidation of the Trust Account, if less than \$10.00 per share due to reductions in the value of the trust assets, less taxes payable, provided that such liability will not apply to any claims by a third party or prospective target business who executed a waiver of any and all rights to the monies held in the Trust Account (whether or not such waiver is enforceable) nor will it apply to any claims under the Company’s indemnity of the underwriters of the Proposed Public Offering against certain liabilities, including liabilities under the Securities Act of 1933, as amended, (the “*Securities Act*”). However, there can be no assurance that they will be able to satisfy those obligations should they arise. The remaining net proceeds (not held in the Trust Account) may be used to pay for business, legal and accounting due diligence on prospective acquisitions and continuing general and administrative expenses. The estimated amount of proceeds not held in the Trust Account will remain constant at approximately \$1,000,000 even if the over-allotment is exercised. In addition, interest income on the funds held in the Trust Account can be released to the Company to pay the Company’s tax obligations.

In connection with any proposed initial Business Combination, the Company will either (1) seek stockholder approval of such initial Business Combination at a meeting called for such purpose or (2) provide stockholders with the opportunity to sell their Public Shares to the Company by means of a tender offer (and thereby avoid the need for a stockholder vote), in each case where stockholders may seek to convert their Public Shares into their *pro rata* share of the aggregate amount then on deposit in the Trust Account, less any taxes then due but not yet paid. If the

CAPITOL INVESTMENT CORP. V
NOTES TO FINANCIAL STATEMENTS

Note 1 — Organization, Plan of Business Operations and Going Concern Consideration (cont.)

Company determines to engage in a tender offer, such tender offer will be structured so that each stockholder may tender any or all of his, her or its Public Shares rather than some *pro rata* portion of his, her or its shares. In that case, the Company will file tender offer documents with the U.S. Securities and Exchange Commission (the “SEC”) which will contain substantially the same financial and other information about the initial Business Combination as is required under the SEC’s proxy rules. The decision as to whether the Company will seek stockholder approval of a proposed Business Combination or will allow stockholders to sell their shares to it in a tender offer will be made by the Company based on a variety of factors such as the timing of the transaction or whether the terms of the transaction would otherwise require it to seek stockholder approval. Notwithstanding the foregoing, if the Company seeks stockholder approval of an initial Business Combination, a public stockholder, together with any affiliate of his or any other person with whom he is acting in concert or as a “group” (as defined in Section 13(d)(3) of the Securities Exchange Act of 1934, as amended) will be restricted from seeking redemption rights with respect to 20% or more of the Public Shares without the Company’s prior written consent. The Company will proceed with a Business Combination only if it has net tangible assets of at least \$5,000,001 immediately prior to or upon consummation of the Business Combination and, if the Company seeks stockholder approval, a majority of the outstanding common stock of the Company voted are voted in favor of the Business Combination. In connection with any stockholder vote required to approve any Business Combination, the Sponsors and any other initial stockholders of the Company (collectively, the “*Initial Stockholders*”) will agree (i) to vote any of their respective shares in favor of the initial Business Combination and (ii) not to convert any of their respective shares (or sell their shares to the Company in any related tender offer). Holders of warrants sold as part of the Units will not be entitled to vote on the proposed Business Combination and will have no conversion or liquidation rights with respect to their common stock underlying such warrants.

The Company’s Certificate of incorporation will be amended prior to the Proposed Public Offering to provide that the Company will continue in existence only until 24 months from the closing of the Proposed Public Offering. If the Company has not completed a Business Combination by such date, the Company will (i) cease all operations except for the purpose of winding down, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem 100% of the outstanding Public Shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account, including any interest not previously released to the Company but net of taxes payable and up to \$100,000 of interest to pay dissolution expenses, divided by the number of then-outstanding public shares, which redemption will completely extinguish the rights of public stockholders (including the right to receive further liquidation distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of the Company’s remaining stockholders and its board of directors, dissolve and liquidate, subject (in the case of (ii) and (iii) above) to the Company’s obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. In the event of a liquidation, the Public Stockholders will be entitled to receive a full *pro rata* interest in the Trust Account (initially anticipated to be approximately \$10.00 per share, plus any *pro rata* interest earned on the Trust Fund not previously released to the Company net of taxes payable).

Going Concern Consideration

At June 30, 2020, the Company had \$74,434 in cash and a working capital deficit of \$125,566. Further, the Company expects to continue to incur significant costs in pursuit of its financing and acquisition plans. These conditions raise substantial doubt about the Company’s ability to continue as a going concern within one year after the date that the financial statements are issued. Management plans to address this uncertainty through a Proposed Public Offering as discussed in Note 3. There is no assurance that the Company’s plans to raise capital or to consummate a Business Combination will be successful or successful within the target business acquisition period. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

CAPITOL INVESTMENT CORP. V
NOTES TO FINANCIAL STATEMENTS

Note 2 — Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) and pursuant to the accounting and disclosure rules and regulations of the SEC.

In the opinion of management, the accompanying unaudited financial statements include all adjustments, consisting of a normal recurring nature, which are necessary for a fair presentation of the financial position, operating results and cash flows for the period presented. The interim results for the six months ended June 30, 2020 are not necessarily indicative of the results to be expected for the year ending December 31, 2020 or for any future interim periods.

Emerging Growth Company and Smaller Reporting Company

The Company is an “emerging growth company,” as defined in Section 2(a) of the Securities Act, as modified by the Jumpstart Our Business Startups Act of 2012 (the “JOBS Act”), and it may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the independent registered public accounting firm attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in its periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of the Company’s financial statements with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

Additionally, the Company is a “smaller reporting company” as defined in Item 10(f)(1) of Regulation S-K. Smaller reporting companies may take advantage of certain reduced disclosure obligations, including, among other things, providing only two years of audited financial statements. The Company will remain a smaller reporting company until the last day of the fiscal year in which (1) the market value of its Class A common stock held by non-affiliates exceeds \$250 million as of the end of that fiscal year’s second fiscal quarter, or (2) the Company’s annual revenues exceeded \$100 million during such completed fiscal year and the market value of its Class A common stock held by non-affiliates exceeds \$700 million as of the end of that fiscal year’s second fiscal quarter.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods.

CAPITOL INVESTMENT CORP. V
NOTES TO FINANCIAL STATEMENTS

Note 2 — Significant Accounting Policies (cont.)

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the financial statements, which management considered in formulating its estimate, could change in the near term due to one or more future confirming events. Accordingly, the actual results could differ significantly from those estimates.

Cash and Cash Equivalents

The Company considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents. The Company did not have any cash equivalents as of June 30, 2020, December 31, 2019 and 2018.

Income Taxes

The Company complies with the accounting and reporting requirements of ASC Topic 740, “*Income Taxes*,” which requires an asset and liability approach to financial accounting and reporting for income taxes. Deferred income tax assets and liabilities are computed for differences between the financial statement and tax bases of assets and liabilities that will result in future taxable or deductible amounts, based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized.

ASC Topic 740 prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. The Company recognizes accrued interest and penalties related to unrecognized tax benefits as income tax expense. There were no unrecognized tax benefits and no amounts accrued for interest and penalties as of June 30, 2020, December 31, 2019 and 2018. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position.

The Company may be subject to potential examination by federal, state and city taxing authorities in the areas of income taxes. These potential examinations may include questioning the timing and amount of deductions, the nexus of income among various tax jurisdictions and compliance with federal, state and city tax laws. The Company’s management does not expect that the total amount of unrecognized tax benefits will materially change over the next twelve months.

The provision for income taxes was deemed to be immaterial for the six months ended June 30, 2020 and for the years ended December 31, 2019 and 2018.

Net Loss Per Common Share

The Company complies with accounting and disclosure requirements ASC Topic 260, “*Earnings Per Share*.” Net loss per share is computed by dividing net loss by the weighted average number of shares of common stock outstanding for the period, excluding shares of common stock subject to forfeiture by the Sponsors. Weighted average shares were reduced for the effect of an aggregate of 1,125,000 shares of common stock which, after giving retroactive effect to the reverse stock split described in Note 8, are subject to forfeiture if the over-allotment option is not exercised by the underwriters (see Note 7). At June 30, 2020, December 31, 2019 and 2018, the Company did not have any dilutive securities and other contracts that could, potentially, be exercised or converted into shares of common stock and then share in the earnings of the Company. As a result, diluted loss per share is the same as basic loss per share for the periods presented.

Concentration of Credit Risk

Financial instruments that potentially subject the Company to concentration of credit risk consist of cash accounts in a financial institution which, at times may exceed the Federal depository insurance coverage of \$250,000. The Company has not experienced losses on this account and management believes the Company is not exposed to significant risks on such account.

CAPITOL INVESTMENT CORP. V
NOTES TO FINANCIAL STATEMENTS

Note 2 — Significant Accounting Policies (cont.)

Fair value of financial instruments

The fair value of the Company's assets and liabilities, which qualify as financial instruments under FASB ASC 820, "*Fair Value Measurement*," approximates the carrying amounts represented in the balance sheets, primarily due to their short-term nature.

Recent Accounting Standards

Management does not believe that any recently issued, but not yet effective, accounting standards if currently adopted would have a material effect on the accompanying financial statements.

Note 3 — Proposed Public Offering

The Proposed Public Offering calls for the Company to offer for public sale up to 30,000,000 units at a proposed offering price of \$10.00 per unit (plus up to an additional 4,500,000 units solely to cover over-allotments, if any). Each unit consists of one share of Class A common stock in the Company and one third of one redeemable warrant (the "*Warrants*"). Each whole Warrant entitles the holder to purchase one share of Class A common stock at a price of \$11.50. In addition, if (x) the Company issues additional shares of Class A common stock or equity-linked securities for capital raising purposes in connection with the closing of the initial Business Combination at an issue price or effective issue price of less than \$9.20 per share of Class A common stock (with such issue price or effective issue price to be determined in good faith by the board of directors and, in the case of any such issuance to the Initial Stockholders or their respective affiliates, without taking into account any Founder Shares held by the Initial Stockholders or such affiliates, as applicable, prior to such issuance) (the "*Newly Issued Price*"), (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of the initial Business Combination on the date of the consummation of the initial Business Combination (net of redemptions) and (z) the volume-weighted average trading price of the Class A common stock during the ten-trading day period starting on the trading day after the day on which the Company consummated the initial business Combination (such price, the "*Market Value*") is below \$9.20 per share, then the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to 115% of the higher of the Market Value and the Newly Issued Price, and the \$18.00 per share redemption trigger price described below under "*— Redemption of Warrants When the Price Per Share of Class A Common Stock Equals or Exceeds \$18.00*" will be adjusted (to the nearest cent) to be equal to 180% of the higher of the Market Value and the Newly Issued Price, and the \$10.00 per share redemption trigger price will be adjusted (to the nearest cent) to be equal to the higher of the Market Value and the Newly Issued Price.

The Warrants are exercisable commencing on the later of 30 days after the Company's completion of a Business Combination and 12 months from the closing of the Proposed Public Offering and expire five years from the completion of a Business Combination. Only whole Warrants are exercisable. No fractional Warrants will be issued upon separation of the Units and only whole Warrants will trade.

Redemption of Warrants When the Price Per Share of Class A Common Stock Equals or Exceeds \$18.00

Once the Warrants become exercisable, the Company may call the Warrants for redemption:

- in whole and not in part;
- at a price of \$0.01 per Warrant;
- upon not less than 30 days' prior written notice of redemption to each Warrant holder; and
- if, and only if, the last reported sale price of the Class A common stock equals or exceeds \$18.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like and for certain issuances of Class A common stock and equity-linked securities as described above) for any 20 trading days within a 30-trading day period ending three business days before the Company sends to the notice of redemption to the Warrant holders.

CAPITOL INVESTMENT CORP. V
NOTES TO FINANCIAL STATEMENTS

Note 3 — Proposed Public Offering (cont.)

The Company will not redeem the Warrants as described above unless a registration statement under the Securities Act covering the issuance of the shares of Class A common stock issuable upon a cashless exercise of the Warrants is then effective and a current prospectus relating to those shares of Class A common stock is available throughout the 30-day redemption period, except if the Warrants may be exercised on a cashless basis and such cashless exercise is exempt from registration under the Securities Act.

Redemption of Warrants When the Price Per Share of Class A Common Stock Equals or Exceeds \$10.00

Once the Warrants become exercisable, the Company may redeem the outstanding Warrants:

- in whole and not in part;
- at \$0.10 per Warrant upon a minimum of 30 days' prior written notice of redemption; provided that holders will be able to exercise their Warrants prior to redemption and receive a number of shares based on the redemption date and the "fair market value" of Class A common stock except as otherwise described below;
- if, and only if, the last reported sale price of Class A common stock equals or exceeds \$10.00 per share (as adjusted per stock splits, stock dividends, reorganizations, reclassifications, recapitalizations and the like and for certain issuances of Class A common stock and equity-linked securities as described above) on the trading day prior to the date on which the Company sends the notice of redemption to the Warrant holders; and
- if, and only if, the last reported sale price of Class A common stock is less than \$18.00 per share (as adjusted for stock for stock splits, stock dividends, reorganizations, recapitalizations and the like and for certain issuances of Class A common stock and equity-linked securities), the Founders' Warrants are also concurrently called for redemption on the same terms as the outstanding Warrants, as described above.

The "fair market value" of Class A common stock will mean the volume-weighted average price of the Class A common stock for the ten trading days immediately following the date on which the notice of redemption is sent to the holders of Warrants. In no event will the Warrants be exercisable in connection with this redemption feature for more than 0.361 shares of Class A common stock per Warrant (subject to adjustment).

In no event will the Company be required to net cash settle any warrant. If the Company is unable to complete a Business Combination and the Company liquidates the funds held in the Trust Account, holders of Warrants will not receive any of such funds with respect to their Warrants, nor will they receive any distribution from the Company's assets held outside of the Trust Account with the respect to such Warrants. Accordingly, the Warrants may expire worthless.

Note 4 — Deferred Offering Costs

Deferred offering costs consist principally of legal, underwriting fees and other costs incurred through the balance sheet dates that are directly related to the Proposed Public Offering and that will be charged to stockholders' equity upon the receipt of the capital raised. Should the Proposed Public Offering prove to be unsuccessful, these deferred costs as well as additional costs to be incurred will be charged to operations.

Note 5 — Notes Payable to Related Party

The Company issued an aggregate of \$150,000 principal amount unsecured promissory notes to the Sponsors on October 20, 2017, as amended on February 21, 2020. On February 21, 2020, the Company issued an aggregate of \$50,000 principal amount unsecured promissory notes to the Sponsors, of which \$50,000 was funded on such date. The Promissory Notes are non-interest bearing and payable on the earliest to occur of (i) October 20, 2021 (after giving effect to the note amendments described in Note 8), (ii) the consummation of the Proposed Public Offering and (iii) the abandonment of the Proposed Public Offering. As of June 30, 2020, there was \$200,000 outstanding under such promissory notes.

CAPITOL INVESTMENT CORP. V
NOTES TO FINANCIAL STATEMENTS

Note 6 — Commitments

The Company anticipates entering into an agreement with the underwriters of the Proposed Public Offering (“*Underwriting Agreement*”). It is anticipated that the Underwriting Agreement will require the Company to pay an underwriting discount of 2.0% of the gross proceeds of the Proposed Public Offering as an underwriting discount. It is also anticipated that the Company will pay the underwriters in the Proposed Public Offering a deferred underwriting discount of 3.5% of the gross proceeds of the Proposed Public Offering (“*Deferred Commissions*”) which will be placed in the Trust Account.

The Company presently occupies office space provided by two affiliates of the Company’s executive officers. Such affiliates have agreed that, until the Company consummates a Business Combination, they will make such office space, as well as certain office and secretarial services, available to the Company, as may be required by the Company from time to time. The Company will pay such affiliates an aggregate of up to \$20,000 per month for such services.

The Company’s Sponsors and independent directors have committed that they and/or their designees will purchase 5,233,333 Founders’ Warrants at \$1.50 per warrant (for an aggregate purchase price of \$7,850,000) from the Company. These purchases will take place concurrently with the consummation of the Proposed Public Offering. The Company’s Sponsors and independent directors have also agreed that if the over-allotment option is exercised by the underwriters in full or in part, they and/or their designees will purchase an additional number of Founders’ Warrants at a price of \$1.50 per warrant (up to a maximum of 600,000 warrants) necessary to maintain in the Trust Account an amount equal to \$10.00 per Unit sold to the public in the Proposed Public Offering. All of the proceeds received from the Founders’ Warrants purchases will be placed in the Trust Account. The Founders’ Warrants are identical to the Warrants included in the Units to be sold in the Proposed Public Offering, except that the Founders’ Warrants: (i) will not be redeemable by the Company and (ii) may be exercised for cash or on a cashless basis, so long as they are held by the initial purchasers or any of their permitted transferees. Additionally, the holders of the Founders’ Warrants have agreed not to transfer, assign or sell any of the Founders’ Warrants, including the shares of common stock issuable upon exercise of the Founders’ Warrants (except to certain permitted transferees), until 30 days after the completion of the Company’s initial Business Combination.

In order to fund working capital deficiencies or finance transaction costs in connection with an intended initial Business Combination, the Company’s Sponsors, officers and directors or their respective affiliates may, but are not obligated to, loan the Company funds as may be required on a non-interest bearing basis. If the Company completes its initial Business Combination, the Company would repay such loaned amounts. In the event that the initial Business Combination does not close, the Company may use a portion of the working capital held outside the Trust Account to repay such loaned amounts but no proceeds from the Trust Account would be used for such repayment. Up to \$2,000,000 of such loans may be convertible into warrants of the post-business combination entity at a price of \$1.50 per warrant at the option of the lender. Such warrants would be identical to the Founders’ Warrants.

The holders of the shares of Class B common stock, Founders’ Warrants and any warrants that may be issued upon conversion of working capital loans (and any shares of Class A common stock issuable upon the exercise of the Founders’ Warrants and warrants that may be issued upon conversion of working capital loans) will be entitled to registration rights pursuant to a registration rights agreement to be signed prior to or on the effective date of the Proposed Public Offering. The holders of these securities will be entitled to make up to three demands, excluding short form demands, that the Company register such securities. In addition, the holders will have certain “piggy-back” registration rights with respect to registration statements filed subsequent to the completion of an initial Business Combination.

Note 7 — Stockholders’ Equity

Preferred Stock

The Company is authorized to issue 1,000,000 shares of preferred stock with a par value of \$0.0001 per share with such designation, rights and preferences as may be determined from time to time by the Company’s board of directors. As of June 30, 2020, December 31, 2019 and 2018, there are no shares of preferred stock issued or outstanding.

CAPITOL INVESTMENT CORP. V
NOTES TO FINANCIAL STATEMENTS

Note 7 — Stockholders' Equity (cont.)

Common Stock

The Company is authorized to issue 400,000,000 shares of Class A common stock and 50,000,000 shares of Class B common stock, both with a par value of \$0.0001 per share.

In connection with the organization of the Company, in May 2017, a total of 8,625,000 shares of Class B common stock were sold to the Sponsors at a price of approximately \$0.003 per share, or \$25,000, after giving retroactive effect to the dividend of approximately 0.17 shares for each share of Class B common stock outstanding in October 2017, the dividend of one share for each share of Class B common stock outstanding effectuated by the Company in May 2019 and the reverse stock split described in Note 8. All share and per share amounts have been retroactively restated to reflect the stock dividends and the reverse stock split. This number includes an aggregate of 1,125,000 shares of Class B common stock that are subject to forfeiture if the over-allotment option is not exercised by the underwriters. The holders of the founder shares have agreed that the founder shares will not be transferred, assigned or sold until one year after the date of the consummation of an initial Business Combination or earlier if, subsequent to an initial Business Combination, (i) the last sales price of the Company's Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations and recapitalizations) for any 20 trading days within any 30-trading day period commencing at least 150 days after the initial Business Combination or (ii) the Company consummates a subsequent liquidation, merger, stock exchange or other similar transaction which results in all of the Company's stockholders having the right to exchange their common stock for cash, securities or other property.

The Class B common stock will automatically convert into Class A common stock on the first business day following the consummation of the Company's initial Business Combination on a one-for-one basis, subject to adjustment. In the case that additional shares of Class A common stock, or equity-linked securities convertible or exercisable for shares of Class A common stock, are issued or deemed issued in excess of the amounts offered in the Proposed Public Offering and related to the closing of an initial Business Combination, the ratio at which the Class B common stock will convert into Class A common stock will be adjusted so that the number of shares of Class A common stock issuable upon conversion of such Class B common stock will equal, in the aggregate, 20% of the sum of the shares of common stock outstanding upon the completion of the Proposed Public Offering plus the number of shares of Class A common stock and equity-linked securities issued or deemed issued in connection with the initial Business Combination (net of redemptions), excluding any shares of Class A common stock or equity-linked securities issued, or to be issued, to any seller in the initial Business Combination and any Founders' Warrants.

As of June 30, 2020, December 31, 2019 and 2018, there were no shares of Class A common stock and 8,625,000 shares of Class B common stock issued and outstanding.

Note 8 — Subsequent Events

The Company evaluated subsequent events and transactions that occurred after the balance sheet date up to September 25, 2020, the date that the financial statements were available to be issued. Based upon this review, the Company did not identify any subsequent events that would have required adjustment or disclosure in the financial statements.

On November 3, 2020, the Company amended and restated the October 20, 2017 promissory notes and the February 21, 2020 promissory notes, and issued an additional aggregate of \$50,000 principal amount unsecured promissory notes to the Sponsors, for a total of \$250,000 aggregate principal amount of promissory notes (the "*Promissory Notes*"). The Promissory Notes are non-interest bearing and payable on the earliest to occur of (i) October 20, 2021, (ii) the consummation of the Proposed Public Offering and (iii) the abandonment of the Proposed Public Offering. On November 3, 2020, the Company effected an approximately 0.8571-for-1 reverse stock split with respect to its Class B common stock, resulting in the Sponsors holding an aggregate of 8,625,000 founder shares. All share and per share amounts have been retroactively restated to reflect the reverse stock split.

PROSPECTUS

, 2020

Citigroup

Deutsche Bank Securities

Morgan Stanley

Until _____, 2020 (25 days after the date of this prospectus), all dealers that buy, sell or trade these securities, whether or not participating in this offering, may be required to deliver a prospectus. This is in addition to the dealers' obligation to deliver a prospectus when acting as underwriters and with respect to their unsold allotments or subscriptions.

You should rely only on the information contained in this prospectus. We have not, and the underwriters have not, authorized anyone to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and the underwriters are not, making an offer to sell securities in any jurisdiction where the offer or sale is not permitted. You should not assume that the information contained in this prospectus is accurate as of any date other than the date on the front of this prospectus.

No dealer, salesperson or any other person is authorized to give any information or make any representations in connection with this offering other than those contained in this prospectus and, if given or made, the information or representations must not be relied upon as having been authorized by us. This prospectus does not constitute an offer to sell or a solicitation of an offer to buy any security other than the securities offered by this prospectus, or an offer to sell or a solicitation of an offer to buy any securities by anyone in any jurisdiction in which the offer or solicitation is not authorized or is unlawful.

PART II**INFORMATION NOT REQUIRED IN PROSPECTUS****Item 13. Other Expenses of Issuance and Distribution.**

The estimated expenses payable by us in connection with the offering described in this registration statement (other than the underwriting discount and commissions) will be as follows:

SEC expenses	\$ 38,000
FINRA expenses	52,000
Accounting fees and expenses	40,000
Printing and engraving expenses	40,000
Travel and road show expenses	25,000
Legal fees and expenses	300,000
Stock exchange listing and filing fees	85,000
Director and officer liability insurance premiums ⁽¹⁾	250,000
Miscellaneous	20,000
Total	<u>\$ 850,000</u>

- (1) This amount represents the approximate amount of annual director and officer liability insurance premiums the registrant anticipates paying following the completion of its initial public offering and until it completes a business combination.

Item 14. Indemnification of Directors and Officers.

Our amended and restated certificate of incorporation will provide that all directors, officers, employees and agents of the registrant shall be entitled to be indemnified by us to the fullest extent permitted by Section 145 of the Delaware General Corporation Law, or the DGCL.

Section 145 of the DGCL concerning indemnification of officers, directors, employees and agents is set forth below.

“Section 145. Indemnification of officers, directors, employees and agents; insurance.

- (a) A corporation shall have power to indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of the corporation) by reason of the fact that the person is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorneys’ fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by the person in connection with such action, suit or proceeding if the person acted in good faith and in a manner the person reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe the person’s conduct was unlawful. The termination of any action, suit or proceeding by judgment, order, settlement, conviction, or upon a plea of nolo contendere or its equivalent, shall not, of itself, create a presumption that the person did not act in good faith and in a manner which the person reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had reasonable cause to believe that the person’s conduct was unlawful.
- (b) A corporation shall have power to indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of the corporation to procure a judgment in its favor by reason of the fact that the person is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise against expenses (including attorneys’ fees) actually and reasonably incurred by the person in connection with the defense or settlement of such action or suit if the person acted in good faith and in a manner the person reasonably believed to be in or not opposed to the best interests of the corporation and except

that no indemnification shall be made in respect of any claim, issue or matter as to which such person shall have been adjudged to be liable to the corporation unless and only to the extent that the Court of Chancery or the court in which such action or suit was brought shall determine upon application that, despite the adjudication of liability but in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses which the Court of Chancery or such other court shall deem proper.

- (c) To the extent that a present or former director or officer of a corporation has been successful on the merits or otherwise in defense of any action, suit or proceeding referred to in subsections (a) and (b) of this section, or in defense of any claim, issue or matter therein, such person shall be indemnified against expenses (including attorneys' fees) actually and reasonably incurred by such person in connection therewith.
- (d) Any indemnification under subsections (a) and (b) of this section (unless ordered by a court) shall be made by the corporation only as authorized in the specific case upon a determination that indemnification of the present or former director, officer, employee or agent is proper in the circumstances because the person has met the applicable standard of conduct set forth in subsections (a) and (b) of this section. Such determination shall be made, with respect to a person who is a director or officer at the time of such determination, (1) by a majority vote of the directors who are not parties to such action, suit or proceeding, even though less than a quorum, or (2) by a committee of such directors designated by majority vote of such directors, even though less than a quorum, or (3) if there are no such directors, or if such directors so direct, by independent legal counsel in a written opinion, or (4) by the stockholders.
- (e) Expenses (including attorneys' fees) incurred by an officer or director in defending any civil, criminal, administrative or investigative action, suit or proceeding may be paid by the corporation in advance of the final disposition of such action, suit or proceeding upon receipt of an undertaking by or on behalf of such director or officer to repay such amount if it shall ultimately be determined that such person is not entitled to be indemnified by the corporation as authorized in this section. Such expenses (including attorneys' fees) incurred by former directors and officers or other employees and agents may be so paid upon such terms and conditions, if any, as the corporation deems appropriate.
- (f) The indemnification and advancement of expenses provided by, or granted pursuant to, the other subsections of this section shall not be deemed exclusive of any other rights to which those seeking indemnification or advancement of expenses may be entitled under any bylaw, agreement, vote of stockholders or disinterested directors or otherwise, both as to action in such person's official capacity and as to action in another capacity while holding such office.
- (g) A corporation shall have power to purchase and maintain insurance on behalf of any person who is or was director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise against any liability asserted against such person and incurred by such person in any such capacity, or arising out of such person's status as such, whether or not the corporation would have the power to indemnify such person against such liability under this section.
- (h) For purposes of this section, references to "the corporation" shall include, in addition to the resulting corporation, any constituent corporation (including any constituent of a constituent) absorbed in a consolidation or merger which, if its separate existence had continued, would have had power and authority to indemnify its directors, officers, and employees or agents, so that any person who is or was a director, officer, employee or agent of such constituent corporation, or is or was serving at the request of such constituent corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, shall stand in the same position under this section with respect to the resulting or surviving corporation as such person would have with respect to such constituent corporation if its separate existence had continued.

- (i) For purposes of this section, references to “other enterprises” shall include employee benefit plans; references to “fines” shall include any excise taxes assessed on a person with respect to any employee benefit plan; and references to “serving at the request of the corporation” shall include any service as a director, officer, employee or agent of the corporation which imposes duties on, or involves services by, such director, officer, employee or agent with respect to an employee benefit plan, its participants or beneficiaries; and a person who acted in good faith and in a manner such person reasonably believed to be in the interest of the participants and beneficiaries of an employee benefit plan shall be deemed to have acted in a manner “not opposed to the best interests of the corporation” as referred to in this section.
- (j) The indemnification and advancement of expenses provided by, or granted pursuant to, this section shall, unless otherwise provided when authorized or ratified, continue as to a person who has ceased to be a director, officer, employee or agent and shall inure to the benefit of the heirs, executors and administrators of such a person.
- (k) The Court of Chancery is hereby vested with exclusive jurisdiction to hear and determine all actions for advancement of expenses or indemnification brought under this section or under any bylaw, agreement, vote of stockholders or disinterested directors, or otherwise. The Court of Chancery may summarily determine a corporation’s obligation to advance expenses (including attorneys’ fees).”

Insofar as indemnification for liabilities arising under the Securities Act of 1933, as amended, or the Securities Act, may be permitted to our directors, officers and controlling persons pursuant to the foregoing provisions, or otherwise, we have been advised that, in the opinion of the Securities and Exchange Commission, such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment of expenses incurred or paid by a director, officer or controlling person in a successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, we will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to the court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

In accordance with Section 102(b)(7) of the DGCL, our amended and restated certificate of incorporation, will provide that no director shall be personally liable to us or any of our stockholders for monetary damages resulting from breaches of their fiduciary duty as directors, except to the extent such limitation on or exemption from liability is not permitted under the DGCL, unless a director violated his or her duty of loyalty to the company or its stockholders, acted in bad faith, knowingly or intentionally violated the law, authorized unlawful payments of dividends, unlawful stock purchases or unlawful redemptions, or derived improper personal benefit from his or her actions as a director. The effect of this provision of our amended and restated certificate of incorporation is to eliminate our rights and those of our stockholders (through stockholders’ derivative suits on our behalf) to recover monetary damages against a director for breach of the fiduciary duty of care as a director, including breaches resulting from negligent or grossly negligent behavior, except, as restricted by Section 102(b)(7) of the DGCL. However, this provision does not limit or eliminate our rights or the rights of any stockholder to seek non-monetary relief, such as an injunction or rescission, in the event of a breach of a director’s duty of care.

If the DGCL is amended to authorize corporate action further eliminating or limiting the liability of directors, then, in accordance with our amended and restated certificate of incorporation, the liability of our directors to us or our stockholders will be eliminated or limited to the fullest extent authorized by the DGCL, as so amended. Any repeal or amendment of provisions of our amended and restated certificate of incorporation limiting or eliminating the liability of directors, whether by our stockholders or by changes in law, or the adoption of any other provisions inconsistent therewith, will (unless otherwise required by law) be prospective only, except to the extent such amendment or change in law permits us to further limit or eliminate the liability of directors on a retroactive basis.

Our amended and restated certificate of incorporation will also provide that we will, to the fullest extent authorized or permitted by applicable law, indemnify our current and former officers and directors, as well as those persons who, while directors or officers of our corporation, are or were serving as directors, officers, employees or agents of another entity, trust or other enterprise, including service with respect to an employee benefit plan, in connection with any threatened, pending or completed proceeding, whether civil, criminal, administrative or

Table of Contents

investigative, against all expense, liability and loss (including, without limitation, attorney's fees, judgments, fines, ERISA excise taxes and penalties and amounts paid in settlement) reasonably incurred or suffered by any such person in connection with any such proceeding. Notwithstanding the foregoing, a person eligible for indemnification pursuant to our amended and restated certificate of incorporation will be indemnified by us in connection with a proceeding initiated by such person only if such proceeding was authorized by our board of directors, except for proceedings to enforce rights to indemnification and advancement of expenses.

The right to indemnification which will be conferred by our amended and restated certificate of incorporation is a contract right that includes the right to be paid by us the expenses incurred in defending or otherwise participating in any proceeding referenced above in advance of its final disposition, provided, however, that if the DGCL requires, an advancement of expenses incurred by our officer or director (solely in the capacity as an officer or director of our corporation) will be made only upon delivery to us of an undertaking, by or on behalf of such officer or director, to repay all amounts so advanced if it is ultimately determined that such person is not entitled to be indemnified for such expenses under our amended and restated certificate of incorporation or otherwise.

The rights to indemnification and advancement of expenses will not be deemed exclusive of any other rights which any person covered by our amended and restated certificate of incorporation may have or hereafter acquire under law, our amended and restated certificate of incorporation, our bylaws, an agreement, vote of stockholders or disinterested directors, or otherwise.

Any repeal or amendment of provisions of our amended and restated certificate of incorporation affecting indemnification rights, whether by our stockholders or by changes in law, or the adoption of any other provisions inconsistent therewith, will (unless otherwise required by law) be prospective only, except to the extent such amendment or change in law permits us to provide broader indemnification rights on a retroactive basis, and will not in any way diminish or adversely affect any right or protection existing at the time of such repeal or amendment or adoption of such inconsistent provision with respect to any act or omission occurring prior to such repeal or amendment or adoption of such inconsistent provision. Our amended and restated certificate of incorporation will also permit us, to the extent and in the manner authorized or permitted by law, to indemnify and to advance expenses to persons other than those specifically covered by our amended and restated certificate of incorporation.

Our bylaws, which we intend to adopt immediately prior to the closing of this offering, will include the provisions relating to advancement of expenses and indemnification rights consistent with those which will be set forth in our amended and restated certificate of incorporation. In addition, our bylaws provide for a right of indemnity to bring a suit in the event a claim for indemnification or advancement of expenses is not paid in full by us within a specified period of time. Our bylaws also permit us to purchase and maintain insurance, at our expense, to protect us and/or any director, officer, employee or agent of our corporation or another entity, trust or other enterprise against any expense, liability or loss, whether or not we would have the power to indemnify such person against such expense, liability or loss under the DGCL.

Any repeal or amendment of provisions of our bylaws affecting indemnification rights, whether by our board of directors, stockholders or by changes in applicable law, or the adoption of any other provisions inconsistent therewith, will (unless otherwise required by law) be prospective only, except to the extent such amendment or change in law permits us to provide broader indemnification rights on a retroactive basis, and will not in any way diminish or adversely affect any right or protection existing thereunder with respect to any act or omission occurring prior to such repeal or amendment or adoption of such inconsistent provision.

Pursuant to the Underwriting Agreement filed as Exhibit 1.1 to this registration statement, we have agreed to indemnify the underwriters and the underwriters have agreed to indemnify us against certain civil liabilities that may be incurred in connection with this offering, including certain liabilities under the Securities Act.

We will enter into indemnification agreements with each of our officers and directors, a form of which is to be filed as an exhibit to this registration statement. These agreements will require us to indemnify these individuals to the fullest extent permitted under Delaware law against liabilities that may arise by reason of their service to us, and to advance expenses incurred as a result of any proceeding against them as to which they could be indemnified.

Item 15. Recent Sales of Unregistered Securities.

In May 2017, we issued to our sponsors an aggregate of 4,312,500 founder shares of Class B common stock in exchange for a capital contribution of \$25,000, or approximately \$0.006 per share. In October 2017, we effectuated a dividend of approximately 0.17 shares for each share of Class B common stock outstanding, resulting in our sponsors holding an aggregate of 5,031,250 founder shares. In May 2019, we effectuated a dividend of one share for each share of Class B common stock outstanding, resulting in our sponsors holding an aggregate of 10,062,500 founder shares. In November 2020, we effected an approximately 0.8571-for-1 reverse stock split with respect to our Class B common stock, resulting in our sponsors holding an aggregate of 8,625,000 founder shares. These issuances were made pursuant to the exemption from registration contained in Section 4(a)(2) of the Securities Act. Our sponsors thereafter transferred 50,000 founder shares to each of our independent directors at the same per-share purchase price paid by our sponsors. The foregoing transfers of founder shares were made in reliance upon an exemption from the registration requirements of the Securities Act pursuant to the so-called 4(a)(1)-½ exemption. Prior to the initial investment in our company of \$25,000 by our sponsors, we had no assets, tangible or intangible. The per-share price of the founder shares was determined by dividing the amount contributed to the company by the number of founder shares issued. The number of founder shares issued was determined based on the expectation that the founder shares would represent 20% of the outstanding shares after this offering. Our sponsors will surrender for no consideration up to 1,125,000 shares depending on the extent to which the underwriters' over-allotment option is not exercised.

Our sponsors and independent directors have committed, pursuant to written agreements, to purchase an aggregate of 5,233,333 private placement warrants (or 5,833,333 if the underwriters' over-allotment option is exercised in full), each exercisable to purchase one share of Class A common stock at \$11.50 per share, at a price of \$1.50 per warrant (\$7,850,000 in the aggregate or \$8,750,000 if the underwriters' over-allotment option is exercised in full), in a private placement that will close simultaneously with the closing of this offering. These issuances will be made pursuant to the exemption from registration contained in Section 4(a)(2) of the Securities Act.

No underwriting discounts or commissions were paid with respect to such sales.

Item 16. Exhibits and Financial Statement Schedules.

- (a) **Exhibits.** See the Exhibit Index immediately preceding the signature pages hereto, which is incorporated by reference as if fully set forth herein.
- (b) **Financial Statement Schedules.** None.

Item 17. Undertakings.

- (a) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.
- (b) The undersigned registrant hereby undertakes that:
 - (1) For purposes of determining any liability under the Securities Act of 1933, the information omitted from the form of prospectus filed as part of this registration statement in reliance upon Rule 430A and contained in a form of prospectus filed by the registrant pursuant to Rule 424(b)(1) or (4) or 497(h) under the Securities Act shall be deemed to be part of this registration statement as of the time it was declared effective.
 - (2) For the purpose of determining any liability under the Securities Act of 1933, each post-effective amendment that contains a form of prospectus shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.
